 LEXUS

2007 LEXUS LS

Vehicle shown with available equipment.

THE NEW PLATINUM STANDARD. Innovative, inspiring and courageous, the all-new 2007 Lexus LS is the essence of a singular desire – to build the most sophisticated sedan on the road. From the world's first eight-speed automatic transmission, first available hands-free computer-controlled parallel parking,¹ first available infrared sensor that reads body temperature for optimum cabin climate, and rear seating as luxurious as a private jet, the Lexus LS is the new standard in the relentless pursuit of perfection.

Eight Forward Gears. One Reverse. Call It Priorities. Call it a world's first. Coupled to a new, incredibly powerful 4.6-liter V8, generating 380 horsepower² and 367 lb-ft of torque² the eight-speed automatic transmission finds 60 miles per hour in 5.4 incredibly smooth seconds.^{2,3}

Available World's Firsts: Luxury full-hybrid V8, Spring 2007 ■ Four-zone automatic climate control with infrared sensor ■ Advanced Parking Guidance System¹ on a luxury vehicle

2007 LEXUS **LS** Safety

THERE IS NO GREATER LUXURY THAN SAFETY.

Comfort in the Lexus is furthered through groundbreaking safety innovations, including an available Pre-Collision System⁴ that uses radar to detect possible obstacles ahead and, if an accident is inevitable, retracts front seatbelts while preparing Brake Assist⁵ for increased brakeforce. As well, the LS utilizes Vehicle Dynamics Integrated Management (VDIM)⁶ to greatly assist the driver in anticipating and helping to correct a skid during cornering. And in every LS, you'll find the confidence of an entire system of airbags,⁷ from dual-stage front airbags⁷ for frontal collisions, to side airbags⁷ built into the front seats, side curtain airbags⁷ that run the length of the side windows, and even knee airbags⁷ to help protect the driver and front passenger.

Safety Features: Extensive Airbag System (SRS)⁷ ■ Vehicle Dynamics Integrated Management (VDIM)⁶ ■ Dual-swivel Adaptive Front Lighting System (AFS) with High-Intensity Discharge (HID) headlamps ■ SmartAccess⁸ with push-button Start/Stop ■ Electronic Controlled Braking (ECB) Brake Assist⁵ ■ Electronic Brakeforce Distribution (EBD) ■ Automatic electronic parking brake ■ Available Pre-Collision System (PCS)⁴

2007 LEXUS **LS** Interior

REASON ENOUGH TO HIRE A CHAUFFEUR. Climb into the back of a Lexus LS 460 L equipped with the special-order Executive-Class Seating Package, and you enter the opulence of a private jet. There is a rear passenger-side, leather-trimmed, 45-degree reclining seat, complete with a legrest,⁹ DVD entertainment system, fold-out worktable and multifunction seat massager, all for unmatched comfort.

Available Rear-Seat Amenities: Right backseat reclines 45 degrees ■ Right backseat power-adjustable legrest⁹ and massager ■ DVD Rear-Seat Entertainment System (RSES) with power nine-inch screen ■ Rear-seat cool box ■ Retractable wood-trimmed table ■ Climate-comfort seats with heat/cool knob ■ Power rear-door sunshades ■ Power rear sunshade ■ Air Purifier ■ Four-zone climate control with rear-seat infrared sensor

2007 LEXUS **LS** Technology

Vehicles shown with available equipment.

FORWARD. REVERSE. AND NOW PARALLEL. Push a button, let go of the wheel, and watch your Lexus park. The available Advanced Parking Guidance System¹ masters parallel parking through a sonar and computer system, requiring only the slightest of braking from the driver, to glide the Lexus LS into any appropriately sized parking space.

FORECAST: SUBLIME. For optimal comfort, the LS uses an available infrared sensor to determine body temperatures for the backseat passengers, then adjusts the heating and cooling to predetermined temperature settings.

2007 LEXUS **LS** Mark Levinson® Audio System

Vehicle shown with available equipment.

ENCORE. Music connoisseurs will appreciate the available 19-speaker Mark Levinson® Reference Surround Sound Audio System.¹⁰ Boasting a tremendous 450 watts at 0.1% THD 20-20,000 Hz¹¹ inside one of the world's quietest cabins, coupled with an Automatic Sound Levelizer that intuitively raises and lowers volume should outside noise interfere, the Lexus LS offers a near-concert-quality experience.

Audio System Features: Hard Disc Drive (HDD) audio server with 2,000-song capacity
■ 19 speakers ■ Acoustically quiet cabin ■ 450 watts at 0.1% Total Harmonic Distortion (THD 20-20,000 Hz)¹¹ ■ 71-channel surround sound speaker architecture ■ In-dash, single-feed, six-disc DVD/CD auto-changer ■ Available XM® Satellite Radio¹²

2007 LEXUS **LS** Navigation

TRAFFIC MANEUVERS. Introducing Intelligent Driving. Utilizing 30GB of intelligence, the available Navigation System¹³ on the Lexus LS is our smartest and most dynamic. Thanks to the Hard Disc Drive (HDD) rather than DVD information retrieval, the Navigation System builds routes instantly against Real-Time Traffic situations including road construction and average speed of traffic flow. The XM® satellite-linked Lexus Navigation System is preloaded with over eight million points of interest, can understand over 100 spoken commands, and uses Bluetooth® technology¹⁴ for seamless cell phone integration. Add to that the brilliant screen in 32,000 colors, and it is as beautiful as it is smart.

Navigation System Features: 30GB Hard Disc Drive (HDD)

- Increased screen resolution and 32,000 display colors
- Voice-activated destination input
- Voice-activated dial-by-name and dial-by-number
- Dynamic route guidance¹³
- Spanish and French language guidance capability
- Real-Time Traffic updates provided by XM® NavTraffic™¹³

2007 LEXUS **LS** Performance

MULTIPLIED POWER. Through intelligent engineering, the LS offers significantly more power than ever before—380 horsepower² and 367 lb-ft of torque.² Its unique fuel-injection system utilizes both port and direct injectors for more precise delivery of fuel and better management of the air/fuel ratio in the combustion chamber. Part of what makes this direct injection so efficient is the piston's contour, which directs a richer concentration of gasoline toward the spark plug—resulting in more intense combustion. Also, dual Variable Valve Timing with intelligence (VVT-iE) continuously monitors the engine's speed and load, and responds by automatically increasing torque at lower speeds and increasing horsepower at higher speeds. Additionally, a new electronic intake valve control improves the dual VVT-iE's response in all temperatures over the previous hydraulic system. These innovations also help reduce emissions: The LS is rated an Ultra-Low Emission Vehicle. But most obviously, they bolster its elegant ride with seemingly unstoppable race-like power.

Performance Features: 4.6-liter V8 with dual Variable Valve Timing with intelligence (VVT-iE) ■ 380 hp² and 367 lb-ft of torque² ■ 0 to 60 in 5.4 seconds^{2,3} ■ Ultra-Low Emission Vehicle (ULEV II) ■ Electronic power steering (EPS) ■ Available Adaptive Variable Air Suspension (AVS) ■ Available high-friction brakes¹⁵

WARRANTY

Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the *LS Warranty and Services Guide* at your Lexus dealer for details.

FOOTNOTES & DISCLAIMERS

1. The Advanced Parking Guidance System requires driver brake control. Always look around outside the vehicle and use mirrors to confirm clearance. **2.** Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. **3.** Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. **4.** The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. Please see your *Owner's Manual* for further information. **5.** Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. **6.** Vehicle Stability Control (VSC) and Vehicle Dynamics Integrated Management (VDIM) are electronic systems designed to help the driver maintain control under adverse conditions. They are not substitutes for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC and VDIM will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. **7.** All the airbag ("AB") systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. Please see your *Owner's Manual* for further information/warnings. **8.** The Lexus Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. Please see your *Owner's Manual* for details. **9.** Contact with the Lexus Link® Call Center is limited by cellular connection availability and reception of GPS satellite signals, so sometimes you may be unable to contact the Call Center or receive emergency service support. Lexus Link system includes one year Safe & Sound service. Enrollment and Subscription Service Agreement required. Additional service packages are available for additional charges. **10.** Legrest may not fully recline based on height of rear-seat passenger. **11.** If legrest is in use, seating capacity could be reduced from four to three. **12.** Mark Levinson is a registered trademark of Harman International Industries, Inc. **13.** Continuous average power, all channels driven, at less than 0.1% THD; 20-20,000 Hz. **14.** Functioning XM® Satellite Radio requires a compatible receiver and monthly service fee. Please see your Lexus dealer for further details. Reception of the satellite signal may vary depending on location. All fees and programming subject to change. Subscriptions subject to the terms and conditions available at www.xmradio.com. Available only in the 48 contiguous United States. **15.** The Navigation System is designed to assist in locating an address or point of interest. XM® NavTraffic™ requires a monthly service fee and is designed to provide real-time traffic or alternative routes of travel. Discrepancies may be encountered between the system and your actual location. Road system changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available in every city or roadway. Periodic Navigation updates available at an additional cost. Please see your *Navigation System Owner's Manual* for further details. **16.** The Bluetooth® technology phones listed on lexus.com have been tested for compatibility with Lexus vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Lexus. **17.** High-friction brakes require periodic inspection and measurement as outlined in the *Warranty and Services Guide*. The pads and rotors are expected to experience greater wear than conventional brakes. Pad life may be less than 20,000 miles, and brake rotor life may be less than 50,000 miles, depending on driving conditions. **18.** The backup camera, available only with the Navigation System, does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. **19.** 18-in or 19-in tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles, depending on driving conditions. **20.** The OEM wheel size (19-in for Touring Model/18-in for all others) cannot be changed without risking damage to the vehicle. If you replace the wheels, be sure they are the same size as the original wheels. **21.** Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your *Owner's Manual* for important cautions and instructions. **22.** Headphones are for passenger use only. Do not use while operating vehicle. **23.** Trunk space is reduced with this package. See specifications. **24.** 2008 EPA-estimated mpg. Actual mileage will vary. **25.** iPod is a registered trademark of Apple Inc. **26.** The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system.
