

IT TAKES CONVICTION TO STAND UP TO THE NAYSAYERS.  
A CREATIVE FIRE THAT'S UNAFRAID OF THE BLANK PAGE.  
AND THE COURAGE TO FLIP CONVENTIONAL WISDOM ON ITS HEAD.  
BECAUSE THIS IS THE ONLY WAY TO CHANGE THE GAME.  
AND THE ONLY WAY TO BUILD CARS WORTH DRIVING.  
TODAY, MAZDA IS CHANGING THE GAME.  
WITH INNOVATIVE THINKING AND TECHNOLOGIES.  
HEAD-TURNING DESIGNS. AND PERFORMANCE THAT NEVER COMPROMISES.  
MAKING EVERY MAZDA MORE EXHILARATING TO DRIVE.  
THESE ARE ACTIONS, NOT WORDS. PROOF, NOT THEORIES.  
MAKING THE IMPOSSIBLE POSSIBLE.

*THIS IS THE MAZDA WAY.*

# ANCIENT TRADITION.

For 15th century Japanese horse archers, complete freedom with the bow and arrow came only with an unwavering bond with the horse galloping beneath them. With this trust in place, along with carefully acquired skills with the bow and arrow, archers caught food to feed their families and fought wars to protect them. Today, this concept of *jinba ittai*, or “rider and horse as one,” is the inspiration for the MX-5 Miata—a car so precisely tuned with its driver, it’s undeniably enjoyable to drive.

# MODERN APPLICATIONS.

"*Jinba ittai*, or 'rider and horse as one,' was our guiding principle during the MX-5's development. The result is a car so nimble, well-balanced and fun to drive that the driver and car achieve true unity."

Takao Kijima: Program Manager,  
Mazda MX-5 Miata (1995–2007)

*“When I drive my MX-5 to work, my commute  
is like a 30-minute vacation.”*

- G. Garcia, Mazda MX-5 Miata customer

## IT TAKES OBSESSION TO FIND BALANCE.

Courageous engineering. This is the Mazda Way. It's how we created the Mazda MX-5 Miata, a car that's near perfectly balanced. And a car that seems to anticipate a driver's every move. This could only be achieved through the conviction, creativity and courage of quality-obsessed engineers. Engineers that take into account every bolt, every wire and every stitch in the upholstery to achieve near-perfect 50:50 front-to-rear weight distribution. The MX-5 is also precisely engineered to account for one more variable—you, the driver. So it's not perfectly balanced until a driver is sitting in the driver's seat. The result: You complete it. Because at Mazda, we don't just engineer cars. We engineer harmony.

A silver Mazda MX-5 Miata is shown from a front-three-quarter view, driving on a dark asphalt road that curves along a coastline. The car's top is down, and a driver and passenger are visible. The background features a blue sea, distant mountains, and a bright blue sky with wispy clouds. The sun is high, creating a lens flare effect.

*“The Miata still is one of the most pure motoring experiences that you can buy...”* Autobyte!,<sup>®</sup> September 2012

**ENGINEER WITH CONVICTION, CREATIVITY AND COURAGE  
AND YOU GET THE WORLD’S BEST-SELLING ROADSTER.**

In 1989, Mazda debuted the MX-5 Miata. A quarter of a century and more than 900,000 worldwide sales later, the MX-5 Miata continues to define—and redefine—what a roadster is meant to be. Unwavering, uncompromising and committed to true sports-car authenticity, the MX-5 has always been—and will always be—the track-proven real deal.

Daring, nimble and near perfectly balanced, the MX-5 is an automotive icon and an engineering marvel that’s built to dominate the open road, master every curve and effortlessly transform instinct into action. But to truly understand why it’s the best-selling roadster of all time, you need to be in the driver’s seat.

**OBJECTS IN MIRROR HAVE BEEN TRYING TO CATCH UP FOR MORE THAN TWO DECADES.**

The fact that the MX-5 Miata has been racing for its entire 25-year history relates directly to another amazing fact: On any given weekend, more Mazdas and Mazda-powered cars are road-raced in the U.S. than any other car.\* And in terms of pro racing, 2013 marked the eighth season of the SCCA Mazda MX-5 Cup. Now an 11-race series, the MX-5 Cup attracts many of pro racing's top up-and-comers. A true test of talent and technique, drivers compete in identically prepped MX-5 Miatas on many of America's legendary racecourses, including Mazda Raceway Laguna Seca.

Bottom line: The best street cars make the best race cars. And the MX-5 has been—and still is—the most road-raced\* of them all.

\*Based on Sports Car Club of America racing data.

# SPEED IS NOTHING WITHOUT CONTROL.

The MX-5's near 50:50 front-to-rear weight distribution is crucial to its legendary handling. Its front-midship-engine placement and rear-wheel-drive layout enhance balance and directional control. Helping to keep the MX-5 firmly anchored to the pavement is a track-tuned suspension that delivers superb handling and directional stability by combining a sophisticated double-wishbone layout up front with an advanced multilink setup in the rear.

A hollow front stabilizer bar is partnered with four gas-charged shock absorbers and a solid rear stabilizer bar to minimize body roll and maximize cornering grip. With the available Suspension Package,\* you also get a torque-sensing limited-slip differential to go with a more sport-tuned suspension and upgraded Bilstein® shocks. All models come equipped with Dynamic Stability Control† with an integral Traction Control System that optimizes both traction and handling in less than ideal road conditions. For all those twists and turns the road has in store, each and every MX-5 is precisely engineered to create a balance of stiffness for control and softness for comfort and stability.

The result: handling that borders on telepathic.

\*Suspension Package is only available on models with manual transmission. †Dynamic Stability Control (DSC) is an electronic system designed to help the driver maintain control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether DSC will be effective in preventing loss of control. Please see your owner's manual for further details.

A free-revving MZR 2.0-liter 16-valve DOHC engine delivers an assertive 167 hp and 7,200 rpm redline without sacrificing fuel efficiency, offering up to an EPA-estimated 28 highway MPG.\* Gear heads: Wrap your heads around finely tuned details such as internal friction-reducing molybdenum-coated pistons, variable valve timing, electronically controlled port fuel injection, an electronic throttle and ultralight flywheel, and block and cylinder heads cast from a weight-saving aluminum alloy.

\*Based on EPA estimates for 2015 Mazda MX-5 Miata Sport models with 2.0L engine and manual transmission 22 city/28 highway MPG. Actual results will vary.

Every driver knows that when it comes to a sports car, slowing down is just as important as speeding up. The MX-5's ultra-responsive 4-wheel disc brakes with lightweight calipers come standard with anti-lock brakes and Electronic Brakeforce Distribution, ensuring linear fade-resistant stopping power. Whether you're on the track or on the road.

A precise and ultra-responsive short-throw, close-ratio 6-speed manual gearbox is standard on both the MX-5 Club and Grand Touring; a 5-speed manual is standard on the Sport; and a 6-speed automatic is available on all models. For enhanced control, the automatic transmission allows you to shift manually via either the console-mounted shifter or steering-wheel-mounted paddle shifters. No matter which you choose, each of the MX-5's three smooth sport-shifting gearboxes becomes an extension of your arm, transforming anticipation into exhilaration.

Drivetrain twist wastes power and produces acceleration lag. To help eliminate this, Mazda engineers gave the MX-5 a solid structural "backbone"—an ingenious aluminum Power Plant Frame that unites engine, transmission and differential into a single rigid unit.

**A CAR SHOULD BE AN EXTENSION OF YOUR BODY.  
DRIVING SHOULD BE AN EXTENSION OF YOUR SOUL.**

Blur the line where man ends and machine begins. Every Mazda engineer understands the essence of *jinba ittai*—"rider and horse as one." A horse and its rider communicate by being instinctively in tune with each other. To achieve that same effortless communication behind the wheel, Mazda engineers used multiple electromyograms and G sensors to analyze a driver's complete interaction with the vehicle. From determining the exact location of the shift lever, to which muscles and precisely how much effort would be needed to shift, every aspect of the drive is engineered to not just connect you with your MX-5, but to make you one with it.

## / ADVANCED KEYLESS ENTRY SYSTEM /

Even before you enter, the MX-5 is already anticipating your arrival. At the touch of a button, the available Advanced Keyless Entry System recognizes you and comes to life before your eyes. It remotely unlocks the doors and trunk—all without you having to take your keyless entry fob out of your pocket.

/ AUTOMATIC CLIMATE CONTROL /

Keep both yourself and your passenger comfortable by customizing the environment with the available Automatic Climate Control System.

## / AUDIO SYSTEM /

An auxiliary audio input jack with MP3 capability, 6-disc CD changer and 7 speakers are all part of an available premium Bose® sound system with AudioPilot® noise compensation technology that helps to block out unwanted road noise. SiriusXM Satellite Radio\* is also available with the Premium Package.

\*SiriusXM Satellite Radio reception requires a subscription and Mazda satellite radio. See full disclaimer in Specifications.

**BEING AT THE EDGE OF YOUR SEAT  
WAS NEVER THIS COMFORTABLE.**

The MX-5 comes fully equipped with a wide array of amenities you wouldn't expect to find in a track-proven sports car. From technology that recognizes you before your arrival, to seating that contours to every curve in your body, the MX-5 is engineered to thrill and crafted to spoil.

## / SEATS /

Available heated leather-trimmed bucket seats with five comfort settings are meticulously designed to conform to your every curve and adjust to your specific driving position.

*The Mazda MX-5 Miata has been named to Car and Driver's 10Best Cars list 14 times since its debut.*

# ZERO TO HARDTOP

The MX-5's quick and easy-to-use soft top isn't the only way to embrace the wind. Available on the MX-5 Club and Grand Touring models is a Power Retractable Hard Top. The MX-5's ultra-light 80-pound hard top stores neatly behind the seats under a special tonneau cover. Weather-tight and complete with a solid glass rear window with defroster, the MX-5's roofline is aerodynamic yet elegant. It may be one of the most iconic convertibles in the world, but at the push of a button, it takes a mere 12 seconds\* to transform the thrill of a convertible into the security and practicality of a hardtop.
