

NISSAN INTELLIGENT MOBILITY™

Nissan Intelligent Mobility guides everything we do. We're using new technologies to transform cars from mere driving machines into assistants. Together the journey is more confident, connected, and exciting. Whether it's cars that assist in the driving task, or highways that charge your EV as you go along, it's all in the very near future. And it's a future already taking shape in the Nissan you drive today.

SEE LEAF® COME TO LIFE

Go to **NissanUSA.com** and find an interactive brochure for LEAF and every Nissan model in the lineup. Available on desktop, smartphone, or tablet, it's the full product story – including demos, videos, and complete info on trims, colors, and accessories.

¹EPA range for LEAF® S PLUS only. Actual range will vary with trim levels, options, and driving conditions; see Customer Disclosure Form for details. ²Availability of features vary by vehicle model year, model, trim level, packaging, and options. ³2019 EPA range of 150 miles. Actual range will vary with trim levels, options, and driving conditions; see Customer Disclosure Form for details. ⁴Zero tailpipe emissions. ⁵ProPILOT Assist cannot prevent collisions. It is the driver's responsibility to be in control of the vehicle at all times. Always monitor traffic conditions and keep both hands on the steering wheel. System operates only when lane markings are detected. Does not function in all weather, traffic, and road conditions. System has limited control capability and the driver may need to steer, brake, or accelerate at any time to maintain safety. See Owner's Manual for safety information. ⁶Use conventional brake pedal for aggressive braking situations. ⁷Available feature. ⁸Automatic Emergency Braking with Pedestrian Detection and Automatic Emergency Braking cannot prevent all collisions and may not provide warning or braking in all conditions. Driver should monitor traffic conditions and brake as needed to prevent collisions. See Owner's Manual for safety information. ⁹Intelligent Around View® Monitor cannot eliminate blind spots and may not detect every object. Driver should always turn and check surroundings before driving. See Owner's Manual for safety information. ¹⁰Rear Cross Traffic Alert may not detect all vehicles. See Owner's Manual for safety information. ¹¹Intelligent Lane Intervention only operates when lane markings are detectable. See Owner's Manual for safety information. ¹²Blind Spot Warning cannot prevent collisions and may not detect every object or warn in all situations. Driver should always turn and look before changing lanes. See Owner's Manual for safety information. ¹³Available services/features may be shown. Compatible connected device may be required. Only use services/features and device when safe and legal to do so. Subject to GPS and wireless network availability and connection, and system/technology limitations. Text rates/data usage/subscription may apply. Some services/features provided by companies not within Nissan or its partners' or agents' control and may be discontinued at any time. For more information, see dealer, Owner's Manual, or **NissanUSA.com/connect/important-information**. ¹⁴Driving is serious business and requires your full attention. If you have to use the connected device while driving, exercise extreme caution at all times so full attention may be given to vehicle operation. ¹⁵Charging capacity and times may vary based on battery temperature. ¹⁶Use Hands Free Text Messaging when parked in a safe location. If you must use while driving, monitor traffic conditions and keep both hands on the steering wheel to prevent collisions. Compatible device required. Message and data rates may apply. ¹⁷Public charging networks are provided by independent companies, and are not within Nissan's control. Availability of charging stations not guaranteed. ¹⁸Zero Gravity seats for outboard passengers only. ¹⁹Extra cost option. ²⁰Available with Technology Package only. ²¹Limited availability. ²²Never program while driving. GPS mapping may not be detailed in all areas or reflect current road status. ²³Intelligent Cruise Control uses limited braking and is not a collision avoidance or warning system. Driver should monitor traffic conditions and brake as needed to prevent collisions. See Owner's Manual for safety information. ²⁴Intelligent Driver Alertness cannot provide a warning in every situation. See Owner's Manual for safety information. ²⁵Intelligent Forward Collision Warning cannot prevent collisions. See Owner's Manual for safety information. ²⁶Genuine Nissan Accessories are covered by Nissan's Limited Warranty on Genuine Nissan Replacement Parts, Genuine NISMO® S-Tune Parts, and Genuine Nissan Accessories for the longer of 12 months/12,000 miles (whichever occurs first) or the remaining period under the 3-year/36,000-mile (whichever occurs first) Nissan New Vehicle Limited Warranty. Terms and conditions apply. See dealer, Warranty Information Booklet, or **parts.NissanUSA.com** for details. ²⁷Cargo and load capacity limited by weight and distribution. Always secure all cargo. ²⁸Intelligent Trace Control cannot prevent collisions or loss of control. Driver should remain in control of vehicle at all times. See Owner's Manual for safety information. ²⁹Brake Assist cannot prevent all collisions and may not provide warning or braking in all conditions. Driver should monitor traffic conditions and brake as needed to prevent collisions. See Owner's Manual for safety information. ³⁰RearView Monitor may not detect every object and does not eliminate blind spots or warn of moving objects. See Owner's Manual for safety information. ³¹Air bags are only a supplemental restraint system. Always wear your seat belt. Rear-facing child restraints should not be placed in the front-passenger's seat. All children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents. See Owner's Manual for safety information. ³²Vehicle Dynamic Control cannot prevent collisions due to abrupt steering, carelessness, or dangerous driving techniques. It should remain on when driving, except when freeing the vehicle from mud or snow. See Owner's Manual for safety information. ³³Tire Pressure Monitoring System is not a substitute for regular tire pressure checks. See Owner's Manual for safety information. ³⁴Vehicle must be on for the Easy-Fill Tire Alert to operate. ³⁵For a period of 36 months/36,000 miles from the date the vehicle is delivered to the first retail buyer or otherwise put into use, whichever is earlier. Innovation
that excites

Zero Emission

Nissan LEAF® Simply amazing.

Embrace the excitement of more range and more power. Now, with an available EPA range up to 226 miles, you can go farther than ever before.¹ And you'll drive with more confidence, thanks to a suite of available driver assistance features that help keep an eye out. It's all part of Nissan Intelligent Mobility.^{TM2} The 2019 Nissan LEAF. Simply amazing.

Feel the rush of instant acceleration

It's an experience unlike any other, thanks to the available all-new 160 kW motor, powered by some of the most advanced battery technology in the world. It starts the first time you accelerate and feel 100% instant torque push you into the back of your seat. Then there's the wonder at the intensity of available 214 horsepower coming from a car so amazingly quiet. And with no gas or tailpipe emissions,⁴ your everyday drive turns into something truly extraordinary.

Feel free to enjoy the ride

- Helps keep you centered – even in gentle curves
- Helps maintain your preset speed and distance
- Can even come to a complete stop

ProPILOT ASSIST

With available ProPILOT Assist, the Nissan LEAF® helps out with daily highway driving – helping you follow the car ahead at a preset distance or helping keep you centered in your lane. It can even bring you to a full stop based on the traffic flow, and can bring you back up to speed when traffic starts moving again. It all adds up to a more confident, enjoyable drive.⁵

Reinvent the drive

e-Pedal – ONE-PEDAL DRIVING

Imagine having the option to drive with one pedal. Just press down for an instant rush and ease off to slow down. It's an innovative way to drive that's not only fun, but helps you drive more efficiently^{1, 3}. Of course, going back to driving with two pedals is as easy as flipping a switch.⁶

DRIVER ASSISTANCE FEATURES

Imagine being surrounded by confidence on every drive. Nissan Intelligent Mobility includes available features that monitor in front of you, behind you, and on either side, and can step in to help keep you out of trouble.²

Automatic Emergency Braking with Pedestrian Detection^{7, 8}

Intelligent Around View® Monitor^{7, 9}

Rear Cross Traffic Alert^{7, 10}

Intelligent Lane Intervention^{7, 11}

Blind Spot Warning^{7, 12}

High Beam Assist⁷

AUTOMATIC EMERGENCY BRAKING WITH PEDESTRIAN DETECTION

The 2019 Nissan LEAF® looks out for vehicles ahead and pedestrians crossing in front of you. It monitors your speed and distance between you and the car ahead, and can let you know if you need to slow down. It can even automatically engage the brakes to help avoid a collision or lessen the severity of an impact. And when it detects a pedestrian in the crosswalk, it can apply the brakes for you.^{7, 8}

Get your day started with NissanConnect® EV with Services

Your Nissan LEAF® is powered up and you're connected – and you haven't even stepped out of the house yet. The NissanConnect EV Skill with Amazon Alexa or the NissanConnect EV Action for the Google Assistant makes it possible. Or just use the NissanConnect EV & Services app on your compatible smartphone to lock and unlock your doors, heat or cool your cabin while charging, and more.^{7, 13, 14}

Connect the way you want

Surprising smartphone connectivity brings what's important from your compatible smartphone and puts it on the available touch-screen display. With available features like Android Auto™, you can enjoy access to apps, texts, calls, and more. And you'll stay charged up with a standard USB port.^{13, 14, 16}

Charging up at Home

Charge up overnight, when electricity rates are often lower, using a standard 240-V plug.¹⁴

AT-HOME 240-V CHARGING

 62 kWh BATTERY
EPA Range Up To 226 Miles¹
Approx. 11.5 Hours = Full Charge¹⁵

40 kWh BATTERY
EPA Range Up To 150 Miles³
Approx. 8 Hours = Full Charge¹⁵

Charging up on the Go

An ever-expanding network of public EV charging stations means you're never far from your next charge or a quick top-off. Just use the menu on your LEAF's available center touch-screen display – you can even filter for the type of charger you are looking for, type of payment method, and more.^{13, 17}

PUBLIC DC QUICK CHARGING¹⁶

 62 kWh BATTERY –
EPA Range Up To 226 Miles¹

50 kW DC Quick Charging
Approx. 60 Minutes = 80% Charge¹⁵

40 kWh BATTERY –
EPA Range Up To 150 Miles³
50 kW DC Quick Charging
Approx. 40 Minutes = 80% Charge¹⁵

Grab hold of a driver-centric design

It's all around you. Bold lines, distinctive touches, and the sense that this is a vehicle like no other. The Nissan LEAF's driver-centric environment proves you don't have to sacrifice comfort or convenience when driving electric. With features like a D-shaped steering wheel, distinctive center console, and an available "floating" touch-screen that puts your compatible iPhone® on center stage with Apple CarPlay® integration, it's clear this interior was designed with you in mind.
