

IS F

14

IT LEAVES MORE THAN AN IMPRESSION.
IT LEAVES A LEGACY.

IS F As the vehicle that launched the high-performance F Line, the IS F is the fastest, most dominant sedan Lexus has ever built. A 5.0-liter V8 engine. 416 horsepower.¹ 0-to-60 in 4.6 seconds.^{1,2} A track-tuned suspension honed on the grueling Fuji International Speedway. A true performance car for serious driving enthusiasts.

A. Red and Black leather with Black Alcantara® with red perforations interior trim **B.** 19-in forged alloy wheels³ by BBS
C. Electroluminescent instrumentation **D.** Chrome- and leather-trimmed shift knob and Dark Aluminized Composite trim
E. Accessory carpet trunk mat. For a complete list of Genuine Lexus Accessories, visit lexus.com/ISF/accessories **F.** Perforated leather-trimmed steering wheel with paddle shifters

PURE EXHILARATION,
 PRECISION ENGINEERED.
 THE 2014 IS F

V8 ENGINE

Even the finest detail is precisely engineered for maximum performance. The 416 hp¹ and 371 lb-ft of torque¹ from the IS F's 5.0-liter V8 deliver a 0-to-60 time of just 4.6 seconds.^{1,2} It's a technological tour de force that includes titanium intake valves, direct and port fuel injection, a compression ratio of 11.8:1, and Variable Valve Timing with intelligence and Electronic intake valve timing (VVT-iE).

TRACK-PROVEN

To satisfy their craving for hardcore performance, a small group of hand-selected rogue engineers precisely engineered every detail of the IS F between their regular assignments. The result: a monster that proved itself at racetracks around the world, including Circuit Paul Ricard in France; Circuit Zolder in Belgium; and the IS F's home circuit, Fuji Speedway in Japan.

EIGHT-SPEED SPORT DIRECT SHIFT

The IS F's eight-speed Sport Direct-Shift transmission with paddle shifters features full torque-converter lockup for gears two through eight for improved responsiveness, plus a control system that enables virtually instant manual upshifts as quick as 0.1 seconds. It also blips the throttle on downshifts, while giving the driver full control over gear selection.

OPTIMIZED SUSPENSION

The front of the IS F uses a double-wishbone design with high-mount upper arms. The front and rear monotube gas-pressure shock absorbers are employed with stiff springs and a large stabilizer bar—all optimized to precisely control body and wheel motion. The rear suspension utilizes a multilink form and, like the front suspension, is extensively tuned to improve turn-in response and handling dynamics.

TORSEN® TORQUE-SENSING REAR DIFFERENTIAL

The IS F is equipped with a limited-slip TORSSEN® torque-sensing rear differential.⁴ This particular feature intuitively channels more power to the rear wheel with the greatest traction without interrupting engine output, unlike traditional traction control systems. The increased traction means more power and more exhilarating performance through turns and curves.

BREMBO® BRAKING SYSTEM

Fast, consistent braking is not only essential for safety, it also helps reduce lap times. Brembo crafted a special, high-performance braking system⁵ for the IS F, which includes massive six-piston aluminum calipers that clamp huge 14.2-inch cross-drilled and ventilated rotors in front and two-piston calipers with 13.6-inch cross-drilled and ventilated rotors in the rear. Working together, they are designed to consistently provide short stops—on track or off.

PERFORMANCE ENGINE TECHNOLOGY

The IS F's 5.0-liter V8 engine has an insatiable appetite for air. A sophisticated dual intake system provides smooth power at low-to-medium speeds, then opens wide at elevated rpm for maximum power and torque. Additionally, it features an oil scavenge pump with a unique cooling system that helps separate air from the fluids to compensate for the stresses of high-performance driving.

SPORT SEATS

Highly bolstered leather-trimmed sport seats help support aggressive driving by helping to keep you firmly in place through turns. The front seats are heated and fully adjustable for optimal comfort and control. And there are three available interior colors (including a new black and red combination), each featuring leather and Alcantara trim with contrast stitching and Dark Aluminized Composite accents.

KEY STANDARD FEATURES

Carbon fiber rear spoiler // Brembo brakes⁵ // Bi-Xenon™ High-Intensity Discharge (HID) headlamps with dynamic auto-leveling // LED daytime running lights (DRL) // SmartAccess^{6,7} with push-button Start/Stop // Dual-zone climate control with interior air filter and smog sensor // Perforated leather interior trim // Hand-finished Dark Aluminized Composite interior trim // Lexus Memory System to power driver’s and front passenger’s seats, outside mirrors and steering wheel // Heated front seats // Electroluminescent instrumentation // Quad chrome exhaust tips // Steering-wheel-mounted VDIM⁸ Sport Mode button // 13-speaker Lexus Premium Sound System with in-dash, single-feed, six-disc CD auto-changer // Bluetooth® technology⁹ // USB iPod®¹⁰/ iPhone®¹¹ connectivity

“WITHOUT QUESTION, THE 2013 LEXUS IS F IS EXCITING TO DRIVE.”

—EDMUNDS.COM, 2013

WARRANTY Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the *IS F Warranty and Services Guide* at your Lexus dealer for details. **DISCLOSURES** 1. Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. 2. Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. 3. 19-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles, depending upon driving conditions. 4. **TORSEN®** is a registered trademark of Zexel Torsen, Inc. 5. High-friction brakes require periodic inspection and measurement as outlined in the *Warranty and Services Guide*. The pads and rotors are expected to experience greater wear than conventional brakes. Pad life may be less than 20,000 miles, and brake rotor life may be less than 50,000 miles depending on driving conditions. 6. The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 7. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local *Yellow Pages* or by contacting www.aloa.org. 8. Vehicle Stability Control (VSC) and Vehicle Dynamics Integrated Management (VDIM) are electronic systems designed to help the driver maintain control under adverse conditions. They are not substitutes for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC and VDIM will be effective in preventing a loss of control. See *Owner's Manual* for further details. 9. **Bluetooth®** technology phones listed on lexus.com have been tested for compatibility with Lexus vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Lexus. The **Bluetooth** word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Lexus is under license. Other trademarks and trade names are those of their respective owners. 10. **iTunes®** and **iPod®** are registered trademarks of Apple Inc. All rights reserved. 11. **iPhone®** and **iPad®** are registered trademarks of Apple, Inc. All rights reserved. 12. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. See *Owner's Manual* for further information. 13. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. See *Owner's Manual* for details. 14. Availability and accuracy of the information provided by the Navigation System or any SiriusXM™ and/or HD Radio™ services mentioned (if installed) are dependent upon many factors. Use common sense when relying on information provided. Services not available in every city or roadway. Periodic Enform app updates do not include Navigation updates. Navigation updates are available at an additional cost from your local dealer. See *Navigation Owner's Manual* or contact SiriusXM for details. 15. XM services require a subscription after trial period. Subscriptions governed by SiriusXM™ Customer Agreement available at SiriusXM.com. **If you decide to continue your SiriusXM™ service at the end of your complimentary trial, the plan you choose will automatically renew and bill at then-current rates unless you call 1-877-515-3987 to cancel.** Fees and programming subject to change. Available only to those at least 18 years of age in the 48 contiguous United States and D.C. 16. Always drive safely, obey traffic laws & focus on the road while driving. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data, you are responsible for all charges. Apps/services are subject to change. Apps identified by ™ or ® are trademarks or registered trademarks of their respective companies. For enrollment, cost and more details, see lexus.com/enform. 17. HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquity Digital Corp. 18. Coverage and Service may not be available in all areas. 19. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather may limit effectiveness and view may become cloudy. 20. Continuous average power, all channels driven, at less than 0.1% THD; 20–20,000 Hz. 21. **Mark Levinson®** is a registered trademark of Harman International Industries, Inc. 22. 2014 EPA-estimated ratings. Actual mileage will vary.

Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, and are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.
