

2012.KIA.SEDONA

Named "Best Minivan for the Money"
by U.S. News & World Report
(model year 2011)

A smarter way to take on the world. The 2012 Sedona is the perfect minivan to help your family enjoy life from dawn to dusk and beyond. You'll be delighted with its spacious interior and remarkable head- and legroom. It offers technological advances that include an available voice-command navigation system* and standard *Bluetooth*® wireless technology.¹ Sophisticated active and passive safety systems help provide protection and peace of mind. Like every Kia, Sedona comes with an industry-leading 10-year/100,000-mile warranty program.²

1, 2, 3, 4 See Specifications page for endnotes. *Available as optional equipment on EX. See Features page for availability details. EX SHOWN.

SPACIOUS AND COMFORTABLE

Spacious seating for seven lets everyone in your family relax and enjoy the drive. EX models with the Luxury Package feature tri-zone air conditioning with an advanced ionized air-filtration system.*

FLEXIBLE SEATING

The 2nd-row captain's chairs can flip-and-fold forward or be completely removed to increase cargo space. The 60/40 split 3rd-row seats fold into the floor to create a large, flat cargo area.

ENTERTAINMENT TO GO

SiriusXM Satellite Radio³ gives you a variety of choices in music and entertainment. An available DVD system includes an eight-inch monitor, surround-sound speakers and wireless headsets.*

POWERFUL CAPABILITIES

With a 3.5-liter V6 engine that delivers 3,500 lbs. of towing capacity,⁴ and a 6-speed Sportmatic[®] transmission, Sedona offers dependable performance for the long haul.

PEACE OF MIND

From Electronic Stability Control (ESC) to active front headrests, Sedona offers active and passive safety systems that are comprehensive and advanced, all as standard equipment.

Active safety features dedicated to helping you stay in control. Safe driving begins with the ability to avoid accidents. That's why Sedona utilizes technologically advanced active safety systems that help you avoid mishaps in the first place. These safety features are designed to help you maintain control, even in harsh road conditions and in some emergency situations.*

*No system, however advanced, can prevent all accidents. Always drive safely at a reasonable speed. EX SHOWN.

ANTI-LOCK BRAKING SYSTEM (ABS)

The foundation of an active safety system, ABS helps to provide greater vehicle control when stopping in difficult conditions like wet or slippery roads.

ELECTRONIC STABILITY CONTROL (ESC)

ESC provides you with improved directional stability, which helps you maintain better control in difficult driving situations. ESC monitors and assists in the control of key vehicle functions. It then brakes individual wheels and reduces engine power accordingly to attempt to help you bring the vehicle back on its intended course.

TRACTION CONTROL SYSTEM (TCS)

The advanced Traction Control System can sense wheel spin during acceleration. When it does, it uses a combination of engine power and brake force to transfer power to the wheels that have the most traction. This provides increased control and enhanced responsiveness.

BRAKE ASSIST SYSTEM (BAS)

The Brake Assist System operates based on the force that's applied to the brake pedal. For example, if you need to brake aggressively, BAS will help to control the stop by applying the necessary braking pressure.

ELECTRONIC BRAKE-FORCE DISTRIBUTION (EBD)

The Electronic Brake-force Distribution system senses the vehicle's load and weight distribution, then applies the necessary braking pressure at each wheel. This helps to enhance your control.

Passive safety systems to help enhance everyone's well-being. Sedona is equipped with a range of technologically advanced passive safety systems. Six airbags placed throughout the cabin are designed to help protect occupants. They include dual front advanced, dual front seat-mounted side and full-length side curtain airbags. The advanced front airbag system monitors the severity of a frontal impact, the presence of a front passenger and seat-belt use, and then controls airbag inflation accordingly.⁵

5, 6 See Specifications page for endnotes. EX LUXURY PACKAGE SHOWN.

FRONT ACTIVE HEADRESTS

Both the driver's and front passenger's captain's chairs include innovative technology. In the event of certain rear collisions, the active headrests move forward, helping to reduce the likelihood of injury.

REINFORCED BODY

All doors are reinforced with steel beams to help absorb impact energy and deflect side-impact force. The A and B pillars are also reinforced to help strengthen the body of the vehicle.

FRONT SEAT-BELT PRETENSIONERS

Pretensioners have been designed to tighten the seat belts in the event of certain collisions. This helps to reduce the likelihood of injuries.

TIRE-PRESSURE MONITORING SYSTEM

This system includes air-pressure sensors located at each wheel. If a tire reaches a specified low air pressure, a warning light will alert you.⁶

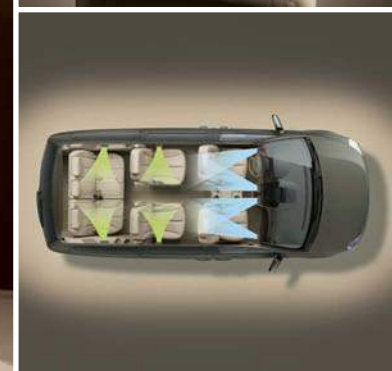

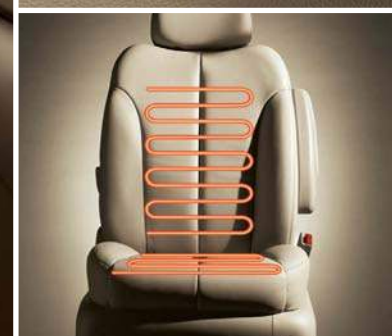

LATCH SYSTEM

The standardized LATCH (Lower Anchors and Tethers for Children) system makes it easier to secure a compatible child seat in the 2nd row and passenger-side 3rd row.

Welcome to the great indoors. Sedona has a remarkably spacious interior with generous head- and legroom for all passengers. Its roomy seating for seven includes captain's chairs in both the first and second rows, and a comfortable bench seat for three in the third. It's also well equipped with features that enhance your comfort — from air conditioning that has separate controls for rear passengers to available power adjustable front seats.

*Available as optional equipment on EX. See Features page for availability details. EX LUXURY PACKAGE WITH NAVIGATION SHOWN.

POWER ADJUSTABLE PEDALS*

Sedona is designed to accommodate drivers of different heights. Available power adjustable accelerator and brake pedals allow for custom ergonomics.

6-WAY ADJUSTABLE DRIVER'S SEAT

A 6-way power adjustable driver's seat with lumbar support and a 4-way power adjustable front passenger's seat are standard on EX models.

HEATED FRONT SEATS*

EX models with the Luxury Package* feature heated front seats — a comforting feature both driver and front passenger will appreciate on chilly mornings.

FRONT AND REAR AIR CONDITIONING

Air conditioning includes separate front and rear controls. A tri-zone system, standard with the EX Luxury Package,* includes advanced ionized air filtration.

There's more than one way to enhance your drive.

Sedona offers a wealth of amenities that make every drive a pleasure. A voice-command navigation system, available with EX models, leads you to your destination. Standard USB/auxiliary input jacks let you plug in practically any kind of MP3 player. With our accessory cable, you can even use the stereo to operate an iPod® mobile digital device.⁷

REAR-CAMERA DISPLAY

The available rear-camera display helps you spot things behind your vehicle that you might not see when looking over your shoulder.⁸

USB/AUXILIARY JACKS FOR MP3 AUDIO PLAYERS

An integrated USB/auxiliary jack lets you listen to your favorite tunes right from your own music library.⁷

BLUETOOTH® WIRELESS TECHNOLOGY¹

Enjoy convenient, hands-free use of your compatible Bluetooth® wireless technology-enabled cell phone.

POWER CONTROLS

Sedona has a variety of standard features designed for everyday convenience, including power controls for the windows, door locks and outside mirrors.

REAR-SEAT DVD ENTERTAINMENT PACKAGE*

An available rear-seat DVD system includes an eight-inch monitor, surround-sound speakers and wireless headsets.

SIRIUSXM SATELLITE RADIO

Get over 130 channels, including 100% commercial-free music, plus all your favorite sports, news, talk and entertainment.³

1, 3, 7, 8 See Features and Specifications pages for availability and endnotes. *Available as optional equipment. EX PREMIUM ENTERTAINMENT PACKAGE WITH NAVIGATION SHOWN.

Whatever your day holds, Sedona can accommodate. Count on Sedona to be as flexible as you are. The easily adjustable second- and third-row seats allow multiple configurations for carrying passengers, cargo — or combinations of both. It's also designed to be remarkably convenient, with dual sliding doors that make getting in and out from either side quick and easy. With Sedona EX, you can automatically open these dual sliding doors, or the rear liftgate, at the touch of a button on the instrument panel. Or you may open them from outside with the remote keyless entry.

FLEXIBLE CONFIGURATIONS

The Sedona allows a wide variety of 2nd- and 3rd-row seating-and-cargo configurations with ease.

CONVENIENT 2ND-ROW SEATS

The 2nd-row captain's chairs are spaced apart to give each passenger plenty of room. They can also slide and fold forward for easy access to the 3rd row. The seat-backs recline for added comfort, or fold over flat when not in use. To increase the rear cargo space, 2nd-row seats can flip-and-fold forward, or they can be completely removed.

MAXIMUM CARGO SPACE

The 60/40 split 3rd-row seats fold into the floor to create a large, flat cargo area. The seats also fold down individually to create additional cargo options.⁹

EASY ACCESS 3RD-ROW SEATING

ALL SEATS RECLINE

FOLD-IN-THE-FLOOR 3RD-ROW SEATS

STOWABLE 3RD AND FOLD/FLIP 2ND ROW⁹

FLAT-FOLDING 2ND-ROW SEATBACKS WITH TRAYS

2ND ROW REMOVED/3RD ROW STOWED⁹

Sedona is open to all kinds of adventure. No matter the occasion, you'll soon discover that Sedona can handle whatever you and your family have in mind. Its spacious, easily accessible cargo area lets you pack everything you need for a family outing. For weekend getaways or longer vacations, standard roof rails let you carry extra cargo.¹⁰ To give you easy access to the things you need, Sedona boasts a variety of clever and useful storage areas throughout the cabin.

CENTER STORAGE CONSOLE

Keep your CDs or other items close at hand with this flip-down compartment.

SUNGLASSES HOLDER

With this overhead compartment, you'll always have a handy place to store your sunglasses.

CENTER FOLDING TRAY

A center tray located between the front seats folds up and features four cup holders.

3RD-ROW STORAGE BIN

A compartment with flip-up lid gives 3rd-row passengers a spot to store small items.

IN-FLOOR STORAGE COMPARTMENT

When the 3rd-row seats are folded down, an in-floor storage compartment provides extra space.

FOLD-IN-THE-FLOOR SEATS

With a simple pull of a strap, the 3rd-row seats fold down for a variety of cargo options.⁹

Performance you can count on for the long haul.

Sedona's 3.5L V6 engine offers outstanding performance and 3,500 lbs. of towing capacity.⁴ All models come standard with a 6-speed Sportmatic® transmission that gives you a choice between traditional automatic mode and manual, clutch-free gear shifting. MacPherson-strut-front and multi-link-rear suspension systems provide an ideal combination of precise handling and a comfortable ride.

POWER YOU'RE LOOKING FOR

Exceptional power is yours, thanks to a 3.5-liter 24-valve DOHC V6 engine. It delivers 271 horsepower, 248 lb.-ft. of torque and 3,500 lbs. of towing capacity⁴ for dependable performance wherever you're heading.

SMOOTH, PRECISE HANDLING

Sedona's MacPherson-strut-front and multi-link-rear suspension systems offer exceptional handling, directional stability and smooth operation on the highway.

SPORTMATIC® TRANSMISSION

The 6-speed Sportmatic transmission provides smooth, seamless shifting.

BRAKE PERFORMANCE

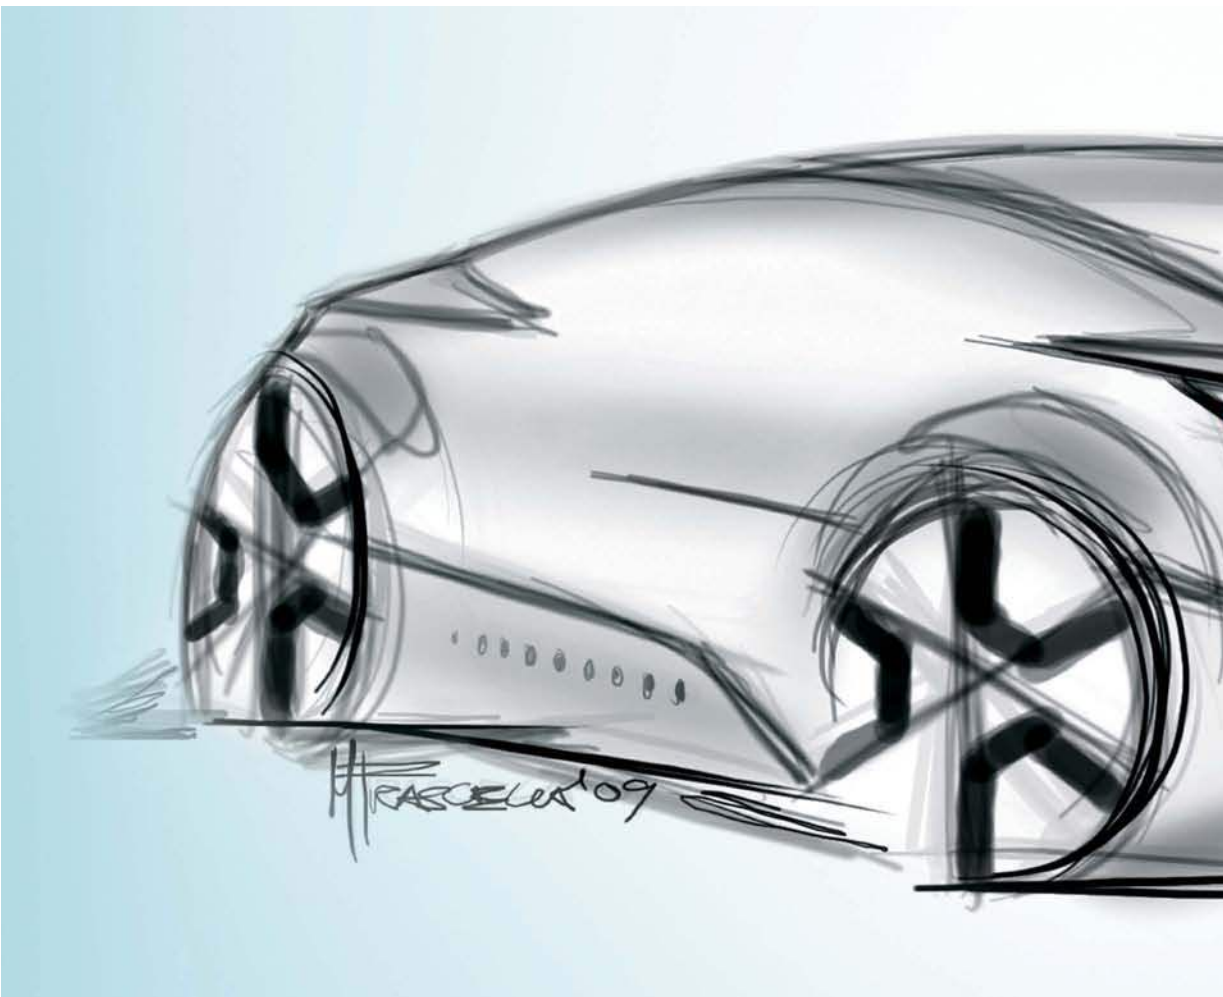

Four-wheel disc brakes with ABS help prevent wheel lock-up and help maintain steering control.

⁴ See Specifications page for endnote. EX WITH OPTIONAL TOWING EQUIPMENT SHOWN.

A passion for excellence. For decades, Kia Motors has focused on building vehicles that reflect a commitment to quality, durability and product innovation. Today, we offer models to suit most every driving need. The value found in every Kia vehicle has been widely recognized, and Kia Motors has been one of the fastest-growing automotive brands in America for the past five years.¹¹

COMMITMENT TO AMERICA

Kia Motors' \$1 billion facility in West Point, Georgia, incorporates the latest manufacturing processes. Utilizing state-of-the-art robotics, the plant is capable of producing 300,000 vehicles a year with maximum efficiency. When the 2011 Sorento went into production, it became Kia Motors' first vehicle to be built in the U.S.A.¹ The plant will generate more than just high-quality vehicles. Over 3,000 new jobs are expected to be created at the facility and up to 7,500 additional jobs in the surrounding area. It's all part of Kia Motors' commitment to America — a commitment that is sure to grow and strengthen in the years ahead.

PRIDE OF QUALITY

Kia Motors designs and develops vehicles and rigorously puts them to the test at high-tech facilities and proving grounds worldwide. The result is a full line of vehicles with world-class quality.

SELLING STRONG

In 2010, Kia Motors sold its 3 millionth vehicle in the U.S.A., and it took less time to reach that milestone than Toyota.¹² In fact, Kia has recently outsold Lexus, Subaru, Volkswagen and Mazda.¹³
