Nissan Rogue SL AWD shown in Palatial Ruby with optional equipment.

NISSAN DIVIDE-N-HIDE®

Single-handedly reinventing capability, the class-exclusive Divide-N-Hide cargo system lets you adapt in a snap.^{1,2} An adjustable set of shelves and dividers gives you a variety of configurations, and it's so easy, you can do it with one hand.

¹AutoPacific segmentation. MY17 Rogue® vs. MY16 and in-market MY17 competitors in XSUV Mainstream Midsize Class (excluding electric vehicles). ²Cargo and load capacity limited by weight and distribution. Always secure all cargo. Heavy loading of the vehicle with cargo, especially on the roof, will affect the handling and stability of the vehicle.

NISSAN INTELLIGENT CRUISE CONTROL

Unlike traditional systems that only maintain a set speed, available Intelligent Cruise Control also helps maintain an adjustable set distance between you and the car in front of you. As traffic slows down or speeds up, Rogue® can respond accordingly.³

³Intelligent Cruise Control is not a collision avoidance system or warning device. Designed to use limited braking. Failure to apply the brakes could result in an accident.

NISSAN MOTION ACTIVATED LIFTGATE

Now you've got easier access to your Rogue than ever before. Hands full? Just kick under the rear bumper to open the available Motion Activated Liftgate, without reaching for a key or juggling armfuls of stuff.²

NISSAN INTELLIGENT SAFETY SHIELD TECHNOLOGIES

Available Nissan Intelligent Safety Shield Technologies offer you a suite of advanced systems that help keep an eye out, watch the flow of traffic, and even think ahead.

¹Late and limited availability. ²Driving is serious business. Only use NissanConnect Services powered by SiriusXM® when safe to do so. Late availability for some features. Services, including automatic crash notification and SOS, are dependent upon the telematics device being in operative condition, its ability to connect to a wireless network, compatible wireless network availability, navigation map data, and GPS satellite signal receptions, the absence of which can limit or prevent the ability to reach NissanConnect Services
