OLDSMOBILE

It's about confidence. The confidence to get out of neutral,

shift into drive and start carving your own path through life.

That's the philosophy behind the new Oldsmobile —

S O M E T H I N G

a line of five uniquely liberating vehicles infused with the stuff

that separates certain animals from the rest of the herd,

like sophisticated style, innovative design

and balanced driving control.

Empowered by advanced technologies engineered to make any trip worth

taking, they reconnect you to the road in an entirely new dimension.

It's the new Oldsmobile driving experience.

And it will open your eyes,

untether your imagination and teleport you from the back seat to

the driver's seat the moment you grab the wheel.
