OVER MILES AND 7,000 QUALITY AND DURABILITY TESTS

When it comes to making the toughest commercial vans you can buy, we go the extra distance for you. We simulate years of corrosion, soaking a vehicle with salt, baking it, then pounding it around a test track. We wreak havoc with suspension and body components by driving through potholes, dips, and over 4 x 4 beams. Special chambers crank up the heat to 140° and humidity to 95% to break down seals and age interiors. We go to such extremes because every day, you depend on your Nissan Commercial Van to do your job. And that's the motivation for us to do ours.
