

— AMERICA'S — — MOST EFFICIENT — — WORK VAN —^{1*}

Ram ProMaster City® Tradesman® SLT Cargo Van. Properly secure all cargo.

WE KNOW EXACTLY WHAT YOU'RE LOOKING FOR. And Ram ProMaster City puts it all into perspective, focusing on low costs of operation, impressive resale value, and a list of best-in-class features that leave the competition looking on with envy. With its functional yet elegant design, outstanding occupant comfort, proven durability and efficiency and performance at the top of the game, Ram ProMaster City vaults into first-place consideration for your business or family.

The basis of ProMaster City at a glance? Superiority. Start with the powertrain, where the 2.4L Tigershark® MultiAir 2 I-4 engine and **class-exclusive² 9-speed automatic transmission** deliver **best-in-class² horsepower and torque** and **best-in-class³ 28 mpg highway[†] fuel economy.**

Capability is also at the top of its form. ProMaster City delivers **best-in-class² payload—up to 1,883 lb; best-in-class² cargo capacity—**

131.7 cubic feet (about three washer/dryer sets, for a fast comparison of this vast interior volume); and **best-in-class² cargo width between the wheel wells—it's 48.4 inches**, easily accommodating a standard pallet.

Build strength starts with a steel backbone that helps enable **an unsurpassed² towing rating to handle trailers up to 2,000 lb** when properly equipped. The all-important GVWR is also at the top: this **best-in-class² GVWR of 5,395 lb** joins a no-nonsense GCWR that comes in at a solid and respectable 5,900 lb.

Created specifically for a cost-conscious business or a large family, and designed for cities and suburbs, Ram ProMaster City supplies it all: ultra-efficient performance. Multiple bests for capability. And all designed for low costs of ownership and operation. For more information, click over to ramtrucks.com/promastercity

*A note about this brochure: all disclaimers and disclosures can be found on page 26.
†EPA estimated 21 mpg city/28 mpg hwy. Actual results may vary.

Ram ProMaster City Wagon SLT with available Roof Rack Side Rails by Mopar®, aluminum wheels and fog lamps.

RAM
COMMERCIAL

Properly secure all cargo.

What really counts with Ram ProMaster City® is a purpose-driven design that delivers superior capacity. This Cargo Van comes through with flying colors—and all the right numbers. The Tradesman® and Tradesman SLT Cargo Van trim levels offer a vast rear area with cargo floor length greater than 7 feet. Dealing with pallets? Huge 48-inch-wide rear doors open into a **best-in-class² 48.4-inch cargo width between the wheel wells**—just right when you need to load a standard pallet. The spacious interior is ideal for large items—think typical appliances for the kitchen or laundry room—with 51.8 inches measuring from floor to interior roof. Convenient passenger-side and rear

overhead lamps in the cargo compartment and up to six D-type tie-down rings (integrated in the floor, with up to 1,000-lb capacity when in use) add to functionality—and to leadership.

Cargo capacity here is best-in-class²: 131.7 cubic feet. Payload also ranks with top-tier superiority, with a best-in-class² capability up to 1,883 pounds.

The crowning touch is that both Cargo Van and Passenger Wagon models can further ramp up your can-do attitude and carrying power: versatile available Roof Rails from our friends at Mopar® enable up to 150 pounds of roof-ready hauling capability.

ROOF WEIGHT CAPACITY

150 LB*

*When properly equipped.

CARGO AREA LENGTH **87.2"**

Properly secure all cargo.

Properly secure all cargo.

INSIDE AND OUT, IT'S READY-MADE FOR AN UPFIT. It totally measures up, starting with that **best-in-class² cargo capacity of 131.7 cubic feet.** Now add the assets: seven feet of flat cargo floor length. Huge 60/40 split rear doors. Nearly vertical side walls. But let's get real: the total volume of a side-by-side fridge/freezer is around 32 cu ft; a typical washer and dryer combination, around 48 cu ft.

Take a moment to compare those figures to this cavernous 131.7 cu ft, and start thinking about an upfit with room for supplies and equipment, or a mobile workshop with leftover space to accommodate additional storage for tools and other materials.

NEED EXTRA CAPABILITY? HIT THE ROOF. The **unsurpassed² towing (up to 2,000 lb when properly equipped)** and the **best-in-class² payload (up to 1,883 lb)** show clearly how capability is built into every Ram ProMaster City[®] model.

Maximize it further: use the predrilled receivers in the roof for available Roof Rails, which can handle up to 150 lb of carrying capacity. And since we shared these specs with other manufacturers, you can choose from those sources, as well as from the many Authentic Accessories from Mopar[®]. The winning strategy to this game is adaptability and versatility. Your Ram ProMaster City scores big in every area.

FROM PAINT TO PALLET, THIS VAN HANDLES IT. Competitively offering 51.8 inches from floor to ceiling, Cargo Van also gives you **best-in-class² cargo width between the wheel wells.** Shown at left: even with custom shelving installed along the walls, there's still enough room in the center cargo area for additional equipment and supplies. Illustrated at right: while each of these five-gallon paint cans weighs about 50 lb, these five take up a mere fraction of the **best-in-class² payload figure—up to 1,883 lb.** The figure reflects pure capability: this Cargo Van welcomes a standard loaded pallet.

ADDING TO FUNCTIONALITY AND SECURITY, these tough available partitions are constructed of molded steel and fully separate the front cabin from the cargo area—ideal when carrying valuable equipment. Windowed partition lets you use the rearview mirror while keeping a sharp eye on materials in back. All partitions include rear wall trim.

A completely unique feature—and one designed specifically for Ram ProMaster City—is the bi-link rear suspension. This category-unique configuration delivers comfort for passengers, enables confident hauling, and offers enhanced stability. Our engineers employed a steel crossmember with an optimum weight/stiffness ratio to help improve reaction to lateral loads; the technology also contributes to improved handling. The steel, cargo-rated coil springs supply high-fatigue endurance and work with tough telescopic twin-tube hydraulic shocks designed for minimal mass and maximum performance. A 16-mm solid stabilizer bar with optimized torsional stiffness also ensures long-lasting durability.

Featuring Electronic Range Select (ERS), the 9-speed automatic is a major factor in achieving outstanding fuel efficiency. Considered to be superior in gear range, ratio spread and gear transitions to many of its 6-speed counterparts, it dispenses with conventional large-diameter friction discs in favor of dog clutches. With gear disengagement and actuation similar to that of a manual transmission, it uses shorter mid-range gears with near-frictionless operation. Factor in the higher 7th, 8th and 9th transitions, and you've got multiple reasons for the exceptional fuel-efficient performance of every Ram ProMaster City model.

2.4L TIGERSHARK® MULTIAIR® 2 I-4 WITH THE CLASS-EXCLUSIVE* 9-SPEED AUTOMATIC TRANSMISSION

As the only gas-powered 4-cylinder engine in the Ram portfolio, the 2.4L Tigershark takes full advantage of the MultiAir® 2 valve train system. Internal components include a high-pressure die-cast aluminum block, and a forged steel crankshaft with powder-metal forged steel connecting rods and cast-aluminum pistons. Individual oil squirters help keep internal temperatures in the ideal range, and the position of the exhaust manifold helps reduce noise in the engine compartment. Pulse-width modulation technology on the alternator and fuel pump helps contribute to operating efficiency; acceleration is impressive: it's a mere 3.7 seconds from a full stop to 30 mph.

TWIN-TUBE MACPHERSON STRUTS

Twin-tube MacPherson struts are large-diameter (52 mm), engineering that easily supports this best-in-class* GVWR. We also added GVWR-tuned high-performance stamped-steel clamshell-sectioned control arms with a steel crossmember, specifically tuned springs, a solid 26-mm-diameter stabilizer bar with cast-iron knuckles and large-sized coil springs.

RACK AND PINION STEERING WITH FRONT-WHEEL DRIVE

Rack and pinion steering with front-wheel drive shows its advantage in the tight turning radius, a flat-floor cargo area and the easy step-in height. This hydraulic-assist system with premium steering gear is engineered and tuned to meet the rigorous demands of the commercial market; curb-to-curb turns are only 42 feet. The adjustable tilt/telescoping steering column—an unusual convenience in this class—is standard on all models.

RESILIENT FRAME STRENGTH

A solid backbone was a major mandate for this body-frame integral (unibody) design. This chassis employs a stout, integrated frame structure, strategically boxed frame components, multiple crossrails, and robust and comfortable suspension technology. The engineering enables top-level functionality on Cargo Van—**best-in-class*** payload and unsurpassed* towing*. The **best-in-class*** GVWR of 5,395 lb infers outstanding capability, with GCWR rated at a solid and substantial 5,900 lb.

*When properly equipped.

YOU'RE CARRYING CARGO, PASSENGERS, OR BOTH. PROTECT ALL OF IT. Every Ram ProMaster City® features one of the most comprehensive and advanced technologies for handling and maneuvering: the **Electronic Stability Control (ESC)® system**. This system integrates the antilock braking system (ABS) with a variety of All-Speed Traction Control technologies that enable all four corners of the vehicle to respond to lateral movement and the steering input from the driver. ESC® helps maintain control under conditions such as wet or snow-covered roads, during tight turns and when the driver must utilize evasive maneuvers to counter the unexpected. Calibrated to engine output, ESC® includes four-channel ABS, Brake/Lock Differential, a full-function All-Speed Traction Control System, Brake Assist, Engine Drag Control, Trailer Sway Control,® Hill Start Assist and Electronic Roll Mitigation.

SEVEN STANDARD AIR BAGS¹

Few competitive vehicles in the class offer so many. These include dual-stage driver and front-passenger air bags,² side air bag,³ inflatable curtains, front seat-mounted thorax air bags,⁴ **class-exclusive² driver's-side knee air bag**,⁵ along with dual front seat belt pretensioners and seat belt load limiters.

PARKVIEW® REAR BACK-UP CAMERA¹

Now standard on every model, the ParkView Rear Back-Up Camera¹ automatically displays the rear scene in the Uconnect® 3 with 5-inch touchscreen display when in Reverse. The on-screen grid lines help when backing up to docks and trailers, or into parking spaces.

PARKSENSE® REAR PARK ASSIST SYSTEM¹

The available ParkSense Rear Park Assist System¹ is fast becoming an indispensable asset to keep the driver alert to their surroundings. Activated under 8 mph when in Reverse, it uses audible warnings that increase in intensity as the vehicle nears obstructions to the rear.

TOP-LEVEL CARGO MANAGEMENT

In-roof predrilled receptacles are already in place for numerous aftermarket accessories, including available Roof Rails from Mopar®. Molded in color with a Silver finish, they carry a 150-lb max rating and will accommodate a variety of available assets, including Roof Top Cargo Carriers, Bike Carriers, Ski Carriers and Water Sports Carriers. Search mopar.com for a complete inventory.

IN-FLOOR TIE-DOWN RINGS

In-floor tie-down rings (six on Cargo Van; four on Wagon) help secure cargo. They come as standard equipment on every model.

SLEEK AERODYNAMIC DESIGN

Thoroughly wind-tunnel tested, Ram ProMaster City delivers a minimal coefficient of drag (CD) of only 0.30. While this enables an impressively quiet interior, reducing wind resistance acts as a major contributor to the impressive fuel efficiency.

THE HEADLAMP SYSTEM

The headlamp system is high-mounted above common crash zones to help reduce damage (and costs) in the event of a collision. The system includes the Follow Me Home function, illuminating the front of the vehicle via the headlamps for a preset time.

In-floor tie-down rings and seven standard air bags⁶

THE RAM PROMASTER CITY® DESIGN TEAM LEFT NOTHING on the table with this interior—an adaptable, large and people-friendly environment that's ideal for one-hour jaunts or weeks spent exploring the country. You'll welcome amenities that range from durable and easy-to-clean surfaces to user-friendly interfaces that represent our values: provide state-of-the-art electronics and communications technologies second to none. Along with that, seating in both models is exemplary, with long-lasting and easy-on-the-eye fabrics designed for maximum comfort.

Storage areas are plentiful; personal space is ample, with generous shoulder and leg room for all. Rear seating in Passenger Wagon comfortably accommodates up to three passengers—and still provides significant cargo room behind the rear seats. Entry and exit through the two oversized side sliding doors on Passenger Wagon are easy and unhindered. No matter which model you're driving, this interior gives you total convenience and functionality. Wagon makes the point with a vehicle-length acoustic headliner and a plush floor carpet that stretches from cab to back door.

OUR SMARTEST CALL WAS TO STUDY THE SMARTPHONE. Your phone now goes far beyond calling, and your radio system in ProMaster City gives you a comparable degree of capability.

Ram ProMaster City features a standard Uconnect 3 with a vibrant 5-inch color touchscreen display and four speakers with Bluetooth® and Integrated Voice Command®. Available Uconnect 3 NAV adds GPS Navigation and Points of Interest. Available SiriusXM® Satellite Radio⁹ includes a one-year trial subscription. You're in business or you're with friends and family; with Ram ProMaster City, you're in touch, and in the know—with Uconnect audio system and communications technology.

Uconnect®

SiriusXM®⁹
SATELLITE RADIO

Properly secure all cargo.

NOT MERELY PEOPLE-FRIENDLY. IT'S EVERYTHING-FRIENDLY. Meet the smartly designed Ram ProMaster City® Passenger Wagon: a working example of adaptable flexibility. From seating configurations to generous front storage to abundant and accessible rear cargo capacity, this robust workhorse meets the need—and it's likely that you'll have room to spare. Whether you manage an office team or your local baseball team, this Wagon delivers top-of-the-line assets for all.

Our engineers addressed seating needs by creating an innovative second-row design that reflects pure practicality and standout versatility. The rear seat is engineered for premium occupant comfort, delivering ample room for three passengers. Also key is the **Fold-and-Tumble rear-seat design that enables nine different configurations** and which enables you to meet virtually any transport need. Dual side doors slide open, and rear doors—with their smart and safety-oriented 60/40 split design with the larger door on the driver's side—are ideal for curbside loading.

Cargo area width maxes out at a huge 57.6 inches, an asset that joins carpeted floors and a full acoustic headliner; the interior is supremely quiet. Finally, front tubular bucket seats with spring suspensions and durable fabrics offer easy in-and-out access, the headrests are adjustable and the seatbacks recline; available manual lumbar support controls (for the driver's seat) and heated surfaces for both front seats finish the list.

TOPPING IT OFF IS OUR TAKE ON ALTERNATIVE TRANSPORTATION.

The layout leaves everything to the imagination and nothing to chance—which is why this roof structure plays a vital role. Rated up to 150 lb, the lightweight aluminum Roof Rails available from Mopar® shown here are just the ticket for handling bikes, extra luggage, sports equipment and more. Ram ProMaster City is pure capability and possibility in motion—which is why the roof is already prepped to accept the rails, and why the rails also accommodate dozens of other Authentic Accessories from Mopar.

LARGE ENOUGH FOR THE WHOLE CREW.

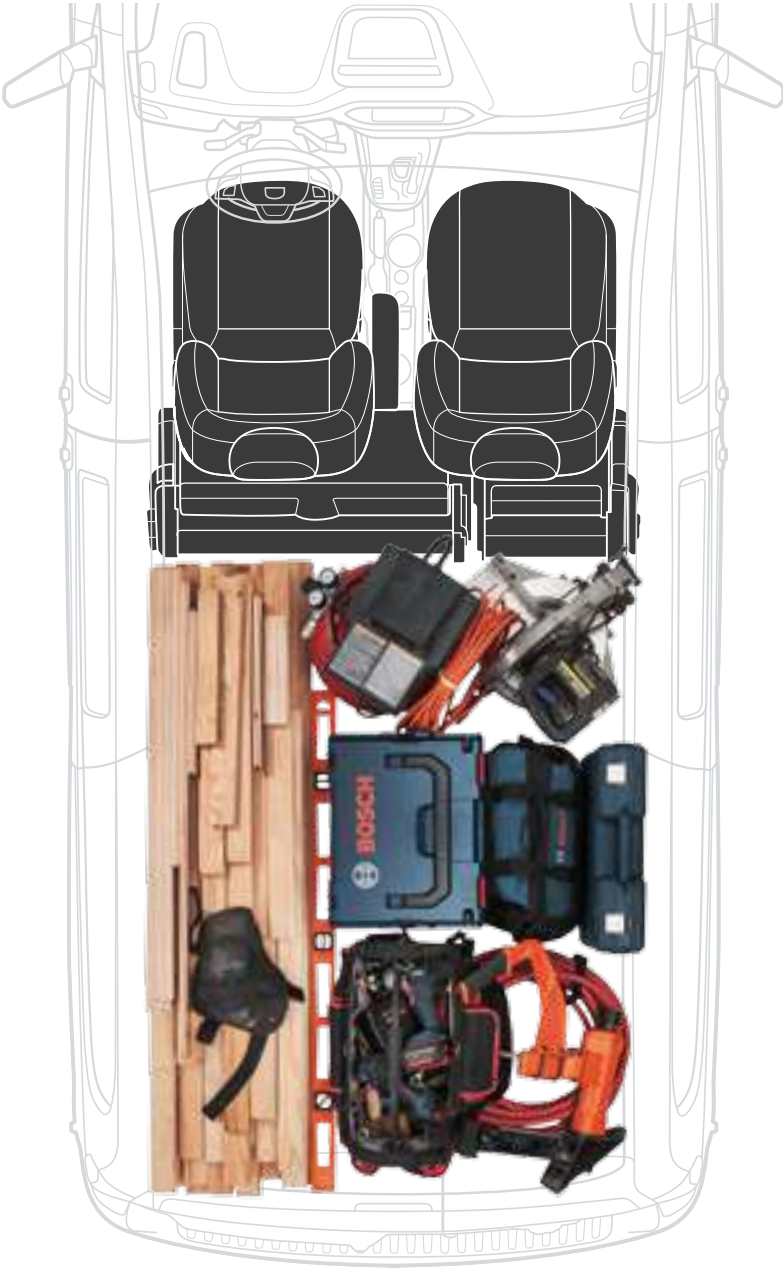

The confined spaces of the traditional family vehicle are long gone. The area behind Passenger Wagon's upright second-row seats is 74.1 cu ft; fold them down, and space opens up to 101.7 cu ft—an area more than twice the volume of a standard washer/dryer combination (around 48 cu ft). And, while standard and available Safety and Security features abound, nothing beats your best buddy keeping an eye out for you and yours.

Properly secure all cargo. Animals should always be safely and properly secured while vehicle is in motion.

Properly secure all cargo.

Properly secure all cargo.

RAM PROMASTER CITY®: A MOVING EXAMPLE OF OUR COMMITMENT TO AUTOMOBILITY. When you design and build a vehicle with this level of adaptability, you create a means to deliver a new level of independent travel. When it comes to mobility-minded upfits and personal customization, few deliver like the Ram ProMaster City models. The expansive side door openings provide huge, unimpeded access, and the 60/40 split rear doors can easily accommodate a wheelchair with occupant. The in-floor D-rings on all models (four on Wagon and six on Cargo Van), ensure secure anchoring for wheelchairs and accessories, while Passenger Wagon adds additional comfort measures (like optional power second-row windows and variable seating dynamics) topped off with the welcome quietness that comes from a carpeted cabin throughout the entire vehicle.

SMART THINKING ENABLES EMPOWERMENT

As these two customized solutions illustrate, converting a Ram ProMaster City for wheelchair or disabled access is a designed-in advantage. Far left, controlled by third-party aftermarket electrohydraulic controls, this user-friendly swing-out front seat shows how convenience becomes freedom of movement. Near left: An upfit that utilizes an aftermarket lift for wheelchairs or scooters; the rear area is large enough to store it after use.

It all comes together for all the right reasons: impressive GVWR, huge and adaptable interior, and generous door openings to the side and rear.

Automobility upfit is aftermarket only. Properly secure all cargo.

BUSINESS LINK

The fast lane for small business.

THE DEALER NETWORK FOR YOUR BUSINESS.

Your **BusinessLink** dealer is committed to providing you, the small business owner, with the vehicle support you need for your business, from servicing all makes and models of your existing vehicles to selling you the right vehicles needed to perform the work that you do. Your **BusinessLink** dealer provides priority service because we know downtime is costing you money. Your **BusinessLink** dealer has sales

professionals trained to properly "job-rate" the right vehicle for your work application along with providing commercial finance options. New vehicle sales to qualified small business owners also receive a free alternate transportation contract, in the event your vehicle is in for service.

Membership in the **BusinessLink** program is free. Membership helps us to identify you as a small business owner so we can provide you with both the service you deserve and update you with offers that can help reduce the cost of doing business. Ask your **BusinessLink** dealer to register today.

BusinessLink has you covered.

- ▶ Full Range of FCA Commercial Vehicles
- ▶ Free Membership
- ▶ Priority Service
- ▶ Extended Service Hours
- ▶ Dedicated Staff of Commercial Vehicle Experts
- ▶ Free Alternate Transportation
- ▶ Generous Incentives
- ▶ Expertise in Commercial Financing Options
- ▶ 24/7 Towing Service Available

For more information, log on to **FCAUSFLEET.COM** or call us toll-free at **877-2THELINK (877-284-3546)**.

ON THE JOB

INCENTIVES FOR SMALL BUSINESSES.

Running a business presents plenty of challenges. Like cutting costs, not corners. Like saving time and money and eliminating hassles. The **ON THE JOB**¹² commercial incentive program provides assistance in customizing and servicing your business vehicles.

ON THE JOB¹² allowances make your business more profitable!

- ▶ **NO-EXTRA-CHARGE** 2-Year Gas/4-Year Diesel Lube-Oil-Filter Allowance
- ▶ **UP TO \$1,000** Commercial Graphics Program Allowance
- ▶ **UP TO \$1,000** Commercial Equipment/Upfit Allowance
- ▶ **\$300 - \$1,000** Allowance on Select Mopar[®] Service Contracts

See your dealer for specific program rules and details, log on to **FCAUSFLEET.COM** or call us toll-free at **877-ONTHEJOB (877-668-4356)**.

A commercial line of credit from Chrysler Capital is ideal for qualified business customers looking for a flexible, easy way to manage growing vehicle needs. Chrysler Capital streamlines the process. With prequalification, you're ready to buy a vehicle when you need it. Ask your **BusinessLink** dealer for details.

CHRYSLER CAPITAL

RAMTRUCKS.COM/OUTFITTER

1 Based on best-in-class cargo capacity, best-in-class payload and best-in-class fuel efficiency. 2 Based on latest available competitive information. Class is Small Commercial Van segment. 3 Based on latest available competitive information. Class is Small Commercial Van segment. Estimated 28 hwy mpg, 2.4L automatic 9-speed transmission. Actual results may vary. 4 Transferable. See dealer for complete details and a copy of the 5-Year/60,000-Mile Powertrain Limited Warranty. 5 No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. 6 The Advanced Front Air Bags in this vehicle are certified to the new U.S. Federal regulations for Advanced Air Bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. 7 Always look before proceeding, electronic drive aid is not a substitute for conscientious driving; always be aware of your surroundings. 8 Requires a mobile phone equipped with the Bluetooth Hands-Free Profile. Visit UconnectPhone.com for system and device compatibility. 9 SiriusXM audio and data services each require a subscription sold separately or as a package by Sirius XM Radio Inc. Your SiriusXM service will automatically stop at the end of your trial unless you decide to subscribe. **If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates.** Fees and taxes apply. To cancel, you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at www.siriusxm.com. All fees and programming subject to change. Not all vehicles or devices are capable of receiving all services offered by SiriusXM. Current information and features may not be available in all locations or on all receivers. 10 WiFi subscription required. Vehicle must be properly equipped and in active and usable cellular range for WiFi usage. WiFi Hotspot does not enable direct communication between multiple in-vehicle devices. Factors affecting the performance of WiFi Hotspot include: cellular network, signal strength and quality, time of day, number of channels used by the service provider, type of connection, number of clients using WiFi Hotspot and client device. This feature is not intended for use by the driver while the vehicle is in motion. Always drive safely. 11 Based on latest available competitive information. Class is Small Commercial Van segment. EPA estimated 28 hwy and 16-gallon fuel tank, 2.4L automatic 9-speed transmission. Actual mileage may vary. 12 ON THE JOB is a retail incentive program; see your dealer for official rules. Inquire about eligibility by calling 877-ONTHEJOB or by logging on to fcausfleet.com. The purchaser or lessee must be a qualified commercial customer for more than 30 days prior to the date of the vehicle purchase. An official ON THE JOB Customer Acknowledgment Form must be signed by the customer (provided by the dealer).
