

2000 MITSUBISHI GALANT

WAVE BYE-BYE TO ANONYMITY.

Model: Galant LS with optional mudguards

If you're the shy type, consider this a warning. We designed the Galant to get noticed. That's why it looks so different from all those other boring family sedans. But looks aren't everything. So we also made it a blast to drive. With an available 195-hp* V6 and nimble 4-wheel independent suspension.

To prove that we also have a sensible side, we gave the Galant a comfortable, roomy interior, and loaded it up with a whole host of safety features, including

available ABS and side air bags.** Fun. Safe. Comfortable. What else is there?

*190 hp with CA/NLEV vehicles.

**Always place an infant in a rear-facing infant seat in the back seat. Always transport children 1 to 12 years old in the back seat and use appropriate child restraints. Always buckle your seatbelt. Keep 10 inches between the center of the air bag cover and your breastbone. Sit well back and upright without leaning against the window or door.

Not all features available on all models; see Retailer for details. All contents based on latest information available at time of printing and subject to change without notice.
