

THE 2007 SLK-CLASS

SLK 280 SLK 350 SLK 55 AMG

THERE ARE OVER
20,000 WORDS
IN THE ENGLISH LANGUAGE, AND YET
WORDS ESCAPE US.

From any perspective, it's pure exhilaration. We can try to describe it to you, but ultimately it's only when you've experienced the SLK that all the words and numbers ring true. Welcome to the intense rush that is the 2007 SLK-Class.

SLK350 shown in optional Iridium Silver metallic paint with optional AMG Sport and Lighting Packages.

To the true sports car enthusiast, the world of automobiles breaks cleanly in two—either a car is designed first and foremost for pure driving pleasure, or it's not. With the SLK 280, you know its priorities immediately: a 228-horsepower, 3.0-liter DOHC V-6 that relishes its 6,400-rpm redline. A chassis that communicates the nuances of the road through 16" staggered-width 5-spoke alloy wheels in clear, unfiltered language. And a taut, muscular form that carries the promise of what is sure to be an immensely entertaining drive—whether your destination is a place on a map or just an intensely gratifying state of mind.

6,400 RPM.
IT'S MORE THAN A NUMBER, IT'S A
DESTINATION.

365 FIRST DRIVES PER YEAR.

Every day holds great promise, especially when it starts with the invigorating rumble of 268 horsepower through a sport-tuned dual exhaust. Slip the 6-speed manual transmission into first, notice the smooth precision as you ease out the clutch and marvel as the wide powerband of the SLK 350's 3.5-liter DOHC V-6 presses you firmly into your seat. A quick tug of the short-throw shifter and the momentum continues to build. A corner is quickly dispatched by a tap of race-bred ventilated and perforated front brakes and the bite of 17" staggered-width 10-spoke alloy wheels wearing high-performance tires.¹ Then aim for the horizon and marvel as the 4-wheel independent multilink suspension fluidly responds to every twist the road presents. For those who believe in seizing the day, there's no better place to grip it than the leather-wrapped steering wheel of the SLK 350.

SLK 350 shown in optional Iridium Silver metallic paint with optional AMG Sport and Lighting Packages.

¹ Lower aspect ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions.

100% PURE SPORTS CAR.

Before we designed the SLK-Class interior to fit a wide range of physiques, we had to find room for something even more important – your imagination. Sit in an SLK Roadster and you’ll feel excitement before you even turn the key. The speedometer and tachometer are set in aggressively angled tubes that add style while helping reduce glare. Since sporty driving is a priority, the 3-spoke multifunction sport steering wheel puts numerous controls at your fingertips. Thick and leather-wrapped, the wheel would look at home in a Formula 1 racecar. For a custom-fit driving position, adjust the 4-way steering column and 8-way sport seats with full-leather upholstery and Silver-painted magnesium frames, chosen for both their light weight and their heavy-duty strength. Now drop your right hand and find the short-throw shifter exactly where you want it. You may wonder how we could make the SLK feel so perfect for you without ever meeting you. But we already had a vision of the ideal sports car, so imagining the true sports-car driver just came naturally.

SLK280 shown in optional Brown leather with optional automatic transmission and Premium 1 and Heating Packages.

SLK280 shown in Black leather with optional automatic transmission and Heating Package.

A stunning 0-to-60 time¹ is only the beginning. Beyond the astounding thrust is the thrill of a heart-pounding rush every time you punch it. Whether it's the 268-horsepower, 3.5-liter SLK 350 or the 228-horsepower, 3.0-liter SLK 280, you'll find breathtaking talent provided by a V-6 that gives 100% of its tremendous torque at extremely low rpm and relentlessly holds it there. The result: scalding off-the-line acceleration and immediate response throughout the rev range. Keep pushing, and the 4-valve DOHC design of either V-6 gives an addictive charge to the 6,400-rpm redline, yet doesn't run out of breath—even as you struggle to capture yours.

1 Stated rates of acceleration are based upon manufacturer's track results for SLK 280 and AMCI's test-track results for SLK 350 and may vary depending on model, environmental and road surface conditions, driving style, elevation and vehicle load. SLK 350 with automatic transmission rated at 5.5 seconds.

SLK 350 ■ 3.5-LITER DOHC V-6 ■ 268 HP ■ 258 LB-FT OF TORQUE SLK 280 ■ 3.0-LITER V-6 ■ 228 HP ■ 221 LB-FT OF TORQUE

THE ONLY
6-SPEED
YOU'LL EVER WANT.

It used to be, the advice was simple: If you buy a sports car, go for the stick shift. And with the SLK, who could blame you? The 6-speed manual transmission is everything an enthusiast could ask for, with a crisp short-throw shifter and light, positive action. But then again, the optional 7-speed automatic is an equally tempting choice. The first 7-speed in the industry, it gives an unmatched range of ratios for everything from vigorous acceleration to relaxed cruising. You can tap the shifter left or right to enjoy the manual-style control of Touch Shift. Or for a burst of power—like a blistering passing move—hold the lever to the left for a second and the transmission will automatically preselect the optimum gear for acceleration. Which transmission is right for you? Try them both. You'll have a great time deciding.

THE OPTIONAL
7-SPEED
YOU WON'T BELIEVE.

THE LAST TIME YOU PULLED .94g, YOU HAD TO WAIT TWO HOURS IN LINE.¹

In an SLK, the fun starts almost immediately, because as impressive as ultimate cornering grip may be, it's how an SLK gets there that's equally important. The accuracy of rack-and-pinion steering lets you point its Formula 1-inspired nose exactly where you want it. A near-ideal front-to-rear weight balance delivers the same thrill whether diving in for that late apex or unwinding the wheel as you accelerate out. Outstanding torsional rigidity helps the 4-wheel multilink suspension work with razor-sharp precision, allowing the high-performance tires² to be pushed eagerly into every corner. And with our standard Electronic Stability Program (ESP®), you can explore the SLK's awe-inspiring handling with confidence-inspiring poise.³ It all adds up to an experience that only the SLK can provide—turning rubber, metal and tarmac into your own personal theme park with one of the world's most exhilarating rides.

1 Maximum cornering G-force figure for SLK 350, *Automobile Magazine*, February 2005. 2 Lower aspect ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions. 3 No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Performance is limited by available traction, which snow, ice and other conditions can affect. Always drive carefully, consistent with conditions. Best performance in snow is obtained with winter tires.

SLK 350 shown in optional Obsidian Black metallic paint with Black leather and optional Lighting and Heating Packages.

51 PRECISION PERFORATIONS IN EACH SLK 350 FRONT ROTOR. COUNTLESS PRECISION STOPS.

In a true sports car, balance is essential. So along with vigorous acceleration and responsive handling, the SLK features an advanced braking system designed to give precise, fade-resistant control—even under the most demanding situations. Every SLK is equipped with generously sized 4-wheel disc brakes with ventilated front rotors to help dissipate heat. To complement its greater power, the SLK 350 also enjoys such competition-bred hardware as beefy dual-piston front calipers and perforated front disc brakes. Rather than simply drilling holes in the discs—a method that can cause “stress risers” that weaken the metal—the perforations are cast in place to help maintain maximum strength. Whether it’s high-spec componentry, leading-edge technology or even the high style of rubber-studded stainless-steel pedals, we go to great lengths to help every SLK provide stops that are impressive in every way.

SLK 350 shown in Mars Red paint.

Ooh To Aah In
22
Seconds.

In just 22 seconds, the SLK converts from a seductive hardtop coupe to an open-air extrovert. And while either configuration is exciting in its own right, it's equally thrilling to watch the retractable steel roof fold itself away at the touch of a button. As the hardtop glides back, the rear window pivots through a 150° arc, allowing the top to stow more efficiently and help preserve trunk space. As an option, you can even operate the top from outside the car using the SmartKey remote! You might draw a crowd. But that's understandable—even when it's not being driven, the SLK is artistry in motion.

1 Remote top operation included in Premium 1 Package on SLK 280 and SLK 350, and standard on SLK 55 AMG.

Affordable exotic. The term gets thrown around, but does any vehicle truly live up to it? For your consideration, we offer the SLK 55 AMG – perhaps the only car worthy of the label. With a handcrafted 5,439-cc V-8 pumping out 355 horsepower and 376 lb-ft of peak torque and a 7-speed automatic transmission, you can reach 60 mph in a scant 4.9 seconds.¹ Bend curves to your will with an AMG-calibrated suspension and feel the arresting performance of 6-piston front calipers grasping perforated 13.4" brake discs. After you've admired the unique AMG-design lower bodywork, subtle rear lip spoiler, 18" AMG multispoke wheels with high-performance tires² and sophisticated growl departing the four polished chrome exhaust tips, you might just decide this is the only exotic you'll ever need – at any price.

1 Stated rates of acceleration are based upon manufacturer's track results and may vary depending on model, environmental and road surface conditions, driving style, elevation and vehicle load. 2 Lower aspect ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions.

SLK 55 AMG shown in optional Iridium Silver metallic paint.

YOUR BRAIN RUNS AT
200 MPH.
CAN YOUR CAR MEASURE UP?

The more time you spend inside the SLK 55 AMG, the more you realize how much thought went into it. Your immediate impulse for Manual-mode shifting is met by ideally placed paddles on the thick-rimmed, leather-wrapped steering wheel. Your cognitive center's demand for information is fed by the rapid sweep of red indicators across a 200-mph speedometer¹ and 7,000-rpm tachometer. Your brain's pleasure center revels in the touch of supple 2-tone Nappa leather with Alcantara trim on AMG sport seats. It's the perfect environment for those who like to think fast.

¹ Please obey all speed laws. Top speed electronically limited to 155 mph.

1

SKIPPED HEARTBEAT.

The optional AMG Sport Package for the SLK 280 and SLK 350 is designed to elicit an immediate visceral response. You might salivate over the 17" staggered-width AMG 5-spoke alloy wheels wrapped in high-performance tires¹; your gaze riveted by the chiseled front air dam, side skirts, rear apron and AMG trunk lid spoiler. The taut, lowered sport suspension will accelerate your pulse as you hunt down your favorite curves, while steering-wheel mounted shift paddles will put the spine-tingling thrill of the optional 7-speed automatic's Touch Shift feature at your fingertips. A selectable Manual mode is also available for faster gear changes and an even more dynamic driving experience.² We know you'll be drawn to it, but be careful—it's not for the faint of heart.

¹ Lower aspect ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions. ² Steering-wheel gearshift paddles and selectable Manual mode only available with optional automatic transmission.

SLK 350 shown in optional Iridium Silver metallic paint with optional AMG Sport and Heating Packages.

YES, APPEARANCES ARE WHAT THEY SEEM.

The SLK starts with bold design and ferocious performance, but it does not stop there. With the optional SLK Appearance Package, you can add more layers of muscular cool via aesthetic enhancements inside and out. In the cabin, feel the refined wood/leather steering wheel and wood/leather shift knob as you hold the road in style. Elegant Vavona wood trim runs along the dashboard, over the doors and right up to the handbrake. Black also serves as the hip new roofliner in the package. On the exterior, black inlays accent the SLK's headlamps to make them pop. And below, roll on arresting 17" staggered-width 6-twin-spoke wheels.¹ Just one more way the Appearance Package helps make you the center of attention.

¹ Lower aspect ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions.

72° OF FREEDOM.

If you drive a convertible, you know it—that point when it gets too late in the day or in the season, and the top must come up. It's like being told to go inside when you still want to play. That's why Mercedes-Benz created AIRSCARF.¹ A soothing stream of heated air to your neck, head and shoulders helps take the bite out of chilly top-down conditions. With individual 3-stage temperature controls and airflow that automatically adjusts to your driving speed, it's never been more fun to stay out late.

SLK350 shown at right in optional Caspian Blue metallic paint with optional Heating and Premium 1 Packages.

¹ AIRSCARF and heated seats only available with optional Heating Package.

PROTECTION AT 0.000001 MILLIMETERS.

It's a simple desire. You'd like your SLK to stay looking new for a long time. But to accomplish this feat, Mercedes-Benz went to the leading edge of scientific exploration—and the exciting world of nanotechnology. An industry first, the SLK incorporates microscopic ceramic nano-particles—each with a diameter tens of thousands of times thinner than a human hair—into the paint's clearcoat. Tiny? Yes. But mighty too. When the clearcoat is applied, the nano-particles float around freely in the liquid paint. As the paint cures, the particles cross-link into an incredibly strong, dense network—think of an invisible chain-link fence. The resulting finish offers considerably greater and longer-lasting resistance to fine scratches—such as those caused by car washes and environmental factors—than conventional paint finishes, for an enduring deep gloss. To those who say beauty is only skin-deep, we can only respond that it's much, much thinner than that.

SLK350 shown in optional Obsidian Black metallic paint with optional Lighting Package and dealer-installed accessory 18" 2-piece wheels.

250

MILLISECONDS THAT CAN CHANGE
THE REST OF YOUR LIFE.

It starts with higher standards. The robust structure and advanced safety technologies of the SLK-Class help it pass a battery of more crash tests than any single government requires. Along with the open-air exhilaration only a roadster can provide, it's comforting to know that your SLK is equipped with dual steel roll bars bolted directly to the body structure to enhance occupant compartment integrity in the event of a rollover;¹ and there are six air bags—including head/thorax side-impact air bags and dual knee air bags to assist with occupant positioning in an accident exceeding the system's deployment threshold.

¹ The roll bar system is designed to enhance the level of rollover protection compared with a vehicle without one. No system, regardless of how advanced, can eliminate the chance of injury in an accident. Please always wear your seat belt.

Sometimes the smallest detail can make a huge difference. Consider the LED taillamps on the SLK. They illuminate the brakelamps 250 milliseconds more quickly than traditional bulbs. A quarter of a second may not sound like much—it's faster than the blink of an eye—but a car following you at 60 mph covers 22 feet in that amount of time. Sometimes an accident can be avoided with just a few extra inches to respond. So something as simple as a better brakelamp may give the car behind you extra stopping distance.

designo AUTOMOTIVE ARTISTRY

With its aggressive lines and invigorating performance, the SLK-Class embodies the thrill that only a true sports car can provide. For some, it's also the perfect canvas for a most personal statement of individual style. To provide exclusivity to go with the exhilaration, we present the SLK-Class *designo* editions.¹ Each is a masterpiece, featuring an exclusive *designo* exterior color perfectly partnered with sumptuous, hand-selected Nappa leather upholstery and exquisite wood trim matched by eye for grain, then shaped and finished by hand. The result is a work of automotive art that would make a delightful addition to any collection.

designo ESPRESSO EDITION

A most stimulating experience starts with the robust Mocha Black metallic paint of the *designo* Espresso Edition. Savor the creamy richness of Sand Nappa leather adorning the roll bars and door trim, edging the floor mats and stunningly contrasted on the seats by Black quilted Nappa leather inserts. Adding extra flavor, Natural Poplar wood trim is hand-fitted throughout the cabin.

designo CHABLIS EDITION

Elegance meets SLK athleticism in the *designo* Chablis Edition. The soft tones of *designo* Chablis metallic paint are echoed in matching Nappa leather trim on the 2-tone seats, door trim and roll bars. And for a most subtle finish, hand-finished Natural Poplar wood trim awaits your touch on features throughout the cabin, including the door pulls and parking brake handle.

designo GRAPHITE EDITION

Sleek sophistication is the calling card of the *designo* Graphite Edition. Immaculately attired in *designo* Graphite metallic paint, with matching hand-fitted Graphite Nappa leather on the roll bars, 2-tone seats and door trim, it is a singular presence of power and prestige. Natural Poplar wood trim throughout the interior offers a striking contrast, for an intriguing look that invites an extended stay.

¹ SLK 280 and SLK 350 *designo* editions require optional Heating Package.

A. 8-way power seats
Included as part of the optional Premium 1 Package, 8-way power driver and passenger seats each feature 3-position memory for custom-tailored comfort. The memory system also retains your desired settings for the package's 4-way power steering column and side mirrors.

B. Ambient Lighting
One of the most elegant features of the Premium 1 Package is ambient interior lighting. Perfect for your next moonlit drive, it works with illuminated vanity mirrors and other sources of light to cast a gentle glow over the center console and into each footwell, and to accent the cabin's many other refined appointments.

C. Digital automatic climate control
This system features left and right controls for temperature and airflow, full automatic operation and a charcoal filter that can automatically shut off incoming air when it senses an increase in smog, plus an attractive digital display for enhanced readability.

D. COMAND system
The optional Cockpit Management and Data system integrates the radio, in-dash single-CD player, available DVD-based Navigation System⁴ and controls for the optional Hands-Free Communication System, the glovebox-mounted 6-disc CD changer and optional SIRIUS Satellite Radio into a single in-dash unit that you can access from the SLK's standard multifunction display and steering-wheel controls. A large color-LCD screen provides crisp, clear displays. And with the DVD-based Navigation System, the maps of the contiguous U.S., Canada and Oahu, Hawaii are all read from a single disc. To keep your maps and Points Of Interest as up-to-date as possible, ask your dealer about our NavUpdate discs, available to help keep you on track with the most current data. The COMAND system is available as part of the optional Premium 2 Package; the DVD-based Navigation System is available as part the optional Premium 3 Package.

E. Vavona wood trim
For an ideal blend of sport and luxury, the Appearance Package⁵ adds the classic beauty of Vavona wood trim on the steering wheel, shift knob, handbrake, door pulls and dashboard.

F. Heated seats
Heated seats help take the chill out of even the coldest day. The seats offer three levels of soothing warmth, and are available as part of the optional Heating Package.

G. 6-disc CD changer
Conveniently mounted in the glovebox and fully integrated with the audio or COMAND system in your SLK, the optional single-feed 6-disc CD changer can play MP3-encoded CDs, and makes it easy to enjoy hours of your favorite audio entertainment.

H. Rain-sensing wipers
Part of the Premium 1 Package, the intermittent wipers automatically adjust their frequency based on the amount of rainfall that the infrared sensors detect on the windshield glass.

Accessories
Your dealer offers an enticing selection of SLK accessory items—from distinctive alloy wheels to eye-catching brushed aluminum mirrors—to let you add even more individualized appeal to your SLK. To ensure the highest quality, each of these components is designed, engineered and tested to the same exacting standards as your Mercedes-Benz. Ask your dealer for a copy of the SLK-Class Accessories Brochure. It contains the full line of appearance, utility and car care accessories offered by Mercedes-Benz for the SLK.

M. iPod® Integration Kit⁸
When equipped with the optional COMAND system (part of the Premium 2 Package), adding this accessory adapter kit integrates your dock-equipped Apple iPod (sold separately) with the audio system. Program information is provided in the multifunction display, and you can control your iPod via the multifunction steering wheel while your iPod is simultaneously charging.

N. Chrome mirror housings
These high-shen exterior chrome mirror housings perfectly complement the range of coordinating exterior refinements. Two per set.

O. Elarnet⁹
17" 6-spoke multipiece wheel

P. Sadachiba⁹
18" 5-spoke multipiece wheel

Hands-Free Communication System¹ (not shown)

A selection of Mercedes-Benz-approved retail handsets can be connected to the Multi-Handset Interface² (MHI) Hands-Free Communication System in one of two easy ways: a range of MHI cradles or a new MHI Bluetooth® interface³ module. All devices click in place on the MHI contact plate in the center console of vehicles equipped with MHI. Cradles provide the best performance for users who talk on the phone often, require optimum reception, have big address books and need to review text messages in the car. In contrast, the Bluetooth interface module is ideal for light phone users who don't need access to address book and received call lists in the car. It services their needs via a convenient wireless connection between the handset and MHI system. No need to dock the phone in the car; just leave it in your pocket and enjoy hands-free conversations over the sound system. Best of all, now there's a wide array of Mercedes-Benz-approved retail handsets compatible with the MHI. Hands-Free Communication System prewiring is included as part of the Premium 2 Package, which is required for dealer-installed Hands-Free Communication System kit, MHI cradles and Bluetooth interface modules, sold separately. Please see your dealer for details.

SIRIUS Satellite Radio⁵
It's like having a music library of over two million songs in your Mercedes-Benz. Optional SIRIUS Satellite Radio integrates with the standard audio system and controls. Your SIRIUS subscription brings 125 all-digital coast-to-coast channels, with commercial-free music from rock to country and classical to jazz, plus non-musical channels that cover news, sports—including live games from the NFL®, NHL® and NBA—and such well-known names as Discovery Channel, E! and Radio Disney. SIRIUS is only available as part of the Premium 1 Package for 2007.

¹ Always plug the phone into the cradle for use inside the vehicle or use the Bluetooth interface. Otherwise operating a non-approved phone or radio transmitter with its own attached or built-in antenna while the engine is running can interfere with the vehicle's electronic systems. For safety reasons, the driver should not use a cellular phone while the vehicle is in motion. We encourage the driver to stop the vehicle in a safe location before answering or placing a call. See your Mercedes-Benz dealer or visit www.Wireless4MB.com for current handset availability. Not all approved phones support all system features. See dealer for details. ² Accessory MHI cradles, Bluetooth interfaces and phones sold separately. See dealer for a list of approved compatible phones. Accessory cradles, interfaces and phones include one-year, unlimited-mileage warranty. See dealer for details. ³ BLUETOOTH INTERFACE DOES NOT PROVIDE PHONE CHARGING OR EXTERNAL ANTENNA. PHONE BOOK DOWNLOAD FEATURE IS DEPENDENT ON SELECTED HANDSET. VISIT WWW.WIRELESS4MB.COM FOR DETAILS. ⁴ While the Navigation System provides directional assistance, the driver must remain focused on safe driving behavior, including paying attention to traffic and street signs. The driver should utilize the system's audio cues while driving and should only consult the map or verbal displays once the vehicle has been stopped in a safe place. Maps do not cover all areas nor all routes within an area. ⁵ Programming subject to change. Not available in Alaska, Hawaii or Puerto Rico. While the SIRIUS network of satellite and terrestrial antennae provides nearly seamless service throughout the contiguous U.S., SIRIUS service may be unavailable or interrupted for a variety of reasons, including

environmental or topographic conditions; in certain locations such as tunnels, parking garages or within or next to large buildings; or near other technologies that can interfere with the SIRIUS signal. SIRIUS, the dog logo and SIRIUS stream names and logos are trademarks of SIRIUS Satellite Radio. NFL® is a registered trademark of the National Football League and its affiliates. NHL® is a registered trademark of the National Hockey League. The National Basketball Association name is the property of NBA Properties, Inc. ⁶ Delayed availability. ⁷ Not available SLK 55 AMG or with AMG Sport Package. ⁸ iPod is a registered trademark of Apple Computer, Inc. All iPod devices are sold separately. ⁹ Lower aspect ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions.

ENGINES PAGE 10/11	SLK 280 228-HP, 3.0-LITER DOHC 24-VALVE V-6 SLK 350 268-HP, 3.5-LITER DOHC 24-VALVE V-6	
	The 24-valve DOHC V-6 engines of the SLK 280 and SLK 350 feature variable intake and exhaust valve timing, with continuously variable adjustment of all four cams up to 40° for smooth idling, rich midrange torque and high-rpm punch. Partnered with this is an innovative intake system engineered with movable “turbulence flaps” that vary the path and flow rate of the incoming air. At higher engine speeds, a shorter intake path allows maximum air volume, while at lower engine speeds, a longer path helps accelerate the air intake for better	cylinder charging. These features combine to make these engines incredibly flexible, allowing them to provide more than 85% of peak torque from as low as 1,500 rpm while supplying an exhilarating redline rush. Extensive use of race-proven, lightweight materials, including an aluminum block and heads and a magnesium intake manifold, helps ensure that the SLK 280 and SLK 350 are as responsive as they are powerful.
TRANSMISSIONS PAGE 12/13	6-SPEED MANUAL OPTIONAL 7-SPEED AUTOMATIC	
	The 6-speed manual transmission has been designed to give it an even sportier edge. Beneath the contoured shift knob is a short-throw shifter with a precise direct-action rod-type linkage for quicker and crisper gear changes. No less impressive is the optional 7-speed automatic – an industry first. The greater number of gears allows for a snappier first gear for quick off-the-line acceleration, a smaller rpm drop with each upshift for seamless midrange response and a long-legged top gear for quiet and economical cruising. Its driver-adaptive control even runs out each gear to a higher rpm when you’re driving more enthusiastically. The	7-speed also makes especially good use of its extra gears: Unlike ordinary automatic transmissions that sequentially march through their gears as they downshift, the SLK can actually skip as many as four gears, meaning noticeably quicker downshifts and the ability to get back on the power sooner. It even “blips” the throttle to match revs, for smoother downshifts. Along with the SLK’s standard Touch Shift manual-style control, the optional AMG Sport Package adds the easy access of steering-wheel mounted shift paddles, plus selectable Manual mode, for an even more dynamic driving experience.
HANDLING PAGE 14/15	SPORT SUSPENSION STAGGERED-WIDTH WHEELS AND TIRES AERODYNAMICS	
	The source of the SLK’s responsive handling is a highly developed 4-wheel multilink suspension that offers precise wheel control with excellent ride quality. Grip is communicated on the SLK 280 through 205/55 R16 tires on 7.0"-wide wheels at the front and 225/50 R16 tires on 8.0"-wide wheels at the rear. The SLK 350 features 225/45 R17 tires on 7.5"-wide wheels at the front and 245/40 R17 tires on 8.5"-wide wheels at the rear. The optional AMG Sport Package features AMG-design 5-spoke alloy wheels and a firmer, sport-tuned	suspension that also lowers the ride height for enhanced handling. The SLK’s body is also designed to enhance handling through refined air management. The Formula 1-inspired nose and wide front valance help direct air along the sides of the SLK, while the strongly tapered rear end makes a clean break. To aid stability and further reduce drag, the SLK features small spoilers in front of the front tires and an integrated spoiler edge in the trunk lid to increase downforce and help keep the SLK firmly planted on the road.
BRAKING PAGE 16/17	LARGE VENTILATED FRONT ROTORS RACING-DERIVED TECHNOLOGY BRAKE ASSIST (BAS)	
	To match the impressive power of their V-6 engines, the SLK 280 and SLK 350 have equally impressive braking systems. Large ventilated front rotors – 13.0" on the SLK 350, 11.8" on the SLK 280 – help reduce brake fade in even the most vigorous situations. On the SLK 350, the front rotors feature perforations to help divert water, dirt and heat away from the brake components. Dual-piston front calipers were chosen for the SLK 350 because of their ability to apply stronger brake forces across the	pads. Both models feature dual-piston rear calipers. And since every SLK is a Mercedes-Benz, all models feature a full complement of safety features that includes ABS as well as our pioneering emergency-sensing Brake Assist. BAS senses panic braking by the speed at which you depress the brake pedal and automatically applies all available power braking boost immediately, thereby potentially reducing overall stopping distances.²

1 Lower aspect ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions.

2 Braking effectiveness also depends on proper brake system maintenance, and tire and road conditions.

An electrohydraulically retractable steel hardtop lets the SLK transform from coupe to roadster in only 22 seconds. It's easily done from inside the car via a single console-mounted control. With the optional Premium 1 Package, you can also operate the top from outside the car via the standard SmartKey remote. The hardtop's rugged construction includes a twin-layer steel roof panel, steel C-pillars

twin-layer steel roof panel, steel C-pillars

A rear three-quarter view of a silver Mercedes-Benz C-Class sedan. The car is positioned diagonally, showing its rear end and the left side. The license plate area features the Mercedes-Benz logo and the word 'C-CLASS'. The background is a plain, light-colored surface.

The AMG experience begins with a V-8 producing an enormous 355 horsepower and 376 lb-ft of torque, and making its presence known via a low-backpressure dual-exhaust system with two sets of twin-polished chrome tips. A long-standing tradition, each AMG engine is handcrafted by a single technician—lift the hood and you'll see a plaque bearing his signature. Enhancing the 7-speed automatic—and the first AMG vehicle ever to feature it—is AMG SPEEDSHIFT programming, which provides 35% quicker shifts and holds gears during cornering for increased dynamic performance. Steering-wheel

mounted shift paddles allow manual upshifts and downshifts. To match the engine's magnificent power, an AMG high-performance braking system includes 6-piston front calipers grasping huge compound 13.4" discs—perforated and internally vented to help cool the brakes, even after strenuous use. With a 4.9-second 0-to-60 time¹ and racing-derived brakes, the AMG-calibrated sport suspension works its magic through 225/40 ZR 18 front and 245/35 ZR 18 rear high-performance tires² on staggered-width AMG multispoke lightweight alloy wheels.

For an added measure of security and control, the SLK 280 and SLK 350 are available with optional Mercedes-Benz Extended Run-Flat Tires.³ The self-supporting sidewalls help maintain the tire's structure, so the vehicle may continue to be driven, at reduced speed, a short distance after a puncture. In conjunction with the Mercedes-Benz Extended Run-Flat Tires is a low-tire-pressure sensor that works with the Electronic Stability Program (ESP®). ESP constantly monitors the speeds of all four wheels and compares them with other handling dynamics to diagnose a significant loss of pressure in any tire and alert the

And to allow you to concentrate more on driving and less on adjusting the wipers, the optional rain sensor⁵ automatically adjusts the frequency of the intermittent wipers based on the amount of rainfall detected on the windshield by an infrared sensor.

**INTEGRATED ROLLOVER SENSOR
ELECTRONIC STABILITY PROGRAM**

Beneath the SLK's sleek appearance is a robust yet lightweight structure engineered to help protect you when things get serious. Its front and rear crumple zones include full-width side members designed specifically for offset collisions. Reinforcements of the bulkhead and a floor crossmember near the pedals help strengthen the cabin. The body structure behind the seats includes a convex aluminum bulkhead with a steel crossmember running underneath and an innovative magnesium fuel tank partition. The retractable steel roof adds to the SLK's exceptional rigidity when raised, and is designed to integrate with the rear crumple zone in the event of a rear-end collision. To help preserve occupant space

in the event of a rollover, oval steel tubes are welded into the A-pillars, and dual steel roll bars are bolted directly to the body structure.⁶

Should a collision occur, the SLK employs a combination of the latest technologies to provide outstanding protection. The SLK's Integrated Restraint System includes adaptive front air bags with dual-stage inflation, head/thorax side-impact air bags and knee air bags for both driver and passenger.⁷ The seat belts integrate Emergency Tensioning Devices (ETDs), which remove seat-belt slack in a front or rear collision exceeding a preset threshold, and belt force limiters, which help reduce peak loads on the belted

occupants. A rollover sensor instructs the ETDs and, depending on the type of recognized rollover, the head/thorax air bags to deploy if certain conditions are detected.

To help keep you out of harm's way, our pioneering ESP continuously monitors your steering and braking actions while you're cornering and compares them with the actual vehicle path. If it senses the onset of understeer (plowing) or oversteer (fishtailing), ESP brakes individual wheels and/or reduces excess engine power, to help keep you on course.⁸ ESP also incorporates traction control to help counteract wheelspin under acceleration.⁸

1 Stated rates of acceleration are based upon manufacturer's track results and may vary depending on model, environmental and road surface conditions, driving style, elevation and vehicle load. 2 Lower aspect ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions. 3 Requires AMG Sport Package or Appearance Package on SLK 280. 4 Included as part of the Lighting Package. Not available with AMG Sport Package or on SLK 55 AMG. 5 Part of the Premium 1 Package. 6 The roll bar system is designed to enhance the level of rollover protection compared with a vehicle without one. No system, regardless of how advanced, can eliminate the chance of injury in an accident. Please always wear your seat belt. 7 OCCUPANT CLASSIFICATION SYSTEM (OCS) IS DESIGNED TO TURN THE FRONT PASSENGER'S FRONT AIR BAG OFF WHEN THE SYSTEM SENSES THE WEIGHT OF A TYPICAL CHILD 12 MONTHS OLD OR LESS, PLUS THE WEIGHT OF A STANDARD APPROPRIATE CHILD RESTRAINT. SEE OPERATOR'S MANUAL FOR IMPORTANT ADDITIONAL INFORMATION ON THESE SYSTEMS, AND FOR FURTHER INFORMATION REGARDING THE TRANSPORTATION OF CHILDREN HEAVIER THAN A TYPICAL 12-MONTH-OLD. 8 No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Performance is limited by available traction, which snow, ice and other conditions can affect. Always drive carefully, consistent with conditions. Best performance in snow is obtained with winter tires.

ENGINE	SLK 280 COUPE/ROADSTER	SLK 350 COUPE/ROADSTER	SLK 55 AMG COUPE/ROADSTER
Engine type Construction	2,996-cc DOHC 24-valve 90° V-6 High-pressure die-cast alloy cylinder block. Alloy heads. Counter-rotating balance shaft.	3,498-cc DOHC 24-valve 90° V-6 High-pressure die-cast alloy cylinder block. Alloy heads. Counter-rotating balance shaft.	5,439-cc AMG-built SOHC 24-valve 90° V-8 High-pressure die-cast alloy cylinder block. Reinforced crankshaft and valvetrain. Alloy heads. Lightweight camshafts. Reinforced engine block, oil pan structure, pistons, connecting rods and crankshaft.
Net power Net torque Compression ratio	228 hp @ 6,100 rpm 221 lb-ft @ 2,700–5,000 rpm 11.3:1	268 hp @ 6,000 rpm 258 lb-ft @ 2,400–5,000 rpm 10.7:1	355 hp @ 5,750 rpm 376 lb-ft @ 4,000 rpm 11.0:1
Induction	Chain-driven dual overhead camshafts (DOHC) with continuously variable intake and exhaust timing . Magnesium dual-stage resonance intake manifold increases intake runner length at lower rpm for improved response. Electropneumatic turbulence flaps at start of intake path help increase intake airflow speed at midrange rpm for greater air-fuel mixture swirling and stronger, more complete combustion.		Magnesium dual-stage resonance intake manifold increases intake runner length at lower rpm for improved response.
Fuel and ignition system	ME 9.7 engine management.	ME 9.7 engine management.	ME 2.8 AMG-modified engine management system.
	Integrated sequential multipoint fuel injection and ignition includes individual cylinder control of fuel spray, spark timing/phase and antiknock. Electronic throttle. One high-energy ignition coil and spark plug per cylinder. 100,000-mile spark plug intervals.		Integrated sequential multipoint fuel injection and phased twin-spark ignition includes individual cylinder control of fuel spray, spark timing/phase and antiknock. Electronic throttle. Two high-energy ignition coils and two spark plugs per cylinder. 100,000-mile spark plug intervals.
Fuel tank capacity	18.5 gal/70.0 liters (with 2.4 gal/9.1 liter reserve). Fuel requirement: Premium unleaded gasoline, 91 pump octane.		
Exhaust system	Sport-tuned with dual mufflers and polished chrome tips.		Dual AMG low-backpressure with four polished chrome tips.
DRIVETRAIN			
Manual transmission	Standard. Fully synchronized 6-speed with direct-action short-throw shifter and clutch-starter interlock.	Standard.	Not available.
Automatic transmission	Optional 7-speed automatic.	Optional 7-speed automatic.	Standard AMG-enhanced 7-speed automatic.
Driver-adaptive programming Touch Shift Shift into Optimum Gear Comfort mode	Electronically controlled shifting. Driver-adaptive programming adjusts shift points to the driver's current driving style. Touch Shift permits the driver to manually downshift and allows upshifts by nudging the shift lever left or right of the Drive position. Shift into Optimum Gear programming allows one-touch selection of the best gear for maximum acceleration or engine braking by holding the shift lever to the left of Drive for one second. Driver-selectable Comfort mode starts the vehicle moving in 2nd gear, or 2nd Reverse gear, and upshifts at lower rpm, to help improve control on slippery surfaces.		
Instrument cluster display	Selected gear range and Sport/Comfort mode. (Manual mode included in AMG Sport Package.)		Selected gear range and Sport/Comfort/Manual mode.
AMG SPEEDSHIFT™ with Manual mode	Not available.	Not available.	Standard. AMG SPEEDSHIFT programming provides up to 35% faster gear changes, automatically downshifts during braking, prevents unwanted upshifting while cornering, offers one-touch selection of the best gear for maximum acceleration (Shift into Optimum Gear) and features torque converter lockup in all forward gears. Manual mode allows direct-access shifting through forward gears via paddles on back of upper steering-wheel spokes (left paddle downshifts, right paddle upshifts) or via Touch Shift feature of shift lever, and will automatically intervene only to select 1st gear when the vehicle stops. In Standard and Comfort modes, the steering-wheel paddles operate the Touch Shift feature.
Gearshift control	Included with optional AMG Sport Package. ¹ Gearshift control allows driver to operate Touch Shift feature via paddles on backs of upper steering-wheel spokes.	Included with optional AMG Sport Package. ¹	Not available.
Drive configuration	Rear-wheel drive.	Rear-wheel drive.	Rear-wheel drive.
Rear axle ratio	3.27:1	3.27:1	3.06:1
TRACTION/STABILITY			
Electronic Stability Program (ESP®)	ESP compares the driver's intended course, via steering and braking inputs, to the vehicle's response, via lateral acceleration, rotation (yaw) and individual wheel speeds. ESP then brakes individual front or rear wheels and/or reduces excess engine power as needed to help correct understeer (plowing) or oversteer (fishtailing). ESP also integrates all-speed traction control, which senses drive-wheel slip under acceleration and individually brakes the slipping wheel or wheels, and/or reduces excess engine power, until control is regained. ¹		

PERFORMANCE		SLK 280 COUPE/ROADSTER	SLK 350 COUPE/ROADSTER	SLK 55 AMG COUPE/ROADSTER

1 No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Performance is limited by available traction, which snow, ice and other conditions can affect. Always drive carefully, consistent with conditions. Best performance in snow is obtained with winter tires. 2 Stated rates of acceleration are based upon AMCI's test-track results for SLK 350 and manufacturer's track results for SLK 280 and SLK 55 AMG, and may vary depending on model, environmental and road surface conditions, driving style, elevation and vehicle load. 3 2006 EPA estimated fuel economy. Compare the estimated mpg to the estimated mpg of other vehicles. You may get different mileage depending on how fast you drive, weather conditions and trip length. 2007 figures unavailable at time of publication. See your dealer. 4 Your actual highway mileage will probably be less than the highway estimate. 5 Lower aspect ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions. 6 Braking effectiveness also depends on proper brake system maintenance, and tire and road conditions. 7 Figures are with top up unless otherwise indicated.

SLK 280	SLK 350	SLK 55 AMG	
EXTERIOR APPEARANCE			
■	–	–	16" staggered-width 5-spoke alloy wheels.
–	■	–	17" staggered-width 10-spoke alloy wheels.
–	–	■	18" staggered-width AMG thin-spoke monoblock alloy wheels.
■	■	–	Formula 1-style nose with color-keyed grille crossfins.
–	–	■	Formula 1-style nose with black grille crossfins.
–	–	■	AMG-design Formula 1-style front air dam with mesh air intakes, side skirts and rear apron. Color-keyed AMG-design rear lip spoiler.
EXTERIOR FEATURES			
■	■	■	Electrohydraulic retractable steel hardtop. One button lowers or raises top and all four side windows. Rear window pivots 150° while top folds.
■	■	■	Trunk lid opens at front for top retraction and at rear for cargo access.
■	■	■	Dual automatically heated power mirrors.
□¹	□¹	■	Auto-dimming left-side mirror. Parking-assist right-side mirror can tilt down upon shifting to Reverse.
■	■	■	Electrically heated rear window with auto-shutoff based on time, driving speed and outside temperature.
■	■	■	Dual aero-blade windshield wipers. Heated windshield washer nozzles.

SLK 280	SLK 350	SLK 55 AMG	
EXTERIOR LIGHTING			
■	■	■	Variable-focus projector-beam halogen headlamps with clear high-impact polycarbonate lenses. Halogen front foglamps, in front apron. Single red rear foglamp, integrated in left taillamp cluster.
■	■	■	Driver-selectable light-sensing headlamps can be set via the Auto position of the headlamp switch to automatically illuminate in darkness, and when entering dark tunnels or parking garages.
■	■	■	Driver-programmable daytime running lamps.
■	■	–	Red and white rear lamps with dual-intensity LED brake and taillamps.
–	–	■	Smoke-tinted taillamp lenses with dual-intensity LED brake and taillamps.
■	■	■	Automatic lamp substitution uses a nearby lamp if a critical bulb fails.
■	■	■	Touch Turn Signals flash three times with one touch of turn-signal lever for lane changing. Auxiliary LED turn-signal indicators are integrated with side mirror housings.

SLK 280	SLK 350	SLK 55 AMG	
LOCKING/SECURITY			
■	■	■	SmartKey uses an electronic code to unlock steering column and ignition. Removing SmartKey from ignition disables engine computer.
■	■	■	SmartKey integrates: – Remote Door Lock/Unlock buttons. – Trunk opener with valet lockout. – Removable valet key. – Panic alarm.
■	■	■	Driver may selectively unlock only the driver's door and fuel filler, or both doors plus the trunk and fuel filler.
■	■	■	SmartKey remote locking uses both infrared and radio-frequency signals for improved range, and rolling-code signal for protection from cloning.
□¹	□¹	■	SmartKey infrared-remote operation of retractable hardtop.
■	■	■	Driver-programmable driveaway locking can automatically lock the doors when the car reaches 9 mph.
■	■	■	Night security illumination uses the car's exterior lights to help illuminate a path after parking.
■	■	■	Locator lighting can help light a return path when the car is remote-unlocked in darkness. Unlocking car activates illuminated entry system.
■	■	■	Automatic antitheft alarm system with remote panic feature.
■	■	■	Emergency trunk release, located inside trunk and illuminated for 60 minutes after trunk lid is closed.
■	■	■	Tele Aid GPS-based Stolen Vehicle Recovery helps law enforcement agencies track and recover stolen vehicle. ²
■	■	■	Tele Aid Remote Door Unlock allows owner to have doors automatically unlocked in the event the SmartKey becomes locked inside the vehicle. ²
■	■	■	Tele Aid Automatic Alarm Notification alerts Mercedes-Benz to contact vehicle owner if antitheft alarm sounds. ²

SLK 280	SLK 350	SLK 55 AMG
INTERIOR FEATURES		
■	■	■
Multifunction steering wheel provides convenient additional controls for audio system, optional phone and multifunction display (see Instrumentation, page 48).		
□¹	□¹	■
Shift paddles behind steering-wheel spokes.		
■	■	■
Power front side windows, with one-touch express-up/down. One-button lowering or raising of all four windows via power top switch.		
■	■	–
4-way (tilt/telescoping) manual steering column.		
□¹	□¹	■
4-way power steering column, position-linked to driver's seat memory. Driver-programmable easy-exit feature can raise steering wheel when SmartKey is removed from ignition, and restore position when key is reinserted.		
■	■	■
Electronic cruise control.		
■	■	■
Delayed-shutoff courtesy lamps. Dual front reading lamps.		
□¹	□¹	■
Automatic ambient interior lighting of console and footwells. Entrance lamps in doors. Illuminated console storage. Illuminated vanity mirrors.		
□¹	□¹	■
Auto-dimming rearview mirror.		
■	■	■
Enclosed storage in console and on rear cabin wall. Illuminated glovebox. Pockets in both doors. Parcel net in right front footwell and on rear cabin wall behind seats.		
■	■	■
Retractable dual cupholder.		
■	■	■
Illuminated, carpeted trunk. Movable rigid cover allows increased storage capacity when hardtop is up.		

SLK 280	SLK 350	SLK 55 AMG	
CLIMATE CONTROL			
■	■	■	Dual-zone climate control with dual rotary automatic temperature controls, and manual control of blower speed and airflow distribution.
■	■	■	Dash-top diffuser vent.
■	■	■	Electrostatic dust/pollen filter and activated charcoal filter.
■	■	■	Tunnel mode offers one-touch closing of all windows and cabin air intake by holding the air-recirculation button.
■	■	■	REST mode can ventilate cabin or help keep cabin warmer using residual heat for up to 30 minutes after car is turned off.
SEATING			
■	■	–	8-way manual sport seats with silver-painted magnesium frame.
–	–	■	AMG-design sport seats with silver-painted magnesium frame.
□¹	□¹	■	8-way power seats, each with 3-position memory. Driver's seat memory includes steering column and outside mirror positions.
□¹	□¹	■	Heated seats.

SLK 280	SLK 350	SLK 55 AMG
UPHOLSTERY/TRIM		
■	■	– Premium Leather upholstery on seats, head restraints and door inserts.
–	–	■ AMG-design 2-tone Nappa leather upholstery.
■	■	– Leather-trimmed 3-spoke sport steering wheel and shift knob.
–	–	■ AMG-design leather-trimmed 3-spoke sport steering wheel and shift knob.
■	■	– Silver trim on doors, dashboard and console.
–	–	■ AMG-design aluminum trim on dashboard and console. Silver trim on doors.
■	■	■ Brushed rubber-studded stainless-steel pedals.
■	■	■ Stainless-steel door sill trim (with AMG insignia on SLK 55 AMG).
■	■	■ Velour carpeting and floor mats (exclusive AMG mats on SLK 55 AMG).

■ STANDARD.

□ OPTIONAL.

– NOT AVAILABLE.

1 Optional or part of an Option Package. See optional equipment listing on page 49. 2 Tele Aid equipment is standard on all SLK-Class models. First year's Tele Aid Security & Care service provided at no additional cost with subscription. Subscription and acquaintance call required for service to be active. Service operates only where cellular and GPS coverage are available, and requires adequate power supply. Owner must authorize vehicle tracking by providing passcode and a valid stolen vehicle police report number. PIN code required to activate Remote Door Unlock. See dealer for details of telematics services.

SLK 280	SLK 350	SLK 55 AMG	SLK 280	SLK 350	SLK 55 AMG	SLK 280	SLK 350	SLK 55 AMG
AUDIO/TELEMATICS			INSTRUMENTATION			RESTRAINT SYSTEMS		
■	■	■	■	■	■	■	■	■
AM/FM stereo/weatherband radio with in-dash single-CD player.			Electronic analog speedometer, tachometer, fuel gauge and quartz clock.			Integrated Restraint System: ⁴ – Driver and passenger are each provided with a front air bag, knee air bag, side-impact head/thorax air bag and 3-point seat belt with Emergency Tensioning Device (ETD) and belt force limiter.		
■	■	■	■	■	–	■	■	■
In-dash audio system operating panel integrates controls and displays for radio, CD player and optional 6-disc CD changer.			Black gauges with white markings. Silver instrument tubes.			Adaptive dual-stage front air bags are deployed in response to frontal impact severity exceeding a preset threshold. ⁴		
■	■	■	–	–	■	■	■	■
Fiber-optic network offers precise, high-speed communication among components, and includes factory preparation for optional CD changer.			AMG-design gauges, silver dial surrounds, 200-mph speedometer, ² red needles and AMG tachometer with “V-8” logo.			ETDs deploy in a front or rear impact exceeding a preset threshold of severity, or certain rollovers. ETD will not deploy if seat belt is unfastened.		
■	■	■	■	■	■	■	■	■
Tele Aid system uses GPS satellites plus a cellular link to provide 24-hour live assistance for emergency aid (SOS button), information (<i>i</i> -button) or Roadside Assistance (Wrench button). – Basic Tele Aid Security & Care service includes Automatic Collision Notification, Stolen Vehicle Tracking, Remote Door Unlock service and Dealer Connect. ¹			Digital display for odometer and Touch Shift gear/mode selection.			Automatic Collision Notification engages Tele Aid SOS function if an air bag or ETD deploys. ¹		
			■	■	■	■	■	■
			Multifunction display in instrument cluster, scrolled via steering-wheel controls to operate and display various menus and vehicle features: – Resettable trip meter and outside temperature indicator. – Digital speed, coolant temperature, Maintenance System (see below) and engine oil-level check (SLK 55 AMG). – Radio station, CD player, CD changer. ³ – Optional Navigation System route guidance. – Vehicle reminder and malfunction messages. – Driver-programmable settings for displays, lighting, vehicle and convenience features. – Trip computer. – Cellular phone book. ³			Seat belts include lower points attached to seat frames.		
			■	■	■	■	■	■
			Mercedes-Benz Maintenance System Plus displays distance remaining to next basic maintenance service, indicates type of service due and provides automatic reminder feature when service interval draws near. System also monitors brake-pad wear.			Dual height-adjustable head restraints.		
			■	■	■	■	■	■
			Audible reminders and messages for open door; exterior lamp failure; low fuel, engine oil, coolant and washer fluid; and to release parking brake, switch off headlights and remove ignition key.			Dual fixed-position heat-treated micro-alloy steel roll bars. ⁵		

■ **STANDARD.**
□ **OPTIONAL.**
– **NOT AVAILABLE.**

1 Tele Aid equipment is standard on all SLK-Class models. First year’s Tele Aid Security & Care service provided at no additional cost with subscription. Subscription and acquaintance call required for service to be active. Service operates only where cellular and GPS coverage are available, and requires adequate power supply. Owner must authorize vehicle tracking by providing passcode and a valid stolen vehicle police report number. PIN code required to activate Remote Door Unlock. See dealer for details of telematics services. 2 Please obey all speed laws. Top speed electronically limited to 155 mph. 3 When equipped with this feature. 4 WARNING: THE FORCES OF A DEPLOYING AIR BAG CAN CAUSE SERIOUS OR FATAL INJURIES TO A CHILD UNDER AGE 13. THE SAFEST SEATING POSITION FOR YOUR CHILD IS IN THE REAR SEAT, BELTED INTO AN APPROPRIATE, PROPERLY INSTALLED CHILD SEAT, OR CORRECTLY WEARING A SEAT BELT IF TOO LARGE FOR A CHILD SEAT. SEE OPERATOR’S MANUAL FOR ADDITIONAL WARNINGS AND INFORMATION ON AIR BAGS, SEAT BELTS AND CHILD SEATS. 5 The roll bar system is designed to enhance the level of rollover protection compared with a vehicle without one. No system, regardless of how advanced, can eliminate the chance of injury in an accident. Please always wear your seat belt. 6 OCCUPANT CLASSIFICATION SYSTEM (OCS) IS DESIGNED TO TURN THE FRONT PASSENGER’S FRONT AIR BAG OFF WHEN THE SYSTEM SENSES THE WEIGHT OF A TYPICAL CHILD 12 MONTHS OLD OR LESS, PLUS THE WEIGHT OF A STANDARD APPROPRIATE CHILD RESTRAINT. SEE OPERATOR’S MANUAL FOR IMPORTANT ADDITIONAL INFORMATION ON THIS SYSTEM, AND FOR FURTHER INFORMATION REGARDING THE TRANSPORTATION OF CHILDREN HEAVIER THAN A TYPICAL 12-MONTH-OLD. 7 Optional or part of an Option Package. 8 Requires COMAND head unit. 9 While the Navigation System provides directional assistance, the driver must remain focused on safe driving behavior, including paying attention to traffic and street signs. The driver should utilize the system’s audio cues while driving and should only consult the map or verbal displays once the vehicle has been stopped in a safe place. Maps do not cover all areas nor all routes within an area. 10 iPod is a registered trademark of Apple Computer, Inc. All iPod devices are sold separately. 11 Programming subject to change. Not available in Alaska, Hawaii or Puerto Rico. While the SIRIUS network of satellite and terrestrial antennae provides nearly seamless service throughout the contiguous U.S., SIRIUS service may be unavailable or interrupted for a variety of reasons, including environmental or topographic conditions; in certain locations such as tunnels, parking garages or within or next to large buildings; or near other technologies that can interfere with the SIRIUS signal. SIRIUS, the dog logo and SIRIUS stream names and logos are trademarks of SIRIUS Satellite Radio. 12 Delayed availability. 13 Lower aspect ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions. 14 Requires AMG Sport Package on SLK280. 15 SLK 280 and SLK350 *designo* editions require Heating Package.

Tele Aid¹
Tele Aid puts a variety of services at system subscribers’ fingertips with three simple buttons: the SOS button, the Wrench button and the *i*-button.

- SOS button: In case of an emergency, push the SOS button for a Tele Aid Response Specialist who can notify police, paramedics or other emergency personnel of your vehicle’s location. SOS is automatically triggered in the event of an air-bag or seat-belt Emergency Tensioning Device (ETD) deployment.
- Wrench button: If you need Mercedes-Benz Roadside Assistance, push the Wrench button. Service personnel will help you identify the trouble and dispatch Roadside Assistance if necessary.
- *i*-button: Push the *i*-button to contact the Customer Assistance Center or to be connected to your Mercedes-Benz dealer. You can also reach the Concierge Service, receive Route Assistance and access Tele Aid’s Traffic Information service.^{2,3}

Tele Aid Security & Care service
You’re already driving a very safe car. Now the Tele Aid Security & Care service enhances your sense of security by providing emergency notification services, connection to Roadside Assistance, Remote Door Unlock, Stolen Vehicle Recovery, i-Operator’s Manual, Anti-Theft Client Alarm Notification and more. Keep your annual subscription up-to-date and enjoy the peace of mind that comes from knowing you and your family have an added measure of security and care. With an active Tele Aid subscription, you may be eligible for a discount from your insurance provider.

Tele Aid Luxury & Convenience Package²
The Tele Aid Luxury & Convenience Package builds on the services of the Tele Aid Security & Care service and adds access to premium services that enhance your in-vehicle experience every time you get into your Mercedes-Benz. Upgrading to the Tele Aid Luxury & Convenience Package is as easy as pressing the *i*-button and speaking with a Tele Aid Response Specialist.

- Personal Concierge acts as your personal assistant on the road. The Tele Aid Concierge Service offers you the gift of time and convenience by fulfilling your requests for nearly “anything, anytime, anywhere” at the touch of a button. You can also use the Online Concierge, which allows you to access your Personal Concierge via your computer or even your PDA from the convenience of your home, office or anywhere Internet access is available.
- Information provides up-to-the-minute details on traffic conditions along your route.³
- Route Assistance connects you to a trained specialist who has the resources to locate and help you get to your destination.

24-hour Roadside Assistance
The first of its kind, the Mercedes-Benz Roadside Assistance Program is still the only one that remains in effect for the life of the vehicle. Our Roadside Assistance technicians draw on years of experience and training to get you back on the road as quickly as possible.⁴

Mercedes-Benz Warranties
Our New Vehicle Limited Warranty runs for 48 months or 50,000 miles, whichever comes first. And anytime during the new vehicle warranty coverage, you can also purchase a Mercedes-Benz Extended Limited Warranty that will provide additional protection when the New Vehicle Limited Warranty expires.⁵

The Mercedes-Benz Maintenance System
We’ve made caring for your vehicle easier than ever. With the Mercedes-Benz Maintenance System, the service intervals are fixed and predictable — every 13,000 miles or one year (10,000 miles or one year for AMG models).⁶ Your vehicle will even remind you, about one month before service is due, via an automatic display on the dashboard that also tells you which type of maintenance service is due.

The no-charge Service Welcome
Getting proper care for your Mercedes-Benz is easiest when you go to the people who know your vehicle — and you — best: your Mercedes-Benz Center’s Service Department. To help you get acquainted, just bring your vehicle in for a no-charge first visit between 1,000 and 3,000 miles, where your dealer will perform a diagnostic check as well as address any questions you may have. It’s part of our no-charge Service Welcome, which also provides your first tire rotation at no charge anytime before 6,500 miles.⁷

SLK350 shown in optional Iridium Silver metallic paint with optional Lighting and AMG Sport Package.

24-hour Customer Service
Our Customer Assistance Center is your one-stop source for answers. Whether you need to know how to use your audio system, find the nearest Mercedes-Benz dealer, get pricing or learn about personal and automotive accessories, just call 1-800-FOR-MERCEDES or press the Tele Aid *i*-button in your vehicle.⁸

Sign and Drive service
Our legendary Roadside Assistance Service includes bringing you some fuel if you’ve run out, replacing a flat tire with your spare or jump-starting your car if the battery dies. All at no charge, and all for as long as you’re driving a Mercedes-Benz — even somebody else’s.⁹ Help is as close as your vehicle’s Wrench button⁸ or just a phone call away at 1-800-FOR-MERCEDES.

Trip Interruption benefits
In the unlikely event that a breakdown covered by your MBUSA New Vehicle Limited Warranty occurs more than 100 miles from your home, leaves your Mercedes-Benz inoperable or unsafe to drive and requires overnight repairs at a Mercedes-Benz Center, you’ll be reimbursed up to \$300 per day for any documented expenses — for up to three days — for meals, lodging and substitute transportation.

Alternate Transportation Program
When you bring your vehicle into a Mercedes-Benz Center for servicing during the warranty period, ask about your dealer’s Alternate Transportation Program — so you can maintain your busy schedule while your dealer maintains your vehicle.¹⁰

Mercedes-Benz Financial
Mercedes-Benz Financial offers an impressive array of flexible and convenient financing options. To determine whether purchasing or leasing is right for you and to estimate the monthly payment of your next Mercedes-Benz, visit MercedesBenzFinancial.com.

European Delivery Program
It’s more than just a new car, it’s a driving adventure. With our factory delivery program, you can enjoy a honeymoon with your new Mercedes-Benz as you savor the delight of driving it in the land where it was built — while you enjoy a 7% savings on many models.¹¹ Enjoy it as a brief trip or as the starting point of your own self-planned European adventure. You can also take advantage of the optional Rally Package, which takes you through the Black Forest and the Alps, then on to Munich, staying at luxurious, historic hotels all along the way.

MBUSA.com
Whether you need to locate the closest Mercedes-Benz dealer, want to know about financing and leasing options or would like more information on our European Delivery Program, MBUSA.com can help. This comprehensive website covers virtually every aspect of Mercedes-Benz ownership. You can also use MBUSA.com to peruse the extensive catalog of Mercedes-Benz accessories, or set up an Online Portfolio to save all of your automotive preferences. Quick, easy and always at your service, MBUSA.com puts a world of information just a mouse-click away.

- Model Selector: Find the perfect Mercedes-Benz based on performance, price and bodystyle.
- Photos and Videos: Mercedes-Benz photos, wallpaper, screen savers, running footage, TV commercials and more.
- Build Your Own: Build your dream Mercedes-Benz online. You can even send the particulars to your local dealer, to help them set up a test drive for you.
- Purchase Inquiry: Schedule a test drive, order a brochure, learn more about a model and explore financing and leasing options.
- Locate a Dealer: Finding your nearest dealer is easy with detailed maps and driving directions.
- Owners Online: This exclusive online resource offers owner benefits that extend beyond your vehicle. Access your Mercedes-Benz Financial account, configure your Tele Aid system, get vehicle maintenance tips and find answers to frequently asked questions. Plus, you’ll receive exclusive offers and promotions, and advance notice of what’s new and exciting at Mercedes-Benz.

1 Tele Aid equipment is standard on all SLK-Class vehicles. First year’s Tele Aid Security & Care service provided at no additional cost with subscription. Subscription and acquaintance call required for service to be active. Service operates only where cellular and GPS coverage are available, and requires adequate power supply. Owner must authorize vehicle tracking by providing passcode and a valid stolen vehicle police report number. PIN code required to activate Remote Door Unlock. See dealer for details of telematics services. 2 Concierge Service available only with Tele Aid Luxury & Convenience Package. Traffic Information and Route Assistance use is included as part of the additional cost of the Tele Aid Luxury & Convenience Package and is available at an additional per-use charge when used with the Tele Aid Security & Care service. See dealer for details. 3 Performance of the automated voice system varies depending on the noise level in and around the vehicle. Traffic Information is based on available broadcast data, not available in all areas and only provided for routes that have been personalized on the Tele Aid website (up to five routes) or are within a specified radius of your vehicle’s present location. See Tele Aid section of MBUSA.com for available cities. 4 Vehicle must be accessible from main roads. Roadside Assistance repairs may involve charges for parts, service and towing. Depending on the circumstances, these services may be provided by an outside service, courtesy of Mercedes-Benz Roadside Assistance. For full details of the Roadside Assistance Program, please see your dealer.

5 Please see your dealer for warranty details as well as for terms, conditions and pricing for extended warranty options. Surcharges apply after the first year. 6 Whichever comes first. Requires use of 229.5-spec oil and high-performance fleece oil filter. Driver is responsible for monitoring fluid levels and tire pressure between service visits. See Maintenance Booklet for details. 7 On models with different-sized front and rear tires, which cannot be rotated, dealer will inspect tires and set inflation pressure. Follow tire manufacturer’s recommendations. 8 First year’s Tele Aid Security & Care service provided at no additional cost with subscription. Subscription and acquaintance call required for service to be active. Service operates only where cellular and GPS coverage are available, and requires adequate power supply. 9 For full details of Sign and Drive service, as well as the Roadside Assistance Program, please see your dealer. 10 Certain restrictions may apply. Terms, conditions and dealer participation may vary. 11 European Delivery discount available on select models. Please see your dealer for details.
