ABOVE & BEYOND

Ever since the first Land Rover vehicle was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomize the values of the designers and engineers who have created them. Each one instilled with iconic British design cues, delivering capability with composure. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Land Rover truly enables you to make more of your world, to go above and beyond.

INTRODUCTION

THE CONCEPT
OF THE DISCOVERY

Ever since it first took to the streets, mud tracks and deserts in 1989, the Discovery has blazed its own trail. From Alaska to Zambia, it has become synonymous with capability and versatility, whether off-road or in the city. The Discovery takes those characteristics, together with several innovations pioneered by Land Rover, to uncharted territories.

The Discovery is a quantum leap forward in SUV Design. A radical and sharply focused approach to embodying Land Rover's vision of the most versatile and capable SUV.

The Discovery combines the flexibility of a beautifully crafted full-size seven seat* interior, packed full of ingenious design details, with dramatic proportions, clean modern lines and a dynamic silhouette.

So wherever you want to go, whoever and whatever you want to take, the Discovery is every vehicle you'll ever need.

*Available as part of a package on SE and HSE and standard on HSE Luxury. Vehicle shown right is HSE Luxury in Namib Orange.

DESIGN

EXTERIOR

The vehicle’s exterior design is a revolutionary re-imagining of Land Rover for the next generation.

The Discovery is beautifully proportioned for a full-size SUV, with sleek, wrap-around headlights and tail lights combining with short front and rear overhangs to reduce visual length. A pronounced windshield angle, rising belt line and elegant, smoothly contoured shape, result in a streamlined and dynamic form which combines aerodynamic efficiency with exceptional interior space. The body-colored c-pillar, stepped roof and asymmetric element on the rear number plate panel all refer to the rich lineage of previous Land Rover model designs.

Vehicle shown left is HSE Luxury in Namib Orange.

CONTENTS	SPECIFICATIONS	FIND A RETAILER
		BUILD YOUR OWN

Clean flush elements, a dynamic rising waistline and wrap-around lights convey a strong sense of modernity. Beautifully designed LED lights have been developed to wrap-around the side of the vehicle to enable the indicators to be more visible. LED lights are fitted as standard on HSE and HSE Luxury and available as an option on SE.

The Discovery introduces a new level of refinement as demonstrated by its beautifully crafted and sculpted surfaces. The distinctive roof and feature lines rising towards the rear of the vehicle give it an assertive, recognizable stance that is further enhanced by the front and rear graphics. Sophisticated and urbane, the Discovery epitomizes the most compelling contemporary British design.

INTERIOR

The highly desirable interior is a re-imagining of the classic Land Rover design elements with the striking use of strong horizontal and vertical lines connecting through the main dashboard beam. The use of materials such as premium leather, authentic wood and metal trim, coupled with focused craftsmanship and precision, create an air of cultured modern living.

The 10" infotainment Touchscreen* helps you connect to the outside world and puts a wealth of entertainment and information at your fingertips. The astute use of both seating design and storage space helps deliver exceptional capability for you, your family and friends.

The new 12.3" Interactive Driver Display*† ensures you're always entertained, informed and connected. See page 41 for details.

*Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so.
†Standard on HSE and HSE Luxury. Optional on SE.
Interior shown is HSE Luxury in Light Oyster/Espresso.

UNCOMPROMISING ATTENTION TO DETAIL

An eye for detail. The finest materials. These are the qualities that our designers have carefully considered to help shape the interior. Added to which, sumptuous leather, beautifully finished handcrafted wood veneers, Noble Chrome details, Brushed Aluminum finishers and crafted stitching can be incorporated throughout the interior for added luxury.

Interior shown is HSE Luxury in Light Oyster/Espresso.

SEVEN FULL-SIZE SEATS*

The seven full-size seats* truly exemplify comfort and versatility. Divided across three rows and readily deployable, the Discovery is very well appointed. For instance, the second row enjoys a 60:40 slide and recline configuration, coupled with a load-through capability. Stadium seating ensures everyone can see the road ahead in the greatest comfort while the stepped roof allows for greater headroom in the second and third rows; such thoughtful use of space ensures everyone travels in comfort. Added to which, there are a number of comfort features available including heated seats across all three rows and cooled seats on the first and second row: please refer to page 90 for a full list of available options.

REMOTE INTELLIGENT SEAT FOLD**

On HSE and HSE Luxury, with third row seats, there's a choice of ways you can easily deploy the seats with our optional Remote Intelligent Seat Fold: from the Touchscreen†, switches located in the cargo space or via our innovative app from your smartphone. Imagine standing in a grocery line, using your smartphone app to reconfigure the seats in your Discovery to accommodate your shopping bags plus your children. The powered seat folding mechanism uses an intelligent control system which ensures the seats, including the headrests, fold away seamlessly and conveniently. The system understands when seats are occupied or have heavy items on them and, when folding, automatically adjusts their position to prevent interference.

*Available as part of a package on SE and HSE and standard on HSE Luxury. **Available as part of a package on HSE and standard on HSE Luxury. †Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so.

1 Second row legroom 37.5" 2 Third row legroom 33.5"

SPACE AND COMFORT

Each and every passenger in the Discovery enjoys a truly comfortable ride, with a generous amount of legroom offered. Those in the second row will find they have 37.5", while in the optional third row, a plentiful 33.5" is provided.

Even a team of seven adults can travel in comfort. And with slide and recline specified, you can configure the second row to optimize the available room even further.

Vehicle shown left is HSE Luxury in Silicon Silver.
Interior shown above is HSE Luxury in Light Oyster/Espresso.

STORAGE

The Discovery is brimming with thoughtful spaces in which to store away items you need to keep in your vehicle. From the upper and lower glovebox to central armrest storage with an optional cooler compartment, you'll find space in places you simply wouldn't expect.

The central armrest storage box can hinge back 180° to create a flat tray, should second row passengers require more storage, the door bins can also accommodate one liter bottles in the front and half liter bottles in second row. Standard on HSE and HSE Luxury, a neatly integrated push-operated hook to hang a small shopping bag sits flush in the front passenger footwell when not in use.

When third row seats* are selected, third row passengers benefit from individual storage spaces including within the side panel. In fact, across all rows there's more than enough space for even the most demanding of families.

Center console storage with an optional cooler compartment

Center console storage behind the climate controls**

Cupholders with additional storage beneath**

Upper and lower glovebox

Push operated hook**

Third row storage with lid

22 *Available as part of package on SE and HSE and fitted as standard on HSE Luxury.

		BUILD YOUR OWN

POWERED INNER TAILGATE

The Discovery features a powered inner tailgate, which when deployed can provide a platform for use at social and sporting events coupled with greater protection from the elements under the open tailgate. This platform also allows for easier loading and acts as a retainer when the cargo space area is filled. Powered inner tailgate is fitted as standard on HSE and HSE Luxury, and available as an option on SE.

POWERED GESTURE TAILGATE

Powered gesture tailgate allows you to operate the tailgate (both to open and close) from outside the vehicle without needing to physically touch the vehicle or the smart key. Provided that the smart key is detected, the tailgate may be operated by foot movement underneath the rear corner of the vehicle. Two sensors mounted on either side of the tailgate allow curbside operation, rather than needing to be immediately behind the vehicle. And as the system is compatible with towing solutions, you can still open and close the tailgate with the least amount of fuss. Powered gesture tailgate is fitted as standard on SE, HSE and HSE Luxury. Additionally, a button located inside the tailgate or on the smart key allows the tailgate to be closed automatically.

3 SEATS

2 SEATS

DRIVING CAPABILITY

TESTING

Before any vehicle can carry the Land Rover badge, it must complete a series of rigorous tests to establish the very highest levels of luxury, performance and capability.

SUSPENSION

You’re unlikely to push any Land Rover harder than we have. For an unrivalled breadth of dynamic capability both on and off-road, the vehicles have been exposed to ten years of the most extreme driving stresses in a fraction of the time using our state-of-the-art test rig.

WIND SPEED

The Discovery was developed in state-of-the-art wind tunnels and a suite of climatic chambers to recreate some of the most challenging aerodynamic conditions it will face. Only by pushing all systems to their limits do we develop true reliability.

HOT AND COLD CLIMATE

In real world environments and our climate chambers, we freeze vehicles to -40°F and bake them to 120°F. Key functions and systems are then scrutinized to our exacting standards. So even in the most remote locations, comfort and peace of mind are never far away.

OFF-ROAD

From the icy proving grounds of Arjeplog, Sweden, to Dubai’s unforgiving desert sands, we ensure our legendary all-terrain performance is innate in every vehicle. Prototypes are developed across approximately 5,300 miles of the most demanding off-road routes.

SEMI-ANECHOIC CHAMBER

In the ‘neutral sound’ of our semi-anechoic chamber we precisely expose the cabin to a range of frequencies and vibrations, making certain that the Discovery sounds refined at every speed and across every surface.

MONSOON

Our water testing facilities ensure each vehicle can enter and exit a body of water without a single droplet entering the cabin. In the monsoon simulator, each one is drenched with some 19,000 gallons of specially dyed water, while tilting it by as much as 45°, checking for even the slightest leak with UV lights.

ALL TERRAIN TECHNOLOGY

The Discovery not only looks truly at home in its surrounding, but also drives impeccably off-road. Its optimized geometry coupled with unique Land Rover technologies ensure it delivers exceptional all-terrain capabilities.

TERRAIN RESPONSE®

With over 65 years of all terrain expertise, this vehicle has Land Rover capability at its heart. Our proprietry Terrain Response® systems help the driver to optimize the vehicle's engine, transmission center differential and chassis systems to match the demands of the terrain, by selecting one of the easily identifiable driving modes. It also includes additional Rock Crawl Mode when your vehicle is equipped with electronic air suspension and two-speed transfer case*.

The optional Terrain Response® 2 system enhances this system even further by monitoring driving conditions and automatically selecting the driving modes to achieve the best possible chassis and powertrain set up for the conditions*.

ALL TERRAIN PROGRESS CONTROL

All Terrain Progress Control (ATPC) is an optional** system that enables drivers to set and maintain a steady speed in challenging conditions*.

Operating like a cruise control system, it functions at very low speeds between 1 mph and 18 mph, helping the driver to maintain concentration on steering and finding a path through obstacles.

Developed by Land Rover all-terrain specialists, the system works seamlessly alongside the Terrain Response® 2 and Four Wheel Drive (4WD) traction and braking systems*.

Once ATPC is activated, the standard steering wheel +/- cruise control buttons are used to set the speed. Brake and accelerator pedals can still override the chosen settings, with gentle braking achieving a reduction in speed.

-  General Driving
-  Sand
-  Grass, Gravel, Snow
-  Rock Crawl
-  Mud & Ruts

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving.
**Not available on SE.

Features and their availability may differ by vehicle. Please see pages 86-99, or contact your nearest Land Rover Retailer, for more information.
Vehicle shown left is HSE Luxury in Namib Orange.

HILL DESCENT CONTROL (HDC®)

Land Rover’s patented Hill Descent Control (HDC®) is a standard feature. It assists the driver with controlled descents of difficult slopes by maintaining a constant speed and applying braking separately to each wheel*.

Hill Start Assist is designed to help prevent the vehicle from rolling backwards as it pulls away on an incline*.

The vehicle also utilizes **Gradient Release Control** (GRC) which is designed to prevent the vehicle from accelerating too quickly on a steep incline when the driver releases the brake*.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving.
Vehicle shown is HSE Luxury in Namib Orange.

		BUILD YOUR OWN

PERMANENT FOUR WHEEL DRIVE (4WD) SYSTEMS

The Discovery features a choice of intelligent, permanent Land Rover Four Wheel Drive (4WD) systems* designed to deliver unrivalled capability. You can select from the following systems depending on capability requirements:

SINGLE SPEED TRANSFER CASE

This system has a single set of high range, road biased gears with the intelligence to sense wheel slip and move torque to the other axle to provide additional traction. It normally delivers 42 percent drive to the front axle with 58 percent drive biased to the rear axle. The center differential is reactive to wheel slip on one axle and can change the amount of bias to add more torque and traction to the other axle to support. This system is standard on SE and HSE.

TWO-SPEED TRANSFER CASE

A low range gear set can prove invaluable in challenging conditions such as steep inclines or declines, off-road driving or when towing. This system gives you precise speed and control in such instances. The heart of the two-speed system is the electronic center differential that offers a 50:50 torque split between front and rear axles with the ability to pre-emptively lock the axles before slip commences. Available as a combined option on SE and HSE and standard on HSE Luxury.

ACTIVE REAR LOCKING DIFFERENTIAL

The Active Rear Locking Differential – an option** when the vehicle has air suspension and two speed transfer case – offers an additional benefit of controlling the slip between the left and right wheels on the rear axle. This can be especially useful in low grip conditions such as on wet grass where the vehicle monitors the slip and torque between front and rear axles and also from one wheel to another on the rear axle to deliver effortless capability.

SUSPENSION

COIL SUSPENSION

Standard on the SE and HSE, Discovery has a fully independent coil sprung suspension system that combines double wishbones at the front with an advanced multi-link rear suspension design to create an agile and responsive chassis.

Ride comfort and stability when heavily laden are optimized through the use of additional secondary springs incorporated within the rear suspension.

ELECTRONIC AIR SUSPENSION

A sure-footed, composed drive is completed by the latest four-corner air suspension which provides exceptional wheel articulation and poise.

Capable of taking on tough situations, this system is designed to keep the Discovery composed even on rough terrain. For unprecedented ride quality, it switches heights seamlessly when necessary.

Air suspension also allows for innovative new access features to enhance versatility and ease of use.

Automatic Access Height is a feature which automatically lowers the ride height by 1.6" when the vehicle is parked.

Rear Height Adjust allows the use of switches in the cargo space or on the key fob to lower the rear ride height. See page 56 for more information.

Available as a combined option on SE and HSE with two-speed transfer case and standard on HSE Luxury.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. **Not available on SE. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

Features and their availability may differ by vehicle specification. Please see pages 86-99, or contact your nearest Land Rover Retailer, for more information.

Vehicle shown left is HSE Luxury in Namib Orange.

EFFICIENT TECHNOLOGIES

SUSTAINABLE CONSTRUCTION

The aluminum alloy used for much of the Discovery construction is from a high level of recycled aluminum. Using significantly less energy than primary aluminum to produce, it minimizes the vehicle’s environmental impact.

STOP/START

Discovery engines are all available with Stop/Start. This system shuts down the engine when you come to a complete stop and restarts the engine immediately when required.

LIGHTWEIGHT MATERIALS

At every stage of the development process, engineers maximized weight saving across all the vehicle’s elements. This produces an optimum balance between performance and weight saving for greater efficiency. The Discovery adopts an advanced all-aluminum body structure, delivering significantly reduced weight, improved performance and enhanced sustainability. Its tailgate is made from a lightweight plastic composite material which is also very stiff and strong, while high-precision lightweight magnesium castings are used for some of the body and chassis components.

DIESEL EXHAUST FLUID SYSTEM

Diesel models are equipped with a Diesel Fluid Exhaust (DEF) system to help clean exhaust gases. DEF is a non-toxic, non-flammable, biodegradable liquid that cleanses the gases in the vehicle’s exhaust system to reduce harmful nitrogen oxide emissions.

LOW FRICTION TECHNOLOGIES

The Discovery gas and diesel engine range uses smart coating technologies on pistons, needle roller bearings and other mechanical parts. This helps to reduce friction, especially at low engine temperatures, so the vehicle performs at its peak efficiency.

ADVANCED AERODYNAMICS

The modern streamlined design has been carefully optimized using advanced Computational Fluid Dynamics software and a wind tunnel. This has led to an improvement of up to 15 percent drag reduction when compared to its predecessor while still maintaining stadium seating and two additional seats in the optional third row. An enhanced rear spoiler has been designed with slots to direct airflow over the tailgate to minimize rear window soiling and produce a reduction in drag.

Vehicles equipped with electronic air suspension benefit from speed lowering where the vehicle automatically lowers by 0.5" to reduce drag when cruising at highway speeds.

Vehicle shown left is HSE Luxury in Silicon Silver.

CONTENTS	SPECIFICATIONS	FIND A RETAILER
		BUILD YOUR OWN

ON-ROAD DYNAMICS

The Discovery has been designed to deliver a confident, comfortable and engaging driving experience to make the miles go by virtually unnoticed.

With its wide-spaced double-wishbone design at the front and advanced multi-link layout at the rear, the suspension delivers more responsive handling without compromising Land Rover’s hallmark all-terrain capability.

Dynamic Stability Control (DSC) monitors the vehicle’s dynamic behavior, and it is designed to intervene if the system determines that the vehicle is not responding according to the driver’s inputs*.

The DSC system operates by reducing engine torque and/or applying the brakes on selected wheels to correct the vehicle’s cornering attitude and in addition can counteract understeer or oversteer conditions effectively. This system is standard on all models.

The Discovery’s sublime ride quality is heightened further by such features as Electronic Power Assisted Steering (EPAS), a variable ratio system and speed sensitive steering. Standard on all models, EPAS is integrated into driver and chassis systems, helping to reduce the engine load to aid efficiency and deliver a confident and intuitive drive*.

The variable ratio system has been tuned to provide ease of control, on or off-road, when driving in a straight line or when turning. Different gear ratios within the steering rack help to reduce steering sensitivity when driving straight, but enhances steering input when turning.

Speed sensitive steering increases the feel of the steering as your speed increases to give stability and a greater feel of confidence. It also assists you at lower speeds to aid maneuverability by lightening the required steering effort. This system is standard on all models.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Land Rover Retailer for more details.

38 Vehicle shown above and right is HSE Luxury in Silicon Silver.

TECHNOLOGY

INFOTAINMENT

Unique to Land Rover, the Land Rover InControl® infotainment system, the Touch Pro not only looks like no other, it performs like no other. Delivering a wealth of information and entertainment, it features intuitive and advanced integrated technologies to ensure everyone can make the most of their trip^Δ.

Search ‘Discovery Infotainment System’ for more details.

TOUCH PRO

Touch Pro is our state-of-the-art infotainment system that connects you to your world, delivers a plethora of entertainment options and puts all the information in one place.

INTERACTIVE DRIVER DISPLAY

The Discovery ensures you’re always entertained, informed and connected. It features a 12.3" high-definition Interactive Driver Display* that can receive and project a vast amount of driving information, entertainment and data including navigation, phone and media. Its high resolution ensures the utmost clarity and its refined processing engine delivers smooth moving pin sharp graphics.

HEAD-UP DISPLAY**

Without distraction or the need for you to take your eyes off the road, our enhanced next generation Head-up Display** is an option on HSE and HSE Luxury that presents key vehicle data such as your speed, gear position and navigation directions on the windshield in the most innovative way[†]. It features crystal clear full-color graphics in high resolution, enabling you to see all driver inputs and information with ease. It can display important information from the Touch Pro Touchscreen including phone and media information such as the name of the track you are listening to, as well as information and guidance for off-road driving via the All Terrain Info Center^Δ. The feature can be turned on and off dependent on driver preference.

REAR SEAT ENTERTAINMENT

The Rear Seat Entertainment[†] System provides two 8" screens built in to the rear of the front headrests. It includes ‘Trip Status’, a Navigation Summary screen which displays a pop-up for the rear occupant detailing the time and distance to destination. The system comes with a pair of WhiteFire® digital wireless headphones and HDMI, Mobile High-Definition Link (MHL) and USB connections.

*Standard on HSE and HSE Luxury. Optional on SE. **Requires infrared reflective glass. [†]Optional on HSE and HSE Luxury. [†]These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Land Rover Retailer for more details. ^ΔDriving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so.

AUDIO

A vehicle’s cabin is the ideal place within which to experience your personal choice of music and Discovery has the option of three different audio systems to bring your music to life:

ENHANCED SOUND SYSTEM

The Land Rover 250W Enhanced Sound System features 10 speakers and is standard on SE models.

MERIDIAN™ SOUND SYSTEM

Great definition, crystal clear highs and full, deep bass – delivered through this 380W system’s careful arrangement of 10 speakers plus a dual channel subwoofer. It is standard on HSE and available as an optional upgrade on SE models.

MERIDIAN SURROUND SOUND SYSTEM

All the fullness and clarity of a live performance delivered through an arrangement of this 825W system’s 14 front, side and rear speakers plus a dual channel subwoofer – seamlessly brought together using Meridian Trifield™ technology and exclusive to Meridian, Trifield perfectly blends the center and surround channels with left and right channels ensuring an optimum, consistent sound experience for each passenger. It is standard on HSE Luxury models and available as an optional upgrade on HSE models.

SIRIUSXM® SATELLITE RADIO AND HD RADIO™

The HD satellite radio technology offers improved sound quality, and a wide choice of stations and entertainment*. Standard on HSE and HSE Luxury and available as an option on SE.

*A 3-month trial subscription to the SiriusXM All Access package is included with the vehicle, which gives you access to 150+ channels of premium programming. Plus you can stream SiriusXM on your computer, smartphone or tablet – it’s included in your trial. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM at 1-866-635-2349. See the 22 SiriusXM Customer Agreement for complete terms at siriusxm.com. All fees and programming are subject to change. SiriusXM Satellite Radio is not available in Alaska or Hawaii.

CONNECTIVITY

Land Rover InControl® is the suite of standard and optional features that connects you to your vehicle and links you seamlessly, with the outside world. With a selection of apps, even when you're away from your vehicle, some of the InControl features stay with you, making sure the Land Rover experience is more enjoyable than ever*.

Search 'InControl' for more details.

STANDARD FEATURES

VOICE RECOGNITION SYSTEM

Understands clear spoken instructions, so you can concentrate on the road ahead without distractions**.

NAVIGATION PRO*

Fitted as standard on SE, HSE and HSE Luxury, Navigation Pro allows you to save your favorite places, use pinch and zoom gestures for simple map exploration and can display a choice of either 2D or 3D crystal clear map graphics.

CONNECT PRO PACKAGE*

Connect Pro consists of 4G Wi-Fi Hotspot[†], and Pro Services, and is designed to enhance your in-car and out-of-car experience, ensuring you and your passengers enjoy the journey while remaining connected to the world.

Pro Services include:

- **Real Time Traffic Information** – Uses live traffic data feeds to give you the most accurate picture of what the traffic is like on the way to your destination.
- **Online Search** – Wherever you are, you can search the surrounding area for places of interest. The system can access expert destination information, travel tips and inspiration as well as online travel reviews of the local area.
- **Planning Routes and Door-to-Door Routing** – Before setting off, use the optional Route Planner app or online to search, save locations or set your destination. The app uses the Cloud to send your destination automatically to your vehicle's navigation screen. Once you've parked, the Route Planner app will guide you to your destination – a true door-to-door experience which includes public transportation options.
- **Share ETA** – You can share your estimated time of arrival so your selected contact(s) will know exactly when you will arrive, as calculated by the navigation guidance system. If you're running late, Share ETA can then send automatic updates via text messages or email, without any further action from you.
- **Satellite View** – There may be times when you want to get the context of your surroundings from overhead. With Connect Pro you can switch to satellite view with a single tap.
- **Street Level Imagery** – To help you recognize your destination as you approach it, the screen can display a 360 degree panoramic street level image.

**Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. [†]Wi-Fi Hotspot is intended for passenger use only. InControl features may require an additional subscription with separate terms and conditions.

*Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control.

Vehicle shown above and right is HSE Luxury in Namib Orange.

STANDARD FEATURES CONTINUED

CONNECT PRO PACKAGE* CONTINUED

- **Fuel Prices** – This service not only finds gas stations along your route, it also enables you to compare fuel prices so you can keep your costs down.
- **Commute Mode** – Allows the system to learn your commutes and automatically advises you of the expected travel time based on live and historical traffic movements without you having to input a destination. The system learns the routes you take for a given destination and then advises which of those is the quickest.
- **Parking Service** – As you approach your destination, you can see where parking is available. Simply tap on your preferred parking and the navigation system updates to direct you to it.
- **Online Routing** – While you’re on your way to a destination the system monitors live traffic conditions and takes into account typical traffic patterns for that time of day, keeping you on the optimum route.

Remote app provides upgraded information on your vehicle and enables you to interact with it remotely. Compatible with most smartphones, Android™ Wear or the Apple Watch®, this service includes:

- **Remote Lock/Unlock** – Lock or unlock your doors remotely with the click of a button.
- **Remote Climate** – Prepare your Land Rover in advance by pre-heating or pre-cooling the cabin, so that you and your passengers are comfortable from the moment you step inside.
- **Beep/Flash** – This feature turns on your Land Rover’s hazard lights, flashes headlights and sounds an audible alert to help you locate your vehicle.
- **Journey Tracking** – This opt-in feature can automatically record your journey history including your route and mileage statistics. This information can be exported by email to use for expense reporting.
- **Vehicles Status Check** – Check current fuel level and range, and status of door and window position and locks. See the last parked location of the vehicle and find your way back to it with on-foot directions.

CONNECT PRO PACKAGE* CONTINUED

InControl Apps™ technology allows vehicle-optimized apps on your Android or Apple smartphone to be controlled through the vehicle’s Touchscreen, including contacts, calendar and music player via a USB cable to the USB slot. You can also download third-party apps offering a vast range of services†. Applications include:

- **Spotify**** – Access a library of more than 30 million songs with this seamlessly integrated app – the first true in-car, Spotify experience. Featuring all the same intuitive functionality as the Spotify smartphone app, you can search songs, stations and recommendations, create playlists and access your music in offline mode.
- **Tile††** – Helps you find lost or misplaced items in seconds. Attach a tiny Bluetooth® tracker Tile to your keys, wallet or bag. The easy-to-use Tile app can then help you find these items should they be misplaced. The app is accessible any time through your vehicle’s Touchscreen, allowing you to make sure you have everything you need with you, before you set off on your journey.

PROTECT

Land Rover Optimized Assistance – If you break down you can make a direct call to the Land Rover Assistance team by pressing the button on the overhead console or from the Assistance screen within the InControl Remote smartphone app.

*Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so.

**Only available on Apple smartphones. Not available on Android smartphones. †Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control. ††Requires InControl Apps ©2017 Tile Inc. Tile and the Tile design are trademarks of Tile, Inc.

INTERIOR ELECTRICAL OUTLETS

The Discovery is packed with the latest innovative technologies and USB charging points are available for all three rows of seats. So no matter where they sit, every single passenger can stay entertained; whether on their tablets, mobile phones or other devices*.

It includes a 12V port in the upper glovebox, one in the instrument panel, a USB port in the center console, one 12V and two USB ports in the cubby box, two 12V or USB ports in rear center console, two USB ports in the row three storage, one 12V in the luggage compartment, and two additional USB ports when Rear Seat Entertainment is fitted.

*Fitment of USB ports and 12V locations varies by trim level.
Interior shown is HSE Luxury in Light Oyster/Espresso.

OPTIONAL DRIVE PACKAGE†

Traffic Sign Recognition with Adaptive Speed Limiter

The optional Drive Package offers a range of features that help keep you informed. The Drive Package includes:

Driver Condition Monitor is designed to detect if you’re starting to feel drowsy and gives you an early warning when you need to take a break*.

Blind Spot Monitor and Reverse Traffic Detection is designed to alert you to vehicles in, or quickly approaching your blind spot. When a vehicle is detected, a small warning light will illuminate in the corresponding side mirror. If you indicate in the direction of the obstacle, the warning light will flash to highlight potential danger. Reverse Traffic Detection will also alert you with both audio and visual warnings so you know what’s behind you even when the view is obstructed*.

Traffic Sign Recognition and Adaptive Speed Limiter keeps you informed and aware on the road, by displaying speed limits and no passing signs in the instrument cluster, where they can easily be seen. When activated, **Adaptive Speed Limiter** uses Traffic Sign Recognition information to adjust your vehicle’s speed accordingly*.

OPTIONAL DRIVE PRO PACKAGE†

Blind Spot Assist

Making every trip more relaxing. The optional Drive Pro Package contains all the technologies within the Drive Package, plus the following enhancements:

Lane Keep Assist† is designed to detect when your vehicle is unintentionally drifting out of your lane, and to gently steer you back*.

Blind Spot Assist is designed to help prevent foreseeable collisions. If your vehicle detects another car in your blind spot when you begin to change lanes, this system provides precisely calculated steering torque – guiding your vehicle away from the approaching car.

Adaptive Cruise Control with Queue Assist and Intelligent Emergency Braking – See page 50 for description.

†Available on Discovery models when auto-dimming exterior mirrors are fitted. ‡Not available on SE models.

		BUILD YOUR OWN

ENJOY STRESS-FREE PARKING

The Discovery offers the most advanced technologies to deliver intuitive and easy parking solutions. Whether reversing, parallel parking or getting into or out of tight spaces, these features make life easier. Available as standard, optional or as part of an optional package. Search ‘Discovery Parking Assist’ for more details.

PARK FEATURES

Rear Parking Aid

Rear Parking Aid* helps make reversing into tight spaces easier. When you select Reverse, sensors located in the rear bumper are automatically triggered. As you park, the Touchscreen display and audio feedback indicates how close you are to obstacles[†].

CAMERAS

Surround Camera System

Rear View Camera* provides improved visibility when reversing. This valuable parking aid also helps when hitching a trailer. Static lines representing the vehicle’s outer perimeter and predicted path are superimposed on the rearward image, designed to make parking in tight spots as easy as possible[†].

Surround Camera System** uses four digital cameras discretely placed around the vehicle, providing a 360° overhead view on the Touchscreen. With the capacity to display several different views at the same time, this helps with various maneuvers from parking by a curb, to getting in and out of tight spaces and intersections[†].

PARKING AIDS

360° Parking Aid

Front[‡] and Rear Parking Aid* helps make maneuvering even easier. When you select Reverse, or choose to activate them manually, sensors located in the front and rear bumpers are triggered. As you park, the Touchscreen display and audio feedback indicates how close you are to obstacles[†].

360° Parking Aid^Δ gives you confidence when maneuvering in tight spaces. Sensors located around the vehicle are automatically triggered when Reverse is selected, or can be manually activated, with a graphic appearing on the Touchscreen showing an overhead view of the vehicle. As you park, the Touchscreen display and audio feedback indicates how close you are to obstacles[†].

PARK ASSIST

Park Assist

Park Assist^Δ (includes 360° Parking Aid) makes parallel and perpendicular parking easier than ever by steering your vehicle into a suitable space. You just have to select the appropriate gear and control the vehicle’s speed with the brake and accelerator pedals. Graphics and notifications guide you through the maneuvers. Park Assist will also steer you out of a space[§], taking the stress out of parking[†].

*Standard on SE, HSE and HSE Luxury. **Optional on HSE and HSE Luxury as part of the Vision Assist Package. Not available on SE. [†]These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Land Rover Retailer for more details.

[‡]Optional on SE and standard on HSE and HSE Luxury. ^ΔOptional on SE, HSE and HSE Luxury. [§]Park Assist is only programmed to steer you out of a parallel parking space. Park Assist is not designed to steer out of a perpendicular parking space.

DRIVING AIDS

LOW TRACTION LAUNCH*

The Discovery features a dedicated launch function, which is designed to assist launching on tricky low-friction surfaces like snow or wet grass. The software adapts the system’s behavior according to the current Terrain Response® setting. When you pull away, you do so with composure and greater ease.

	CONTENTS	SPECIFICATIONS	FIND A RETAILER
			BUILD YOUR OWN

TOWING AIDS

The Discovery takes towing capability to a new level, with a capacity of up to 8,201 lbs* and a suite of features available to help make towing effortless and assured.

- 1

TOW HITCH ASSIST

Tow Hitch Assist** makes coupling a trailer to the vehicle much easier by helping you visualize the hitching process; it displays the predicted path of the vehicle tow ball towards the trailer coupler on the Touchscreen. Standard with Surround Camera System.
- 2

REAR HEIGHT ADJUST

Rear Height Adjust allows the use of switches in the cargo space or on the key fob to lower the rear ride height – useful when loading or unloading cumbersome items, or when hitching, unhitching or loading a trailer. This feature is included with electronic air suspension.
- 3

TOW ASSIST

On the road, the Tow Assist feature helps with reversing by predicting the trailer’s direction**. You can even choose your trailer’s width for precise guidelines displayed on the Touchscreen. Standard with Surround Camera System.

*Towing capacity on Si6 engine only. Towing capacity for Td6 engine is 7,716 lbs. **These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving.
Please ensure you comply with relevant legislation in the USA.
Vehicle shown is HSE Luxury in Namib Orange.

GAS ENGINE

Si6 340HP

A Roots-type twin vortex supercharger is mounted in the ‘V’ between the two rows of cylinders for compact dimensions. Supercharging provides linear delivery of power and optimizes responsiveness.

The V6 engine also features dual independent variable cam timing to vary inlet and exhaust valve operation, working alongside lightweight pistons with ultra-low friction piston rings, for increased performance. For added refinement there is a counter-rotating balancer shaft system.

			CC
	ACCELERATION 0-60 MPH* (SECONDS)	TOP SPEED (MPH)*	CAPACITY (CC)
3.0L Si6 Gas 340HP	6.9	130	2,995

BODY AND CHASSIS

STRENGTH AND STABILITY

HIGH STRENGTH ALUMINUM CONSTRUCTION

With an advanced aluminum unibody, the Discovery enjoys greater levels of performance, together with improved strength and sustainability. It is nearly 1,000 lbs lighter than its predecessor*. Added to which, thanks to utilizing the latest in materials and build technologies, the vehicle can readily take the rugged use associated with off-road driving.

RUGGED SUSPENSION ARCHITECTURE

Another key factor in the driving capability of the Discovery is the rugged suspension architecture. Primarily constructed from aluminum components, the suspension is fully independent, with a widespaced double-wishbone design at the front and an advanced multi-link layout at the rear.

The suspension concept is specifically developed to maximize the unrivalled breadth of capability, offering responsive and agile handling together with supreme ride quality and refinement.

To see the available suspension options please see page 35.

SAFETY

OCCUPANT SAFETY PROTECTION

The body structure protects occupants using a strong and stable safety cell. The crash structure is optimized using computer simulation tools which allows engineers to conduct a significant number of ‘virtual’ crash tests long before physical prototypes are available.

The occupant safety package includes a comprehensive system of airbags and restraint systems including driver and passenger airbags, side curtain and thorax airbags and seat belt pretensioners*.

The Discovery features six standard airbags and eight airbags when seven seats** are specified.

SEAT BELT PRETENSIONERS*

Acting in conjunction with the airbags, they provide additional protection in the event of a front impact by reducing the forward movement of the occupant.

LATCH CHILD SEAT RESTRAINT SYSTEM POINTS

Up to four* lower LATCH/ISOFIX mountings and associated top tether anchor points are featured on the second and third row seats**†. These provide a more secure and easier way of installing child restraints.

CURTAIN AIRBAGS† WITH ROLLOVER SENSING

In the event of a side impact or rollover, curtain airbags are deployed to provide protection against head injuries.

DRIVING AND PARKING AIDS

The Discovery has been designed with driver assistance in mind. There are extensive driving and parking aids available including Autonomous Emergency Braking, Blind Spot Assist and Reverse Traffic Detection, Park Assist and Surround Camera System. In addition, LED lights have been cleverly developed to wrap around the side of the vehicle to enable the indicators to be more visible to improve safety. Adaptive LED headlights, available as an option on SE, HSE and HSE Luxury, combine practicality with distinctive design. For more relaxed night-time driving, adaptive lighting varies the light cast ahead of the vehicle so that the beams follow the curve of the road.

To see the range of driving assistance aids available please see pages 50-51.

To see the range of parking assistance aids available please see page 52-53.

PASSENGER SEAT BELT CHECK SYSTEM

*Outboard second row and third row seats only. **Available as part of a package on SE and HSE and fitted as standard on HSE Luxury. †Where third row seats are specified. †Please remember that the safety belts in a vehicle constitute the primary protection system for driver and passengers in collisions. Airbags are not designed to deploy in all collisions. The airbag Supplemental Restraint System (SRS) is a supplement to the safety belts and is designed to work as a system with the safety belts. Although airbags provide additional protection, airbags without safety belts do not provide optimal protection in a crash. Always wear your safety belts. Children younger than 13 years old should always be properly restrained in a back seat, away from airbags. Never place an infant seat in the front seat.

THE DISCOVERY OFFERS YOU
GREAT OPTIONS AND FLEXIBILITY
TO PERSONALIZE YOUR VEHICLE.

The following pages take you through a logical series of steps to make it suit your lifestyle. There are several choices: from selecting your engine and model to exterior and interior colors, wheels, finishes and those detailed touches to enable you to personalize your vehicle.

If you'd like to bring your options to life, go to our online configurator at landroverusa.com

78-79

80-99

1

STEP 1
CHOOSE YOUR ENGINE

You can select from a powerful gasoline or diesel engine.

2

STEP 2
CHOOSE YOUR MODEL
AND OPTIONS

Compare the standard and optional features on each model. There's also a choice of package options to personalize your vehicle.

2

EACH MODEL HAS A CHOICE OF
UNIQUE FEATURES

This guide will help you to select your ideal Discovery.
On the following pages you'll see the standard features for each model.

DISCOVERY SE

- Dark Atlas grille with Narvik Black surround
 - Dark Atlas fender vent ingots with Narvik Black surround
 - Dark Techno Silver tow eye covers
 - 19" 5 split-spoke 'Style 5021' alloy wheels
 - Halogen headlights
 - Automatic headlights
 - Rain sensing windshield wipers
 - Power fold, heated door mirrors with approach lights
 - Fixed panoramic roof
 - Infrared reflective windshield
 - Rear Parking Aid*
 - Rear View Camera*
- Keyless Entry
 - Powered gesture tailgate
 - Two-zone Climate Control
 - Seat Package 2 – grained leather seats and 12-way – (10-way electric) front seats
 - 60:40 load through rear seats with manual slide and recline
 - Ambient Interior Lighting
 - Enhanced Sound System 250W with 10 speakers (Touch Pro).

A WORLD OF LAND ROVER

LAND ROVER EXPERIENCE

Ever since its inception, Land Rover has been ready for anything. Its legendary capability has seen it tackle the most demanding of terrains, in the most difficult conditions. Its versatile interior has become synonymous with comfort and greater cargo space. And its ‘can do’ attitude has made it the most welcome of vehicles across the globe.

You can be part of the Land Rover story at one of our Land Rover Experience Centers. You can see how each and every one of these iconic vehicles is built. You can take one out onto off-road tracks where your driving skills will be put to the test. Or you can go even further on one of our Adventure Travel holidays to such countries as Tanzania, Iceland or Morocco.

Adventure awaits.

LAND ROVER ONELIFE

Onelife, the award-winning Land Rover magazine, is published twice a year and reaches customers in 40 countries. Each issue is filled with the latest Land Rover news and vehicles, insights into the technology and design that shape each vehicle, inspirational journeys and opinions from international experts.

LAND ROVER FINANCIAL SERVICES

Getting the keys to your very own Land Rover has never been so simple. And it’s more affordable than you might think. New or used, for personal or business use, we have an option that puts you in complete control. Please speak to your nearest Land Rover Retailer to find out more.

For more information, visit landroverusa.com

FLEET & BUSINESS

Land Rover is dedicated to being the premium manufacturer of choice for fleets and businesses, by providing a highly attractive range of vehicles and exemplary customer service.

Distinctive, capable and versatile, all Land Rover vehicles deliver low total cost of ownership through strong residual values, competitive service, maintenance and repair costs.

We are also committed to providing a totally customer focused aftersales service, which will ensure every Land Rover vehicle is kept on the road and in top condition, in the easiest and most cost-efficient way for businesses.

IMPORTANT NOTICE: Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. While every effort is made to produce up to date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Distributors and Retailers are not agents of Jaguar Land Rover Limited by any express or implied undertaking or representation.

All Land Rover Approved Accessories fitted by a Land Rover Retailer within one month or 1,000 miles (which ever occurs first) of the handover of a new registered vehicle will benefit from the same warranty terms and period of cover as the vehicle warranty. Accessories purchased outside of these parameters will be subject to a 12 month unlimited mileage warranty. All Land Rover Approved Accessories are rigorously tested to the same exacting standards as those applied to our vehicles. Performance in extreme hot and cold temperatures, corrosion resistance, impact and airbag deployment highlight some of the exhaustive product testing carried out to ensure accessories are both durable and importantly, continue to comply with current legislation. Some of the accessories featured are not available on all models. Please consult your nearest Land Rover Retailer for more information.

All our accessories are designed to be an integral part of Land Rover vehicles. While many items such as roof carriers are simple to fit, some products require specialist tools and diagnostic equipment to ensure correct integration with the vehicle structure and electrical systems. These products vary from market to market, please consult your Land Rover Retailer who will be pleased to advise you on current specifications and any query you may have.

The colors reproduced here are subject to the limitations of the printing process and may therefore vary slightly from the actual vehicle. The company reserves the right to alter or withdraw any color finish without notice. Some of these colors may not be obtainable in your country. Please check availability of colors and current specifications with your Land Rover Retailer. Distributors and retailers are not agents of Jaguar Land Rover Limited and have absolutely no authority to bind Jaguar Land Rover Limited to any express or implied undertaking or representation.

Castrol EDGE Professional recommended by Land Rover.
