

2005 SUBARU IMPREZA

A BLEND OF PERFORMANCE, AGILITY AND INNOVATION.

Beware the beaten path. It is the path of followers, not leaders. Of tourists, not explorers. It is the road traveled by those more trusting of convention than invention. And it is not the path of Subaru. Because for over three decades we have blazed our own trail, building the kind of cars people depend on every day. Capable cars. Rational cars. Intelligent cars. We introduced America to the beauty of All-Wheel Drive. We proved ourselves on rally courses around the world, but our journey never truly ends, it merely evolves. As do we, with cars that offer more than mere capability. Much more. They are stylish. Powerful. Exhilarating. They ignite passion. In this way, we constantly push the boundaries. Continually redefining what a Subaru can be.

At first glance, you feel the adrenaline

surge begin. Presenting the 2005 Subaru

Impreza Sedans and Wagons. Here once

again to invigorate the senses with

incomparable All-Wheel Drive agility,

performance and capability. Aggressively

styled, thoughtfully refined, and offering

a remarkable value by any measure,

there's an Impreza for every driving

EXHILARATION.

personality. Consider the versatile

Impreza 2.5 RS. The adventurous Impreza

Outback Sport. The award-winning

227-hp turbocharged Impreza WRX.

And of course, the rally-inspired,

300-hp turbocharged Impreza WRX STi.

Each uncompromisingly engineered

to ignite the emotions with a rush of

pure, unadulterated driving exhilaration.

THE 2005 IMPREZA

Impreza WRX Sedan with Premium Package shown in Obsidian Black Pearl

IMPREZA WRX. NOW APPEARING IN A PASSING LANE NEAR YOU, THE
AWARD-WINNING IMPREZA WRX SEDAN AND SPORT WAGON. RALLY-BRED AND

PASSIONATELY PERFORMANCE-MINDED, THEY
RULE THE HIGHWAY WITH ROAD-HUGGING
SYMMETRICAL ALL-WHEEL DRIVE AND AN
AGGRESSIVE, FULLY INDEPENDENT SPORT-TUNED
SUSPENSION. WHILE UNDERNEATH THE HOOD

LURKS A 227-HP INTERCOOLED AND TURBOCHARGED SUBARU BOXER ENGINE
CAPABLE OF TAKING YOU FROM 0 TO 60 IN A HEART-THUMPING 5.4 SECONDS.¹

DECADES OF RALLY EXPERIENCE have led to much more than superlative performance and technological innovation. The benefits of this invaluable experience can also be felt in our vehicles' interiors, which are designed to be stylish and comfortable, yet uncompromisingly driver-focused. For example, within the WRX you'll find aggressively bolstered,

1

1 The WRX Sport Wagon offers a generous 61.6 cubic feet of cargo space with the rear seat folded down, and includes a standard cargo cover to keep precious goods under wraps and away from prying eyes.

2 Sport-design instrumentation with a centered tachometer is complemented by new, smartly designed audio and climate controls, located within arm's reach.

2

performance-design front seats. A sporty new three-spoke, leather-wrapped MOMO brand steering wheel. A racing-inspired instrument cluster featuring a centered tachometer. Plus a list of amenities that includes a 6-speaker premium stereo with a 6-disc in-dash CD player, all of which help to make every aspect of the driving experience as pleasurable as possible.

Heated side mirrors¹

IMPREZA WRX STi. IT'S BEEN CALLED UNCOMPROMISING, UNRELENTING AND DEFIANTLY UNAPOLOGETIC. BUT IN TRUTH, THERE ARE NO WORDS TO DESCRIBE THE AWESOME POWER

OF THE ULTRA HIGH-PERFORMANCE, ALL-WHEEL DRIVE, 300-HP IMPREZA WRX STi. RALLY-BRED AND TECHNOLOGICALLY ADVANCED, IT MUST BE EXPERIENCED TO BE UNDERSTOOD.

PURE IN ITS INTENTIONS, the interior of the Impreza WRX STi was designed for one purpose: To provide drivers with the most performance-focused environment possible. So Subaru engineers gave it a short-throw, six-speed manual shifter for quick, responsive shifts. Body-hugging STi-design front seats with grippy, perforated Blue Ecsaine upholstery that helps

1 The metallic-trimmed cockpit of the WRX STi features a thick new three-spoke, leather-wrapped, STi-design steering wheel, and a new standard premium audio system with a 6-disc in-dash CD player.

2 Unique to the WRX STi, a Driver Controlled Center Differential (DCCD) allows the driver to manually control the front/rear torque split and adjust according to specific performance requirements and driving conditions.

keep both driver and front passenger firmly planted. An ergonomic and well-organized instrument panel featuring large, competition-inspired analog gauges. And as a nod to the occasional need for life's little luxuries, a new automatic climate control system that allows you to set a temperature and then get back to more important matters—like the business of driving.

IMPREZA 2.5 RS. SHARING THE SAME RALLY-BRED DNA AS THE REST OF THE IMPREZA FAMILY, THE MUSCULAR 2.5 RS SEDAN AND NEW 2.5 RS SPORT WAGON SHATTER THE ANONYMITY OF THE HIGHWAY WITH A SLEEK, SMART STYLE ALL THEIR OWN.

1

2

1 Taking the natural sportiness of the 2.5 RS up a notch, the new 2.5 RS Sedan Sport Package offers aerodynamic body work for a far more aggressive exterior. Plus the kind of interior amenities that put the grand in grand touring.

2 Available as an accessory are stylish fog lights that give the 2.5 RS Sedan and 2.5 RS Sport Wagon a sleek, sporty look, while improving nighttime visibility.

ENGINEERED LIKE NO OTHER VEHICLE in its class, the 2.5 RS Sedan happily defies expectations with an aggressive shape, nimble handling and stirring power, thanks to a 165-hp 2.5-liter Subaru Boxer engine with Symmetrical AWD. Moreover, the new 2.5 RS Sport Wagon shares its sibling's convention-busting ways, offering rousing performance with remarkable utility.

ENTER THE STYLISH INTERIOR of the Impreza 2.5 RS, and you'll discover an oasis of comfort, refinement and driver-oriented functionality. From the convenient remote key-less entry system, to the 60/40-split fold-down rear seatback of the 2.5 RS Sport Wagon,

every feature has been designed for unparalleled driving pleasure. Or for an even more dynamic environment, consider the new 2.5 RS Sport Package. It offers performance-design front seats, a 6-speaker premium stereo with a 6-disc in-dash CD player, and more.

UNDER THE HOOD, what sets Subaru apart is the distinctively innovative, horizontally opposed Subaru Boxer engine. It is available in Impreza models as a powerful 300-hp intercooled and turbocharged 4-cylinder, a rally-bred 227-hp intercooled and turbocharged 4-cylinder, or a robust 165-hp naturally aspirated 4-cylinder. Unlike conventional engine layouts, its cylinders are aligned on a single, horizontal plane. This results in a powerplant that is compact, lightweight and well balanced. Now equipped with Electronic Throttle-Control (ETC) drive-by-wire technology for more accurate and precise response, the Subaru Boxer engine delivers outstanding power and performance.

IMPREZA WRX STi. Inside the ferocious Impreza WRX STi roars a sophisticated, racing-inspired 2.5-liter Subaru Boxer engine. Its advanced block is cast of a specially reinforced and remarkably lightweight aluminum alloy. Its molybdenum-coated pistons help to reduce friction, while Dual Overhead Camshaft cylinder heads (DOHC) with hollow camshafts further reduce mass for quicker engine response. All of which is enhanced by a high-boost turbocharger producing 14.5 psi of maximum boost, and a large intercooler with manual driver-controlled water-spray to help keep the compressed intake air cool and dense, resulting in increased horsepower.

Impreza Engines
2.5 RS and Outback Sport: 2.5-liter 4-cylinder; 165 hp, 166 lb.-ft. of torque
WRX: 2.0-liter Turbocharged 4-cylinder; 227 hp, 217 lb.-ft. of torque
WRX STi: 2.5-liter Turbocharged 4-cylinder; 300 hp, 300 lb.-ft. of torque

1 The compact size of the Subaru Boxer engine allows it to be placed lower in the chassis, reducing the vehicle's center-of-gravity for well-balanced handling.

2 Turbocharging the Subaru Boxer engine featured in the WRX and WRX STi allows the benefit of increased horsepower and torque without having to increase engine size or displacement.
3 Our Active Valve Control System (AVCS) found on the WRX STi helps to deliver increased low-end power while allowing for greater breathing at higher engine speeds.

FOR OVER 30 YEARS, the Subaru name has been synonymous with All-Wheel Drive (AWD). It is an essential part of the

Subaru experience. So it should come as no surprise that every vehicle we build comes equipped with our advanced

Symmetrical All-Wheel Drive system. Uniquely innovative, it features drivetrain components positioned along a

longitudinal axis and between the

vehicle axles for optimum balance and

control. In turn, power is delivered to

all four wheels, and distributed wher-

ever traction is required most. Every

vehicle has its own specific All-

Wheel Drive requirements, however.

1 Optional on most models is a smooth-shifting 4-speed automatic transmission.

2 A 5-speed manual transmission is standard on most Impreza models.

Impreza Models	AWD System	How It Works
2.5 RS, Outback Sport and WRX with 5-speed manual	Continuous	Utilizing a viscous-center locking differential, normally, power is split 50/50 between the front and rear wheels. If wheel slippage occurs, the center differential helps transfer power to the wheels with the best traction.
2.5 RS and Outback Sport with 4-speed automatic	Active	Featuring an electronically managed continuously variable multi-plate transfer clutch, this AWD system can anticipate slippage and transfer power to the front or rear wheels with the best traction.
WRX with 4-speed automatic	VTD	Variable Torque Distribution (VTD) uses an electronically controlled hydraulic transfer clutch in conjunction with a planetary gear-type center differential to control power distribution between the front and rear wheels. Normally, the VTD system splits power 45% front and 55% rear, for more of a performance-driving feel.
WRX STi with 6-speed manual	DCCD	Featuring both manual and automatic modes, Driver Controlled Center Differential (DCCD) All-Wheel Drive uses an electronically managed multi-plate transfer clutch in conjunction with a planetary gear-type center differential to control power distribution between the front and rear wheels. Normally, DCCD splits power 35% front and 65% rear for an even greater performance-driving feel.

So Subaru engineers have thoughtfully developed multiple systems, each with its own distinct advantages. When

integrated with our Subaru Boxer engine and our 4-wheel fully independent suspension, these advanced All-

Wheel Drive systems deliver a level of performance, agility and handling that could only come from Subaru.

IMPREZA WRX STi. In keeping with its dedication to

uncompromising performance, the WRX STi uti-

lizes an advanced Driver Controlled Center

Differential (DCCD) All-Wheel Drive sys-

tem. In automatic mode, its planetary

center differential splits the engine

torque, sending 65% to the rear wheels

and 35% to the front. In turn,

an electronically controlled multi-plate

transfer clutch continually

adjusts the torque split for

superb handling in virtu-

ally all driving conditions.

AT SUBARU, WE RACE not for the thrill of victory or the accolades of fans. We race because it is only in the heat of world rally competition that our vehicles are put to the ultimate test. It is here that the envelope is pushed, new technologies are developed, and engineering and innovation become one. The Subaru Boxer engine and the advanced Symmetrical All-Wheel Drive systems found within all Impreza models are two of the many dividends this racing experience has contributed to the real-world, on-road performance of our vehicles. Others include engine-speed-sensing rack-and-pinion steering. An incredibly rigid yet lightweight body structure, which helps to eliminate body flex for superior handling characteristics. Not to mention an advanced 4-wheel independent suspension, which works to ensure that all four wheels are firmly planted at all times. Integrated with our sophisticated drivetrain, these components work in unison to provide a rally-bred driving experience that is second to none.

IMPREZA WRX STi. Uncompromising performance demands best-of-breed engineering. So the WRX STi features a wide range of race-proven technologies, including a reinforced inverted-strut suspension for increased lateral rigidity during hard cornering. A helical limited-slip front differential that senses a left-to-right torque difference and then works quickly to help correct inside wheel spin without impeding steering response. A Brembo performance brake system featuring huge ventilated discs at all four wheels. Super Sport ABS that utilizes a lateral g-sensor to control braking pressure at each rear wheel independently for maximum braking performance. Plus aggressive 17-inch BBS lightweight aluminum-alloy wheels with ultra high-performance tires¹ for a powerful grip.

The rally-inspired inverted struts of the WRX STi increase lateral rigidity, improving performance under hard cornering.

¹ Ultra high-performance summer-rated tires are best suited for driving under dry conditions and not recommended for driving on slippery, snow-covered or icy roads.

Symmetrical AWD

SUBARU, 2002

THE SUBARU DRIVING EXPERIENCE evokes many emotions. Confidence should always be one of them. So every Subaru is engineered according to the principles of “Active Driving/Active Safety.” Proactive safety components such as full-time Symmetrical AWD and 4-wheel anti-lock disc brakes (ABS) with Electronic Brake-force Distribution (EBD) help provide the

- 1** A Ring-Shaped Reinforcement Frame body structure helps dissipate crash-impact energy away from occupants.
- 2** Standard front air bags help to provide optimal protection for the driver and front passenger.
- 3** Standard on WRX and WRX STi models, front seat-mounted head/chest air bags help protect driver and front passenger in side-impact collisions.

driver with outstanding vehicle control during evasive maneuvering. And when the unexpected becomes the unavoidable, a cocoon of passive safety features, including a Ring-Shaped Reinforcement Frame body structure for enhanced protection, front and rear crumple zones, side-impact air bags,² and more, work in unison to help keep all occupants safe and sound.

BECAUSE EVERYONE'S IDEA of a perfect driving experience is unique, a wide variety of Genuine Subaru Accessories is available to make your Impreza as distinctive as you are. Crafted with the same **quality, durability, fit and finish** as the vehicle itself, these specially designed accessories offer a means to accentuate every aspect of your Impreza with

- 1** Cross Bar Set: May be used in conjunction with all genuine Subaru roof attachments and carriers.
- 2** Round Cross Bar Set: May be used in conjunction with all genuine Subaru roof attachments and carriers. Stabilizing brackets sold separately.
- 3** Roof-mounted Bicycle Attachment: Securely transports one bicycle with a 1" to 3" downtube.
- 4** Heavy-duty Roof Cargo Basket with Fork-mounted Bicycle Carrier and Front-wheel Holder: Carries up to 100 lbs. of cargo, and includes mounting hardware, black cargo net with hooks and custom fairing. Shown with accessory Fork-mounted Bicycle Carrier and Front-wheel Holder (sold separately).
- 5** Roof Cargo Basket: Vinyl-coated steel carrier for added cargo-carrying capability. Comes with nylon stretch net (30 x 42 x 2 in.).
- 6** Rear Spoiler (Wagon): Color-matched rear spoiler adds a sporty touch. Part number varies by color.
- 7** Rear Spoiler (Sedan): Color-matched rear deck spoiler with integrated brake light.

Roof cargo carrier

Ski/snowboard attachment

Cargo tray

Car cover (sedan and wagon)

Front-end cover (full and hood)

personalized style, functionality and luxury. Moreover, all Genuine Subaru Accessories are backed by your basic vehicle 3-year/36,000-mile warranty when installed at the time of vehicle purchase. For complete warranty details, or to learn more about the full range of available Impreza accessories, see your Subaru dealer or visit www.subaru.com.

1 Hood Protector: Acrylic plastic and wrap-around design help protect the hood from stone chips.

2 Hitch-mounted Bicycle Attachment: Slides into trailer hitch to carry up to 2 bikes. Designed for easy dismounting of bikes without lifting.¹

3 Fog Lamp Kit: Helps enhance vision at night or in inclement weather.

4 Splash Guards: Durable vinyl helps protect paint finish. Set of four (painted for Outback Sport).

5 17" 5-spoke Pressure-cast Aluminum Wheel (WRX models).

6 17" BBS Multi-spoke Forged Aluminum Wheel: Helps give the WRX a racier look, improved handling and performance.

7 Turbo-boost Gauge: Illuminated turbo-boost gauge mounts conveniently to side of steering column.

8 Titanium Shift Knob: Matched titanium 5-speed shift knob with STI logo.

9 Carbon-fiber Shift Knob and Parking-brake Handle (shift knob for 5-speed only).

Engine-block heater

Battery warmer

Rear differential protector

Performance muffler

Wheel locks

¹To avoid blocking rear taillights, use only roof-mounted bicycle attachment to transport solid wheel bicycles.

1 Performance Gauge Pack: Displays turbo-boost pressure, voltage and oil temperature. Engine manifold vacuum gauge replaces turbo-boost gauge on 2.5 RS and Outback Sport. Replaces standard clock.

2 Cargo Net (Wagon): For 2.5 RS, Outback Sport and WRX Sport Wagons' cargo area.

3 Cargo Bin: Cargo bin and matching cargo tray provide for convenient transportation of various articles. When not in use, bin and net dividers fold down to a nearly flat surface. Pattern design of bin and tray coordinates with All-weather Mats.

4 Auto-dimming Rearview Mirror with Compass: Includes electronic compass. Mirror darkens when headlights are detected from the rear of vehicle.

5 Center Armrest Extension: Out-of-sight storage for your phone plus added comfort on long trips.

6 All-weather Mats: Heavy-gauge protective mats patterned to match cargo bin and tray.

7 Security System Upgrade Kit: Upgrade the remote keyless entry with the addition of a security system.

8 Subwoofer/Amplifier: Mounted under passenger's seat. Adds 120 watts of power, and delivers deep, rich bass sound you not only hear but feel.

9 Upgraded Speakers: Speaker kit includes four upgraded speakers for crisper sound with minimal distortion.

10 Tweeter Kit: Special speakers enhance high-frequency audio.

11 6-Disc In-dash CD Changer: Allows selection and play for up to 6 CDs.

12 Short-throw Shifter: Significantly reduces shift-throw lengths for crisper shifts and sportier driving.

13 Trailer Hitch: Heavy-duty rated at 200 lbs. tongue weight, 2,000 lbs. towing capacity¹ (2.5 RS, Outback Sport and WRX Sport Wagons).

2005 SUBARU WARRANTIES, CUSTOMER SERVICE AND SUPPORT

Basic Warranty: 3 years or 36,000 miles, whichever comes first.

Powertrain Warranty: 5 years or 60,000 miles, whichever comes first.

Rust Perforation Warranty: 5 years, unlimited mileage.

Subaru Added Security® could be the most important option you choose. Protect your investment with a Subaru Added Security extended service contract—the only one backed by Subaru of America, Inc. Ask your salesperson for coverage details and assistance in selecting the plan that's best for you, up to 7 years or 100,000 miles.

The Subaru Roadside Assistance Program covers all 2005 Subaru vehicles during the first three years or 36,000 miles, whichever comes first. By calling the toll-free number in the Owner's Information Kit, Subaru owners can take advantage of any of the following benefits:

- **24-hour Roadside Assistance**, seven days a week, 365 days a year, throughout the United States.
- **Emergency Towing Service** to the nearest authorized Subaru dealer.
- **Emergency Roadside Assistance**, for jump starts, gasoline (up to two gallons), flat tire change, emergency lockout service (lost key or key is locked in the vehicle) and emergency fluid replacement.

See your Subaru dealer for details.

For complete warranty information, including coverage and exclusions, see your Subaru dealer.

SUBARU.COM YOU CAN BEGIN YOUR SUBARU EXPERIENCE RIGHT NOW, IN YOUR VERY OWN LIVING ROOM. SYMMETRICAL ALL-WHEEL DRIVE

Continuous All-Wheel Drive	Models equipped with 5-speed manual transmission utilize a viscous-type locking center differential with torque distribution configured at a 50/50-split front-to-rear. WRX models also feature a viscous-type limited-slip rear differential.
Active All-Wheel Drive	Models equipped with 4-speed automatic transmission utilize an electronically controlled variable transfer clutch to distribute power to where traction is needed. Sensors monitor parameters such as wheel slippage, throttle position and braking to help determine torque distribution to the wheels with optimum traction.
Variable Torque Distribution (VTD) All-Wheel Drive	WRX models equipped with 4-speed automatic transmission utilize an electronically controlled variable transfer clutch in conjunction with a planetary-type center differential. Rear wheel-biased torque distribution normally configured at 45/55-split front-to-rear. VTD also features a viscous-type limited-slip rear differential.
Driver Controlled Center Differential (DCCD) All-Wheel Drive	Exclusive to the WRX STi, Driver Controlled Center Differential (DCCD) All-Wheel Drive, featuring both manual and automatic modes, uses an electronically managed multi-plate transfer clutch in conjunction with a planetary gear-type center differential to control power distribution between the front and rear wheels. Normally, DCCD splits power 35% front and 65% rear. DCCD also features a helical-type limited-slip front differential and mechanical limited-slip rear differential.

⁴Limited availability. See your dealer.

⁵Delayed availability. See your dealer.

⁶Available as an accessory. See your dealer.

⁷Included with optional Sport Package.

⁸Included with optional Premium Package.

⁹The Supplemental Restraint System (SRS) (air bags) affords the driver and front passenger additional protection in a moderate to severe frontal or (when equipped with front-seat side-impact air bags) a side-impact collision. This system provides supplemental protection only, and seatbelts must be worn in order to avoid injuries to out-of-position occupants upon bag deployment and to provide the best combined protection in a serious accident. Children should always be properly restrained in the rear seat.
