²Cargo shown for display purposes only. Cargo and load capacity limited by weight and distribution. Always secure all cargo. Heavy loading of the vehicle with cargo, especially on the roof, will affect the handling and stability of the vehicle.

Bring it on. NV®
Passenger gives you flexibility in carrying people and gear. Remove the fourth row seats and the volume jumps to 89.4 cubic feet. And if you remove the third row as well, you've still got room for five passengers and 151.6 cubic feet of space.²

OVER 100,000 MILES AND 7,000 QUALITY AND DURABILITY TESTS.

ONE UNSHAKABLE COMMITMENT. Fanatical? Maybe. But when it comes to making the toughest commercial vans you can buy, we go the extra distance for you, and it's no Sunday drive. We simulate years of corrosion where we soak a vehicle with salt, bake it, and pound it around a test track. We wreak havoc with suspension and body components by driving through potholes, dips, and over 4 x 4 beams. Special chambers crank up the heat to 140 degrees and humidity to 95% to break down seals and age interiors.

We even have machines that can simulate nearly any road in the world, and we run our vehicles on them nonstop for 12 hours, 24 hours, or even more. Do we really need to go to such extremes, just to make a Nissan Commercial Van the best you've ever owned? Yes, because every day, you depend on it to do your job. That's the motivation for us to do ours.
