

Griffin Edition

Saab 9-5 Griffin Edition. More than enough is just enough.

We've drawn inspiration from a legend to bring the Saab 9-5 to new heights. Introducing the Saab 9-5 Griffin Edition. Specially designed with bold new styling cues to complement the innovative versatility and impressive real-life safety features you've come to expect. And with the efficient performance of the Saab Turbo under the hood, you can be certain that the drive will be an invigorating one. For true driving exhilaration, come in for a close look at the Saab 9-5 Griffin Edition.

Saab 9-5 Sedan and 9-5 SportCombi Griffin shown in Glass Gray Metallic.

The beauty of advanced aerodynamics.

The design says a lot. Sleek, aerodynamic, inspiring and purposeful. On the Saab 9-5 Griffin Edition, we've fine-tuned the exterior even further with matte metal-finish front trim and specially selected alloy wheels. Yet we've found room for some under-skin enhancements as well. Try a Saab 9-5 Griffin and find out what true driving inspiration means.

Sport Leather-trim steering wheel.
Three-spoke with thick leather grip and contrasting stitching that matches the handbrake and manual gear shifter.

Alloy wheels.
17-inch five-spoke alloy wheels with all-season tires.

Griffin Edition shown in Glass Gray Metallic.
Shown with available equipment.

For loads of fun.

A few moments with the Saab 9-5 SportCombi and you'll appreciate just how easy it is to bring along the gear you need. With our wide range of available dealer-installed Saab Accessories, you can customize the luggage compartment just the way you want. What you can't fit inside, you can easily carry outside. The integrated roof rails make it easy to attach special holders for everything from kayaks to bikes and skis. And for even bigger items, just add a towbar — fixed or removable.

Integrated roof rails.

Come standard in black on 2.3T or matte chrome finish on the Aero. (SportCombi only)

Roof rack, C-track.

Quick-release fasteners for easy fitting. Made of anodized aluminum. (Accessory, SportCombi only)

Roof box.

Designed with a low-profile aerodynamic design. (Accessory)

Flexible space.

36.8 cu. ft. of cargo space* expands to 73 cu. ft. when you fold the rear seat backrest.

Easy loading.

Wide opening, hidden gas struts, recessed bumper and flat floor.

Cargo guard.

Metal guard that separates the passenger and luggage compartments. (Accessory, SportCombi only)

Cargo space divider.

Fitted together with the cargo guard. Convenient when traveling with pets. (Accessory, SportCombi only)

Cargo shade.

Rigid shade that protects the luggage compartment from prying eyes. Easy to fold and remove. (SportCombi only)

CargoTracks.™

Load-anchoring rails in the luggage compartment floor.* The available movable eyelets make it easy to secure loads using straps or nets. (SportCombi only)

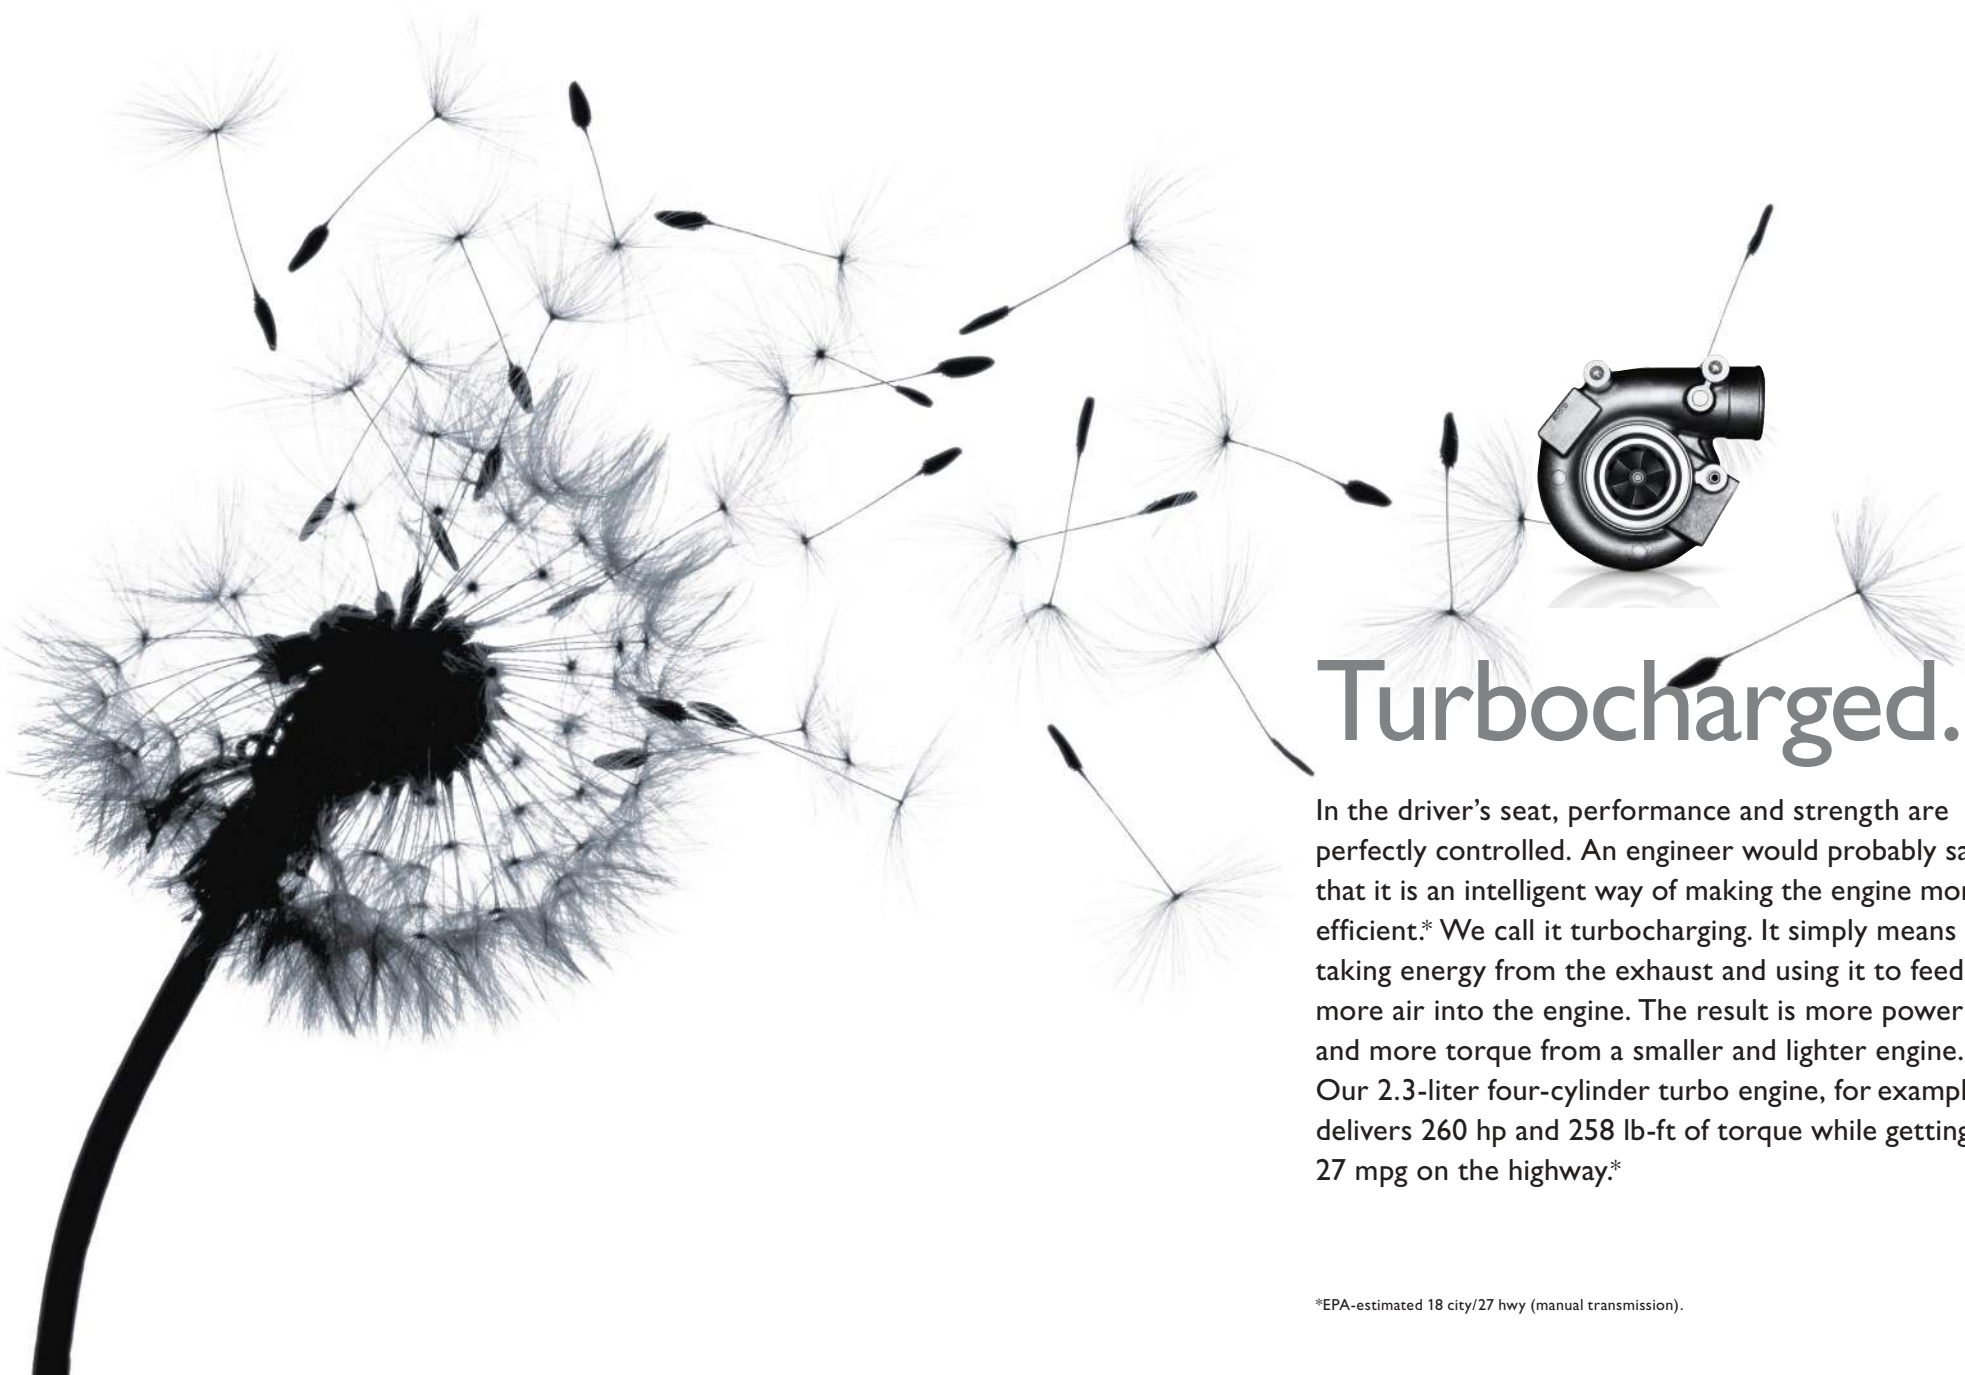

Trailer hitch.**

Includes a removable/lockable towbar. (Accessory)

*Cargo and load capacity limited by weight and distribution.

**Dealer-installed Saab Accessory.

Turbocharged.

In the driver's seat, performance and strength are perfectly controlled. An engineer would probably say that it is an intelligent way of making the engine more efficient.* We call it turbocharging. It simply means taking energy from the exhaust and using it to feed more air into the engine. The result is more power and more torque from a smaller and lighter engine. Our 2.3-liter four-cylinder turbo engine, for example, delivers 260 hp and 258 lb-ft of torque while getting 27 mpg on the highway.*

*EPA-estimated 18 city/27 hwy (manual transmission).

Saab real-life safety.

Standard equipment

- Three-point safety belts, all seat positions
- Safety belt pre-tensioners/load limiters, front
- Dual-stage air bags,* front
- Head/thorax side air bags,* front
- Passenger Sensing System, front
- Side-impact protection structure
- B-pillar side-impact protection structure
- Anti-submarining, front and rear seats
- Saab Active Head Restraints (SAHR), front
- Adjustable (up-down) rear head restraints
- Active reminder for front safety belts
- Break-away pedals
- Child-safe rear door locks
- Child seat anchorage points (LATCH system), rear
- Load intrusion protection, rear seat
- Load-securing eyelets (Sedan only)
- CargoTracks,TM load-anchoring rails** (SportCombi only)

*Always use safety belts and the correct child restraint for your child's age and size. Even in vehicles equipped with a Passenger Sensing System, children are safer when properly secured in a rear seat in an appropriate infant, child or booster seat. Head curtain side air bags are designed to help reduce the risk of head and neck injuries to front-and rear-seat occupants on the near side of certain collisions. See the Owner's Manual for more safety information.

**Cargo and load capacity limited by weight and distribution.

Interacting safety systems.

Crumple zones, air bags, safety belts and the Saab Active Head Restraints (SAHR) for front seat passengers are just some of the safety systems designed to help protect you and your passengers. They are designed to interact, absorb and help distribute impact energy efficiently.

Dual-stage front air bags*

Designed to register the crash force and monitor whether the safety belt is being used. The system adjusts air bag deployment to suit, either to the maximum or with lower pressure.

Passenger Sensing System.

Designed to monitor the front passenger seat with regard to whether the occupant is heavy or light or if the seat is empty. The system is configured not to deploy the frontal air bag* if the seat is unoccupied or if the system registers a small occupant below a certain weight. Air bag* status "on/off" is displayed via the lamp in the instrument panel.

Side air bags*

High, two-part side air bags fitted in the front seat's backrest help protect both the head and thorax.

CargoTracks.TM

Standard in the Saab 9-5 SportCombi. It allows you to secure different types of loads. Together with the sturdy backrest, you can count on improved load-shifting protection.**

Broad front structure.

Designed to protect in frontal crashes from a variety of angles and objects. Crash boxes and front beams are designed to deform in a controlled manner to help absorb the impact energy.

Reinforced doors.

With protective beams and overlapping sills that are designed to help prevent door intrusion into the cabin.

Safety structure.

Front and rear crumple zones are designed to help distribute collision forces over a wide area to help reduce the effects of a collision on you and your passengers.

Robust B-pillar.

Designed to work as a pendulum and bend inwards at the bottom to help direct crash forces away from the occupants.

Designed around you.

The ergonomic driver's environment in the Saab 9-5 is perfectly designed around you. The most frequently used controls are within convenient reach. You have a commanding view of the instruments and the road ahead. We've also integrated innovative solutions like the ComSense concept and the unique Saab Night Panel — features designed to help you stay a more focused driver. And as a result, a safer driver.

ComSense.

Designed to reduce distraction by briefly delaying warning messages when the brakes or turn indicators are activated. This helps you stay focused when you turn, pass or brake.

Night Panel.

Designed to facilitate night driving. Press a button and the entire instrument panel, except for the speedometer, fades out. When attention is needed, the relevant instrument lights up.

Driver Information Center.

Integrated in the speedometer. Shows ambient temperature, fuel consumption and estimated distance on remaining fuel. You also get functions such as distance to destination, estimated time of arrival and speed warning.

Steering wheel controls.

For the audio system and Driver Information Center. Gear shifting buttons for the Sentronic automatic transmission.

Dual-zone automatic climate control.

Different temperatures for driver and front passenger. Electrostatic/carbon filter designed to help clean the incoming air from particles down to 0.004 mm in size. Designed to keep the passenger compartment free of dust, soot, pollen and certain bacteria.

Ventilated sport seats.

Perforations in the seat and fans in the front seat backrest and seat bottom help keep your body cool. (Available)

Ultrasonic rear parking assist.

Helps when parking in tight spots. Alerts you as you get close to a stationary object behind the car. (Included in the available Visibility Package)

Standard Features.

Powertrain

2.3T four-cylinder turbocharged engine
Sentronic five-speed automatic transmission with manual shifting
Front-wheel drive

Seating

Perforated Leather-appointed, Sport seats, includes color accent
Eight-way power front seats with two-way driver lumbar
Memory settings for driver's seat and exterior mirrors
Heated front and rear seats
Split-folding rear seat back
Rear center armrest with pass-through (Sedan only)

Wheels and Tires

17" alloy wheels, twin five-spoke split with P235/45VR17 all-season tires¹

Interior

Sport Leather-wrapped steering wheel
Automatic climate control, dual-zone
Cabin air filter
Piano Black wood trim on the dash panel and doors
Tilt and telescopic steering column
Heat-absorbing glass
Power windows with front express down
Cooled glove compartment
Interior light with delay
Sun visors with illuminated vanity mirrors
Cup holders in instrument panel center and rear seat armrest
Night Panel function
Profiler menu system for individual settings
Driver Information Center
Central locking with remote control
Two 12V outlets
Adjustable front armrest
Auto-dimming rearview mirror with digital compass and garage door opener
Power glass moonroof with express opening
Removable rigid cargo shade (SportCombi only)
CargoTracks™ in luggage compartment floor (SportCombi only)

Safety

Saab Active Head Restraints (SAHR), front seats
Pendulum B-pillar side-impact protection structure
Driver and passenger front air bags²
Head/torso side air bags² front seats
Safety belt pre-tensioners, front seats
Three-point safety belts, all seats
Child seat top tether anchors and anchorage points (LATCH system), rear
Load-shifting protection in the rear seatback
Halo lighting and follow-me-home function
Saab anti-theft alarm with immobilizer
OnStar® with one-year Safe and Sound Plan³
Tire pressure monitor system

Audio and Communication

harman/kardon® sound system with six-disc CD changer
Integrated audio controls on steering wheel
Integrated radio antenna in rear window
XM Radio⁴ with three-month trial

Exterior

Power heated mirrors
Bright finish exhaust tip
Headlamp washers
Integrated front fog lamps
Rear fog lamp
Rain-sensing intermittent windshield wipers
Rear window wiper/washer (SportCombi only)
Black roof rails (SportCombi only)
Matte chrome roof rails (SportCombi only)
Power folding auto-dimming mirrors
Ultrasonic rear parking assist
Xenon headlamps

Mechanical

Electronic Stability Program (ESP®)
Traction control system
Four-wheel anti-lock disc braking system (ABS)
Electronic brake-force distribution
Power rack-and-pinion steering with variable assist

For more information, visit saabusa.com.

¹ The 17-inch all-season tires have a lower aspect ratio that aids performance and handling. However, in order to avoid tire, rim or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at recommended levels. Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices. Finally, these tires may wear more quickly than other choices. For further information on all these topics, please consult the Owner's Manual, your local dealer or call 1-800-SAAB-USA. ² Always use safety belts and the correct child restraints for your child's age and size. Even in vehicles equipped with Passenger Sensing System, children are safer when properly secured in a rear seat in an appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See the vehicle Owner's Manual and child safety seat instructions for more safety information. ³ Call 1-888-4ONSTAR (1-888-466-7827) or visit onstar.com for details and system limitations. ⁴ XM Radio requires a subscription sold separately after the first 90 days. Not available in Alaska or Hawaii. For more information, visit gm.xmradio.com.

Available Features and Packages.

In addition to standard features.

Powertrain

Some things shouldn't be left up in the air.

We thought of everything to ensure that owning a Saab is as effortless as driving one. With the Total Confidence Plan,TM your new 2009 Saab comes standard with a suite of services. It's a plan unlike any other – because we know you wouldn't have it any other way.

No-Charge Scheduled Maintenance. For the first three years or 36,000 miles,* all standard maintenance on a 2009 Saab vehicle, such as tire rotations and oil changes, at no extra charge when serviced at an authorized Saab dealership.

OnStar. Standard for one year on all Saab vehicles.** OnStar is a safety and security system that helps keep you on course, protected and connected on the road. From a minor inconvenience to a major collision, a live, trained Advisor is there to help.

Four-Year/50,000-Mile Limited Warranty. If any part of your Saab vehicle covered under this warranty is found to have a manufacturing defect in materials or workmanship occurring during normal use, the manufacturer will make the appropriate corrections free-of-charge (parts and labor) with no deductible, for four years or 50,000 miles.*

Roadside Assistance Program. Response, security and convenience of the 24-hour Roadside Assistance Program is available for a period of four years or 50,000 miles.*

Courtesy Transportation. During the warranty coverage period, alternate transportation and/or reimbursement of certain transportation expenses will be available under the Courtesy Transportation Program if your vehicle requires warranty repairs. Several transportation options are available.

*Whichever comes first. See dealer for details.

**Call 1-888-4ONSTAR (1-888-466-7827) or visit onstar.com for details and system limitations.

Born From JetsTM

saabusa.com

Saab AB and Saab Automobile AB are today two unaffiliated companies with a common history. Saab Automobile AB manufactures cars and is a subsidiary of General Motors Corporation. Saab AB has its main operations in defense, aviation, space technology and civil security. Gripen, developed by Saab AB, is the first of the new generation, multi-role combat aircraft to enter service. For more information about Saab AB, please visit saabgroup.com.
