

2011

RANGE
ROVER

2011 LAND ROVER VEHICLES

FROM L.A. TO LESOTHO, LAND ROVER VEHICLES ARE RECOGNIZED AND ADMIRER AROUND THE WORLD.

After more than 60 years of transporting aid workers to countries in need, and engaging in archeological and environmental expeditions to the most inhospitable corners of the world, Land Rover vehicles are recognized worldwide for their ability to accomplish extraordinary deeds.

Their capability, of course, is unquestioned. But the success and longevity of the brand owes as much to the vehicles' unique blend of luxury, safety and versatility.

Engineering and design enhancements for the 2011 model year add even more appeal – dramatic new exterior colors and interior trim, sparkling new alloy wheel designs, and available new technology, such as Vision Assist* and the astounding 1,200-watt Harman Kardon® Logic7® digital surround-sound system.

But what sets Land Rover vehicles apart – the core attributes of this widely acclaimed line of capable and luxurious vehicles – has not changed. Discover what makes Land Rover such a compelling buy at LandRoverUSA.com. Or find out firsthand by test-driving one of the most versatile and recognized sport-utility vehicles on earth at your local Land Rover Retailer.

* Available package includes Adaptive Front-lighting System (AFS), Automatic High-Beam Assist and a Surround Camera System. See your Land Rover Retailer for details and availability.

RANGE ROVER HSE

WITHOUT QUESTION. WITHOUT PEER.

Range Rover is widely regarded as the ultimate luxury sport-utility vehicle, but it may very well be the ultimate vehicle – full stop. In fact, it is Range Rover's ability to be perfectly appropriate in any setting – city or country, elegant gala or muddy trail, a night on the town or a trip to the ski lodge – that sets it apart.

Start with its classically contoured exterior design, reflective of its decades-long heritage while also being finely honed for aerodynamic efficiency. Step inside to a sumptuous setting of Blenheim leather and fine veneers, replete with luxurious accoutrements and innovative features. A Thin Film Transistor (TFT) LCD replaces conventional gauges with a customizable screen of virtual gauges and driver information displays. A newly available Vision Assist Package includes Adaptive Front-lighting System (AFS), Automatic High-Beam Assist, Blind Spot Monitoring and a Surround Camera System for enhanced visibility.

Performance is assured with a 5.0-liter direct-injection LR-V8 engine coupled to a smooth and responsive CommandShift™ automatic transmission. With Terrain Response,[®] permanent four-wheel drive, all-terrain anti-lock brakes and a wide range of dynamic systems, Range Rover is engineered to supply surefooted traction on virtually any surface. Quite simply, Range Rover delivers supreme elegance and an exceptional level of capability in a single vehicle.

RANGE ROVER SUPERCHARGED

A HIGHER LEVEL OF LUXURY AND REFINEMENT
PLUS 510 VERY EAGER HORSEPOWER.

The most powerful generation of engine ever fitted to a Range Rover makes the Supercharged model something very special indeed. The combination of a belt-driven supercharger boosting the 5.0-liter V8, an upgraded CommandShift™ automatic transmission with Positive Torque manual-mode shifting, matching engine revs to vehicle speed when you select a lower gear, plus a race-inspired high-performance braking system ensure that all aspects of performance dynamics are not only high, but also equally balanced. Don't assume, however, that the only attributes of this exclusive model are its nearly instantaneous power delivery.

Range Rover Supercharged also provides an even higher level of refinement, with such standard features as the Luxury Interior Package, which includes 14-way heated and cooled power front seats, premium Oxford leather and additional wood trim, adding an elegant touch of warmth to the Range Rover Supercharged interior.*

Exterior enhancements are also part of this model's appeal, and include high-performance six-piston front brake calipers visible through the spokes of the standard 20-inch alloy wheels, plus unique bright-finish diamond-mesh grille and power vents. And, as a subtle note to all those following you, bright chrome exhaust extensions indicate the presence of this highest-performance Range Rover.

* The Luxury Interior Package is optional on Range Rover HSE.

Range Rover Autobiography shown with Jet/Pimento Interior.

RANGE ROVER AUTOBIOGRAPHY

AUTOBIOGRAPHY TELLS A STORY OF INDIVIDUALITY.

Autobiography is the ultimate Range Rover, replete with custom touches and premium electronic features reserved for the highest-end vehicles in the world. First, consider the leather trim. Soft and distinctive semi-aniline leather covers each seat. Leather also wraps the center console and each door panel, plus the entire headliner. Subtle but distinctive exterior touches, such as sparkle finish 20-inch alloy wheels, signal this model's presence.

Swift and effortless performance is supplied by the same drivetrain enhancements found in Range Rover Supercharged. And, as you might expect, an even higher level of technology is provided. A 1,200-watt Harman Kardon® Logic7® surround-sound audio system can deliver a thrilling accompaniment to your travels. Satellite radio* and HD

Digital Radio™ are also standard. The spacious rear seat features power recline. In addition, climate glass, four-zone automatic climate control and a Rear Seat Entertainment system make any trip itself a longed-for destination.

Two additional noteworthy Autobiography features are Adaptive Cruise Control with Brake Assist, and the Vision Assist Package. An autobiography is a unique statement that reveals the individual. So is a Range Rover Autobiography.

* See footnote 3 on page 29.

Note: Please ask your Land Rover Retailer about optional and special-order trim and exterior finishes.

RANGE ROVER SPORT HSE

THE MOST DYNAMIC MEMBER OF THE LAND ROVER FAMILY.

While cloaked in Range Rover style and fitted with elegant appointments, Range Rover Sport is notably more outgoing in its demeanor. Its tidier dimensions and more responsive suspension tuning give Range Rover Sport a performance edge compared to its big brother. So why resist? Open the door to the inviting, driver-oriented cockpit, settle into the nicely bolstered driver's seat, fire up the 375-horsepower LR-V8 and get ready for an adrenaline rush.

The 5.0-liter direct-injection LR-V8 engine supplies eager motivation. Sophisticated Electronic Air Suspension (EAS) smoothes the ride while responding to your desires on sinuous roads. Nineteen-inch low-profile tires lead the way forward. And with an advanced array of dynamic controls, from Terrain Response* to Cornering Brake Control (CBC) to all-terrain Dynamic Stability Control (DSC), Range Rover Sport attends to your well-being.*

The passenger environment is, of course, designed for your comfort. Multi-adjustable leather-clad front seats and a leather-wrapped steering wheel reward your touch. A premium on/off-road GPS navigation system provides convenient directions. And a nine-speaker Harman Kardon* audio system delivers the harmony.

Test-drive a Range Rover Sport and find out for yourself whether its compelling blend of any-road capability and responsive performance fits your personality...or refrain and be envious every time you see one.

* See footnote 2 on page 29.

RANGE ROVER SPORT SUPERCHARGED

DELIVERING A SUBLIME LEVEL OF PERFORMANCE DYNAMICS.

For those who want even more driving excitement, let us present the Range Rover Sport Supercharged. With 510 horsepower and a nearly instantaneous wave of torque available at virtually any speed, Range Rover Sport Supercharged delivers a sublime level of dynamic performance.

Inside the Range Rover Sport Supercharged there's extensive leather trim, plus power-adjustable driver's-side seat bolsters, perforated leather center panels (or the no-cost option of Alcantara*), and contrast stitching on the seats, center console and door panels.* The Climate Comfort Package is also standard, with its heated windshield, two-stage heated front and second-row seats, heated steering wheel and heated front windshield-washer jets. Available options include the Rear Seat Entertainment system with twin LCD screens in the back of the front-seat head restraints, two headphones and a six-disc DVD changer.

But performance is obviously this model's raison d'être. The six-speed electronically controlled automatic transmission features Positive Torque manual-mode shifting, matching engine revs to vehicle speed when you select a lower gear. Twenty-inch alloy wheels shod with 40-series tires and six-piston high-performance front brakes bring things to a stop. Adaptive Dynamics continually adjusts shock-absorber settings for enhanced control.** Even the Terrain Response® has an added Dynamic Mode for greater handling response when desired.**

* Contrast stitching not available with Tan and Arabica interior trim.

** See footnote 2 on page 29.

Range Rover Sport Autobiography
shown with Ebony/Tan Interior.

RANGE ROVER SPORT AUTOBIOGRAPHY

A HIGHER ECHELON OF ELEGANCE AND DESIGN.

Autobiography is the ultimate Range Rover Sport, with aerodynamic exterior enhancements, elegant custom interior trim, high-technology features and more.

Exterior design is enriched with flush-fitting front and rear bumpers, and an extended rear-roof spoiler. Body-color lower trim panels, specific grille and side vents, as well as unique 20-inch 10-spoke alloy wheels, set this model apart. And as a finishing touch, a quadrangle exhaust treatment lets followers know that there's 510 supercharged horsepower under the hood.

But of course, it's the interior that will generate the "oohs" and "aahs" from your passengers. Unique duo-tone Windsor leather seating choices include Ebony/Tan, Ebony/Ivory or Ebony/Pimento, all with contrast stitching. Even the cubby-box lid is wrapped in contrasting leather. What's more, "Autobiography Sport" is embossed in the front and rear headrests, and in the wood inlays.

The Vision Assist Package is standard, as is a high-end digital surround-sound audio system. This Logic7® 14-speaker premium stereo includes HD Digital Radio™ as well as satellite radio* for hours of listening pleasure.

The power and response of a Supercharged drivetrain. The unique brand of elegance that comes only with Autobiography. The Range Rover Sport Autobiography is a limited-production vehicle for a very select audience.

* See footnote 3 on page 29.

LAND ROVER LR4

THE VERY DEFINITION OF A WELL-ROUNDED INDIVIDUAL.

The Land Rover LR4 is at once a clear reflection of the brand's 60-year heritage and a modern embodiment of state-of-the-art dynamic systems and conveniences. With luxurious seating for five or seven adults, the LR4 is also North America's most accommodating Land Rover model, and offers up to 90 cubic feet of cargo space. Consider this iconic vehicle's many beneficial attributes.

Its highly sophisticated Electronic Air Suspension (EAS) not only isolates road harshness, but also automatically levels the ride height with changing passenger and cargo loads. You can also ease ingress and egress by lowering the suspension, or increase off-road ground clearance by raising it.

Land Rover's widely acclaimed permanent four-wheel-drive system provides a two-speed electronic transfer gearbox as well as four-wheel Electronic Traction Control (4ETC). Standard Terrain Response® offers five different settings to help maximize traction and control. And an army of dynamic systems – from Gradient Acceleration Control to Trailer Stability Assist – delivers confidence and control in all manner of driving conditions.*

Land Rover vehicles are also well known for their active and passive safety attributes. LR4 adds to that reputation with four-wheel ventilated all-terrain anti-lock brakes (ABS), Roll Stability Control (RSC®), front-seat Integrated Whiplash Reduction and more.*

* See footnotes 1 and 2 on page 29.

LAND ROVER LR4 HSE

A 375-HORSEPOWER ENGINE AND INCREDIBLY CAPABLE CHASSIS WRAPPED IN LUXURY AND REFINEMENT.

Notable for its amazing any-road capability, the Land Rover LR4 also is luxuriously refined. All LR4 models are equipped with leather seating surfaces, Straight-Grained Walnut Wood trim or optional Black Lacquer finish interior trim, dual-zone automatic climate control with pollen filter, Bluetooth® telephone connectivity and a nine-speaker Harman Kardon® audio system. The famous Alpine roof and large power sunroof are also standard.

The LR4 HSE Package adds even more luxury, including the Seven-Seat Comfort Package, rearview camera, premium on/off-road GPS navigation, satellite radio* and HD Digital Radio.™ Opt for the HSE Luxury Package, and your LR4 will add premium ruched leather seating surfaces, a 14-speaker Logic7® sound system, adaptive xenon headlights, a driver's memory system for added convenience, the Climate Comfort Package with heated front and second-row seats, and even a center-console Cooler Box to keep perishables or soft drinks cold.

Additional options let you tailor your LR4 to your desire. Notable among these is the Vision Assist Package, which includes a Surround Camera System that provides a near-360-degree view around the vehicle, displayed on the instrument panel's touch-screen – great for tight parking spots or trailer towing.**

Land Rover has been producing SUVs for over 60 years. The LR4 completes the vision of the brand, and stands as the prime example of all that Land Rover is for 2011.

* See footnote 3 on page 29.

** It remains the driver's responsibility to detect obstacles and estimate the vehicle's distance from them when reversing. Always be vigilant when reversing.

LAND ROVER LR2

RUGGED AGILITY AND LUXURIOUS CONVENIENCES
PLUS INIMITABLE LAND ROVER STYLE.

The most nimble model in the line-up, the LR2 possesses all the expected Land Rover ruggedness, capability and luxury. Surprisingly spacious inside, the LR2 can hold almost 60 cubic feet of cargo.* Its advanced inline six-cylinder engine sends power to all four wheels via a Permanent Intelligent all-wheel-drive system with a "pre-charged" center coupling for virtually instant traction. And Land Rover's patented Terrain Response® system adds precise control to just about any driving situation.**

Safety is paramount in the LR2. Large ventilated disc brakes at each wheel with four-channel ABS supply confident, controlled stopping power. Standard safety engineering ranges from seven airbags (SRS) to Whiplash Reduction front-seat design to Roll Stability Control (RSC®), which can detect and help create more stability.**

Inside the LR2, you'll find Napoli leather seating surfaces, dual-zone automatic climate control, rear Park Distance Control, an Alpine® stereo and a panoramic sunroof to let the sunshine in.

You'll recognize the 2011 model year LR2 with its new front bumper design and Titan finish grille, clear taillight lenses, bright Noble finish tailgate strip, and sparkle finish 18-inch alloy wheels. Agile, responsive and replete with advanced Land Rover technology, the LR2 is ready for wherever you want to go.

* 58.9 cu. ft. (1.67 m³) of maximum cargo volume.

** See footnotes 1 and 2 on page 29.

LR2 shown with HSE Package and Storm Interior.
Optional Navigation System and Black Lacquer finish trim also shown.

LAND ROVER LR2 HSE

HIGHLY DESIRABLE FEATURES AND
TECHNOLOGY OPTIONS ADD EVEN MORE APPEAL.

While the LR2's standard features are impressive, the HSE Package presents even more conveniences and luxuries. Hours of entertainment are available with satellite radio* and HD Digital Radio.™ Bluetooth® telephone connectivity provides convenient syncing with most cell phones. For enhanced nighttime visibility, adaptive xenon headlights swivel to match your steering input. Additional interior and exterior lighting, and a driver's seat and outside-mirror memory system round out the package.

The HSE Luxury (LUX) Package adds a custom touch to the LR2 interior plus even more desirable features. Premium Windsor leather seating surfaces with double-contrast stitching is standard, with a choice of additional colorways: Almond, Ebony, Tan or Ivory. A 14-speaker 480-watt Alpine® Dolby® Pro Logic® II 7.1 surround-sound audio system with six-disc in-dash CD changer can fill the interior with your favorite music. For added comfort and convenience, the HSE Luxury Package comes with an eight-way power adjustable driver's seat and six-way passenger seat.

Available options let you personalize your LR2 further. You can select a DVD-based GPS navigation system, 19-inch alloy wheels, or the Climate Comfort Package with heated front windshield, front seats and windshield-washer jets. There's even an extended global color palette** for those who really want their LR2 to be truly unique.

* See footnote 3 on page 29.

THE LAND ROVER EXPERIENCE

Professional driver shown at a Land Rover Experience Driving School.
Do not attempt this type of maneuver on your own.

LAND ROVER EXPERIENCE DRIVING SCHOOLS

Hone your off-road driving abilities amidst breathtaking scenery behind the wheel of a Land Rover vehicle. With an expert driving instructor by your side, you'll learn to properly navigate steep ascents and descents, pick the right line on side tilts and maintain vehicle control in challenging off-road situations. Instruction is customized to your experience level and appetite for adventure. Driving schools are located at The Biltmore Estate in Asheville, North Carolina; Equinox, the Vermont Resort in Manchester Village, Vermont; Fairmont le Château Montebello in Quebec, Canada; and the Quail Lodge in Carmel, California. What's more, owners of Land Rover vehicles receive a special discount. For more information, visit LandRoverUSA.com/drivingschools.

THE LAND ROVER WAY RETAILER EVENTS

Land Rover Retailers want to ensure that you have the opportunity to explore the amazing capabilities of your Land Rover vehicle while enjoying the lifestyle it embodies. Throughout the year, your Land Rover Retailer will host events that may combine an off-road excursion with an intriguing lifestyle activity, such as skiing, attending an equestrian competition or dining at a one-of-a-kind restaurant.

LAND ROVER ADVENTURES

When an ordinary vacation won't do, treat yourself to the experience of a lifetime—a Land Rover Adventure in one of the most scenic and exotic locations in the world. Exhilarating off-road expeditions during the day are capped by an evening relaxing at a luxurious resort. For more information, visit LandRoverUSA.com/adventures.

LAND ROVER ONELIFE

One of the perks of Land Rover ownership is receiving Land Rover *OneLife* in the mail. It's a journal that chronicles adventures of Land Rover vehicles and the people who own them. Whet your appetite for exploring fascinating locations around the globe or sample exotic cuisine page by page in this magazine published exclusively for Land Rover owners.

COMPETITIVE LEASE AND FINANCE RATES

To help make your dream of owning a Land Rover vehicle a reality, Land Rover offers competitive finance rates and flexible terms, plus the assurance of outstanding customer service.* Choose from a suite of innovative financial products for your lease and finance needs. Ask your Land Rover Retailer for current rate and program information, or visit LandRoverUSA.com.*

* See your local Land Rover Retailer for details.

SPECIFICATIONS

RANGE ROVER HSE

POWERTRAIN

- 5.0-liter LR-V8 with 375 horsepower and 375 pound-feet of torque.
- Six-speed electronically controlled automatic transmission with CommandShift.™
- Permanent four-wheel drive with two-speed electronic transfer gearbox. Four-wheel Electronic Traction Control (4ETC).
- Variable locking center differential.

SAFETY & SECURITY

- Seven-airbag Supplemental Restraint System (SRS).¹
- Integrated Whiplash Reduction System in front seats.
- Heated front windshield, exterior mirrors and windshield-washer jets.
- Front and rear Park Distance Control (PDC).
- Automatic rearview camera.
- Automatic, variable-speed, rain-sensing windshield wipers.
- Automatic xenon headlights with power washers.
- LED taillights – turn signals and brake lights.
- HomeLink® system for garage doors and security gates.
- Available Vision Assist Package.

DYNAMIC SYSTEMS

- Terrain Response® system to help maximize traction and control.²
- Fully independent Electronic Air Suspension (EAS) with automatic load-leveling.
- Advanced dynamic systems include Electronic Brakeforce Distribution (EBD), Emergency Brake Assist (EBA), Cornering Brake Control (CBC), Roll Stability Control (RSC®), Hill Descent Control (HDC), Gradient Release Control (GRC) and all-terrain Dynamic Stability Control (DSC).²
- Four-wheel disc brakes with four-channel, all-terrain Anti-lock Braking System (ABS).
- 19-inch twin-seven-spoke alloy wheels.

LUXURY

- Push-button start/stop with keyless entry.
- Thin Film Transistor (TFT) 12.3-inch LCD in lieu of conventional gauges.
- Triple-zone automatic climate control with pollen filter.
- Heated front and rear seats, and steering-wheel rim.
- On/off-road hard-disc-drive GPS navigation system with touch-screen.
- LED mood lighting.
- 720-watt Harman Kardon® Logic7® digital surround-sound audio system with 14 speakers and satellite radio.³
- One-touch “open/close” power sunroof with anti-trap function.
- Personal Telephone Integration system with Bluetooth® capability.
- Triple-laminated and heated front windshield, privacy glass and illuminated vanity mirrors.
- Blenheim leather seating surfaces and trim details.
- Leather-wrapped power tilt-and-telescopic steering wheel with automatic tilt-away.
- 12-way power driver's seat. 10-way power front-passenger seat.
- HomeLink® system for garage doors and security gates.
- Available 1,200-watt Harman Kardon® Logic7® digital surround-sound audio system with 19 speakers and satellite radio³
- Available HD Digital Radio.™

RANGE ROVER HSE LUXURY INTERIOR PACKAGE (LUX)

- 14-way heated/cooled power adjustable driver and front-passenger seats.
- Premium Oxford leather seating surfaces, door pulls and center-console lid.
- 12-piece wood trim on fascia, doors and center console.
- Auto-dimming exterior mirrors.
- Luggage net.
- 20-inch twin-V-spoke alloy wheels.
- Available Vision Assist Package.

RANGE ROVER SUPERCHARGED

WARRANTIES & OWNER SUPPORT PROGRAMS FOR ALL LAND ROVER MODELS

- 4-year/50,000-mile (80,000-km) New-Vehicle Limited Warranty.⁴
- 6-year/unlimited-mileage Corrosion Perforation Limited Warranty.⁴
- Land Rover 24-hour Roadside Assistance.⁴

1. Please remember that the safety belts in a Land Rover constitute the primary protection system for driver and passengers in collisions. The airbag Supplemental Restraint System (SRS) is a supplement to the safety belts and is designed to work as a system with the safety belts. Although airbags provide additional protection, airbags without safety belts do not provide optimal protection in a crash. Always wear your safety belts. Children younger than 13 years old should always be properly restrained in a back seat, away from airbags. Never place an infant seat in the front seat.

2. These features are not a substitute for driving safely with due care and attention, and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult your Owner's Handbook or your local authorized retailer for more details.

3. Some options are available only in combination with other options. Satellite radio subscription not included. Satellite radio is not available in Alaska or Hawaii.

ourplanet

Our plan for a sustainable future.

We take our responsibility to our planet very seriously, with an integrated and innovative approach for a sustainable business and lower carbon world. As a company we are committed to:

Reducing our dependency on fossil fuels and the production of man-made CO₂ emissions...

Using fewer resources and creating less waste...

Enthusing our employees and stakeholders for sustainable business development

e_TERRAIN TECHNOLOGIES. EFFICIENT POWER SYSTEMS; LIGHTWEIGHT STRUCTURES, REDUCED EMISSIONS

A joint £800m investment into new technologies designed to reduce CO₂ emissions and improve fuel consumption. We are targeting a 25 percent reduction in joint fleet average tailpipe CO₂ emissions within the next five years. Beginning with an intelligent Stop/Start system on Land Rover LR2 diesel manual, followed by Intelligent Power Systems Management (IPSM) with Smart regenerative braking on all Land Rover LR4, Land Rover LR2 and Range Rover vehicles, to the announcement of our new compact Range Rover, e_TERRAIN TECHNOLOGIES form a fundamental part of our carbon management plan.

SUSTAINABLE MANUFACTURING. USING FEWER RESOURCES AND CREATING LESS WASTE

World class manufacturing facilities, certified to ISO14001 since 1998. As a company we are targeting a 25 percent reduction in operating CO₂ emissions by 2012, 25 percent in waste to landfill and 10 percent in water consumption, based off 2007 levels. Going forward we are measuring our total operating carbon footprint and setting targets to reduce it; since 2006 this integrated approach has included the carbon offset of all manufacturing assembly CO₂ emissions from our Solihull and Halewood plants. But it doesn't stop there. Every new vehicle is designed to be 95 percent recoverable and reusable – with 85 percent that's recyclable and a further 10 percent that can be used to generate energy.

In 2009, we reduced our CO₂ emissions by 26,550 tons, water consumption by 192,000 m³ and 1,300 tons to landfill

CO₂ OFFSETTING. INVESTING IN RENEWABLE ENERGY, TECHNOLOGY CHANGE AND ENERGY EFFICIENCY PROJECTS

For every ton of CO₂ emitted during the manufacturing assembly of all our vehicles, Land Rover invests in carbon reduction projects that reduce an equivalent ton of CO₂ elsewhere. In addition, we enable our customers to offset their first 45,000 miles/72,000 km of driving in their new vehicles. We do this in the UK as well as countries in Europe, the Middle East and Asia. Independently administered by ClimateCare and governed by a body of climate change experts, CO₂ offsetting allows us to take action now, to reduce our impact on the environment as part of our integrated carbon management plan.

Land Rover currently has 19 emissions reduction projects in our plan to offset approximately 2,500,000 tons of CO₂ by 2012...

Our customers in the Middle East have contributed over \$1,650,000 to this target since October 2008...

We have three Gold Standard projects in the portfolio: energy efficient stoves in Uganda and Ghana and wind generation in Aliaga Turkey

CONSERVATION AND HUMANITARIAN PARTNERSHIPS. WORKING PARTNERSHIPS FOR CONSERVATION & SOCIETIES GAIN

Our vehicles are designed for purpose, so they are used by conservation and humanitarian organizations worldwide. Working with our five Global Conservation partners and the International Federation of Red Cross and Red Crescent Societies (IFRC), Land Rover is proud to support the important work of the Royal Geographical Society (with IBG), The Born Free Foundation, Earthwatch Institute, Biosphere Expeditions and the China Exploration and Research Society.

As part of our Sustainability policy Land Rover has actively promoted responsible off-road driving since 1990...

This year Land Rover launched a new three-year global initiative with the IFRC entitled "Reaching Vulnerable People around the World" through which Land Rover aims to support IFRC's life saving work. To date Land Rover has given over \$3.9m worth of support to IFRC, including vehicle donations and funds raised

IN SUPPORT OF

LAND ROVER VEHICLE KIT

Genuine Land Rover Vehicle Kit is a premier collection of specialized accessories, designed and constructed to the same high standards as the vehicles themselves. When purchased with a new Land Rover, Vehicle Kit accessories carry the same warranty as the vehicles themselves.* From deployable side steps to bike racks to towing equipment, genuine Land Rover Vehicle Kit accessories let you make your Land Rover as distinctive as your interests and personality. For complete information about the entire line of Land Rover Vehicle Kit accessories available exclusively from Land Rover Retailers, speak with your Sales Guide. You'll also find information online. Just go to LandRoverUSA.com to see how Vehicle Kit accessories will look on your 2011 Land Rover vehicle.

DID WE WHET YOUR APPETITE FOR LUXURY AND ADVENTURE?

If you'd like more detailed information about any of the Land Rover models, simply call us at 1-800-FIND-4WD to order a specific brochure for Range Rover, Range Rover Sport, Land Rover LR4 or Land Rover LR2. For more immediate information, go to LandRoverUSA.com or, better yet, visit your Land Rover Retailer.

* See your Land Rover Retailer for details.
Note: Always safely secure items before driving.

Note: Some vehicles in this brochure have optional equipment.
