THE ALL-NEW 2020 GLE SUV

A consummate leader. With a comfortable lead.

When Mercedes-Benz first introduced its pioneering SUV to America, it was a class of one. But not for long. Soon it seemed every automaker offered an SUV. And then everyone drove an SUV. So an entirely new generation must do more than set the pace. It has to be a Mercedes-Benz. The 2020 GLE wraps a stylish body and breathtaking cabin around its innovative driving systems, intelligent voice assistant, and indulgent luxury. In the family tradition, many are SUV firsts. For your family, the GLE does more than set a standard. Once again, it sets an example.

Apple CarPlay™ and Android Auto

Wireless phone charging*

Mercedes me connect featuring smartphone app with Remote Start, 4G LTE WiFi,* and more³

Hands-free Active Parking Assist

Mercedes-Benz didn’t just invent the GLE’s market segment. It introduced concepts like agility and aerodynamics to SUVs. And introduced SUVs to the character that defines a Mercedes-Benz.

^{*}Optional or not available on some models. Please see back of brochure.

VEHICLE FOR **CHANGE**

Like never before, all over again

The 2020 GLE advances the state of the art of the SUV. It offers new turbo engines—two of them also electrified. Three suspensions, fully independent to fully active. Room for more cargo, and more people. The latest in Mercedes-Benz driver assists, connectivity, and multi-sensory comfort. And it wraps it all in an aerodynamic body that's undeniably stylish, and unmistakably a GLE.

It listens, it learns, it leaps ahead

The new Mercedes-Benz User Experience (MBUX) lets you operate many cabin features simply by talking—normally, not with memorized commands. Optional enhancements use live video to help make navigation easier to follow, and use in-cabin cameras and lasers to respond to hand gestures. The voice assistant even learns and evolves.

A SENSE FOR EVERY

OCCASION

Performance for drivers and passengers, too

The GLE is poised to please drivers who love to drive: Any of three turbo engines—two with EQ Boost electrification—team up with a slick 9-speed with shift paddles, 19" or 20" wheels*² and a selective-damping suspension. It's also a passenger-pleaser, with a 3" longer wheelbase and space for up to seven.* New features and options let you make it the most capable GLE yet: Up to 22" wheels. Variable-torque all-wheel drive.* Self-leveling air suspension.* Or an active suspension* that can see bumps before you get to them—or before they get to you—lean into curves, and rock itself out of a sand trap.⁴

Capability highlights

Inline-4 turbo engine; or inline-6 turbo
or V8 biturbo with electric EQ Boost

4MATIC® all-wheel drive* (fully variable
front/rear torque on GLE 450, GLE 580)

Adaptive AIRMATIC® suspension* or
E-ACTIVE BODY CONTROL with road-
scanning camera and curve tilting*

3rd-row Seat Package, including power
2nd-row seats and power EASY ENTRY*

Up to 7,700 lbs of towing capacity,⁵ with
standard Trailer Stability Assist*

*The measure of an SUV is the sum
of what you can get into it, and
what you'll get out of it. For driver
and passengers alike, that equation
also reveals the pleasure of a GLE.*

*Optional or not available on some models.
Please see back of brochure.

ADAPTATION AND TRANSFORMATION

Ambiance and atmosphere

How a GLE makes you feel starts with a touch. Its cabin wraps ultramodern design in timeless craftsmanship. Sleek, widescreen displays and aluminum-clad controls are set off by prominent console grab handles you can outline in colorful ambient light. Day or night, a larger Panorama roof* can let in 50% more sunshine or stars.

Next-generation rejuvenation

The GLE is not just born from a century-deep tradition of luxury, it's born to advance it. ENERGIZING Comfort* can tend to your well-being like never before. A fusion of cabin and seat heating or cooling, massage, ambient light, music and fragrance can revitalize your senses.

Any SUV lets you reconfigure its seats to balance people and cargo. The GLE lets you vary its cabin lighting colors, gauge styles, or even its fragrance.

Luxury highlights

Heated, ventilated* and massaging* front seats; heated 2nd-row seats*

64-color LED ambient lighting*

Dual-zone (or new 4-zone*) climate control with pollen and odor filters

New ENERGIZING Comfort Plus with up to 8 programs of seating/climate comfort, ambient lighting and music; plus cabin-air ionizer and fragrance*

Burmester® Surround Sound or High-End 3D Surround Sound*

Heated/cooled front cupholders,* soft-close doors*

*Optional or not available on some models. Please see back of brochure.

A LOOKOUT FOR YOUR OUTLOOK

Virtual eyes, even for your ears

Standard radar and camera systems keep their virtual eyes vigilant. If you approach a vehicle ahead too quickly, Active Brake Assist can alert you, or even start to brake if you don't react.⁶ Blind Spot Assist can alert you if the path's not clear for a lane change. After parking, it can alert passengers not to open a door if traffic's coming.⁷

An emphasis on eliminating stress

With an available package of advanced driver assists, your GLE can change lanes with a tap of a turn signal, spot a traffic jam ahead, guide you through it, and lots more.⁸ It can also help prepare for a front, rear or side impact—even “covering” your ears—before it happens.⁹

Safety highlights

Radar-based Active Brake Assist
frontal collision mitigation, PRE-SAFE®
with hearing protection technology

Active Parking Assist,¹⁰ Blind Spot
Assist with Exit Warning Assist

Rearview camera or multicamera
Surround View System*¹¹

Driver Assistance Package PLUS* with
Active Distance Assist DISTRONIC®
cruise control; Route-based Speed
Adaptation; Evasive Steering Assist;
Active Emergency Stop, Lane Change,
Lane Keeping, Speed Limit, Steering
and Stop-and-Go Assists; and more⁸

*Mercedes-Benz engineers continue to
develop new ways to anticipate the
unexpected, and prepare for when the
unthinkable becomes unavoidable.*

A BRILLIANT DISPLAY OF WHAT'S NEXT

Touch it, tell it, or even point to it

Say “Hey, Mercedes” to operate cabin features or locate destinations using everyday language—just like you'd ask a real person. Standard dual 12.3" displays include a central touchscreen that can overlay instructions onto live video* of where you're turning. The MBUX Interior Assistant* lets you control features with hand gestures.

Play it as you like it

Make your own kind of music from HD Radio® stations, Bluetooth® audio streaming, smartphone integration, SiriusXM Radio*¹² or global TuneIn Radio.³ Two options in Burmester® surround sound include a 25-speaker High-End 3D system with LED-illuminated tweeters.

*Its technology is easy to learn, because your
GLE gets to know you. It's called artificial
intelligence. But it comes from true genius.*

Technology highlights

Mercedes-Benz User Experience
(MBUX) with natural voice assistant,
touchscreen, console touchpad, and
steering-wheel Touch Controls

MBUX Interior Assistant*

Navigation¹³ with augmented video*
using live imagery of surroundings

Apple CarPlay™ and Android Auto,¹⁴
five USB-C ports;¹⁵ wireless charging*

LED Intelligent Light System with
Ultra Range Highbeam headlamps*

*Optional or not available on some models.

Bring your dream to your driveway

Even with an abundance of standard features, a menu of enticing options and packages lets you create a GLE that's a perfect fit for the way you drive, and the way you live. Thoughtfully curated option packages—like the selection shown here—make it easy to add the most popular features, or group features that perform even better in concert than they would individually. There's also a wide selection of individual options and Genuine Mercedes-Benz Accessories that help you take the GLE you've been dreaming of and make it a reality.

Package contents and standard equipment vary by model. Turn to page 24 or visit MBUSA.com/GLE for details.

Other packages and options

3rd-row Seat Package

ENERGIZING Package PLUS

Air Balance Package

Driver Assistance Package PLUS

MBUX Technology Package

Advanced Lighting Package

Acoustic Comfort Package

Panorama roof
Trailer hitch (Class III)⁵
Heated or wood/leather steering wheel
4-zone climate control

Make your GLE exclusively your own. From upsized wheels to a supersized sunroof, active driving assists to added seating, there are countless ways to elevate both the sport and utility of your vehicle.

*Package standard on GLE580.
Please see endnotes at back of brochure.

THE GLE SUVs

*It looks like a GLE, yet
even sleeker and sportier.
It looks out for you like
a Mercedes-Benz, ever
smarter and stronger.
And it listens to you, like
no other SUV in the world.*

Thrust for the future

An enthusiastic yet efficient 255-hp turbo inline-4 powers the GLE 350 SUVs. The GLE 450's 362-hp turbo inline-6 and the GLE 580's 483-hp biturbo V8 pair with an EQ Boost Integrated Starter-Generator. EQ Boost can output 21 electric horses yet it allows gasoline-free coasting and lower overall emissions.

More room, room for more

Along with luxurious space for five passengers and cargo¹⁶ in standard form, a new 3rd-Row Seat Package turns the GLE SUV into a 7-seater. The option adds power fore-aft, recline and EASY-ENTRY folding of the second row, plus a pair of 3rd-row USB-C ports.¹⁵

Brighter, and more brilliant

Standard 100% LED lighting includes headlamps that more closely approximate daylight. The optional Intelligent Light System features new Ultra Range Highbeams. A 50%-larger power Panorama roof and 64-color/multizone ambient lighting are new options that can brighten the cabin by day or night.

Practically indulgent

Numerous standard luxuries are also available with indulgent upgrades: To KEYLESS-GO® and a hands-free liftgate, you can add soft-close doors. Dual-zone climate control can become a 4-zone system with an ionizer and aromatherapy. And the front cupholders can help keep your beverages warmer or cooler.

It's better at hauling a trailer and handling traffic. It's smoother to the wind and sharper to the eye. It's more protective of you, and more proactive about it. The only thing a GLE follows is a legacy of leading.

A NEW START FOR THE SUV THAT STARTED IT ALL

The GLE 350, GLE 450 and GLE 580 SUVs

SUVs tend to be named after pioneering types who live to venture in search of undiscovered wonders. So is the GLE, because it foremost wears the name Mercedes-Benz. The inventors of the first fully independent suspension, curtain air bags, and electronic stability control for cars and SUVs leap into the lead yet again for 2020. From its intelligent voice assistant to its available driver assists and fully active suspension, the new GLE puts you at the forefront of innovation. More importantly, it puts you and your family at the center of its sharply focused attention.

A GLE is designed to comfort you not just with luxuries: Its network of safety advancements is just as comforting. It's appointed to soothe your senses and stimulate them, reducing stress while emphatically promoting the joy of driving. It's engineered to feel intuitive and thoughtful, so even first-of-their-kind innovations quickly feel like second nature. And it's conceived and crafted to bring it all together like no other SUV—and more importantly, to bring it you before any other. The GLE's list of firsts is always growing. Because it never stops putting you first.

THE DIFFERENCE IS IN EVERY

EXPERIENCE

The moment you take delivery of your new Mercedes-Benz, it starts to deliver for you. The joys of driving are engineered to excite and endure. Its progressive technology is designed to keep you connected now, and at the forefront of a changing world. And the people who stand behind your Mercedes-Benz are devoted to earning their Star, and your trust.

Daily commute or roadtrip, thoughtful technology helps make any journey a joy.

Mercedes me connect puts a network of features in your car, on your smartphone, and in the digital world around you.³ And all of them collaborate to help keep you on track, on time, and feeling you're on top of your real world.

- You can remote-start your car, locate where it's parked, configure vehicle settings from your phone, and more.

- You can look up destinations on your phone and send them to the MB Navigation system in your car.

- You can offer WiFi to your passengers, and enjoy audio from all over the planet with TuneIn Radio.

Models with Car-to-X Communication can share info on traffic, road hazards and other conditions with each other, via a central reporting base. So you might find out about a tie-up on your route before you get caught up in it.

The map database for your car's MB Navigation system can be updated in your driveway, over the air, with no need to bring it to the dealership.

Committed to Community

Mercedes-Benz USA is committed to educating and empowering the next generation of diverse leaders. To help equip them with the tools for success, MBUSA partners with two national organizations that invest in the futures of young people in communities across the country. As a Mercedes-Benz driver, you become a part of this effort to give hundreds of thousands of youth a better life today, and all of us a brighter tomorrow. *Learn more about how Mercedes-Benz USA gives back at MBUSA.com/community*

Wherever you drive, there's a team of supportive people looking out for you.

Mercedes-Benz was the first automaker to introduce its own **Roadside Assistance Program** in the US. For more than 35 years, customers have called on—and counted on—factory-trained experts in times of need.³¹

- A button in your car can connect you. If an air bag or seat-belt tensioner is activated, your car can place the call on your behalf, and even transmit your location.

- They can send help—usually a trained dealer service technician—to your location, even for a jump-start.

- If you see a warning light, so can the experts, and they can often help diagnose trouble over the phone.

Mercedes me Concierge can fulfill a range of requests like hotel and restaurant reservations for a monthly fee.

- They can look up a destination or point of interest for you, then download it right to your car's MB Navigation.

- They can give turn-by-turn directions as you drive.

Your Mercedes-Benz experience should always feel special.

Driving a Mercedes-Benz feels like joining a club, as well as a family. Wherever you go, you're part of a history that started with the first car, and always keeps racing ahead.

- For decades, groundbreaking innovations have protected, entertained and indulged Mercedes-Benz drivers first. While many have gone on to become the standard for all cars, you get to drive the future, today.

- From the AMG Lounge to #MBPhotoPass on Instagram, Mercedes-Benz owners have many ways to connect and interact.

Your car and your dealer are in on it, too.

- *Mercedes me* lets your car communicate its service needs to your preferred dealer.

- Your dealer can reach out to you to book an appointment or offer drive-in service.

JOHNNY MAC
SOLDIERS FUND

Johnny Mac Soldiers Fund helps honor military service and sacrifice by providing scholarships to veterans and military family members—particularly the children of our nation's fallen and disabled. Since 2014, Johnny Mac has awarded \$12 million in scholarships to more than 1,000 students. *To learn more, visit johnnymac.org*

ENDNOTES

- * Item is optional or not available on some models. See Packages and Options listing in this brochure or visit MBUSA.com for more information.
- 1 Availability may be delayed. Please see your dealer.
- 2 Lower-aspect-ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions.
- 3 All *Mercedes me* services operate only where cellular and GPS signals are available, which are provided by third parties and not within the control of Mercedes-Benz USA, LLC. *Mercedes me connect assist* services, and 3 years of *Mercedes me connect* services are included at no additional charge with new-vehicle sales and leases at an authorized Mercedes-Benz dealer. Models with MB Navigation also include 3 years of over-the-air map updates (two updates per year), 3 years of live traffic information provided by TomTom,® 1 year of Concierge Service, and a 1-month trial (up to 1GB) of in-vehicle WiFi and streaming audio. Subscriber Agreement is required for service to be active. Some services are only available on select vehicles. Your PIN is required to use certain services. Connection may be limited by cellular signal and other factors. Features may be introduced and updated at varying dates, and may also require a vehicle software update. Some services may be limited or restricted in some areas. Driver is responsible for complying with traffic and other laws. The *Mercedes me connect* Mobile App is compatible with Apple iPhone® models and Android-based phones, and may require a software update. See your dealer or MBUSA.com/mercedesme for details.
- 4 Off-road driving should only be attempted by drivers with the necessary skill, experience and understanding of the vehicle's limits. Read Operator's Manual before driving off-road.
- 5 Read Operator's Manual before towing. In some states, aftermarket trailer brakes are required. See dealer for details.
- 6 Active Brake Assist may not be sufficient to avoid an accident. It does not react to certain stationary or suddenly moving objects or pedestrians, may not react in certain situations where objects cannot be clearly identified, nor does it recognize or predict the curvature and/or lane layout of the road or every movement of vehicles and pedestrians ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. See Operator's Manual for system operating speeds and additional information and warnings.
- 7 Blind Spot Assist is a warning system only. Blind Spot Assist or Active Blind Spot Assist may not be sufficient to avoid all accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It must not be used as a substitute for driver awareness and checking of surrounding traffic conditions. See Operator's Manual for system's operating speeds and additional information and warnings.
- 8 Even the most advanced safety systems may not be sufficient to avoid an accident. Please refer to more detailed information on specific systems elsewhere in this brochure, at MBUSA.com, and in the vehicle's Operator's Manual. Some systems may be optional.
- 9 PRE-SAFE® closes the side windows when the system's sensors detect side movements that suggest a possible rollover or side impact. A small gap is left near the fully closed position. Audio/multimedia system must be turned on for PRE-SAFE Sound to operate.
- 10 Parking assistance systems are not substitutes for driver attention to the immediate surroundings, as well as any people, animals or vehicles in or approaching the vehicle's maneuvering range. System cannot determine if a space is legally available or of a suitable surface for parking. See Operator's Manual for additional information, tips and warnings.
- 11 Rearview camera and Surround View System do not audibly notify driver of nearby objects and are not a substitute for actively checking around the vehicle for any obstacles or people. Images displayed may be limited by camera field of view, weather, lighting conditions and the presence of dirt, ice or snow on the cameras.
- 12 The purchase of a new, satellite radio-enabled vehicle includes a 6-month introductory subscription to the Sirius All Access package. If you decide to continue your subscription after your trial, the plan you choose will automatically renew and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at siriusxm.com. All fees and programming subject to change.
- 13 While the navigation system provides directional assistance, the driver must remain focused on safe driving behavior, including paying attention to traffic and street signs. The driver should utilize the system's audio cues while driving and should only consult the map or visual displays once the vehicle has been stopped in a safe place. Maps do not cover all areas or all routes within an area.
- 14 Apple CarPlay™ is a product of Apple Inc. Android Auto is a product of Google Inc. Device and app providers' terms and privacy statements apply. Requires connected compatible device and data plan. Apps, content and features are selected solely by their providers. Connection to apps and streaming services may be limited by the device's network connection. Data usage is routed through device and subject to fees, charges and restrictions in user's wireless plan. Vehicle's factory audio/information interface may not be used simultaneously with Apple CarPlay or Android Auto. When Apple CarPlay or Android Auto is in use, the steering-wheel voice control button accesses Siri® or Google voice recognition software for voice commands.
- 15 An adapter cable is required to connect a device with an earlier-generation USB port. One cable is provided with vehicle.
- 16 Unsecured cargo can become hazardous in a collision. Always secure cargo using the floor-mounted tie-downs.
- 17 Stated rates of acceleration are estimated based upon manufacturer's track results and may vary depending on model, environmental and road surface conditions, driving style, elevation and vehicle load.
- 18 Driving while drowsy or distracted is dangerous and must be avoided. ATTENTION ASSIST™ is a warning system only. ATTENTION ASSIST and Active Lane Keeping Assist may be insufficient to alert a fatigued or distracted driver of lane drift and cannot be relied on to avoid an accident or serious injury. See Operator's Manual for system's operating speeds and additional information and warnings.
- 19 Car-to-X services are activated as part of *Mercedes me connect*. Connected services operate only where cellular and GPS satellite signals are available, which are provided by third parties and not within the control of Mercedes-Benz USA, LLC. See your dealer or MBUSA.com/mercedesme for details.
- 20 Wireless charging and NFC pairing available only for devices with compatible technology and size. See Operator's Manual for more information. Devices sold separately.
- 21 Display may not be visible with certain eyewear, including polarized glasses.
- 22 Option deletes spare wheel. Models with 19" or 20" wheels include Extended Mobility tires. Models with 21" wheels are provided with TIREFIT sealant and a portable air pump.
- 23 Active Distance Assist DISTRONIC® cruise control is not a substitute for active driving involvement. It does not adapt cruising speed in response to stationary objects, nor does it predict the curvature and lane layout of the road ahead or the movement of vehicles ahead. Active Steering Assist requires driver to hold steering wheel and be ready to steer vehicle at any time. It may not recognize lane markings in some lighting, weather and road conditions. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely.
- 24 Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. Braking effectiveness also depends on proper brake maintenance, and tire and road conditions. See Operator's Manual for system operating speeds and additional information and warnings.
- 25 System cannot prevent a collision, and does not alert the driver of an impending collision or system activation. It does not intervene if vehicle is backing up, and does not apply the brakes if the driver is accelerating or if Active Parking Assist is operating. When PRE-SAFE closes the side windows, a small gap is left near the fully closed position.
- 26 Active Lane Change Assist is not a substitute for active driving involvement. It estimates but does not predict the curvature and lane layout of the road ahead or the movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the driving inputs necessary to retain control of the vehicle. System may not detect some objects, obstacles or vehicles in the area into which the vehicle would move. See Operator's Manual for system operating speeds and additional information and warnings.
- 27 Driver is responsible for safely slowing and/or stopping vehicle at intersections, and for giving right-of-way to other drivers. System is not a substitute for driver awareness to posted speed limits and other conditions. Driver is responsible for safely operating vehicle in accordance with local traffic laws and driving conditions.
- 28 No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Driver's deliberate steering inputs are required to initiate the system's action, and can override its intervention at any time. See Operator's Manual for system operating speeds and additional information and warnings.
- 29 Requires 64-color ambient lighting or Premium Package on GLE350 and GLE450 models.
- 30 Not available with AMG Line Interior, nor with Macchiato Beige/Magma Grey MB-Text or Macchiato Beige/Magma Grey leather upholstery.
- 31 Roadside Assistance repairs may involve charges for parts, service and towing. Vehicle must be accessible from main roads. Depending on the circumstance, these services may be provided by an outside provider, courtesy of Mercedes-Benz Roadside Assistance. Restricted roadways, acts of nature and vehicle accessibility may limit our ability to provide services to you. For full details, eligibility requirements, and limitations/exclusions of Sign and Drive services, as well as the Roadside Assistance Program, please see your dealer.
