

2017 LINCOLN
MKT

BY EMBRACING YOUR OPTIMISM AND DRIVE

PROCEED CONFIDENTLY IN MKT.

A sophisticated fusion of design and function, Lincoln MKT entices you with an alluring exterior. Then it charms with an exquisitely tailored and blissfully quiet interior. On the road, MKT delivers a responsively exhilarating and remarkably smooth ride courtesy of sophisticated technologies like Torque Vectoring Control and Electric Power-Assisted Steering (EPAS). Lincoln Drive Control¹ featuring Continuously Controlled Damping (CCD) even lets you switch between 3 drive modes – Comfort, Normal or Sport – for a personalized experience.

3.5-LITER GTDI V6 FOR A SPIRITED RIDE.

Turbocharge your travels. MKT matches your fast-paced life with this 365-hp² twin-turbocharged, direct-injection engine! You'll especially enjoy its substantial low-end torque when you accelerate to pass other vehicles or to enter a highway. The 3.5-liter engine is combined with Intelligent all-wheel drive (AWD) for a dynamic driving experience – rain or shine.

3.7-LITER Ti-VCT V6 SETS THE STANDARD.

This capable powerhouse mixes efficiency with plenty of pickup. Twin independent variable camshaft timing precisely controls the operation of its intake and exhaust valves, helping to provide you with 303 hp and 279 lb.-ft. of torque, while also optimizing fuel combustion. With the 3.7-liter, MKT has an EPA-estimated rating of 24 hwy mpg.³

¹Available feature. ²Horsepower rating achieved with 93-octane fuel. ³EPA-estimated rating of 16 city/24 hwy/19 combined mpg, 3.7-liter FWD. Actual mileage will vary.

SPACIOUS SERENITY FOR UP TO 7

Living well and traveling well naturally go together in MKT. Bridge of Weir™ leather, created using an organic tanning process, trims the comfortably contoured seats in the 1st and 2nd rows. You'll find this premium leather on fine furniture, ocean liners and jets, too. Those in the 1st row will also enjoy 12-way power, heated and cooled bucket seats including power lumbar support and a driver's seat memory feature.

MKT treats your passengers to best-in-class¹ 2nd-row leg room, with your choice of heated and cooled bucket seats,² or the standard 60/40 split bench with heated outboard seats. For chilled snacks and beverages, you can pair a 2nd-row refrigerated console² with the bucket seats. Plus, there's a PowerFold^{®2} 3rd-row 50/50 split bench seat that lets you switch between carrying people and cargo with the push of a button.

To help keep MKT quiet inside, an acoustic-laminate windshield and front-door glass are standard. Enjoy the views through its standard panoramic fixed-glass Vista Roof,[®] or choose the power panoramic Vista Roof² to welcome in fresh breezes.

In order to provide this highly refined environment, the Lincoln Luxury Validation Center meticulously inspects the materials, craftsmanship, fit and finish, and function of each MKT that leaves our facility. This process ensures that it meets Lincoln standards in every way, before you see that it meets yours.

¹Class is Luxury Large Utilities based on Lincoln segmentation. ²Available feature.

In the same way an artist's style draws you to their work, gracefully arranged controls draw you toward MKT. Slide behind your leather-wrapped heated¹ steering wheel and take in the richness of the genuine wood accents. Paddle shifters discreetly mounted to the back side of the steering wheel allow you to take control of the standard 6-speed SelectShift[®] automatic transmission with ease. The position of the driver's seat, tilt/telescoping steering column, sideview mirrors, and even the brake and accelerator pedals can be adjusted with power controls, then saved to a memory setting for MKT to recall at the touch of a button.

Staying connected should be second nature. That's why our SYNC[®] 3 enhanced voice-activated technology² concisely presents your audio, phone, navigation¹ and other features on a responsive touchscreen. Steering wheel-mounted controls and simple voice commands let you place and answer calls, plus control music from your devices. SYNC AppLink^{®3} allows you to control select compatible mobile apps by voice, too. Voice-Activated Touchscreen Navigation System¹ maps feature pinch-to-zoom capability. Plus, seamless integration with Siri[®] Eyes Free brings the power of your paired iPhone[®] into your vehicle. SYNC 3 also brings you the options of Apple CarPlay^{™4} and Android Auto^{™5}. And automatic updates over Wi-Fi^{®6} provide you with the latest software as new updates become available.

The 14-speaker THX[®] II Certified Audio System¹ with patented THX Slot Speaker[™] technology and specialized digital sound processing fills the cabin with studio-quality sound, ensuring you experience music exactly as the artist intended.

¹Available feature. ²Don't drive while distracted. Use voice-operated systems when possible; don't use handheld devices while driving. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. Message and data rates may apply. ³SYNC AppLink is compatible with select smartphone platforms and requires any compatible apps to be installed and running on a capable smartphone while connected to SYNC. Commands may vary by phone and AppLink software. Message and data rates may apply. ⁴Requires phone with compatible version of Apple iOS and active data service. SYNC does not control Apple CarPlay while in use. Apple is solely responsible for their functionality. Message and data rates may apply. ⁵Requires phone with compatible version of Android Auto and active data service. SYNC does not control Android Auto while in use. Google and other third parties are responsible for their respective functionality. Message and data rates may apply. ⁶Optional Navigation System map updates cannot be received via Wi-Fi and require a separate update.

2017 LINCOLN MKT

Lincoln.com

BE ALERT.

Some vehicles may be out of your line of sight, but they can be detected by BLIS® (Blind Spot Information System) with cross-traffic alert.^{1,2} If the system's radar sensors detect a vehicle in either blind spot while you're driving forward, the system can alert you with a light in the corresponding sideview mirror. While backing up, it can also detect a vehicle approaching from either side, then notify you with a warning light and an audible tone.

STAY CENTERED.

If you start to drift out of your lane, the Lane-Keeping System^{1,2} is there to help. Using a forward-facing camera to detect road lane markings, it can apply steering wheel torque and even alert you with a steering wheel vibration to help direct you to return to your lane.³ If it detects that you've crossed the lane or repeatedly drifted, it can prompt the Driver Alert System^{1,2} to chime and display a coffee cup image to remind you that it's break time.

PLAN AHEAD.

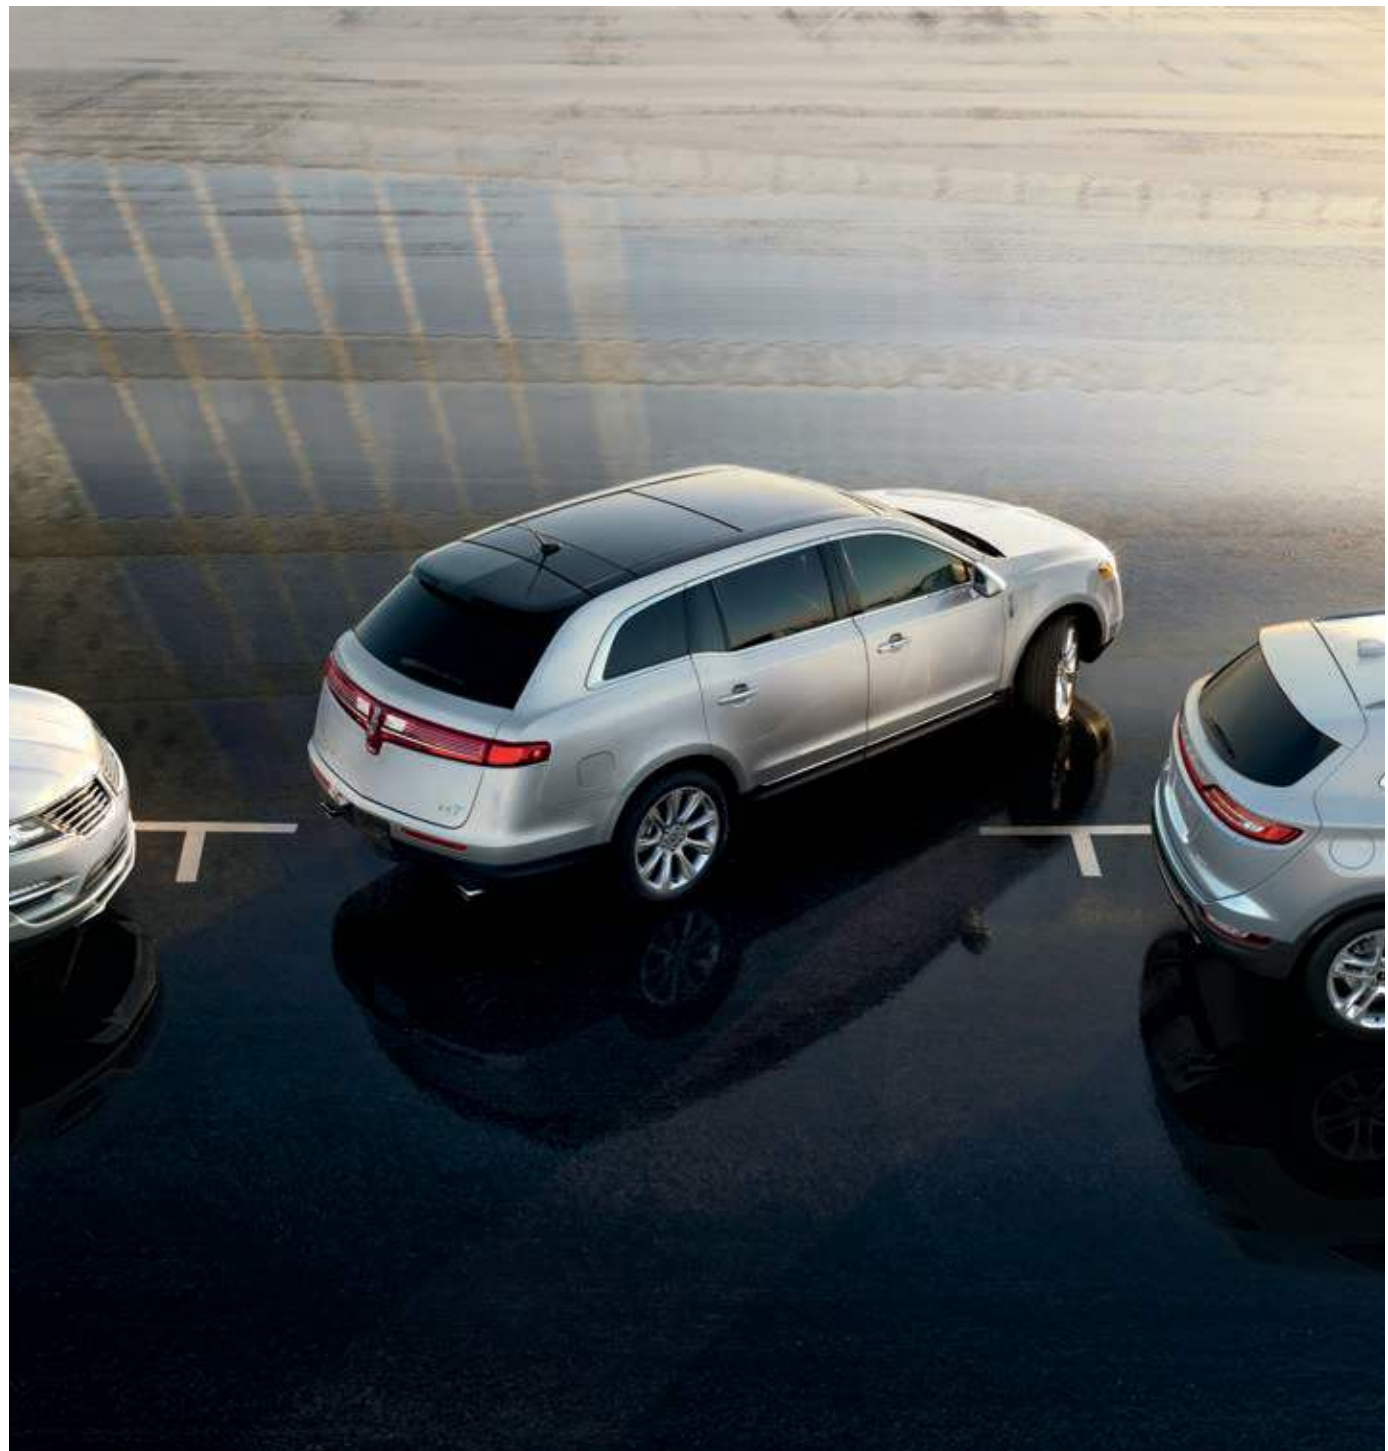

When highway cruising, Adaptive Cruise Control & Forward Collision Warning with Brake Support^{1,2} is designed to eliminate the need for constant adjustments. You simply activate the feature, set the vehicle's speed, and it can automatically adjust to maintain your choice of 4 preset gaps from the vehicle in front of you. If a potential collision is detected, it can alert you with visible and audible warnings and, if needed, precharge the brakes and increase brake sensitivity to help you reach full braking, faster.

BRIGHTEN YOUR OUTLOOK.

To provide more visibility when driving around curves, Adaptive HID Headlamps feature beams that move in the same direction as the steering wheel. Paired with the convenience of auto high beams, their bright-white light also provides better visibility than conventional halogen lamps.

¹Available feature. ²Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. ³Lane-Keeping System does not control steering.

EASE INTO PRIME POSITION.

When parallel parking, turn to Active Park Assist.^{1,2} The system uses ultrasonic sensors to help you locate an appropriate space, then steers MKT into it. All you do is follow on-screen prompts and control the shifter, brake and accelerator pedals. For additional guidance during parking maneuvers, a Reverse Sensing System² and rear view camera² are both standard on every MKT.

¹Available feature. ²Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle.
