The Panamera Edition

Concept.

We wouldn't be where we are today if we had been satisfied with the status quo – if we had said that the Panamera could not be styled for even greater comfort, tuned for even greater dynamic performance or given an even more comprehensive equipment specification. The Panamera Edition.

Always giving 100 %.
The mark of a true athlete.

The Panamera Edition.

The concept has proven its worth. A sports car. With four seats. Plus all the comfort you could imagine. The Panamera reconciles thrilling contradictions, and has enriched the automotive executive class with an all-important facet: driving pleasure. Thanks to powerful dynamics. Thanks to customary Porsche performance. Thanks to its personality. And now we've introduced some further refinements. The result is sublime – the Panamera Edition.

We've made the standard specification considerably more comprehensive and, in doing so, we've given the Panamera Edition a sharper profile. As a sports car

and as a sedan. From the exterior to the interior.

On the outside, it is recognizable by the 19-inch Panamera Turbo II wheels and the exterior package in high-gloss black.

Porsche Active Suspension Management (PASM) helps to reduce vehicle body movement and thereby enhances comfort. This is accompanied by the addition of Power steering Plus, Bi-Xenon headlights including Porsche Dynamic Light System (PDLS) and ParkAssist (front and rear) including reversing camera.

The Panamera Edition benefits from succinct detailing on the inside, too, as you are about to discover in the following pages. In summary: it's a Panamera – with more personality. And new facets to its character.

The Panamera Edition.

True character is also defined by inner values.

Interior.

Some contradictions are recognized at first glance. What strikes you instantly about this saden is its sporty design and performance. An absolutely extraordinary combination, but one that is typical of any Porsche.

That's because, for all the conveniences that the rear has to offer, the best seat in a Porsche has always been the one behind the steering wheel. With a direct view of the tachometer in the center of the instrument cluster. And flanked by the ascending center console, which not only provides fast access to all important functions, but also places the gear selector within short reach of the SportDesign steering wheel.

Then there's the comfort aspect. Impressive, even by saden standards, and unique for a sports car. Four individual seats together with the spacious luggage compartment provide plenty of room to take on all the challenges of everyday life. The headrests of all four seats are embossed with the Porsche Crest. The attention to comfort is epitomized by the two-tone partial leather interior of Black and Luxor Beige and by front and rear seat heating.

The seat squab surfaces, backrest inner surfaces and inner side bolsters of all seats, the door handles, the armrests on the doors and the center console are

upholstered in embossed leather. An exclusive full leather alternative in a color combination of Black and Luxor Beige is available on request. This is supplemented by a comprehensive range of additional personalization options, including a series of leather and two-tone interior packages and a diverse selection of other color and material combinations.

Floor mats in a matching color, automatically dimming mirrors and door sill guards with the 'Edition' logo round off the interior experience.

Pioneering technologies lead the way. Integrated as standard, Porsche Communication Management (PCM) is your control center for audio, navigation and communication functions. The most important component is the 7-inch touchscreen, which can be used to browse the graphical user interface. Or you can use the separate rotary pushbutton controls. Intuitive, whichever you prefer.

PCM gives you easy access, for example, to the navigation module with fast hard drive and 3D map display. Or you can

operate the BOSE® Surround Sound System, also fitted as standard. Thanks to the surround mode generated by BOSE® Centerpoint® 2 technology, it produces an incredibly immersive audio environment. With a total output of 585 watts from nine amplifier channels and 14 loudspeakers including a 200-watt active subwoofer, the system delivers a balanced acoustic pattern and transforms the Panamera Edition into a concert hall for the road.

Weren't you always driven by your own motives?

Drive.

The direction you take is a question of personality and, of course, it depends on the destination. You can decide how you'd like to get there. The Panamera Edition is available as Panamera and Panamera 4.

The Panamera blends sporty performance with efficiency, i.e. high power at the same time as comparatively low fuel consumption. The 3.6-liter naturally aspirated V6 engine develops 310 hp and 295 lb.-ft. torque. This power is transmitted to the rear axle by 7-speed

Porsche Doppelkupplung (PDK), which is fitted as standard. The Panamera completes the sprint from 0 to 60 mph in 6.0 seconds, and reaches a top track speed of 160 mph.

The Panamera 4 couples the traction of an all-wheel drive with the efficiency of the 3.6-liter naturally aspirated V6 engine. Porsche Doppelkupplung (PDK) transmits power to all four wheels via the active all-wheel drive of Porsche Traction Management (PTM). Acceleration from 0 to 60 mph takes 5.8 seconds and a top track speed of 159 mph is achieved.

Let's be honest: these are impressive performance figures. Particularly for a sedan. Even for a sports car.
