120 Years of Van Innovation

WE INVENTED HARD CORE.

Over a hundred years ago, we recognized the need for a vehicle that could take on heavy loads and not back down from any job. The result? Mercedes-Benz invented the van. That first van paved the way for an entirely new segment and set the standard for others to follow. While our latest Sprinter and Metris Vans continue to raise the bar for innovation and technology, they still hold true to our core values: to create vans that deliver an extraordinary level of safety, performance, and cost efficiency to every owner.

METRIS CARGO 126" WB

METRIS CARGO 135" WB

METRIS PASSENGER 126" WB

2 Wheelbases | 1 Roof Height | 13 Available Paints | Seating Capacity: Up to Two
Maximum Payload: Up to 2,425 lbs. | Cargo Volume: (Up to 199 cu. ft.)

1 Wheelbase | 1 Roof Height | 14 Available Paints

Cargo: 22 mpg Passenger: 21 mpg	7G-TRONIC Plus Automatic	208 hp @ 5,500 rpm	258 lb-ft @ 1,250–4,000 rpm

MEASURED BY RESULTS.

When it comes to working efficiently, the right size for the job works better. From wheelbase length options in the Cargo Van to seating configurations in the Passenger Van, Metris is built to meet your specific needs. And with Mercedes PRO, you can seamlessly connect the Metris to the digital world. Factor in standard safety features like Crosswind Assist¹, Load Adaptive Electronic Stability Program (ESP[®]); and ATTENTION ASSIST^{®3}, and you have what it takes to measure your success not by size, but by jobs completed.

SAFETY

DRIVER AND PASSENGER AIRBAGS⁴

The driver and passenger front, thorax, and window airbags⁴ help protect you and your passengers in the event of a collision. Passenger Vans are also equipped with rear curtain airbags⁴.

We thought about safety, so you can think about work.

Getting the job done is about staying focused. Our groundbreaking safety innovations deliver an extra level of protection for your cargo and passengers and give you one less thing to think about.

Standard on all Metris Vans, Crosswind Assist¹ can help you stabilize your van in gusting crosswinds, while standard front, thorax, and window airbags⁴ help keep you protected. Plus, we're the only van in the segment featuring standard Load-Adaptive Electronic Stability Program (ESP®)² and ATTENTION ASSIST®³. Factor in available Blind Spot Assist,⁵ Lane Keeping Assist,⁶ Headlamp Assist, and COLLISION PREVENTION ASSIST,⁷ and it will be easy to keep your mind on the job knowing that your van is helping you stay safe.

STANDARD HIGHLIGHTS

CROSSWIND ASSIST¹

Crosswind Assist¹ helps you stabilize your van and boosts safety in strong, gusting crosswinds. This standard feature helps you ensure that your vehicle remains in its lane at highway speeds.

LOAD-ADAPTIVE ELECTRONIC STABILITY PROGRAM (ESP®)²

This dynamic handling system actively intervenes to help keep the van firmly under control and safe by automatically braking individual wheels and reducing engine power to help stabilize the vehicle if wheelspin, understeer, or oversteer is detected.

ATTENTION ASSIST®³

ATTENTION ASSIST®³ helps prevent drowsy driving by monitoring your driving patterns and providing an early warning in case fatigue is detected.

RESCUE ASSISTSM

With Rescue AssistSM, first responders to an accident can scan a QR code in a Mercedes-Benz Van to quickly see where batteries, airbags, and other structural elements are located in order to safely perform the rescue.

REARVIEW CAMERA⁸

The visual parking aid is activated when the Reverse gear is selected, giving you a view of what's going on behind you as well as providing overlays with which to guide you.

HEADLAMP ASSIST

Automatic Headlamp Assist is a driving aid and convenience system, which switches on the exterior lighting when the lights sensor detects low ambient light levels and off when detected light levels are high.

OPTIONAL HIGHLIGHTS

LANE KEEPING ASSIST⁶

Lane Keeping Assist⁶ can provide you with visual and audible warnings if your van leaves its lane unintentionally. A camera in the windshield monitors the road ahead and helps detect when you may have veered away from lane markings.

COLLISION PREVENTION ASSIST⁷

COLLISION PREVENTION ASSIST⁷ is a radar-based proximity warning system that can issue visual and audible warnings when vehicles traveling ahead come within a potentially dangerous distance of your van. In emergency situations, boosted braking pressure levels automatically assist to help prevent rear-end collisions.

BLIND SPOT ASSIST⁵

Using radar sensors to monitor approaching vehicles on multilane highways, this system can detect vehicles in your blind spot and alert you visually and audibly.

PERFORMANCE

Sophisticated technology. Old-school grunt.

All the cargo volume in the world doesn’t mean a thing if your van can only crawl under the weight of a heavy load. The Metris drivetrain is specifically designed to accelerate under these conditions — and save you money along the way.

The Metris is equipped with a 2.0L 4-cylinder turbocharged gasoline engine that produces substantial torque at low rpms. The combination of high torque and horsepower provides impressive performance throughout the operating range.

MERCEDES-BENZ METRIS

2.0L 4-CYLINDER TURBOCHARGED DIRECT INJECTION GASOLINE ENGINE WITH 7-SPEED G-TRONIC PLUS TRANSMISSION

Turbocharged Direct Injection gasoline engine

Displacement: 1,991 cc

208 hp @ 5,500 rpm

Rated torque: 258 lb-ft @ 1,250–4,000 rpm

Tank capacity: 18.49 gallons

Battery: 12V/92Ah

Alternator: 14V/190A

Estimated combined EPA rating: 22 mpg (Cargo),
21 mpg (Passenger)⁹

“The Metris is quiet and feels competent around town and on the freeway, accelerating easily in and out of traffic.”

— Los Angeles Times

COST EFFICIENCY

We're in business to help your business.

Minimizing downtime is crucial for your business. With its award-winning residual value, the Metris keeps your total cost of operation low and your productivity high. If you spend less time and money on maintenance and more time on the road, your whole company will run more smoothly.

Metris is the winner of the 2018 ALG Residual Value Award

MERCEDES-BENZ METRIS

7G-TRONIC Plus Automatic Transmission

Refined for maximum efficiency and unmatched comfort, this quick-shifting 7-speed automatic transmission delivers better fuel economy, reduced noise, and longer service life.

Efficient Gasoline Engine

A 208 hp 2.0L 4-cylinder turbocharged Direct Injection gasoline engine gets you up and moving quickly. At an estimated combined EPA rating of 22 mpg for Cargo and 21 mpg for Passenger models,⁹ the mid-size Metris offers fuel consumption comparable to that of a small-size van.

Up to a 15,000-Mile Service Interval¹⁰

With an impressive service interval of up to 15,000 miles,¹⁰ your van will spend less time in the shop and more time on the job.

ECO Start/Stop

This function reduces fuel consumption and emissions by shutting off the engine when the vehicle is at a standstill, helping you lower the total cost of operation.

MORE PAYLOAD

HAS **71.6 CU. FT.**
MORE CARGO VOLUME

Works like a large van.

Metris delivers large-van capabilities but lets you maneuver city streets with a tight turning diameter, and park in a home garage. Plus, the 4-cylinder engine, 7-speed transmission, up to a 15,000-mile service interval,¹⁰ and an estimated combined EPA rating of 22 mpg⁹ will maximize cost efficiency.

Based on publicly available vehicle specifications for the 2019 Ford Transit Connect LWB available at time of printing.

*With factory partition.

METRIS CARGO

THE RIGHT SIZE

With its superior payload, the mid-size Metris can handle heavier jobs than compact vans, yet still fits in industrial and home garages.

199 CUBIC FEET OF CARGO VOLUME

If you're looking for more space, the Metris long wheelbase offers 120.5" of cargo length. That's spacious enough to stow over 60 sheets of 4' x 8' drywall¹² with room to spare.

REAR DOOR OPTIONS

Choose between standard 270° opening rear doors, 180° rear doors, or an optional flip-up tailgate.

No wasted space.

Wasted space is wasted money. That's why virtually every inch of cargo space in the Metris Cargo Van is usable. It's all about making smart use of what you have—and having the right size with which to work. With a Best-in-Class turning diameter* and a powerful, cost-efficient drivetrain, the Metris doesn't waste any effort getting to the job. You'll feel safe along the way with advanced features like Crosswind Assist,¹ Load-Adaptive Electronic Stability Program (ESP®),² and ATTENTION ASSIST®³ When you need to get more out of your cargo van, choose the one that delivers efficiency, along with a low total cost of operation and a Best-in-Class payload cargo capacity.*

*Based on a comparison of similarly sized and equipped commercial vans.

Two wheelbases, more possibilities.

The Metris lets you choose the size you need by offering two wheelbase lengths. The standard length gives you 183 cu. ft. of cargo volume, while the **long wheelbase** option adds 9" of cargo length and 16 cu. ft. of volume, giving you even more hauling opportunities with a total of 199 cu. ft.

AIRBAGS*

Driver and passenger front airbags,* driver and front passenger side thorax airbags,* and window curtain airbags* throughout help protect every occupant.

ELECTRIC SLIDING DOORS (OPTIONAL)

Open or close the sliding door with the push of a button, for extra convenience.

SEATING CAPACITY

With three available seating configurations, you can carry up to eight people. 39.6" of headroom and plenty of legroom assure that your passengers won't just get there—they'll get there comfortably.

Treat passengers like you're one of them.

Whether you're riding or driving, it's all about how you feel in the vehicle. Take the Metris Passenger Van. It's just the right size to seat up to eight people comfortably and gives you the flexibility of three seating configurations. Add in optional features like electric sliding doors, and your passengers will have even more reasons to enjoy their journey—and you'll certainly enjoy the low cost of operation. Our groundbreaking safety innovations deliver an extra level of protection for you and your passengers, giving you one less thing to think about. Put your passengers first with the Metris Passenger Van.

Not just vans—game-changers.

The Metris WORKER is the line of vans that’s as focused on your bottom line as you are. Without compromising any of the core values of a Mercedes-Benz Van, Metris WORKER Cargo and Passenger Vans offer a streamlined selection of packages and options. With a low total cost of operation and the advanced safety features you’d expect from Mercedes-Benz, Metris WORKER Vans bring an entirely new level of efficiency and value to your vehicles.

Numbers don’t lie. The Metris WORKER Cargo Van’s payload, cargo volume, and horsepower prove that you can get big-time capabilities and affordability in one van. It’s just the right size to get the job done, and with three optional packages: Convenience, Utility, and Mercedes PRO connect, ordering a Metris WORKER Cargo Van has never been easier. Options that work, at a price that works for you. The Metris WORKER Cargo Van. It’s all business.

SPECIFICATIONS

All measurements in inches. All width measurements include mirrors.

Comfort for your passengers.
A comfortable low cost of operation for you.

The Metris WORKER Passenger Van delivers comfort, safety, and reliability — all while coming in under budget. The spacious seating area gives up to seven passengers plenty of shoulder and legroom, while the ample storage area can handle their luggage with ease. To meet your specific requirements, the Metris WORKER Passenger Van offers the flexibility of four easy optional packages: Convenience, Appearance, Comfort, and Mercedes PRO connect. No matter where you’re sitting, the Metris WORKER Passenger Van makes sure no passenger takes a back seat.

3 BUNDLES FOR EVERY CONNECTIVITY NEED

OPTIMIZED ASSISTANCE

- Accident and Breakdown Management
- Emergency Call System¹³
- Software Updates¹⁴

EFFICIENT FLEET MANAGEMENT

- Services Included:
- Remote Control¹⁵
 - Vehicle Supervision¹⁶
 - Eco Monitor
 - Vehicle Operations¹⁷
 - Fleet Communication incl. Send2Car¹⁸
 - Digital Driver's Log¹⁹
 - Digital Trip Management
 - Theft Warning²⁰
 - Drive Style Monitor

DATA INTERFACE MERCEDES-BENZ VANS

- Services Included:
- Vehicle Data Interface extended
 - Vehicle Data Interface light

MERCEDES PRO CONNECT²¹ IS MADE UP OF THE FOLLOWING ELEMENTS:

MERCEDES PRO CONNECT²¹ APP — the direct line to the driver.

- Easily access valuable vehicle and job-related information
- Remote lock-unlock feature makes work more efficient

VEHICLE MANAGEMENT TOOL²² — the control center.

- The fleet manager's customized hub of connectivity that provides a comprehensive overview of fleet resources
- Simplifying logistics and increasing productivity

COMMUNICATION MODULE²³ — optional in every new Metris.

This is the central point of contact that ensures the broadest range of connectivity, quickly transmitting data with the permanently installed 4G LTE SIM card.

BENEFITS AT A GLANCE

FOR THE BUSINESS OWNER

- Increase overall business efficiency
- Ease of locating a stolen vehicle through the Vehicle Management Tool,²² which shows the vehicle's current position
- Potential for a reduction in fuel consumption and, therefore, lower fuel costs

FOR THE DRIVER

- Effective assistance in case of an emergency
- Remotely lock and unlock the van via the App,¹⁵ so the driver would not need to use his keys – making work more convenient

FOR THE FLEET MANAGER

- Integration into multi-brand vehicle management systems
- Clear overview of the fleet as each vehicle's information is clearly shown in the Vehicle Management Tool²²
- Trips can be planned more efficiently, and at shorter notice, because the fleet manager has all the current data available at a glance

Available on the Metris, Mercedes PRO connect²¹ is the first of several Mercedes PRO solutions. It works harder to make your job easier – intelligently connecting fleet managers, drivers, and vehicles to increase the efficiency and productivity of your company in the long run.

MASTER UPFITTER

If you can imagine it, we can make it happen.

You have a concept in mind — let a Mercedes-Benz Vans MasterUpfitter build it for you. Our job is to customize a van that is ready to fit your ultimate upfitting needs. The “right size” concept of the Metris is a blank canvas on which you can create a design to meet your specific needs. Whether it’s a simple work van interior, a refrigerated farm-to-table van, or a wheelchair-accessible van, Mercedes-Benz Vans is making you mobile and taking your business to new places.

Qualified Upfitters adhere to the Upfitting Guidelines to become part of the Mercedes-Benz Vans MasterUpfitter network. These Upfitters are committed to the highest engineering standards and levels of customer satisfaction. Working with a MasterUpfitter gives you the flexibility to be creative and the assurance that Mercedes-Benz Vans is here to support your ideas.

MASTERUPFITTER

MASTER SOLUTIONS™

A turnkey route to productivity.

You’re the expert in your trade, and your van is the tool with which to get the job done. MasterSolutions™^{M24} allows you to quickly configure your van and order directly via your Mercedes-Benz Vans dealer to get you exactly the van you want right when you need it, so you can concentrate on finishing the job.

MasterSolutions™^{M24} providers Auto Truck, Knapheide, and Driverge bring you a portfolio of turnkey solutions for your vocation — anything from Sortimo or Ranger shelving to refrigeration or even transportation of people at a preferred price. These preconfigured solutions from industry-leading manufacturers are customized to fit your Mercedes-Benz Van. The ordering process is streamlined, and installation is simple: all MasterSolutions™^{M24} can be fitted directly as Ship-Thru, ensuring seamless integration, quick delivery, and consistent quality.

Retail Loan	FMV Lease	TRAC Lease ²⁶
These simple-interest, fixed-payment packages lock in interest rates and can include van and upfit equipment, as well as aftermarket products, in one contract.	A closed-end lease agreement is also known as a “walkaway lease,” since the lessee can simply turn in the vehicle and walk away at lease maturity after meeting all contractual obligations, subject to certain return conditions and mileage restrictions.	A Terminal Rental Adjustment Clause (TRAC) lease ²⁶ doesn’t require any acquisition fee, up-front payment, or excess mileage charges, and lease payments may be expensed against income. Owners are responsible for the residual value of the vehicle.

Taking care of you, so you can take care of business.

VanCARE is a promise to our customers to deliver genuine parts, superior service, and unparalleled commitment to getting you back on the road as quickly as possible. We know that for you it isn’t a van — it’s a tool you need to make a living.

ServiceCARE – Service Solutions Built For You

Whether it’s a maintenance service, unexpected warranty work, or now a wear and tear repair, our ServiceCARE products are customized solutions for you. You can now focus on your business with your vehicles always in top shape, minimizing your downtime and maximizing your financial cost control.

Complete
The all-inclusive service package.

☒ Service ☒ Repair ☒ Wear & Tear

If you require comprehensive additional protection for your van, look no further than our Complete product. This package covers all workshop work, including wear and tear repairs. The vehicle is ready for action when you need it, and you keep costs safely under control.

Extended Limited Warranty (ELW)
More warranty. More certainty.

☐ Service ☒ Repair ☐ Wear & Tear

The Extended Limited Warranty product offers you greater coverage for mechanical, electrical, and electronic components. It protects you against unforeseen repair costs and, without any deductibles, you get the benefit of predictable and attractive conditions.

Maintenance (PPM)
Keeping your van in top shape.

☒ Service ☒ Repair ☐ Wear & Tear

Regular and accurate checking of the most important vehicle parts and functions ensures that your van continues to deliver outstanding performance and reliability. Maintenance prevents unnecessary repair costs and keeps downtime minimal.

- Roof box
- Roof rack basic carrier
- Standard crossbars
- Trailer hitch
- Wind deflectors for front windows, set

Contact dealer for full list of accessories.

VY2 – Tunja Black Fabric

VU9 – Black Leatherette

ENDNOTES

1. Crosswind Assist can engage automatically when sensing dangerous wind gusts at highway speeds exceeding 50 mph. Performance is limited by wind severity and available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions.
2. No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Performance is limited by available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions. Best performance in snow is obtained with winter tires.
3. Driving while drowsy or distracted is dangerous and must be avoided. ATTENTION ASSIST® may be insufficient to alert a fatigued or distracted driver and cannot be relied on to avoid an accident or serious injury.
4. Warning: the forces of a deploying airbag can cause serious or fatal injuries to a child under age 13. The safest seating position for your child is in a rear seat, belted into an appropriate, properly installed child seat, or correctly wearing a seat belt if too large for a child seat. See Operator's Manual for additional warnings and information on airbags, seat belts, and child seats.
5. Blind Spot Assist may not be sufficient to avoid all accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It should not be used as a sole substitute for driver awareness and checking of surrounding traffic conditions.
6. Lane Keeping Assist may be insufficient to alert a fatigued or distracted driver of lane drift and cannot be relied on to avoid an accident or serious injury.
7. COLLISION PREVENTION ASSIST may not be sufficient to avoid an accident. It does not react to certain stationary objects, nor recognize or predict the curvature and/or lane layout of the road or every movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking, and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely.
8. Rearview camera does not audibly notify driver of nearby objects and is not a substitute for actively checking around the vehicle for any obstacles or people. Images displayed may be limited by camera field of view, weather, lighting conditions, and the presence of dirt, ice, or snow on the camera.
9. Mileage represented is with available ECO Start/Stop operating. Please see your dealer. Compare the estimated mpg to the EPA estimated mpg rating of other vehicles. Please see www.fueleconomy.gov for details. You may get different mileage depending on how fast you drive, weather conditions, and trip length. Your actual combined mileage will probably be less than the combined estimate. Please be advised that 91 Octane premium gasoline was used for fuel economy testing and fuel economy certification.
10. Driver is responsible for monitoring fluid levels and tire pressure between service visits. See Maintenance Booklet for details.
11. There are numerous legal requirements concerning the towing of a trailer, e.g., speed restrictions. Many states require a separate functional braking system for your trailer once a certain weight limit is exceeded. For reasons of safety, it is recommended that all trailers use a separate functional braking system. Make sure your vehicle/trailer combination complies with local laws. This not only means where you live, but also anywhere you are driving to. Information on this can be obtained from the police and local authorities. Observe the following when towing a trailer: practice driving around bends, stopping, and backing up at a place where there is no traffic.
12. Based on 61 sheets of 1/2-inch thick 4' x 8' sheets of lightweight drywall.
13. When the Emergency Call System is triggered, the following data are automatically transmitted: vehicle identification number, GPS position, direction of travel, time of the emergency call, language setting, and number of occupants in the cab. The Emergency Call System is activated from the moment the vehicle is delivered to the customer following a sale. No separate terms of use have to be accepted. The Communication Module for Digital Services and the emergency call button are necessary for use of the Emergency Call System service.
14. Update times, content, and installation times can vary. These are activated when the vehicle is delivered. Updates to the Communication Module (LTE) are automatic, as otherwise certain applications might no longer work. You can access the current status of the software versions in your vehicle via the Mercedes PRO Portal.
15. The Remote Control function via the Mercedes PRO connect App makes it possible for you to view the status of the doors and windows. The driver is also able to unlock the vehicle using a code via the Mercedes PRO connect App and also check the status of and operate the auxiliary heater. This function is only available in conjunction with an optional auxiliary heater (hot-water heater).
16. The available data can vary according to the vehicle model. The tire pressure can only be shown on certain model configurations. Display of the AdBlue® level is only available in conjunction with the optional SCR Generation 3 emissions control and only available with diesel models.
17. To safeguard the driver's privacy, he/she can switch off the vehicle tracking function via the Mercedes PRO connect App when making private journeys or traveling to and from work.
18. Messages from all drivers are visible to the fleet manager. Using the Vehicle Management Tool, he/she can, in turn, contact any driver individually with a message. If the Send2Car function is included in the subscription, a POI can be sent directly to the vehicle's navigation system. The Vehicle Operations service is additionally required to send POIs directly from the Vehicle Management Tool.
19. If you wish to use the Digital Driver's Log for your tax documentation, be sure to verify in advance whether the form and the information provided meets the fiscal requirements of your local tax authority. It provides three categories in which to categorize journeys: business journey, private journey, or commute.
20. The Theft Warning is shown in the chosen communication channel if the vehicle crosses preset geofences in a certain time period or if the optional Security alarm with interior motion sensor system sounds the alarm. Only in conjunction with the optional Security alarm with interior motion sensor.
21. In order to prevent distracted driving, the use of the Mercedes PRO connect App is not permitted while operating a motor vehicle. If used while operating a motor vehicle, there is an increased risk of endangering oneself and others. Please follow your local laws and restrictions.
22. After the Mercedes PRO connect go-live in the Metris, there will be a Vehicle Management Tool for the factory equipped solution and Communication Module.
23. The availability of services in addition to the integrated Communication Module depends on the network coverage of the mobile network provider. The Communication Module (LTE) is not available in the US Virgin Islands or Puerto Rico.
24. MasterSolutions™ program vehicles are custom, special-order only vehicles modified by the MasterSolutions™ provider of your choice. Although the MBUSA warranty does not apply to the modifications, separate warranties offered by the MasterSolutions™ provider may apply. Details are available from your local dealer.
25. Actual rates, terms, down payment, and program eligibility will be determined by the Mercedes-Benz Financial Services Credit Team based upon the creditworthiness of the customer.
26. TRAC leases are limited to motor vehicles leased to businesses and used at least 50% of the time for business purposes. Consult your tax or financial advisor for tax and accounting treatments.
27. The Mercedes-Benz Vans Roadside Assistance Program is available for vehicles covered under warranty and includes such services as towing, jump-start in the event of a dead battery, and assistance with the installation of a spare tire. Service charges apply for out-of-warranty vehicles.
28. Unsecured cargo can become hazardous in a collision. Always secure cargo.
