DIAL IN TO EVERYWHERE

This smart system tailors your capability, adjusting it to fit any terrain placed before you. Selec-Terrain® adapts traction performance with selectable dial settings that include Auto, Snow, Sand, Mud and, exclusive on Trailhawk® models, Rock mode. Selec-Terrain gives you ultimate driving confidence by coordinating vehicle systems, including throttle control, transmission shifting, transfer case, traction control and Electronic Stability Control.¹⁸ Standard on 4x4 models.

AUTO In this mode, Selec-Terrain® does all the work, automatically adjusting vehicle dynamics to best suit the road. To help ensure optimal efficiency, the rear driveline disengages when not needed.

SNOW Adjusts for ultimate performance over snow- and ice-covered roads by maximizing vehicle stability and minimizing oversteer. Major systems auto-engaged and managed in this mode include antilock brakes and traction control.

SAND Converts to a uniquely calibrated Sand mode that utilizes an aggressive throttle and up-shift points to tackle looser, sand-covered surfaces.

MUD Maintains low-speed traction by allowing additional wheel slip via specifically tuned chassis controls, differentials and transmission ratios that are geared to successfully tackle mud.

ROCK Exclusive to Trailhawk®, Rock mode delivers low-speed 4x4 capability thanks to its rear-differential locking element. This allows Renegade® to command the world's most challenging terrain.

Every Renegade® Trailhawk® is infused with an attitude of bold, in-your-face confidence, thanks to an array of systems sending its capability quotient right to the top of the mountain. Tackle all off-road trails and tracks backed by Jeep® Active Drive Low, one of the Jeep Brand's top dogs when it comes to 4WD systems. Trailhawk also arrives with a Jeep Selec-Terrain® Traction Management System that lets you dial in to the traction style that best suits road and weather conditions. This system's Rock mode is unique to Trailhawk, giving you superpowers to conquer rocky terrain with ease. And when you're traveling over uneven terrain, the heavy-gauge steel skid plates provide vital protection from road hazards. You'll benefit from Hill Descent Control that monitors throttle, speed and braking for smooth descents, a heavy-duty off-road suspension system and nearly an inch of additional ground clearance. Trailhawk is built to take you to adventurous, new heights.
