

2016

IS

INTRODUCING THE 2016 IS

IS 200t

Aggressive styling, all-new 2.0-liter turbocharged in-line 4-cylinder engine delivering 241 horsepower¹ and 258 lb.-ft torque¹, and eight-speed Sport Direct-Shift transmission with paddle shifters. Zero to 60 in 6.9 seconds.^{1,2} Rear-wheel drive.

IS 300

Full-time all-wheel drive (AWD) with a 3.5-liter V6 engine delivering 255 horsepower¹ and 236 lb.-ft torque¹, and six-speed transmission with paddle shifters. Zero to 60 in 6.1 seconds.^{1,2}

IS 350

Dynamic performance provided by a 3.5-liter V6 engine delivering 306 horsepower¹ and 277 lb.-ft torque¹, and eight-speed Sport Direct-Shift transmission with paddle shifters. Zero to 60 in 5.6 seconds (RWD)^{1,2}/5.7 seconds (AWD).^{1,2} Rear-wheel drive or available all-wheel drive.

IS F SPORT MODELS

In addition to the three IS engine choices, each model can be taken to the next level with a more dynamic F SPORT-tuned suspension, and bold interior and exterior styling including F SPORT front seats with enhanced bolsters. An Adaptive Variable Suspension (IS 350) and Variable Gear-Ratio Steering (IS 350 RWD) are also available.

CHOOSE YOUR FAST LANE.

For those who refuse to follow, the new 2016 IS line boasts more ways to lead than ever before. With three models and exhilarating power across the board, choosing from the all-new IS 200t, the all-new IS 300 and the IS 350 may be the most thrilling decision you'll ever make.

ALL STYLE. ALL SUBSTANCE.

With an array of performance options, the IS line not only turns heads on the road, it even refuses to go unnoticed while parked. Punctuating its aggressive stance, you'll find arresting details like inset LED daytime running lights and a sculpted line that moves from the rocker panel through the rear wheel arch and culminates in the dramatic sweeping taillamp.

**THREE MODELS.
ONE QUANTIFIABLE DIFFERENCE.**

While the engines of the most powerful IS line ever may differ, the result is the same: full-throttle exhilaration. Need proof? The numbers speak for themselves.

The IS 200t wields an efficient and highly responsive 241-horsepower¹ turbocharged engine. Featuring standard all-wheel drive, the IS 300 offers heart-racing power courtesy of an impressive 255-hp¹ engine. And for the ultimate experience, the IS 350 has a lightning-fast eight-speed Sport Direct-Shift transmission and rockets ahead with 306 horsepower¹.

IT'S ALL IN

THE NUMBERS.

IS 200t AND IS 300

When developing the first-ever IS 200t, we didn't outsource our turbocharger design like some automakers. It was engineered with our own highly evolved twin-scroll turbocharger technology. The result? An impressive 241 horsepower¹ and 258 lb-ft of low-end torque,¹ for responsive performance that you can feel the moment you accelerate.

And, when pushing the IS 300's 255-horsepower¹ V6 above 4,500 RPM, the cabin is filled with a throaty engine note that complements the invigorating all-wheel drive performance of the vehicle itself.

IS 350

Boasting an impressive 306-horsepower,¹ 3.5-liter V6 engine, the IS 350 demands its share of attention. But the technology inside is also noteworthy. The IS 350 offers the advantage of ingenious dual Variable Valve Timing with intelligence (VVT-i), which helps provide enhanced fuel efficiency, added torque at lower speeds and greater acceleration at higher speeds.

IS shown in Redline.

MULTIPLE TRACKS. ONE PURPOSE.

Connecting the driver and the road in a visceral way should never be left to chance. Which is why the IS was tested and tuned on the world's most iconic tracks, including Fuji Speedway.

Each test refined the IS to the point of precision.

The highly rigid body is courtesy of laser screw welding techniques, varied panel thicknesses and an innovative adhesive bonding process. While the steering system is optimized to offer greater feedback and responsiveness. In addition, a wide track offers greater control and agility, helping the IS to master every curve and stretch.

PADDLE-SHIFT TRANSMISSIONS

Brace yourself for an uninhibited driving experience. For added engagement and lightning-fast gear changes, every IS features steering-wheel-mounted paddle shifters. The IS all-wheel drive models are equipped with a six-speed automatic transmission, while rear-wheel drive models feature a Sport Direct-Shift eight-speed automatic transmission that includes downshift throttle-blipping for more precise shifting and quicker response.

MASTER THE ROAD UNDER ANY SKY.

ALL-WEATHER DRIVE

Fun doesn't have to take a snow day with the IS 300 and IS 350 AWD. By automatically allocating engine power between the front and rear axles from 50/50 to as much as 30/70, all-wheel drive can help provide enhanced traction and control on a wide range of road surfaces and conditions.

360- DEGREE CONTROL

From climate controls adjusted with the slide of a finger to a Drive Mode Select dial that enables you to make your vehicle more responsive, innovation surrounds you inside and out, keeping you a step ahead, every step of the way.

Though the interior was designed for the driver, every seat can be enjoyed. In the front, it's the liberating combination of low-set seating with high-tech innovation, while passengers in the rear enjoy spacious comfort. Convenience is also provided with the versatility of 60/40-split fold-down rear seats.

THE NEXT LEVEL OF CONNECTIVITY

Lexus Enform,⁴ our available suite of branded connected services, consists of five products, each of which offers unique ways to enhance the driving experience. With a complimentary first year of service—entertainment, convenience and peace of mind are now within reach.

SAFETY CONNECT

Lexus Enform Safety Connect⁵ offers you the peace of mind of knowing that assistance can be there when you need it most. Whether you're involved in a collision and unable to call for help, your vehicle is stolen, or there is some other type of emergency, assistance can be sent directly to your vehicle's GPS location.

SERVICE CONNECT

Our new Lexus Enform Service Connect⁶ offers remote access to information about your vehicle's status and maintenance needs. Easily accessed through LexusDrivers.com or the My Lexus and Beyond mobile app, you can get information on everything from your vehicle's fuel level and mileage to maintenance alerts and vehicle health reports.

REMOTE

The Lexus Enform Remote⁷ mobile app can remotely start the engine, lock and unlock doors, check the status of doors and windows as well as your fuel level, and can help find your vehicle's location in a parking lot. And, should you loan your Lexus to another driver, you can receive instant alerts if, for example, a preset speed or mile limit is exceeded.

DESTINATIONS

Lexus Enform Destinations⁴ offers convenient 24-hour, en-route navigation assistance from a live response center agent who can help you find locations and automatically upload the destinations to your available Navigation System.⁸ Planning a trip? You can also search, save and upload destinations from the comfort of your home or office.

APP SUITE

The Lexus Enform App Suite⁴ offers access to your favorite mobile applications through your vehicle's center-console display. After downloading the app on your compatible smartphone, you can search local listings, stream music, place restaurant reservations and buy movie tickets—all from the center-console display.

DELIVERY AND TECHNOLOGY SPECIALISTS

To help you get the most out of these and other Lexus features, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled iPad^{®9} apps like FaceTime.^{®10} Learn more about these complimentary services at lexus.com/specialists.

BLIND SPOT MONITOR

To help you change lanes with confidence, the available Blind Spot Monitor¹¹ is designed to detect and warn you of vehicles approaching or positioned in the adjacent lanes. And when you're backing out of a parking spot, the Rear Cross-Traffic Alert¹² is designed to notify you of approaching vehicles that might be out of camera view.

RESPONSIVE, INSIDE AND OUT.

PRE-COLLISION SYSTEM

The available Pre-Collision System (PCS)¹³ is engineered to detect an imminent frontal collision and, while retracting the front seatbelts, automatically prepares Brake Assist¹⁴ for increased braking response, and is even designed to automatically begin braking before impact, to help reduce impact energy.

3-D NAVIGATION

This available voice-activated system⁸ can map millions of points of interest across the country and can display information in English, French and Spanish. And, in addition to offering up-to-date traffic and weather information,¹⁵ 3-D city views, and simulated views of approaching highway junctions, it displays the current speed limit and can automatically identify nearby fuel stations if you begin to run low on fuel.

TOUCH CLIMATE CONTROLS

Hot? Cold? Just swipe. Even its dual-zone climate-control system is precision-tuned. Electrostatic touch-based controls enable you and the front-seat passenger to change the temperature one degree at a time by swiping a finger up or down the control, or by pressing the arrows themselves.

VOICE RECOGNITION

Command your IS with ease. The available advanced voice command enables you to place compatible *Bluetooth*^{®16}-enabled phone calls and operate climate, audio and navigation functions using normal, everyday speech. If you say “It’s too hot in here,” for example, the climate control will automatically lower the temperature by four degrees. With Enhanced *Bluetooth* technology,¹⁶ compatible *Bluetooth*¹⁶ mobile-phone address-book contacts can be viewed and accessed on the Navigation System⁸ display or via voice command.

MARK LEVINSON[®] AUDIO

Power isn’t limited to performance on the road. The available 15-speaker, 835-watt Mark Levinson Premium Surround Sound Audio System³ is powered by a 12-channel digital amplifier and features a DVD/CD player. The rear speakers employ an acoustic lens design. By significantly widening the dispersion of sound, a larger “sweet spot” is created, enveloping every passenger with three-dimensional sound that rivals the finest home-audio systems.

DEFY MODERATION

BOLSTERED F SPORT SEATS

Feel confidence through every curve with F SPORT front seats designed to hold you through even the most aggressive of turns. Featuring enhanced bolsters and a unique foam-injected construction designed to cradle the driver, these sport seats will have you wrapped from hip to shoulder—especially in high-G situations. Their low position helps place the driver's hip point as close as possible to the vehicle's center of gravity for a more dynamic driving experience.

EXHILARATION ON DEMAND.

DRIVE MODE SELECT

Customize your dose of adrenaline. On every IS, Sport S mode alters the powertrain for faster gear changes and more dynamic throttle mapping. Sport S+ mode on the IS 350 F SPORT goes a step further by tightening the suspension for reduced body lean, and provides greater steering response when equipped with Variable Gear-Ratio Steering. In every model, the transmission's shift points are automatically altered coming into and out of corners for sharper acceleration.

THE INSPIRATION
A 1,500°C blue flame

THE RAW MATERIAL
Ultrasonic Blue Mica 2.0²⁹ pigment from
98-year-old Kansai Paint Company

THE METHOD
SONIC paint technology aligns the angles of
reflective particles for uniform reflectivity

THE APPRENTICE
Lexus mapped the painting motions of a
master craftsman in order to duplicate the
technique with robots

THE ART OF COLOR

One unexpected moment of inspiration, years of development and zero shortcuts. This is the art of creating art. A combination of passion for design and industry-leading knowledge, every Lexus color features stories and processes as unique as their hues. Take the Ultrasonic Blue Mica 2.0²⁹. Designed to convey passion and power, it was inspired by and created specifically to mimic the color and intensity of a 1,500°C blue flame. It's an effect not left to chance, which is why Lexus sources pigment from a company in Osaka—one that's been perfecting its craft for 98 years and counting. It's also why every Lexus painting facility features indoor waterfalls to trap and wash airborne dust particles away so they don't inconspicuously mar the vehicle's finish. Even science plays a role. Lexus created a technique that more uniformly aligns the angles of the reflective particles in paint to better accentuate the vehicle lines. Then mapped the motions of arguably the most gifted automotive painter in the world in order to have robots duplicate his craft on every Lexus vehicle. Because the only thing more important than creating a stunning work of art is making sure each is as stunning as the last.

WARRANTY Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the *IS Warranty and Services Guide* at your Lexus dealer for details.

DISCLOSURES

- 1.** Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease.
- 2.** Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt.
- 3.** Mark Levinson® is a registered trademark of Harman International Industries, Inc.
- 4.** Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps & services subject to change. See [lexus.com/enform](#) for details.
- 5.** Contact with the response center may not be available in all areas. Service Agreements required. A variety of subscription terms available; charges will vary. See [lexus.com](#) for details.
- 6.** Information provided is based on the last time data is collected from the vehicle and may not be up to date. System functionality depends on vehicle connectivity.
- 7.** Use only if aware of surroundings, aware of other vehicles, and it is legal & safe to do so (e.g., car uncovered in open area, no people or pets in or nearby). If vehicle has been driven away from location, service may not be available until next time vehicle is started. Functionality depends on many factors, such as weather and starting conditions. Always drive properly and follow all applicable laws and Owner's Manual. Data charges may apply. Registration, download and activation required. See [lexus.com](#) for details. Safety Camera icon requires annual fee required after 1-year trial.
- 8.** Be sure to obey traffic laws and maintain awareness of road and traffic conditions at all times. Liability for accuracy of the information provided by the Navigation system dependent upon user input and/or sensor error. Accuracy of information provided. Services and programming subject to change. Not available in all areas. Some features may not be available in some jurisdictions. Additional cost from your dealer. See [Navigation System Owner's Manual](#) for details.
- 9.** Information received from external networks of Lexus Inc. All rights reserved.
- 10.** Face LIME™ is a registered trademark of Lexus Inc. All rights reserved. Please refer to the Blind Spot Monitor, Monitor. Always look over your shoulder and use your turn signal. Limitations to the use of the system include, but are not limited to, the following:
• For a complete list of limitations and directions regarding the use of the system, see Owner's Manual.
• The system does not detect cross-traffic in the blind spot.
• Cross-traffic detection system. Always look over your shoulder and use your turn signal to confirm right-of-way before changing lanes.
• The system does not detect lane departure, range or clarity of the system. To learn more about the system, see the Pre-Collision System section of the Owner's Manual.
• The system does not reduce the risk of speed and damage in certain frontal collisions where the other vehicle is larger than the own-

[illegible]

20. The vehicle performance may be affected if the immobilizer system may interfere with the engine. The immobilizer should not be used for the ignition switch or bring the vehicle into the engine. If the code in the transponder chip is not the same as the code in the immobilizer, the engine will not start. The transponder chip is embedded in the keyfob. It can be costly to replace a keyfob. Please contact your local dealer for help. Alternatively, you may contact your local police or by contacting your local law enforcement.

21. All the anti-theft (AT) systems are Subject to the Federal Motor Vehicle Safety Standards and in certain types of severe collisions or accidents, the AT system may not function properly.

20. In frontal collisions, side- and side-turtling accidents, and in side-impact accidents, the ABs will not inflate. To decrease the chance of injury from such incidents, the ABs are designed to inflate only from an inflating AB, always wear seatbelts sitting in the middle of your seat as far back as possible and do not lean against the center console or other interior objects in front of an AB or around the seat belt. Do not use rearward-facing child seat in any front passenger seat. The force of a crash can may cause serious injury or death. See *Owner's Manual* for further information and warnings. **21.** Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. See *Owner's Manual* for details. **22.** Do not rely exclusively on the Intuitive Parking Assist system. Always look over your shoulder and use mirrors to confirm clearance. System effectiveness depends on many factors. See *Owner's Manual* for details. **23.** The rearview camera does not provide a comprehensive view of the rear area around the vehicle. You should also look around outside your vehicle and use all available side and rearview mirrors. Hold weather vanes limit visibility and wind machines can blow dirt and water onto the mirror. **24.** The rearview camera does not work in low light conditions and may not function if it is too dark or cloudy. **25, 27.** For more information about the rearview camera, see the section titled "Rearview Camera" in the *Owner's Manual*.

air and road clearance. Cold weather may limit performance and new may become cloudy. **25:** 17- or 18-in. performance tires may experience greater tire wear than conventional tires. Tread life may be substantially less than 20,000 miles (17-in) or 15,000 miles (18-in), depending upon driving conditions. **26:** Vehicle Dynamic Control (VDC) and Vehicle Dynamic Management (VDM) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. VDC and VDM may not constitute a substitute for safe driving practices. Factors including speed, road conditions, and driver steering input can all affect whether VDM is effective in preventing a loss of control. See *Owner's Manual* for full details. **27:** F SPORT Accessories are warranted for 12 months from the date of installation or for the balance of the new-car or Certified Pre-Owned (CPO) warranty, whichever is longer, in force at the date of installation, whichever is greater, when installed by an authorized Lexus dealer. F SPORT Accessories installed by anyone other than an authorized Lexus dealer are warranted for 12 months from the date of purchase only, and the warranty is limited to the replacement value of the F SPORT Accessories. These warranties do not cover maintenance services such as replacement of brake pads/linings and clutch linings or noise, vibration, cosmetic conditions and other deterioration caused by normal wear and tear. Partial or improper installation by anyone other than an authorized Lexus dealer may void the F SPORT Accessories warranty, the new-car warranty or both. F SPORT is a trademark of Toyota Motor Corporation. Products available through participating Lexus dealers. **28:** The F SPORT performance air intake is to be sold as a dealer-installed or over-the-counter option after the retail sale of the vehicle. The performance air intake may not be sold to the customer at the same time as the new vehicle and may not be financed together with the new vehicle. Please see the F SPORT catalog, visit www.lexus.com/sport or call 800-423-1680 for a complete list of F SPORT products and warranty information. Emission-legal for aftermarket sale via C.A.R.B. Executive Order. **29:** Ultrasonic Blue Mica 2.0 available for an additional charge of \$595.

Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, and are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.
