NISSAN PUREDRIVE™

INNOVATION THAT GIVES YOU MORE CAR AND MORE SAVINGS.

40
MPG Miles per gallon highway,
so you can breeze past
the pump with ease¹

4 Low rolling resistance tires
that use less energy to roll,
so you use less fuel

.298
CD Drag coefficient, thanks
to an exceptionally aero-
dynamic design²

Wouldn't it be cool if you didn't need a cramped car, a tiny engine or a hybrid powertrain to save fuel and help the environment? With Versa® Note™, you get excellent fuel economy in a roomy, comfortable car that's lots of fun to drive. We got there by developing everything from exterior aerodynamics that whisper through the wind, to an advanced 1.6-liter 4-cylinder engine, to a virtually gearless Xtronic CVT® transmission that maximizes efficiency and performance. The PUREDRIVE™ badge also means that Versa® Note™ meets or exceeds the industry-average US Federal CAFE standards for model-year 2016.³ And best of all, Versa® Note™ is just one of a family of PUREDRIVE™ vehicles, reflecting Nissan's commitment to developing more environmentally friendly transportation for all of us.

¹2014 EPA Fuel Economy Estimate 40 highway MPG for Versa Note with Xtronic CVT. ²Actual mileage may vary with driving conditions. ³0.298 Cd on S Plus and SV. 0.308 Cd on S. ⁴Adoption criteria above are based upon US Federal CAFE standards as of July 2011 for MY 2016. Federal standards subject to change by US government.

What's style without substance? Hours of testing in the wind tunnel made Versa® Note™ both eye-catching and aerodynamically efficient, helping achieve up to 40 MPG highway.¹ A low aero-drag underbody pairs with an available active grille shutter that closes at higher speeds to further reduce drag. Even the taillights are strategically designed, with special vents that have a lip to help guide air away from the vehicle for reduced wind turbulence. Form and function meet in sweeping character lines that make cutting through wind a breeze, with a dramatically carved profile to complete the statement. What more could you ask for?

Surprisingly spacious and exceptionally accommodating, the Versa® Note™ interior is the best of both worlds. Smart design minimizes structural interference with the cabin, giving everyone ample room to spread out. Enjoy seating for five and 38.3 inches of rear leg room for even your tallest friends. While up front, the bolstered driver's seat hugs you as you carve through the turns. Available features like a leather-wrapped steering wheel, double-stitched upholstery, and silver and chrome accents add a touch of class. Top it off with available heated front seats and every trip will be as cozy as it is cool. Just don't be surprised when your friends ask to carpool – again.

NISSAN DIVIDE-N-HIDE® ADJUSTABLE FLOOR INNOVATION THAT GOES WITH THE FLOW.

Wouldn't it be cool if your car could adapt in a snap? Say, for that vintage coffee table, or a day's haul from the farmer's market? When living in the moment is all part of the plan, Versa® Note™ has your cargo needs covered with the super-versatile Divide-N-Hide® Adjustable Floor. Get creative with multiple configurations and 18.8 cubic feet of cargo space. Rear 60/40 split seats let you bring friends, and oversized items. Or fold down both sides to create a flat cargo area. For another smart move, the front passenger seat folds down and makes room for long items – even a ladder or surfboard will fit. No matter what's on the agenda, Versa® Note™ is ready when you are.

Cargo and load capacity limited by weight and distribution. Always secure all cargo.

Load it all in.

With the rear seats folded down, the Divide-N-Hide® Adjustable Floor creates a flat cargo area.

Stow on the go.

Lower the floor to accommodate taller items at a moment's notice – no removal required.

Protect from prying eyes.

Lift up the adjustable floor and you'll find a convenient hiding place that helps keep valuables out of sight.

WITH NAVIGATION⁴

PANDORA®

BLUETOOTH®

iPOD®

Pandora® radio compatibility. Looking for something new? Explore music based on your hand-picked favorites using Pandora® radio compatibility. Connect your Pandora®-equipped iPhone® through the USB input to listen to Pandora® free internet radio and use the ‘thumbs up’ or ‘thumbs down’ icons to rate songs – all right in the audio system display.

Streaming audio via Bluetooth.® Want to let your passengers play DJ? Just connect a Bluetooth®-enabled audio device, including your tablet, to stream music wirelessly, from any seat in the car.²

iPod®/USB input. Wouldn't you like to listen to your own playlists or pod-casts? With the available iPod®/USB input, you can. Plug in your iPod® or other portable MP3 player through the USB port and control it through the audio controls.³

Navigation. The available 5.8-inch touch-screen display offers NavTraffic and NavWeather for real-time advisories to keep you on the move. Plus over five million points of interest, so you'll always have something new to discover.^{4, 5}

Points of Interest powered by Google.® Find that new restaurant, store or museum – even if you can't remember what it's called. Based on the latest information, NissanConnect's compatibility with Google® Points of Interest lets you search for all kinds of places, even without knowing the name or category. Once you find it, select it and you're on your way.^{1, 6}

Google® Send-To-Car. Thanks to NissanConnect's compatibility with Google Send-to-Car, you can send any address to your Nissan Navigation System using your favorite connected device, like a smartphone or computer. When you start the car and connect to the network, the directions will be delivered and loaded into your navigation system.^{1, 7}

Hands-free text messaging assistant. Now you can receive and respond to text messages without ever touching your phone. With a press of a button, have your text messages read to you and answer with pre-loaded responses, all via voice recognition.⁸

FOUR CAMERAS

VIEW® MONITOR¹

ONE 360° VIEW²

Forget the tennis ball. In Drive, the display gives you both a front and overhead view, so you can pull all the way into your spot (or garage) – but not too far.

2

CAMERA
3

Complete the picture. Located under your driver's side mirror, this camera helps round out your virtual 360° birds-eye view whether you're in Drive or Reverse.

Don't scratch your wheels. In Drive or Reverse, you can push the camera button to switch out the overhead for a side view. A great help for seeing how close you are to the curb.

Look out below. In Reverse, the display helps you see what's directly behind you, while the overhead view helps with shorter objects otherwise hidden below your window.

What if parallel parking was easier? A rearview monitor is great when backing up – but when it comes to parking, it's nice to see more than just what's behind you. That's why Versa Note offers the class-exclusive Around View® Monitor.^{1,3} Four cameras give you a virtual 360° bird's-eye view of your vehicle, with selectable split-screen close-ups of the front, rear, and curbside views, so you can get a better look.² Now that's smart.

NISSAN SAFETY SHIELD® PHILOSOPHY

INNOVATION THAT LOOKS OUT FOR YOU.

Wouldn't it be cool if you had the confidence you need for every part of your drive? The Nissan Safety Shield® technologies are a comprehensive approach to safety that guides the engineering and development of every vehicle we make. By keeping an eye on your vehicle's systems and the surroundings, assisting in handling unexpected situations, and helping to keep you safe in the unfortunate event of an accident, the Nissan Safety Shield technologies are our way of looking out for you and yours.

MONITOR

Smart technologies help monitor conditions. Like a rearview camera that helps you see something behind you, or a system that helps ensure you're rolling on properly inflated tires.

Tire Pressure Monitoring System with Available Easy-Fill Tire Alert^{1, 2}
Lets you know when a tire is low. And Easy-fill Tire Alert takes the guesswork out of filling your tires, with a beep of the horn when you've reached the correct pressure.

Available Around View® Monitor³

Available RearView Monitor⁴

RESPOND

Whether you need to hit the brakes hard or maneuver around an unexpected obstacle, these standard technologies help you respond to a potentially harmful situation.

Vehicle Dynamic Control helps you maintain your steered path.⁵

Traction Control System helps reduce wheelspin in low-traction situations.

Anti-lock Braking System helps you maintain steering control around obstacles while braking heavily.

Electronic Brake force Distribution sends extra force to the rear brakes when you have additional weight of passengers or cargo in the back.

Brake Assist helps apply maximum braking force if it detects hard braking and senses you are in an emergency situation.

PROTECT

When a collision is unavoidable, Nissan's Zone Body construction helps absorb the impact while the advanced seat belt and air bag systems help protect passengers.

Nissan Advanced Air Bag System with dual-stage supplemental front air bags with seat-belt and occupant-classification sensors⁶

Front seat-mounted side-impact supplemental air bags⁶

Roof-mounted curtain side-impact supplemental air bags⁶

LATCH System (Lower Anchors and Tethers for Children)

snug-kids® Nissan safety engineers have dedicated thousands of hours to evaluating hundreds of child restraints in Nissans. The result: An industry first, The Snug Kids Child Safety Seat Fit Guide. This guide lists child seats that fit the rear seats of Nissan vehicles, as well as offers invaluable tips on correct installation. Look for the latest Fit Guide at NissanUSA.com/SnugKids.

¹Vehicle must be on for the Easy-Fill Tire Alert to operate. ²Tire Pressure Monitoring System is not a substitute for regular tire pressure checks. ³Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up. ⁴Parking aid/convenience feature. Cannot completely eliminate blind spots or warn of moving objects. May not detect every object. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up. ⁵VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. Always drive safely. ⁶Air bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. Also, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents; see your Owner's Manual for more details.
