

THE LOTUS EXIGE S

PURE ADRENALINE PURE LOTUS

The Lotus Exige S is back, and it's the best one yet.

Blending the extreme and the sublime, it's a balance between beauty and the beast, and with its 345 hp (350 PS) supercharged V6 engine it's not for the faint hearted.

From headlights to rear wing, the aggressive stance of the Lotus Exige S underlines a performance pedigree few can match. Track-inspired details such as the all-new aerodynamic package through to its race-inspired steering wheel and supportive seats amplify its potent abilities. Its squat yet purposeful looks entice you, while its formidable performance seduces you.

The thrill a Lotus gives you comes from the sensation of intimacy with the car. You would not expect any less though from a car developed for drivers by drivers. Expertly developed by the world renowned Lotus ride and handling team on the famous Hethel test track, its dynamic capabilities are awe-inspiring in the way that only a Lotus can be.

The Exige S features high performance Pirelli P-Zero Corsa tyres as standard with a Lotus DPM (Dynamic Performance Management) switch that allows the driver to switch between three driving modes: Touring, Sport and DPM off.

An additional Race Pack option is available offering a fourth driving mode providing maximum possible traction out of corners, an optimised track suspension setting and Launch Control.

And with two new interior package options available you get to spec your Exige S exactly as you want it. A Premium Pack option provides added comfort and style where as the Premium Sport option focuses on creating an internal cockpit optimised for ultimate driver involvement.

PURE
ADRENALINE

TECHNICAL

SPECIFICATIONS

POWERTRAIN SPECIFICATION

Mid mounted, transverse 3.5 litre DOHC V6 VVT-i engine,
4 valves per cylinder, equipped with Harrop HTV 1320
Supercharger utilising Eaton TVS Technology

TRANSMISSION

6-speed close ratio gear box
Constant mesh helical gears and open differentials

SAFETY EQUIPMENT

Driver and passenger airbags
Track tuned ABS system
Composite front energy absorbing crash structure
Pre-tensioning seatbelts
Door side impact beams

PERFORMANCE

0-60 (mph)	3.8 seconds
0-100 (km/h)	4.0 seconds
Max speed	170 mph / 274 km/h
Max power	345 hp at 7000 rpm (350 PS) (258 kW)
Max torque	295 lbft at 4500 rpm (400 Nm)
Unladen vehicle mass	1176 kg
Power to weight ratio	
hp per tonne	293
PS per 1000 kg	298

VEHICLE SPECIFICATION

Modular lightweight bonded aluminium structure
AP-Racing four-piston calipers (front and rear) with ventilated
and cross drilled cast-iron discs
Servo-assisted track tuned 4-channel ABS
Fully independent double wishbone suspension with front
anti-roll bar
Bilstein high performance gas dampers and Eibach coaxial
coil springs
Lotus Dynamic Performance Management (Lotus DPM) with
switchable driving modes: Touring, Sport and DPM off
Aerodynamically optimised front splitter, rear diffuser and wing
Sport exhaust with bypass valve
Tyre puncture repair aerosol
Tool kit
