

2013

SLK-CLASS

Mercedes-Benz

SKY ABOVE. ROAD BELOW.

AND IN BETWEEN, ONLY THE TWO OF YOU.

SLK350 shown above with Mars Red paint, and optional KEYLESS-GO, Panorama roof, PARKTRONIC, and Lighting and Sport Packages.

SLK55 AMG shown at right with optional Diamond White metallic paint, KEYLESS-GO, PARKTRONIC, AMG Handling Package with Matte Black wheels, and Lighting Package.

Every car is created with a purpose in mind. For most, it is merely to transport you from one place to another. A sports car, however, is born to transform your spirit and shift your state of mind. Nearly 60 years ago, Mercedes-Benz introduced a new kind of sports car—the coupe/roadster. With both a detachable hardtop and folding soft top, it was the first convertible whose enthusiasm no longer waned with the fading summer sun. Four decades later, the first SLK reimagined that concept with its signature retractable hardtop, and it's repeatedly advanced what's expected of a roadster ever since. For 2013, the SLK-Class reaffirms the purity of its purpose: To inspire a unique and intimate bond between you, the winding road below and the blue sky above. And to demonstrate a deep affection for all three in its responsive performance, resplendent style, and respect for the environment. In every measure of a sports car—from power to poise to passion—the SLK is engineered to transform what a roadster can be, while staying true to what it was always meant to be.

SLK250 shown above with optional Steel Grey metallic paint, Panorama roof, and Lighting, Premium 1 and Sport Packages. Please see endnotes at back of brochure.

OPEN FOR PLEASURE.

An SLK wastes no time getting down to the business of driving enjoyment. In less than 20 seconds, its retractable hardtop—which comes in three varieties—whisks into the trunk. Its three advanced Direct Injection engines—turbo-4, V-6 or AMG V-8—respond even more quickly. In a mere millisecond, they can tune their high-pressure fuel spray with near-molecular precision, while rapid-multispark ignition fires up to four times in sequence. Three slick-shifting transmissions—a 6-speed manual with the turbo-4, and two types of paddle-shifted 7-speed automatic—let you turn every rev into a revelation, to wield more torque with less fuel and fewer emissions. As soon as you open up an SLK, you can instantly feel the three of you—driver, car and road—becoming one.

SLK 250. A 201-hp 1.8-liter turbo-4 teams up with either a 6-speed manual gearbox or paddle-shifted 7-speed automatic to deliver 60 mph in a brisk 6.5 seconds,¹ along with equally refreshing efficiency of up to 33 mpg highway.² Staggered-width 17" 5-spoke alloy wheels and tires team up with a nimble sport-tuned suspension.

SLK 350. An invigorating 302-hp V-6 is paired with a 7-speed automatic with paddle shifters and 18" 5-spoke wheels.³ With a new ECO Start/Stop system, it can reach 60 in 5.4 seconds¹ or return up to 29 highway mpg.²

SLK 55 AMG. A handcrafted 5.5-liter AMG V-8 wields 415 hp with the finesse of a 7-speed AMG SPEEDSHIFT transmission. AMG Cylinder Management and ECO Start/Stop can deactivate four or eight cylinders whenever they're not needed, for up to 28 highway mpg.² Torque Vectoring Brake and 18" AMG wheels³ dig into corners.

Close-ratio. For instant response at any rpm, both the short-throw 6-speed manual gearbox in the SLK 250 and the driver-adaptive 7-speed automatic offer a broad range of ideally spaced gearing. Along with ECO and Sport modes, a true Manual mode and paddle shifters let you shift the 7-speed without taking a hand from the thick 3-spoke steering wheel.

First-rate. For more rewarding response from its speed-sensing power steering, the innovative Direct-steer system varies the steering ratio based on how far you turn the wheel. It quickens response in corners, yet offers precise on-center feel, inspiring straight-line stability at higher speeds, and easier steering effort during lower-speed maneuvers.

Performance-rated. For more tenacious grip under acceleration without sacrificing crisp steering feedback, the rear wheels and tires of every SLK are a full inch wider than the fronts. In addition to the standard wheels, there are numerous optional 18" designs—including race-bred AMG wheels for the SLK 250 and SLK 350 as part of the Sport Package.³

SLK350 shown with Mars Red paint, Ash/Black leather and optional KEYLESS-GO, and Lighting and Sport Packages. Please see endnotes at back of brochure.

ABOVE AND BEYOND.

*WITH A SOUL THAT TRACES TO HISTORY'S FIRST FINISH LINE,
AN SLK-CLASS CELEBRATES ITS LEGACY BY ACCELERATING IT.*

Imagine winning the world's first automobile race in 1894. Sweeping the 1914 French Grand Prix. Capturing the checkered flag in the legendary Silver Arrow. Or pacing Formula 1™ in one of the many AMG models that have served as its official Safety Car since 1996. Achieving any one of these would no doubt prove inspiring. Accomplishing them all—that's inspirational. True to its rich sporting heritage, the 2013 SLK invokes its racing soul while evoking new passion for the road ahead. Its iconic Star-and-crossblade grille, powerful hood and muscular fenders blend classic roadster proportions with superior aerodynamics and a supremely confident stance. And like the gullwing doors of the famed 300 SL, the SLK has a signature of its own: its trendsetting folding roof, also available with a tinted transparent panel or electronically variable tinted glass—a first for a retractable hardtop. At the touch of a button, the glass roof turns clear and every star in the sky becomes yours. But no matter how you configure your SLK, every Star that's ever crossed a finish line will be shining on you as well.

Acrobatic. A perpetual highlight of the SLK is watching its power-operated hardtop somersault into the trunk in under 20 seconds. The heated rear window pivots as the car transforms from sleek coupe to open-air roadster. This allows it to "nest" with the trunklid, leaving more than 60% of the 10-cubic-foot luggage space available when you're traveling with the top down. And with the Premium 1 Package (standard on the SLK 350 and SLK 55 AMG), you can even operate the roof from outside the car, via the SmartKey remote.

Scenic. With a see-through panel of UV-blocking, high-strength tinted polycarbonate, the Panorama roof option offers a view of the sky as you enjoy the comfort of a closed coupe. It power-folds into the trunk just as compactly as the standard roof.

Magic. A Mercedes-Benz exclusive, optional MAGIC SKY CONTROL is an innovative evolution of the Panorama roof concept. When electrical current is applied, particles within the glass panel line up, allowing light to pass. Switch it off and the particles scatter randomly, blocking light. In its darkened state, the thermal energy entering the cabin on a sunny day is less than that of a household light bulb. And even in the transparent setting, the glass effectively blocks both UV and infrared rays, helping to keep the cabin cooler.

Athletic. The Sport Package adds further muscle to the SLK 250 and SLK 350. Along with 18" AMG wheels,³ this option adds an aggressive front air dam with bold mesh air intakes, chiseled side sills and rear valance, as well as darkened headlamps.

STRONG AND STEADY. THROUGH THICK AND THIN.

Look at the list of safety features in most any car today, and you'll see the history of Mercedes-Benz. That's because our engineers have been leading the way in safety for more than 60 years, with the first crumple zone among many thousands of patents. Over the decades, they've pioneered a portfolio of safety breakthroughs that went on to become industry standards—like the Antilock Braking System (ABS), Electronic Stability Program (ESP®) and emergency-sensing Brake Assist. The engineering depth of the 2013 SLK-Class not only helps it to perform better in a collision, it helps it perform better, period. Its exceptionally rigid body is welded from stronger, lighter materials like ultra-high-strength steel, aluminum and magnesium. Its brakes intelligently respond to how the driver uses the throttle and the windshield wipers. It watches for signs of driver drowsiness. And its advanced restraint systems and dual roll bars are designed to keep their guard up even when the top is down. In situations where every second matters, so does every safety first.

SLK 250 shown with optional Iridium Silver metallic paint, PARKTRONIC, and Lighting, Premium 1 and Sport Packages. Please see endnotes at back of brochure.

OBSERVE

ATTENTION ASSIST. By continually monitoring a variety of driving behaviors, this Mercedes-Benz innovation can audibly and visually alert the driver if it detects signs of drowsiness on long trips. More than 70 variables are measured in the first minutes of each drive, to establish a pattern and determine the warning thresholds accordingly.⁴

LED lighting. Brilliant white LED Daytime Running Lamps and LED taillamps help make your presence and your actions more immediately apparent to other drivers on the road. For the brake lamps, the light-emitting diodes illuminate more rapidly than conventional bulbs—a benefit that can offer added reaction time to a driver behind your SLK.

Bi-Xenon headlamps. With the available Lighting Package, Bi-Xenon headlamps generate light that's perceived more like natural daylight than with halogen lamps. Active Curve Illumination swivels their beams as you turn the steering wheel, to improve illumination into corners up to 90% over fixed lamps. New for 2013, Adaptive Highbeam Assist continually varies the beams of the Bi-Xenon lamps to put the most light on the road ahead without causing glare for other drivers. The package also includes headlamp washers, to help keep the lamps cleaner in poor weather.

SUPPORT

Adaptive braking. The 4-wheel disc brakes incorporate technology to help make driving more reassuring and relaxing in a variety of situations. If the driver lifts off the accelerator quickly, Predictive Brake Priming sets the pads closer to the discs for quicker response when the driver steps on the brakes. In the rain, Automatic Brake Drying periodically applies the brakes just enough to sweep away water buildup on the discs. During uphill starts, Hill-Start Assist helps prevent unwanted rollback. And a HOLD feature can help make driving in stop-and-go traffic less stressful.⁵

Dual roll bars. While the brushed aluminum trim of the signature dual roll bars makes a strong style statement, what lies beneath speaks most eloquently in the unlikely event of a rollover. Micro-alloy tubular steel is fiber-reinforced for added strength, and affixed to a rigid rear bulkhead.⁶

Body structure. Mercedes-Benz bodies have long been renowned as benchmarks of rigidity and advanced crash management. The SLK-Class carries these lofty standards forward without the burden of excessive weight. Advanced materials are widely used, including high-strength and ultra-high-strength steel for critical reinforcements, magnesium for the hardtop frame, and aluminum for the front fenders and the hood.

PROTECT

Eight air bags. A suite of standard air bags offers advanced protection.⁷ Driver and passenger knee air bags supplement the dual-stage front air bags. Dual torso-level side-impact air bags are each complemented by head-level air bags that are designed to offer protection even when the power hardtop and side windows are fully retracted.

Seat belts and head restraints. Still perhaps the most important safety feature in any car, the 3-point seat belts in every SLK feature Emergency Tensioning Devices (ETDs) to help remove some slack from the belts in a collision exceeding a preset threshold. Belt-force limiters help reduce the peak loads on a belted occupant during an impact. And NECK-PRO active head restraints instantly move upward and slightly forward in certain rear impacts, to help prevent or minimize whiplash-type injuries.

Post-collision response. If an air bag or ETD deploys, the standard Mercedes-Benz mbrace2™ system's Automatic Collision Notification can initiate a call to our 24-hour emergency response center—even if you cannot.⁸ After a collision, the SLK can also automatically shut off its engine and fuel supply, unlock its doors, switch on the hazard flashers, and illuminate some interior lights.

OUTFITTED

As fashionable as Mercedes-Benz sports cars have always been, their functional virtues are why their instant appeal grows with every mile. Deeply contoured twin power seats hold you close, while the spacious cockpit sets you free to enjoy its advanced luxuries and wind-taming innovations. The console's intuitive central controller unifies an abundance of useful, user-friendly technology—including the new in-car Internet features available with the Mercedes-Benz mbrace2™ system.⁸ Cabin air is filtered for dust and pollen before it flows from classic round vents. Wrapped in Premium leather, the flat-bottom multifunction sport steering wheel puts numerous features, including hands-free Bluetooth® with audio streaming,⁹ as close as your thumbs. And the available AIRSCARF neck-level heating system can turn a chilly evening or autumn day into perfect top-down driving weather.

Ensconcing. The heated¹⁰ 8-way power sport seats are equipped with 4-way power lumbar and a 3-position memory that includes the driver's settings for the steering column and side mirrors. Both mirrors are also heated and power-folding. The SmartKey remote can lock the cabin storage compartments, or operate the hardtop¹⁰ from outside. Optional KEYLESS-GO lets you unlock and drive your SLK with the key in your pocket.

Enchanting. Sleek aluminum trim highlights the controls, instruments, air vents and dual roll bars, as well as the center console and doors. Stylish options include dramatic Black Ash wood for the console and doors, or a Trim Package with warm Burl Walnut wood further extending to the steering wheel and gearshift. The seats and door armrests are impeccably double-stitched with contrasting thread. Rich leather¹⁰ or supple Premium leather¹¹ upholstery is hand-fitted and specially treated to help fend off heat and sun damage. And as part of the optional Sport Package, Solar Red direct ambient lighting¹¹ outlines the console and doors.

Embracing. Innovative comforts transcend the seasons. With AIRSCARF,¹⁰ warmed air emanates from beneath each head restraint, with three heat settings and speed-sensing airflow. A rigid mesh wind deflector snaps in between the roll bars, or you can opt for AIRGUIDE—a pair of transparent windstops that manually pivot from each roll bar.

Encompassing. The central controller and 5.8" color-LCD screen¹² unite a world of entertainment, navigation, and personalized vehicle settings. The standard audio gear includes USB and AUX inputs and HD Radio™ stations. The Premium 1 Package¹⁰ adds SiriusXM Radio with 6 months of service,¹³ an iPod®/MP3 Media Interface,¹⁴ and 500 watts of harman/kardon LOGIC7® surround sound. And the Multimedia Package adds a 6-disc DVD/CD player and SD card reader, plus navigation¹⁵ with a fast 80GB hard drive (including a 10GB Music Register for your digital music), a 7" screen with 3D maps, SiriusXM Traffic and Weather, and Enhanced Voice Control that lets you operate these features with your normal speaking voice.

SLK350 shown with Sahara Beige leather, and optional Black Ash wood trim and Multimedia Package. Please see endnotes at back of brochure.

ONE MAN, ONE ENGINE. PERFORMANCE ART, SIGNED BY THE ARTIST.

The heart of an SLK 55 AMG Roadster is its engine—a work of modern art crafted by the hands of its own master engine builder, and crowned by a plaque bearing his signature. The soul of AMG traces to an old German mill in 1967, where two former Mercedes-Benz engineers set out to handcraft champion racecars. Success on the track inspired them to apply their unique performance pedigree to streetgoing Mercedes-Benz models. More than 45 years later, virtually every facet of design and development—from transmissions, suspensions and brakes to the distinctive cockpit appointments—remains a seamless alignment of hands-on experience and high-performance engineering. More than a motto, “One man, one engine” is a guiding principle in creating an automobile that can satisfy both the highest demands of driving and the deepest desires of its driver.

The SLK 55 AMG Roadster. A handcrafted 5.5-liter Direct Injection V-8 generates 415 hp to deliver 0–60 mph in an invigorating 4.5 seconds.¹ And yet its ultralow emissions and everyday fuel-efficiency² are remarkably refreshing. Along with light weight and low friction, the engine's AMG Cylinder Management and ECO Start/Stop system let it shut down four cylinders—or all eight—when they're not needed, then reignite them in as little as 30 milliseconds.

Multiple modes. The quick response of its 7-speed AMG SPEEDSHIFT transmission is enhanced by three selectable shift modes and rev-matched downshifts. Silver paddle shifters are ideally placed on an AMG sport steering wheel with flattened top and bottom sections and perforated side grips. Along with 3-stage ESP[®], the standard Torque Vectoring Brake can assist vehicle rotation in corners, for greater control, precision and driving confidence.

Race-bred wheels. Staggered-width 18" AMG 5-spoke wheels³ offer an enticing view of the AMG brake hardware.

AMG Handling Package. Racing-inspired enhancements elevate the performance character of the SLK 55 AMG. Multispoke wheels—with shimmering Silver or menacing Matte Black spokes—complement a performance-tuned suspension. A performance steering wheel with DINAMICA side grips, a limited-slip differential and a 174-mph top speed limiter¹⁶ further bring its racing pedigree to life.

YOUR WORLD, YOUR WAY.

*IT'S MORE THAN YOUR CAR.
IT'S YOUR LIFE, ON THE GO.*

Where will you go next? Whether you're meeting friends, picking up the kids, or just out and about, Mercedes-Benz mbrace® can make any trip easier, more productive and more enjoyable.⁸ The new mbrace2™ connects you and your car with the devices you already rely upon to get around—your smartphone and computer. It also brings the Internet and useful new apps to your car, so you can use familiar services like Google Maps™ and Yelp to start navigating with just a few clicks. Friends can send their location to your car with just a text message. You can lock your car's doors, flash its lights, or find it in a parking lot—all from your smartphone. When your teenager takes the wheel, mbrace2 can deliver peace of mind via your computer. It can bring the assistance of live experts right to your car—from last-minute theater tickets to help in an emergency. And it can all be updated remotely, over the air. So wherever the world goes, mbrace will keep making it yours.

From your car. With new Cloud-based apps, mbrace2 brings the Internet into your Mercedes-Benz. Using the available COMAND system, you can find friends from their Facebook check-ins, search for restaurants on Yelp, or use Google Maps, Local Search and Street View. Instead of entering an address, you can start navigating with just a few clicks. And three buttons in your car can connect you to emergency services, our 24-hour Customer Assistance Center, our Roadside Assistance, or our mbrace PLUS Concierge.¹⁷

From your smartphone. The mbrace Mobile Application for iPhone® and Android™ phones lets you send addresses directly to your navigation system, locate your car, lock or unlock its doors, flash its lights, or monitor it when you valet-park. With just a touch, you can find a dealer, and contact Roadside Assistance, Concierge services or Mercedes-Benz Financial Services. And Drive2Friend™ lets someone send their location directly to your navigation system, simply by responding to a text message that you send them.¹⁸

From your computer. You can send addresses—or even exact routes—to your car's navigation system in a number of ways: From the Send2Benz™ website. From Google Maps, via Search & Send™ and Route2Benz. And with a browser toolbar widget that lets you highlight any address on your screen and send it with just two clicks. For added peace of mind when your kids use the car, mbrace can alert you if they drive faster, farther or later than you prefer. Your car can even send a monthly Vehicle Health Report on its service needs, right to your email inbox. And you'll find a world of support at the mbrace website, accessible through MBUSA.com/mbrace.

mbrace2

mbrace Package

6-month trial included

**Advanced features you'll enjoy every day.
Support you can count on when you need it most.**

SAFETY AND SECURITY

From Roadside Assistance to antitheft measures to emergency aid, mbrace looks after you, your passengers and your Mercedes-Benz.

- ▶ Call for assistance after an accident or in any emergency situation. If an air bag is activated, your Mercedes-Benz can place an SOS call automatically, even if you can't
- ▶ Directly connect with Mercedes-Benz Roadside Assistance for a jump-start, to change a flat tire or other car trouble
- ▶ Get notified if your car's alarm is set off, and let your car's built-in GPS help authorities with stolen vehicle recovery
- ▶ If you ever find yourself unable to drive, let an mbrace specialist help arrange alternate transportation home

REMOTE CONNECTIONS TO YOUR VEHICLE

Interact with your vehicle's features, and send addresses to its available navigation system, from your iPhone, Android or computer.

- ▶ Send destinations and even exact routes to your COMAND navigation system from your computer or smartphone
- ▶ Locate your vehicle from the Mobile App on your phone when you can't remember where you parked
- ▶ Remote-lock and unlock your car's doors
- m2** ▶ Sound your car's horn and flash its lights to help spot it in a crowded lot, or to call attention to a hazardous situation
- m2** ▶ Receive a monthly email health report from your car, so you can check under the hood without opening the garage (available starting late 2012)

mbrace PLUS

3-month trial included

**Personal assistance to make your life easier.
Helpful ways to look after your loved ones.**

PERSONAL CONCIERGE

Enjoy virtually unlimited assistance from an actual person with the knowledge and resources to help with almost any request.

- ▶ Let an expert Concierge help you stay more productive on the road, or from the Mobile App on your smartphone
- ▶ Get expert recommendations and reservations for dining out, tickets to events, and answers to most any question

FAMILY DRIVER MONITORING **m2**

Let mbrace add to your peace of mind when the secondary drivers in your household use the family Mercedes-Benz.

- ▶ Set speed limits and receive reports if they're exceeded
- ▶ Set up virtual boundaries and be alerted if they're crossed
- ▶ Receive an alert if the car is started after curfew (available starting late 2012)
- ▶ See where your vehicle's been driven on an online map

ADVANCED TRAVEL ASSISTANCE

Keep your eyes on the road with agent-assisted route guidance based on where you are, or plan a trip to somewhere far away.

- ▶ Receive spoken assistance in your car with weather and traffic conditions, point of interest information, and turn-by-turn driving directions to your destination
- ▶ Let your Concierge book and change airline, hotel and rental car reservations from your car or the Mobile App

Mercedes-Benz Apps

3-month trial included

**The convenience of the Internet in your car.
Connections to your friends and favorites.**

IN-VEHICLE INTERNET **m2**

Access in-car Internet-based connections to the interests you enjoy, the information you need, and the world you call your own. (Vehicle must be equipped with Multimedia Package.)

- ▶ Search restaurant and business reviews with Yelp, and navigate directly to them with just a few clicks
- ▶ Stay connected to friends with Facebook, and navigate directly to places where they've checked in
- ▶ Find and view local points of interest through Google™ Local Search, Street View and Panoramio
- ▶ Keep up-to-date on the latest news from around the world
- ▶ Follow your favorite stocks through Morningstar (available starting late 2012)
- ▶ Enjoy an ever-expanding variety of new apps

m2 New feature with mbrace2

MAKE IT YOURS.

Genuine Mercedes-Benz Accessories help you make your car the ideal expression of your personal style. A wide selection of accessories allows you to enhance your roadster's appearance, expand its versatility, or offer it some extra protection in everyday use. From sporty alloy wheels to racy styling details to state-of-the-art multimedia systems, they're all exclusively engineered to fit your roadster as well as they fit your life. It's a great way to make your SLK unmistakably yours while keeping it genuinely Mercedes-Benz.

See the entire accessory selection at MBUSA.com/SLK

Chrome hood fins. A set of six chrome fins adds a classic styling detail to the vents in the hood, offering timeless appeal with enduring quality.

Becker® MAP PILOT navigation system. For models equipped with the standard radio and 5.8" in-dash color-LCD screen, this innovative new accessory adds an advanced GPS navigation system that fully integrates with the in-dash screen and the multifunction display in the instrument cluster, as well as the console-mounted central controller and steering wheel controls. You can also program destinations using your voice. The system also provides lifetime traffic information and optimal lane recommendations, and can display highway signs such as exit ramps. The removable module unplugs for easy online upgrading via your home computer, and Becker's 45-day "fresh map guarantee" helps ensure that your navigation data is up to date before you hit the road. (Requires optional factory pre-wiring.)

Rear spoiler. Aerodynamically contoured to accentuate the bold lines of the SLK-Class, the rear spoiler is designed for secure attachment without drilling and a perfect fit with the sculpted lines of the trunklid.

Accessory wheels. Add to your car's poise and performance without compromising its engineering precision. A variety of distinctive choices includes 17" 10-spoke wheels in a luminous Sterling Silver finish.

Please see endnotes at back of brochure.

BUILD YOUR OWN.

ENDNOTES

- 1 Stated rates of acceleration are based upon manufacturer's track results and may vary depending on model, environmental and road surface conditions, driving style, elevation and vehicle load.
- 2 Preliminary 2013 EPA estimated fuel economy. See dealer for final figures. Compare the estimated mpg to the estimated mpg of other vehicles. You may get different mileage depending on how fast you drive, weather conditions and trip length. Your actual highway mileage will probably be less than the highway estimate.
- 3 Lower aspect ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions.
- 4 Driving while drowsy or distracted is dangerous and must be avoided. ATTENTION ASSIST may be insufficient to alert a fatigued or distracted driver of lane drift and cannot be relied on to avoid an accident or serious injury.
- 5 Braking effectiveness also depends on proper brake maintenance, and tire and road conditions.
- 6 The roll bar system is designed to enhance the level of rollover protection compared to a vehicle without one. No system, regardless of how advanced, can eliminate the chance of injury in an accident. Please always wear your seat belt.
- 7 WARNING: THE FORCES OF A DEPLOYING AIR BAG CAN CAUSE SERIOUS OR FATAL INJURIES TO A CHILD UNDER AGE 13. SEE OPERATOR'S MANUAL FOR ADDITIONAL WARNINGS AND INFORMATION ON AIR BAGS, SEAT BELTS AND CHILD SEATS.
- 8 All Mercedes-Benz mbrace® services operate only where cellular and Global Positioning Satellite signals are available, which are provided by third parties and not within the control of Mercedes-Benz USA, LLC. An mbrace Package trial period is offered on new, Certified Pre-Owned and pre-owned sales and leases at an authorized Mercedes-Benz dealer. Subscriber Agreement is required for service to be active. Some services are only available on select vehicles. Your PIN is required in order to use certain services. Some services may be limited or restricted in some areas. Driver is responsible for complying with traffic and other laws. See your dealer or MBUSA.com/mbrace for details, including a list of compatible smartphones.
- 9 Bluetooth® interface does not provide phone charging or external antenna. Voice interactivity feature is dependent on selected handset. Visit MBUSA-Mobile.com for details. Phone sold separately. See dealer for a list of approved compatible phones.
- 10 Optional on SLK 250, standard on SLK 350 and SLK 55 AMG.
- 11 Standard on SLK 55 AMG, optional on SLK 250 and SLK 350.
- 12 Display appearance may vary from system shown. See dealer for additional information.
- 13 The purchase of a new, satellite radio-enabled vehicle includes 6 months of service for SiriusXM Radio, SiriusXM Traffic and SiriusXM Weather. SiriusXM Traffic and Weather services are available in select markets. If you decide to continue your SiriusXM service at the end of this period, all SiriusXM services are sold separately, and the plan you choose will automatically renew and bill at then-current rates until you call 1-866-635-2349 to cancel. See SiriusXM Customer Agreement for complete terms, www.siriusxm.com. Sirius U.S. Satellite service available only to those at least 18 years of age in the 48 contiguous United States, DC and Puerto Rico (with coverage limitations).
- 14 All iPod® devices are sold separately. Feature not compatible with iPod Shuffle. See dealer for details.
- 15 While the navigation system provides directional assistance, the driver must remain focused on safe driving behavior, including paying attention to traffic and street signs. The driver should utilize the system's audio cues while driving and should only consult the map or visual displays once the vehicle has been stopped in a safe place. Maps do not cover all areas or all routes within an area.
- 16 Obey local speed and traffic laws.
- 17 Roadside Assistance repairs may involve charges for parts, service and towing. Vehicle must be accessible from main roads. Depending on the circumstance, these services may be provided by an outside provider, courtesy of Mercedes-Benz Roadside Assistance. Restricted roadways, acts of nature and vehicle accessibility may limit our ability to provide services to you. For full details, eligibility requirements, and limitations/exclusions of Sign and Drive services, as well as the Roadside Assistance Program, please see your dealer.
- 18 mbrace is compatible with Apple iPhone® models running iOS 4.2 or later, and Android-based phones running OS 2.1 or later. Please visit MBUSA.com/mbrace for more information.
- 19 Requires automatic transmission and KEYLESS-GO on SLK 250.
- 20 European Delivery Program discount available on select models, other models offered at MSRP. Please see your dealer for details.
- 21 Extra-cost option.

FOR A SMALL BLUE PLANET.

For more than 125 years—longer than any other automaker—we've been sharing this planet with you. And for generations, Mercedes-Benz has been breaking new ground to help preserve the earth for future generations. We introduced the world's first 100% CFC-free car, not just in its air conditioning but in its entire production process. We've used water-borne paint since the 1990s. And our cars have long used steam-expanded foam, sustainably forested wood, and natural products from coconut, flax and even olives. We've been pioneering advanced powertrains for generations, leading not just to today's Direct Injection gasoline, clean diesel and hybrid models, but to the electric and fuel cell vehicles of a tomorrow that's already here. Mercedes-Benz is also legendary for making cars of exceptional durability. After all, it takes about the same energy to build a car that lasts as one that won't. And along with award-winning factories and processes, we're helping to develop local infrastructures around the world to help bring a greener future to life. Like every aspect of Mercedes-Benz innovation, today's work sets the stage for the mobility—and the planet—that everyone will enjoy tomorrow.
