SELEC-TERRAIN® TRACTION
MANAGEMENT SYSTEM

SURE-FOOTED

QUICKLY TAILOR YOUR TRACTION CONTROL with the turn of a dial. In an instant, you've got the right amount of grip and capability for the type of terrain you're facing. By coordinating many vehicle systems, you're able to navigate challenging conditions with ease. Dial settings include Auto, Snow, Sand, Mud and, exclusive on Trailhawk, Rock mode.

THE MODES OF SELEC-TERRAIN®

AUTO

In this mode, Selec-Terrain® does all the work, automatically adjusting vehicle dynamics to best suit the road. To help ensure optimal efficiency, the rear driveline disengages when not needed.

SNOW

Adjusts for ultimate performance over snow- and ice-covered roads by maximizing vehicle stability and minimizing oversteer. Major systems auto-engaged and managed in this mode include antilock brakes and traction control.

SAND

Converts to a uniquely calibrated Sand mode that utilizes an aggressive throttle and upshift points to tackle looser, sand-covered surfaces.

MUD

Maintains low-speed traction by allowing additional wheel-slip via specifically tuned chassis controls, differentials and transmission ratios that are geared to successfully tackle mud.

ROCK

This system is exclusively featured on Trailhawk® with a single-speed Power Transfer Unit (PTU) that offers torque management and Four-Wheel-Drive (4WD) Low Mode. When in Low, the system delivers additional power at low speeds, giving you the ability to crawl over boulders or navigate through up to 19 inches of water¹² with confidence, thanks to an increase in ride height and a crawl ratio of 21:1.

HERE'S YOUR BADGE OF CONFIDENCE

JEEP® RENEGADE® 4x4 SYSTEMS

JEEP® ACTIVE DRIVE Put your capability on automatic pilot. This standard 4x4 system does the work for you, targeting exactly when you need a boost of traction. It features a single-speed Power Transfer Unit (PTU) that combines proven Jeep Brand capability with welcome efficiencies to deliver a double whammy of 4x4 prowess and efficiency. Jeep Active Drive can seamlessly transition from Front-Wheel Drive (FWD) to 4WD and back again, thanks to the system's smart rear-axle disconnect that operates in tandem with the available Selec-Terrain® Traction Management System's Auto mode. Under normal driving conditions, the front wheels provide most of the traction; however, should the front wheels start to lose grip, power automatically transfers to the rear wheel(s), so you seamlessly maintain optimal traction without having to take additional action.

JEEP ACTIVE DRIVE LOW This system gives Trailhawk its superpowers to easily conquer tough ridges, rocks and weather or the extra determination to pull a jet ski out of a lake. This one-speed system features Hill Descent Control that adds extra control over throttle, speed and braking, allowing you to smoothly travel down steep hills. Dial in to Rock mode when you need the boost of a 21:1 crawl ratio. Exclusive to Trailhawk.

MARK OF CAPABILITY Every Jeep® Brand vehicle bearing a Trail Rated® badge is designed and built to Go Anywhere, Do Anything® and to perform with exceptional 4x4 capability. Each must successfully pass tests in five performance categories: Traction, Articulation, Maneuverability, Ground Clearance and Water Fording.¹² Standard on Trailhawk®.

Your Trail Rated Renegade® Trailhawk arrives hardwired with the hardware that includes the Jeep® Active Drive Low Four-Wheel-Drive (4WD) System and a set of skid plates that help protect your vehicle's most vulnerable parts when you're traveling over tough terrain. Rise to the greatest heights of on- and off-road mastery with Jeep Renegade. This renowned and capable SUV boasts an elite pedigree born of legendary strength and timeless style.

AUTOMATIC TRANSMISSION

Shifting gears with a precision that's as smooth as silk, these gears are fine-tuned with a ratio spread of 9.81 to ensure quick takeoffs and a consistently refined performance. Exceptional efficiencies are produced through all gears at all speeds. Standard.

FUN IN TOW

EXPAND YOUR OPTIONS by adding the available Trailer Tow Group and you're able to bring along a ton of toys, literally. The Class III hitch receiver and 4-pin wiring harness have the capacity to tow up to 2,000 lb (when properly equipped). Available on Trailhawk® models.

Properly secure all cargo. Always tow within the vehicle's capacity.

POWERED UP PERFORMANCE

1.3L I-4 MULTIAIR® 2 TURBO 4-CYLINDER ENGINE
Its direct fuel injection helps to deliver 177 hp and 210 lb-ft of torque to push the envelope of towing power while handing over welcome fuel efficiencies, with up to 29 hwy mpg¹³ on Latitude and Limited models (up to 27 hwy mpg¹⁴ with Trailhawk model shown). Engine Stop / Start (ESS) Technology helps optimize fuel efficiency. Available active grille shutters open and close automatically to help control the flow of air, reducing drag and helping to maximize mpg performance. This turbo engine is standard on all models.

Standard.

You can take your hands off the steering wheel and let the system's ultrasonic sensors help you ease into parking spots as you gently brake and change from Reverse to Drive as needed. Unpark Assist²⁰ helps you navigate your way out of parking spots. It controls the vehicle's steering while providing the driver with gear and braking instructions. Available.

PARKVIEW® REAR BACK-UP CAMERA WITH ACTIVE GRID LINES²¹ This system helps bring previously hidden rear objects to your attention on-screen in good time to react. Standard.

BLIND SPOT MONITORING (BSM)²² AND REAR CROSS-PATH DETECTION²¹ SYSTEMS Maintain a safe perimeter with the help of these sensor systems. Chimes and illuminated icons notify you when side or rear blind spots are encroached. Standard.
