ABOVE & BEYOND

Ever since the first Land Rover vehicle was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomize the values of the designers and engineers who have created them. Each one instilled with iconic British design cues, delivering capability with composure. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Land Rover truly enables you to make more of your world, to go above and beyond.

DESIGN

EXTERIOR

With its three classic lines of a lower accent design, floating roofline and continuous waistline, the Range Rover is unmistakable. The iconic silhouette is gently tapered and curved, while the use of near-flush glass and Gloss Black pillars accentuates the roof enhancing its streamlined and elegant form. The vehicle's fresh and contemporary appearance is complemented by carefully crafted design details that give Range Rover its distinctive character.

First to catch the eye is the very modern interpretation of the side vent design, which is executed on the surface of the front doors. While lower down, design accents sweep around the body. Optional Adaptive Xenon headlights that swivel to follow the road during night-time driving* add to the vehicle's distinctive look.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details. Vehicle shown above and right is Autobiography in Indus Silver with optional features fitted.

INTERIOR

Refinement is at the heart of Range Rover.

Its interior gives a sense of calm, indulgent and luxurious comfort. It is beautifully appointed and thoughtfully designed. The broad center console and the new 10" 21:9 wide format Touchscreen* puts essential and intuitive controls within easy reach.

Clean surfaces and the use of soft supple leathers, wood veneers and highly polished interior trim help create contemporary, comfortable surroundings.

Delightful to the touch, the type of leather is determined by model choice. It enhances the interior, covering virtually every surface from the seats and instrument panel to the doors and headlining. Range Rover Autobiography, SVAutobiography Dynamic and SVAutobiography Long Wheelbase feature Semi-Aniline leather with high-grade hides selected for their exceptional suppleness and natural appearance.

The finish is naturally of the highest order.

Tailored twin-needle hand-stitching is used and every aspect is considered; from the length and direction of the stitching, to the spin, thickness and material of the thread. Even the size and shape of the needle is defined.

*Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Interior shown right is HSE in Espresso/Ivory with Ivory seats and Figured Macassar veneer with optional features fitted.

UNCOMPROMISING
ATTENTION TO DETAIL

The focus on impeccable craftsmanship is well illustrated by the authentic metal details, which are cool to the touch and stunning to look at, and provide a stylish contrast to the opulent leather and veneer surfaces.

Striking examples include the bold Brushed Aluminum pillars each side of the center console, the rotary shifter and the distinctive air vents with each blade highlighted with a keyline of Satin Chrome.

Typifying the attention to detail, the aluminum finish on the center console is created using a unique approach which involves the aluminum material passing through more than 20 distinct processes to provide an exquisitely crafted finish.

Interior shown left and above is SVAutobiography Long Wheelbase in Navy/Ivory with Ivory seats and Figured Macassar veneer.

CARGO CAPACITY

Whether you're heading out to the opera for the evening or for a week of skiing, Range Rover has ample cargo space.

Even though the vehicle enjoys the most exemplary levels of refinement, it's always ready to accommodate your luggage or even bulkier loads with ease.

LONG WHEELBASE

EXTERIOR

Range Rover Long Wheelbase is instantly recognizable, superbly engineered and beautifully appointed. This body style has unique features such as a distinctive 'L' badge mounted behind each front wheel arch and Narvik Black mirror caps. And though the exterior length has been extended by 7.9", its silhouette retains its classic shape.

Vehicle shown left is Autobiography Long Wheelbase in Loire Blue with optional features fitted.

INTERIOR

The overall sense of unparalleled comfort is realized in Range Rover Long Wheelbase, providing an extra 7.3" of space in the rear seat and affording rear passengers an extended recline of 17 degrees.

The **Passenger Seat Away** feature can also slide the front passenger seat forward to provide greater levels of comfort and space.

This body style has an additional deep illuminated storage compartment in the center console for rear seat occupants and rear door map pockets, which are fitted to both bench and **Rear Executive Class** seats. For added convenience, the vehicle is equipped with powered side door blinds and a panoramic sunroof.

SPECIAL VEHICLE OPERATIONS

Designed and engineered by Special Vehicle Operations (SVO) – the Land Rover center of excellence for bespoke commissions, luxury editions and performance models – the Range Rover SVAutobiography Dynamic and SVAutobiography Long Wheelbase models offer the pinnacle in performance and luxury.

SVAutobiography Dynamic has the power and agility to match its distinctive exterior. The lower stance hints at the performance contained within this special Range Rover. SVAutobiography Dynamic maximizes driver enjoyment of the road ahead while simultaneously delivering all the luxury you would expect from the performance Range Rover.

SVAutobiography Long Wheelbase is our most luxurious and alluring Range Rover ever. Exclusively available in Long Wheelbase, it offers unrivalled luxury, comfort and refinement – the ultimate Range Rover.

The craftsmanship and expertise of SVO are apparent in the celebrated design, precision engineering and unrivalled levels of refinement that have come together to create the SVAutobiography Dynamic and SVAutobiography Long Wheelbase.

Vehicle shown left is SVAutobiography Long Wheelbase with Duo Tone paint in Corris Grey and Santorini Black with optional features fitted.

Optional features include: a veneer sliding loadspace floor to enhance this area of the vehicle and a Tailgate Event Seating system. This provides two comfortable luxury leather seats which mount in the tailgate when the vehicle is stationary for participating in outdoor events.

DESIGN 27

DRIVING TECHNOLOGY

TESTING

Before any vehicle can carry the Land Rover badge, rigorous testing has been carried out to establish the highest levels of luxury, performance and capability.

SUSPENSION

You're unlikely to push any Land Rover harder than we have. To guarantee an unrivalled breadth of dynamic capability, both on and off-road, vehicles have been exposed to ten years of the most extreme driving pressures in a fraction of the time using our state-of-the-art test rig.

WIND SPEED

In our climate chambers we can recreate some of the most challenging wind conditions Range Rover will face. Not just 112mph crosswinds, but high ambient temperatures and low airflow situations. Only by pushing all systems to their limits do we develop true excellence.

HOT AND COLD CLIMATE

In real world environments and our climate chambers, we freeze vehicles to -40°F and bake them to 120°F. Key functions and systems are then scrutinized to our exacting standards. So even in the most remote locations, comfort and peace of mind is never far away.

OFF-ROAD

From the icy proving grounds of Arjeplog, Sweden, to Dubai's unforgiving desert sands, we ensure our legendary all-terrain performance is innate in our vehicles. Prototypes are developed across approximately 5,300 miles of the most demanding off-road routes.

SEMI-ANECHOIC CHAMBER

In the 'neutral sound' of our semi-anechoic chamber we precisely expose the cabin to a range of frequencies and vibrations, making certain that Range Rover sounds refined at every speed and across every surface.

MONSOON

Using our monsoon simulator, we drench our vehicles with some 18,700 gallons of specially dyed water, while tilting it by as much as 45°, checking for even the slightest leak with UV lights. Ensuring each vehicle can enter and exit a body of water and stay dry inside the cabin.

		CONTENTS	SPECIFICATION

			BUILD YOUR OWN

HILL DESCENT CONTROL (HDC®)

To complement the Terrain Response® system*, Range Rover can also call upon a unique suite of all-terrain technologies to help increase performance, including Hill Descent Control (HDC®)*.

Hill Descent Control assists with controlled descents of difficult slopes by maintaining a constant speed and applying braking separately to each wheel*.

Hill Start Assist is designed to prevent the vehicle from rolling backwards as you pull away on an incline*.

The vehicle also utilizes **Gradient Release Control (GRC)** which is designed to prevent the vehicle ‘running away’ on a steep incline when the driver quickly releases the brake*.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Land Rover Retailer for more details. Features and their availability may differ by vehicle specification and market. Please see pages 74-93, or contact your nearest Land Rover Retailer, for more information. Vehicle shown right is Autobiography in Indus Silver with optional features fitted.

ADAPTIVE DYNAMICS

Adaptive Dynamics* makes the miles go by virtually unnoticed. The system monitors vehicle movements up to 500 times a second, reacting to driver or road inputs almost instantaneously to give greater control and minimize body movement ensuring a composed ride.

The system even senses off-road conditions, and optimizes damping accordingly so driver and passengers arrive at their destination refreshed and relaxed.

DYNAMIC RESPONSE

Dynamic Response** improves vehicle handling and occupant comfort by reducing the amount of body lean during cornering*.

Our two channel system is capable of controlling the front and rear axles independently, allowing it to be tuned to deliver increased low-speed agility, along with enhanced high-speed stability and greater steering precision*.

This feature also aids off-road capability. If the system detects off-road conditions, the control module reduces the level of roll compensation and actively manages the body roll rate, allowing improved passenger comfort and body composure at low speeds*.

- 1

UNADJUSTED LATERAL BODY LEAN
- 2

CORRECTED LATERAL BODY LEAN

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details **Only available on V8 Supercharged.

DRIVER ASSISTANCE

DRIVING AIDS

PARKING AIDS

Parking your vehicle in a busy town or city has never been a particularly simple and straightforward maneuver, which is why Range Rover features an array of aids to help you reverse and park, even when you're negotiating the tightest of spaces.

PARK ASSIST – PARALLEL PARK, PARKING EXIT AND PERPENDICULAR PARK†

Our Park Assist system makes parallel and perpendicular parking easier than ever by steering your vehicle into a suitable space. You just have to select the appropriate gear and control the vehicle's speed. Park Assist will also steer you out of a space, taking all of the stress out of parking. Graphical instructions and notifications guide you through the maneuvers.

SURROUND CAMERA SYSTEM†

Giving a 360° exterior view via the Touchscreen, this helps with various maneuvers from parking by a curb to getting in and out of tight spaces and intersections.

REAR VIEW CAMERA†

To make parking in tight spots simpler, lines to represent the vehicle's outer perimeter and predicted path are superimposed on the rearward image displayed on your Touchscreen.

Features and their availability may differ by vehicle specification and market. Please see pages 74-93, or contact your nearest Land Rover Retailer, for more information.

LAND ROVER INCONTROL®

9 WAYS TO GET YOUR LIFE CONNECTED

Find out how InControl can make your life easier*.

PLANNING ROUTES

Before setting off, use the **Route Planner App** or online portal to search, save locations or set your destination. The app uses the Cloud to send your destination automatically to your vehicle's navigation screen*.

STAYING CONNECTED

Before you get into your vehicle, set your ideal cabin temperature with the **Remote Premium App** on smartphones and now the Apple Watch®. On the road, the in-car **Wi-Fi Hotspot** provides a stable Internet connection and lets you connect up to eight devices**.

STAYING FOCUSED

Our all-new InControl Touch Pro **Voice Recognition** system understands normal spoken instructions. So you can concentrate on the road ahead without distractions*.

FINDING PARKING

When you near your destination, **InControl Touch Pro Navigation** will suggest nearby parking from a database including space availability. With just one click, the parking is added and your route is updated. **Arrival Mode Parking** shows a 360° street level image to help you identify your destination.

	CONTENTS	SPECIFICATION	FIND A RETAILER
			BUILD YOUR OWN

MOVING FASTER

InControl Touch Pro brings you more processing power, thanks to a quad core processor plus an integrated Ethernet network*.

Customizable homescreens let you arrange the screen, as you like, with up to four personalized homescreens and over 60 shortcuts.

INTELLIGENT ROUTING

Commute Mode allows the system to learn your commutes and automatically advises you of the expected journey time based on live and historical traffic movements without having to input a destination. The system learns the routes you take for a given destination and then advises which of those is the quickest.

SHARING PROGRESS

Share your estimated time of arrival so your selected contact(s) will know exactly when you will arrive, as calculated by the navigation guidance system. If you're running late, **Share ETA** can then send automatic updates via text or email, without any further action from you*.

DOOR-TO-DOOR

Once you've parked, the **Route Planner App** will guide you to your destination – a true door-to-door experience which includes public transportation options. The **Remote Premium App** also lets you check your vehicle to make sure you've locked and secured all doors and windows.

HELP IS ALWAYS AT HAND

With **InControl Protect** the emergency services will be automatically notified if the airbags are deployed in an accident, or you can call them manually via an in-car button. You can also call a Land Rover Optimized Assistance operator should you need technical assistance.

MERIDIAN™ SOUND SYSTEMS

Meridian products offer the very best in British engineering and design. Just like Land Rover, it is an intuitive and personal experience. Meridian sound masters have employed years of psychoacoustic research to enable you to experience music in a new dimension.

MERIDIAN REFERENCE
SOUND SYSTEM (1700W)*

The exceptional quality of the Meridian Reference Sound System brings a concert hall experience into the Range Rover.

Twenty-eight speakers and a dual channel subwoofer, on the 1700W system, ensure you hear everything from the thunderous rumble of bass, to the reedy whisper of a clarinet with a purity that you feel as well as hear.

Meridian Trifield™ 3D** technology provides greater control over the content of the surround and side channels, as well as additional signal feeds for height speakers, delivering a personal, realistic three-dimensional listening experience in every seat.

MERIDIAN SURROUND
SOUND SYSTEM (825W)

This 825W system has 18 speakers and 16 channels, and a dual channel subwoofer, that are placed in ideal positions around the vehicle.

The system also incorporates Meridian Trifield** technology to create a concert-like experience for all occupants.

MERIDIAN SOUND
SYSTEM (380W)

This 380W system has 12 speakers and 12 channels, and a dual channel subwoofer, for highly optimized sound quality.

*Only available on Autobiography and SVAutobiography

**Trifield and the "three fields" device is a trademark of Trifield Productions Ltd.

Meridian is a trademark of Meridian Audio Limited.

Features and their availability may differ by vehicle specification.

Please see page 91, or contact your nearest Land Rover Retailer, for more information.

SAFETY

COMFORT FOR ALL

SEAT COMFORT

The optional massage seats feature five programs and are available for driver and passenger. Both front and rear seats have the option of winged headrests and rear seat recline is standard on all vehicles.

Driver and Front Passenger Upper Seat Articulation is an optional feature that allows the driver and front passenger to adjust the upper part of their seats, providing an extra level of comfort and functionality. Other seat functionality options include adjustable bolsters, 4-way lumbar and climate seats.

PASSENGER SEAT AWAY

The rear passengers can control the movement of their own seat and the front passenger seat with the touch of a button. This allows for forward and backward movements of the front seat.

Enhanced Passenger Seat Away gives full control from the rear center console, including tilt, and is only available on Rear Executive Class seats.

REAR EXECUTIVE CLASS SEATS

For pure indulgence and refinement in an SUV, nothing comes close.

With the SVAutobiography Long Wheelbase* and Autobiography models you can choose Rear Executive Class seating. The ultimate in comfort, these two individual seats feature memory, powered headrest, rear center console armrest, cushion adjustments, massage seats and power recline.

The individual seats are separated by an elegant console that houses the rear seat controls and an optional cooler compartment.

*Standard on SVAutobiography Long Wheelbase.
Interior shown left is Autobiography in Espresso/Ivory with Ivory seats and Figured Macassar veneer with optional features fitted.

SAFETY

COMFORT FOR ALL

REAR SEAT ENTERTAINMENT

The optional Rear Seat Entertainment system provides either 8" screens built in to the headrest or 10" high-definition seat mounted articulating screens.

'Journey Status', a Navigation Summary screen which displays a pop-up for the rear occupant detailing the time and distance to destination, is also included. Both systems come with a pair of WhiteFire® digital wireless headphones and HDMI, Mobile Hi-Definition Link and USB connections.

AUTOMATIC ACCESS HEIGHT

Attention to detail is everywhere you look and in everything you touch. For instance, the Automatic Access Height feature lowers the vehicle with precision by up to 2", for easier entry and exit when parked. Arriving in style at any function has never been more relaxed.

SPLIT TAILGATE

The split tailgate is distinctly Range Rover. Its electrically operated upper and lower tailgates help provide a platform for social and sporting events coupled with greater protection from the elements. The upper and lower tailgate can be opened independently using the buttons on the tailgate, or they can be simultaneously opened or closed using the key fob, while the upper tailgate can be operated from a switch on the dash.

POWERED GESTURE TAILGATE

This feature adds practicality and makes life with your Range Rover even easier. Electronically operated, simply by performing a smooth upward movement of the foot beneath the sensor, powered gesture tailgate enables the driver to operate the tailgate (both to open and close) from the curb without needing to physically touch either the vehicle or the key fob, provided the smart key is detected. And as the system is compatible with accessory towing solutions, you can still open and close the tailgate with the least amount of fuss.

WhiteFire® is a registered trademark of Unwired Technology LLC and any use of such marks by Land Rover is under licence. Features and their availability may differ by vehicle specification and market. Please see pages 74-93, or contact your nearest Land Rover Retailer, for more information. Interior shown left is Autobiography in Ebony/Ivory with Ivory seats Grand Black veneer with optional features fitted. Vehicle shown right is Autobiography in Indus Silver with optional features fitted.

DIESEL ENGINE

254HP Td6

With a substantial maximum torque of 443lbs/ft, the Td6 is capable of refined and smoothly responsive performance, sweeping from 0-60mph in 7.4 seconds*.

The engine uses an eight-nozzle low-flow injector designed for more precise injection and improved fuel atomization. The intake system with twin intercoolers ensures charge cooling, and the engine features the latest tandem solenoid Intelligent Stop/Start system to help reduce fuel consumption and emissions.

PERSONALIZING THE EXTERIOR – ACCENT PACKAGES

There is plenty of opportunity to tailor the exterior to suit your personal taste. In addition to the standard finish you can change the finish of the side vent graphic to Atlas Silver or choose the Dark Atlas finish as part of an Exterior Accent Package. These are also available as an accessory fitment. The Black Design Package gives the overall design of the vehicle a more assertive appearance by changing individual elements to Gloss Black.

STANDARD FINISH* (BASED ON HSE MODEL WITH OPTIONAL FOG LIGHTS)

- Grille surround in Dark Atlas, grille mesh and ribs in Atlas
- Body-colored vent blades and door handles
- Front bumper accents in Atlas
- Lower accent graphic in Atlas Silver.

*Model shown with optional 22" 5 split-spoke 'Style 504' alloy wheels. Please refer to the optional feature listing on page 81 for applicability.

LAND ROVER COLLECTION

The vehicle is just the beginning. The latest Land Rover Collection is now available for you to discover.

A meticulous attention to detail doesn't stop with our vehicles. You'll find the same level of craftsmanship in all of our clothing, travel items and premium gift ideas. So whether you're shopping for yourself or a loved one, you know the quality is assured.

The Land Rover collection includes ladies and gents clothing, an extensive range of small leather goods such as wallets, portfolios, iPad and iPhone cases along with briefcases and weekender bags. A range of cufflinks and ladies silk scarves add a luxury feel to the collection. There's gear for the kids too, with colorful fun clothing, caps and replica model vehicles for them to enjoy.

Visit shop.landroverusa.com to browse the latest Land Rover Collection.

LAND ROVER ROADSIDE ASSISTANCE

Land Rover Roadside Assistance provides assistance in motoring emergencies, from immobilization due to breakdown or accident to minor problems such as punctures. You can rely on our roadside assistance, whatever the situation, anywhere in North America during the vehicle warranty period.

For further details please contact your nearest Land Rover Retailer or visit landroverusa.com

IMPORTANT NOTICE: Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. While every effort is made to produce up to date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Distributors and Retailers are not agents of Jaguar Land Rover Limited by any express or implied undertaking or representation.

All Land Rover Approved Accessories fitted by a Land Rover Retailer within one month or 1,000 miles (which ever occurs first) of the handover of a new registered vehicle will benefit from the same warranty terms and period of cover as the vehicle warranty. Accessories purchased outside of these parameters will be subject to a 12 month unlimited mileage warranty. All Land Rover Approved Accessories are rigorously tested to the same exacting standards as those applied to our vehicles. Performance in extreme hot and cold temperatures, corrosion resistance, impact and airbag deployment highlight some of the exhaustive product testing carried out to ensure accessories are both durable and importantly, continue to comply with current legislation. Some of the accessories featured are not available on all models. Please consult your nearest Land Rover Retailer for more information.

All our accessories are designed to be an integral part of Land Rover vehicles. While many items such as roof carriers are simple to fit, some products require specialist tools and diagnostic equipment to ensure correct integration with the vehicle structure and electrical systems. These products vary from market to market, please consult your Land Rover Retailer who will be pleased to advise you on current specifications and any query you may have.

The colors reproduced here are subject to the limitations of the printing process and may therefore vary slightly from the actual vehicle. The company reserves the right to alter or withdraw any color finish without notice. Some of these colors may not be obtainable in your country. Please check availability of colors and current specifications with your Land Rover Retailer. Distributors and Retailers are not agents of Jaguar Land Rover Limited and have absolutely no authority to bind Jaguar Land Rover Limited to any express or implied undertaking or representation.

Castrol EDGE Professional recommended by Land Rover.

Vehicle shown on front and back cover is Autobiography in Aruba with optional features fitted (market dependent).
