Get in. Be moved.

2000

Get in.

Be moved.

Subtle design touches blend perfectly with bold elements to create a distinctive look. And the 626's refinement is apparent in the details. Taking clients to lunch, your family to dinner, or just your shirts to the laundry, you're making a statement. Good taste always shows.

In a world where conformity rules all too often,

there are many ways you quietly yet surely affirm your own sense of style and taste.

Why blend into the crowd? Express your independence with a car that delivers all the expected family-sedan virtues, adds some pleasant surprises of its own, and definitely doesn't consign

you to the "me-too" masses. The new Mazda 626. Distinctive styling with a generous touch of elegance gives the 626 true presence on the road. Smooth, dependable and responsive

i n d e p e n d e n t

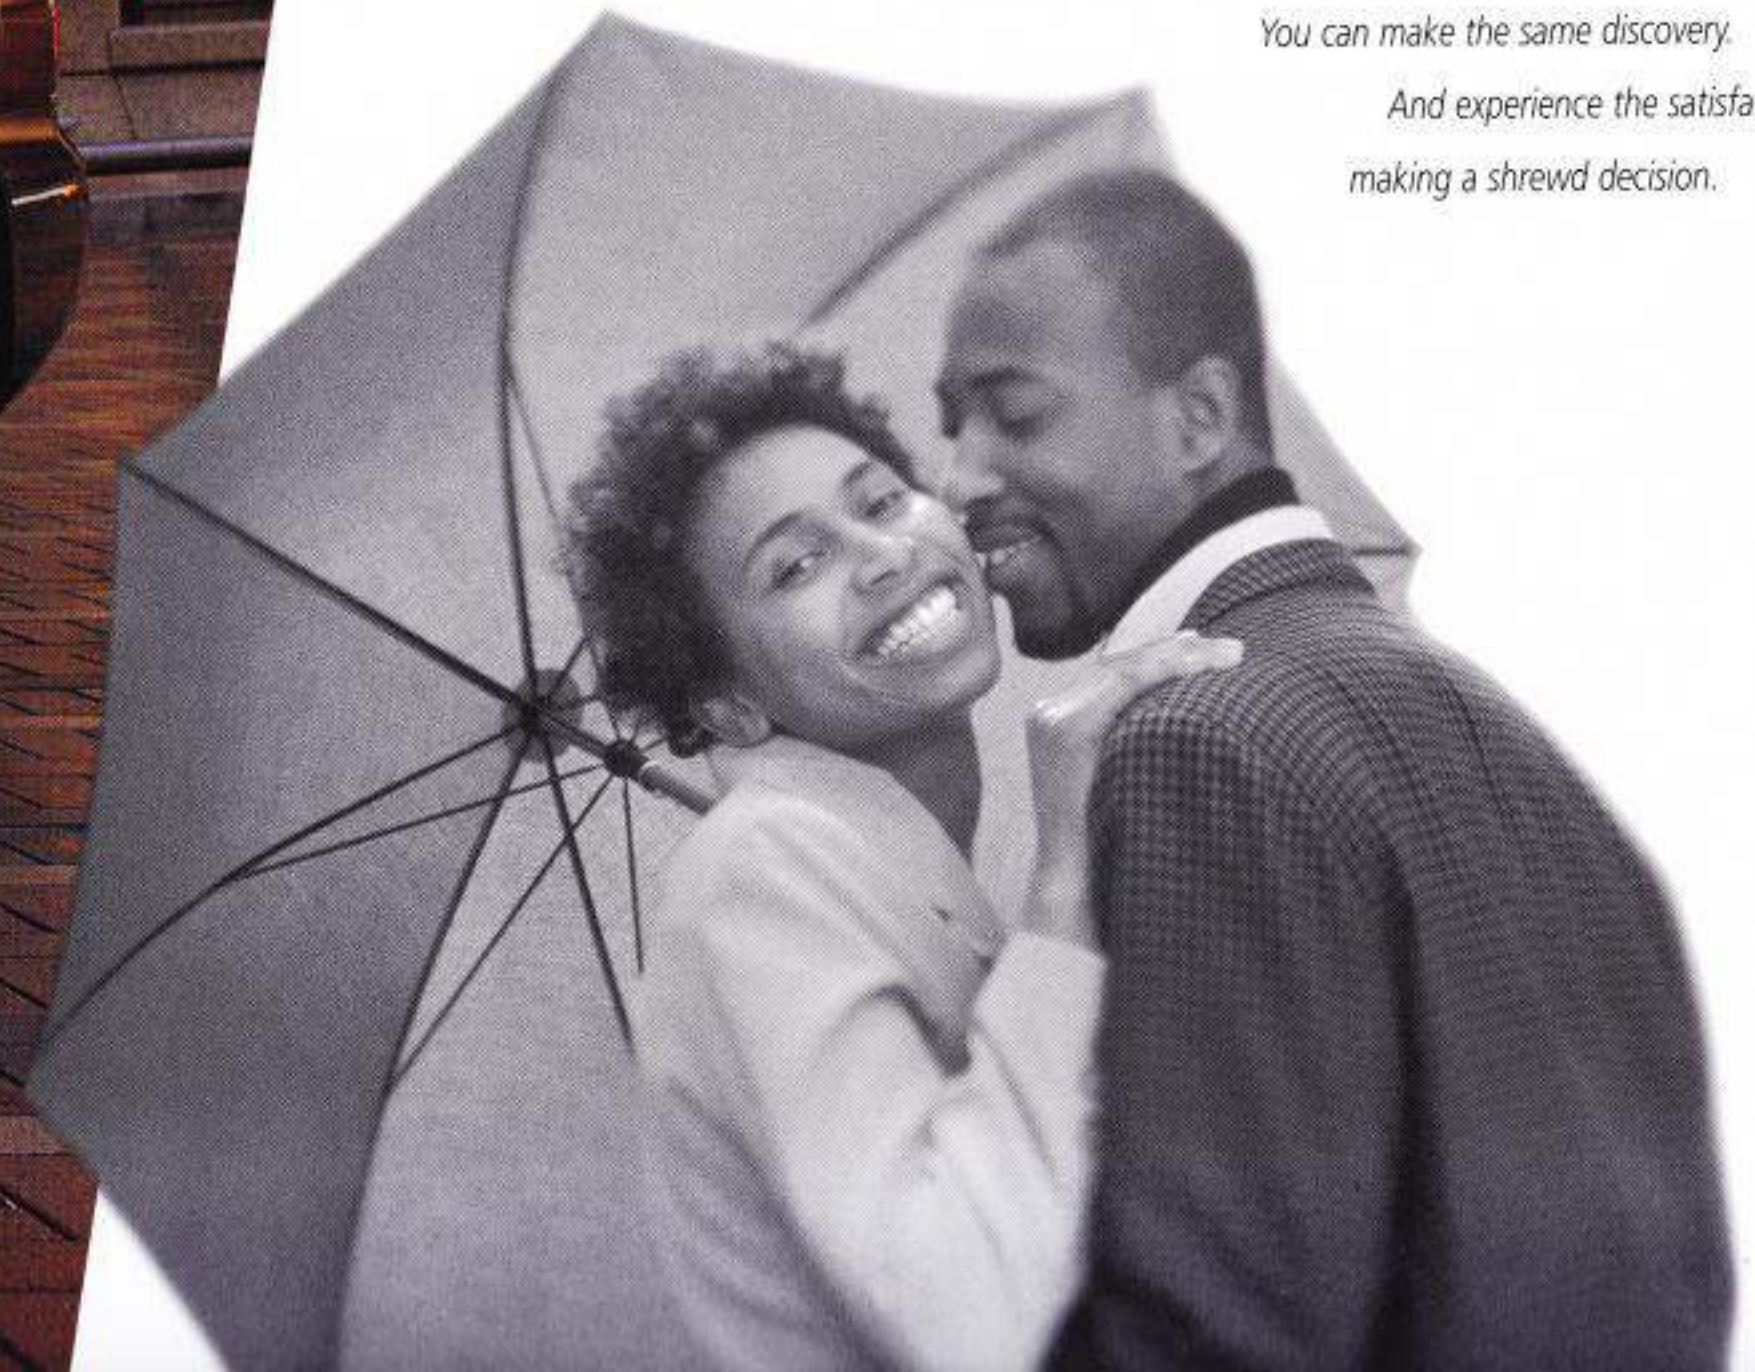

performance inspires confidence, for you and your passengers. Compare the long list of standard features, factor in the driving feel, and you'll recognize

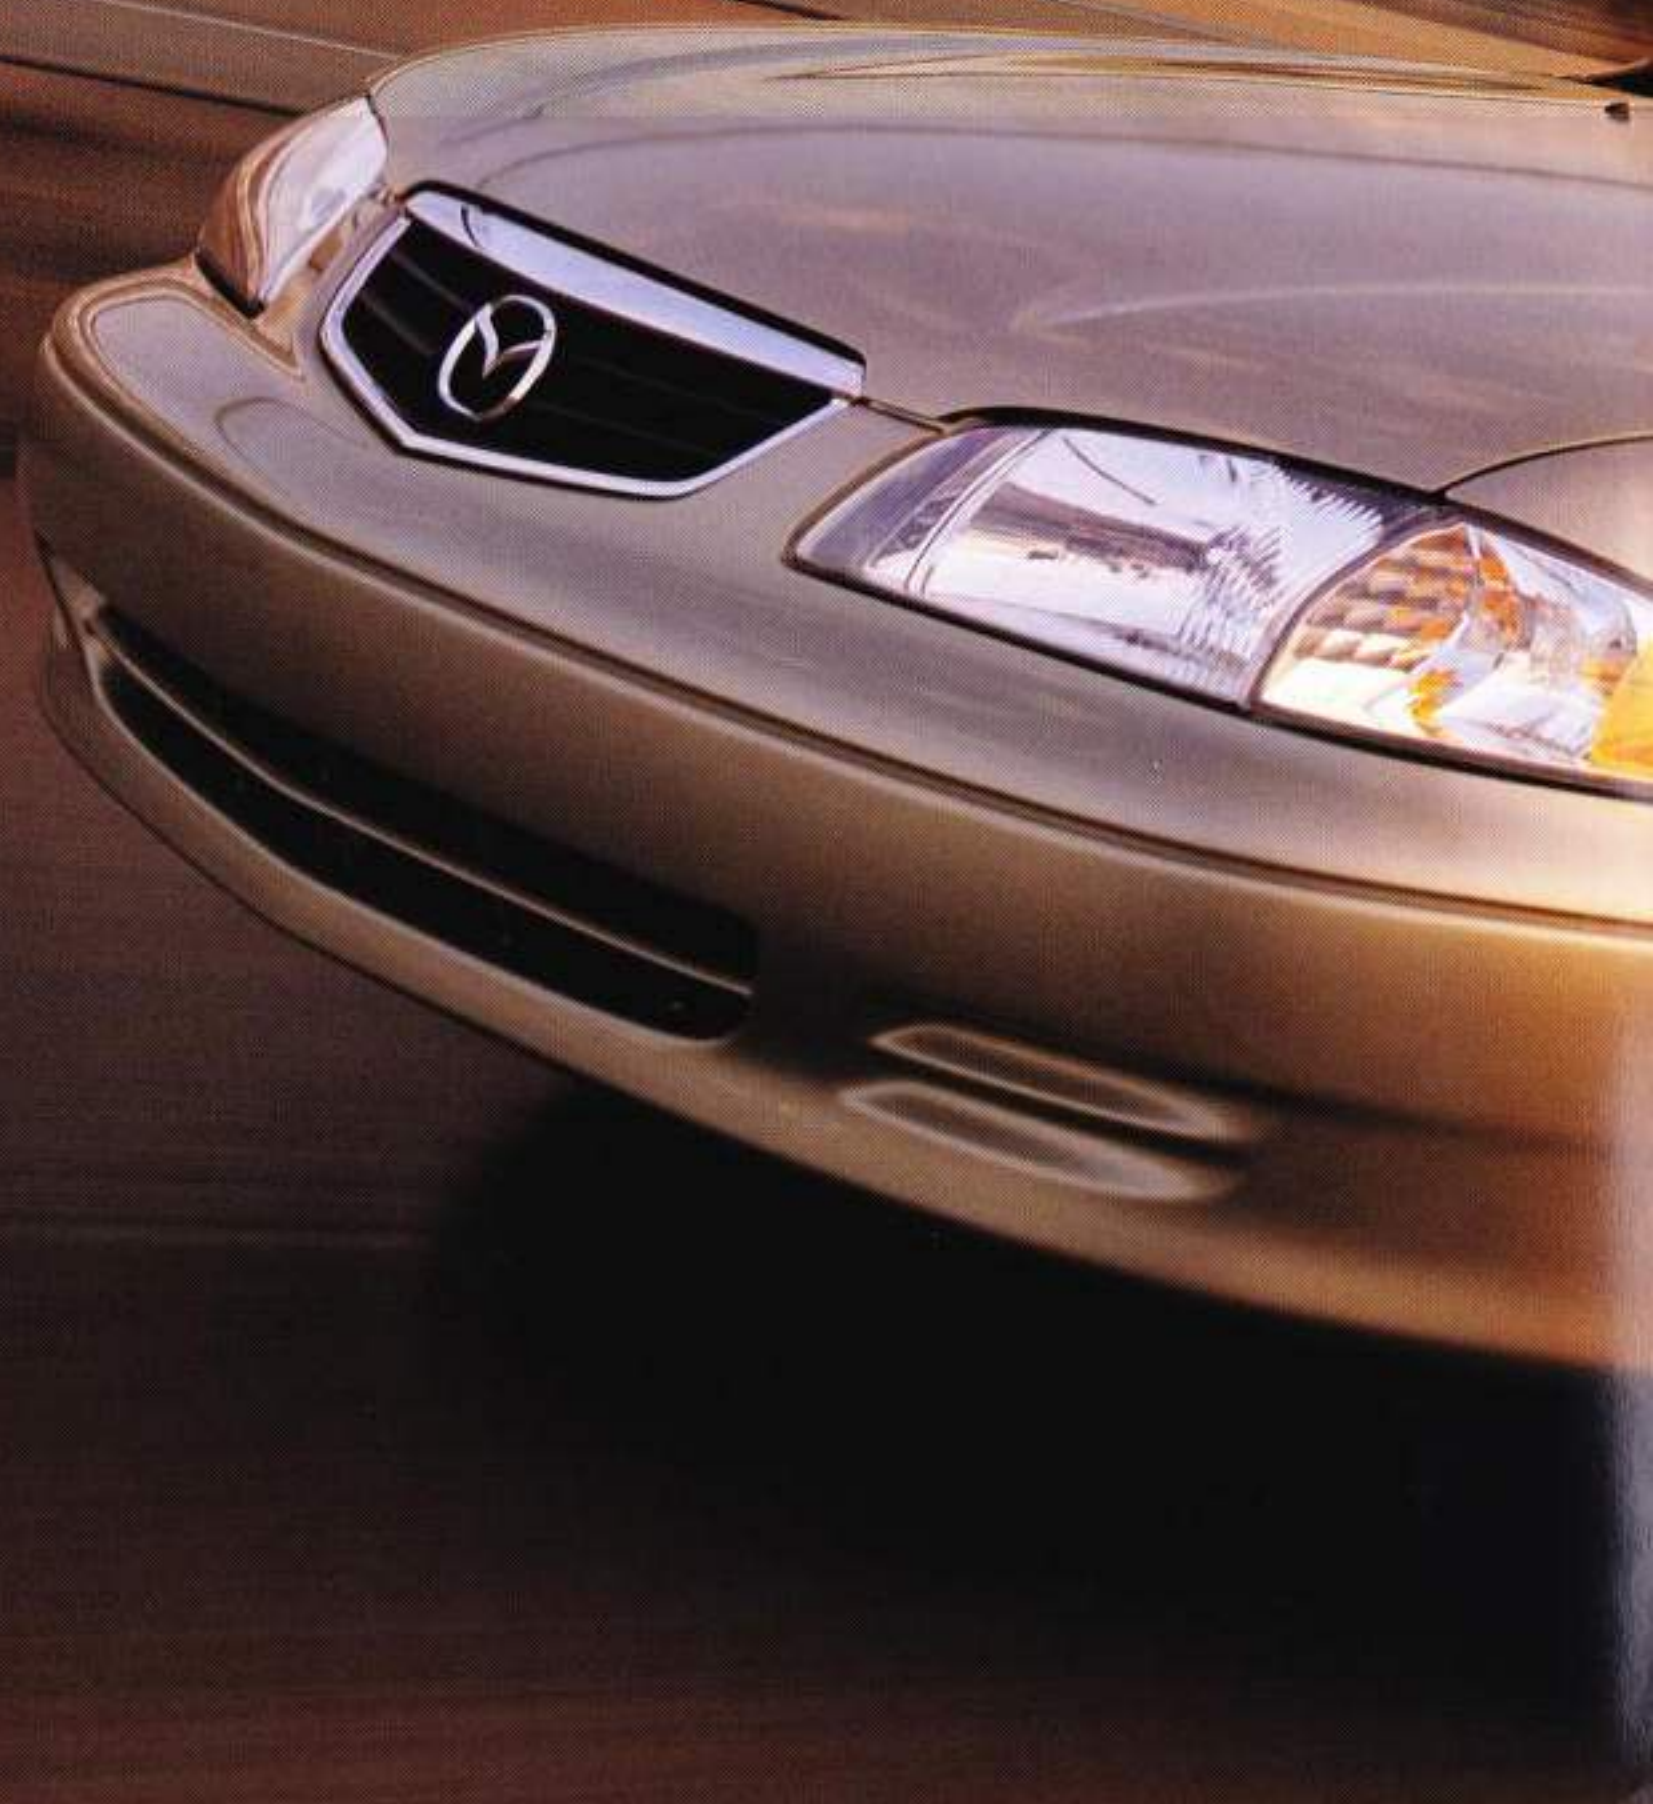

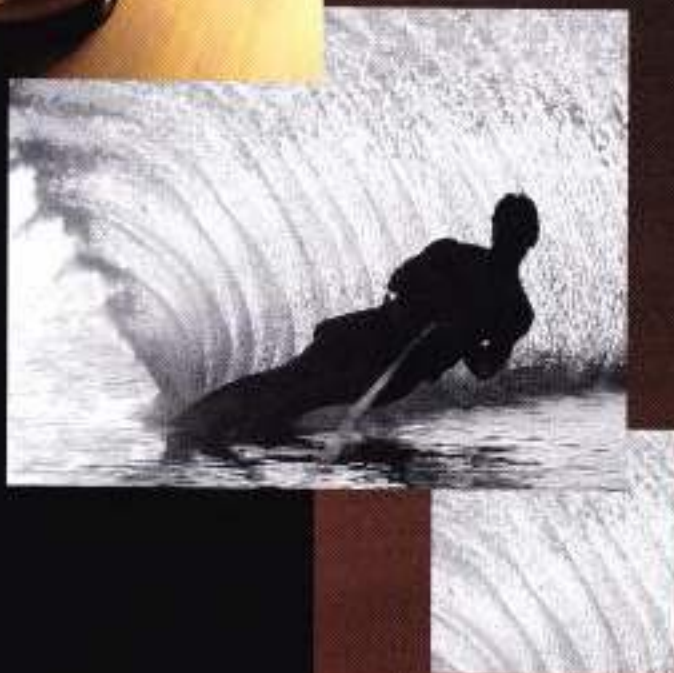

an outstanding value as well. In the opinion of Road & Track (and they drive everything),*

the Mazda 626 is "the best-kept secret in the midsize sedan segment."

You can make the same discovery.

And experience the satisfaction of making a shrewd decision.

626 LX-V6 in Mojave Beige Mica with optional alloy wheels

If you want the powerful pull of a V6 and relish extracting every last ounce of performance, the crisp-handling Mazda 626 is the sedan for you. A smooth 5-speed manual transmission is standard equipment on both of our V6 models, while most of the other comparable cars in the class are available

V 6 p e r f o r m a n c e

only with automatic transmissions. Of course, we have a great automatic too. It's your choice. And you'll like how easily we put V6 power within your reach.

FEATURES

Remote keyless entry lets you unlock just the driver's door or all four. An immobilizer feature (standard on ES-V6, available on all others) uses a coded microchip to disable the car unless your key is in the ignition.

Plush cloth upholstery is standard on LX models. Other standard features include environmentally responsible CFC-free air conditioning, power windows and door locks, cruise control, tilt steering column and an overhead console with a sunglasses holder. (See page 16 for the complete features list.)

w e l c o m i n g

Your car should never cramp your style, so the Mazda 626 gives you plenty of room to stretch, along with considerable versatility, supportive seats and an overall high level of comfort. And the 626 adds thoughtful, even surprising design details that make it not only a smart choice but a particularly satisfying one. For instance, the center vent louvers oscillate to distribute air evenly around the cabin, an exclusive 626 feature. You'll find that the driver's seat has a cushion height adjustment. And that the deep cup holders can accommodate mugs with handles. Handy individual map lights really help out at night. There's a standard CD player, an available Bose® audio system (standard on ES-V6), plentiful storage spaces, and chrome accents that add subtle yet definite sophistication. Long trip or short, business or pleasure, the Mazda 626 is always part of the solution. Smile and relax.

*Seating surfaces upholstered in leather except for vinyl on seat side panels, rear sides of seatbacks and other minor areas.

12-volt power point, an available
in-dash 6-CD changer that doesn't
require a bulky magazine, plus a
rear armrest with covered storage
and two cup holders.*

626 ES-V6 in Beige Leather*

c o n f i d e n c e

However much you like the driving experience itself, the ultimate objective is to get where you're going. To that end, our engineers made occupant safety a high priority in designing the 626. Agile handling and responsive power help you stay alert and involved. Built-in "crumple zones" in the body structure help protect the cabin's integrity. The whole feel is one of solidity and confidence, because peace of mind should be a standard feature too.

Dual air bags, together with properly fastened safety belts, help protect the driver and front passenger. Side-impact air bags are an option on every 626.*

Available anti-lock brakes (ABS) help prevent wheel lockup to improve your control in hard stops.

The strong, rigid body structure includes side-impact beams in the doors (highlighted here in red).

*Always wear your safety belt and secure children in the rear seat.

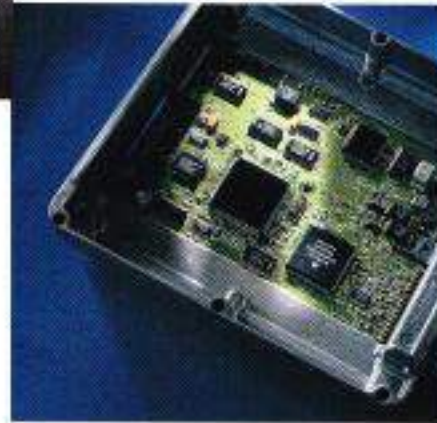

626 LX in Black Onyx with optional rear spoiler

A powerful microprocessor governs fuel injection, ignition timing and other engine functions to provide optimal performance from both the 4-cylinder and the V6. Other computerized functions include a Traction Control System to help you better negotiate slippery surfaces (available on LX-V6, ES-V6).

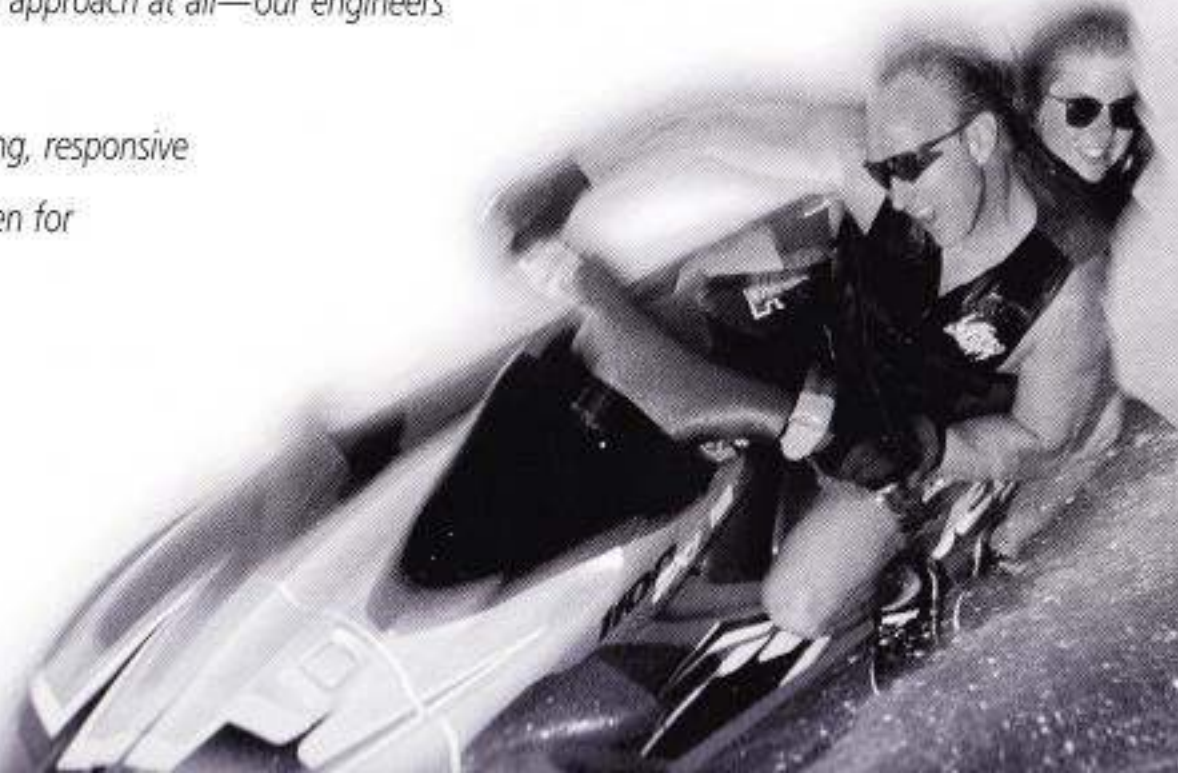

The 626 features Mazda's patented Twin Trapezoidal Link (TTL) rear suspension that gives crisp and responsive handling feel. On the power side, a two-piece engine block adds strength and rigidity to help make the 626's V6 a smooth operator.

e n e r g i z e d

Lots of family sedans have become so domesticated that you'd think their designers consider driving merely another chore. That's not our approach at all—our engineers love to drive. Their original and creative thinking pays off here with strong, responsive performance. And a car begging to be driven for fun as well as duty.

ACCESSORIES

Personalize your new 626! These Genuine Mazda Accessories are designed specifically for your Mazda, and they're covered by the new-vehicle warranty when installed by a Mazda Dealer prior to or at the time of initial vehicle retail delivery.

Floor mats, mud guards, front mask, rear spoiler, wheel locks, touch-up paint, engine block heater, cargo mat, roof rack, fog lights.

WARRANTY

Mazda warrants that the Mazda vehicle will be free of defects with normal use and prescribed maintenance for 36 months or 50,000 miles, whichever comes first, or Mazda will repair any problem without charge. Ordinary maintenance items or adjustments, parts subject to normal wear and replacement and certain other items are excluded. This transferable "limited warranty" is included on all new 2000 Mazda vehicles sold and serviced in the United States.

Complement the limited warranty on your new vehicle with the Mazda Extended Protection Plan, the only service agreement backed by Mazda. See your Mazda Dealer for details.
