

2012 Legacy

Love. It's what makes a Subaru, a Subaru.

 **SUBARU**
Confidence in Motion

Working the corner office
or simply chasing the corners.

The 2012 **Subaru Legacy**

There's a sense of satisfaction in doing things differently than the rest. Like building a sedan that offers surefooted handling and refined smoothness. Invigorating performance with reassuring safety. And thoughtful innovation with long-lasting reliability. The balance of these virtues working together harmoniously in the Legacy is what delivers the confidence to relish every curve when you chase the things that matter most to you.

Legacy 2.5i Limited in Graphite Gray Metallic.

Efficient

Legacy lets you experience performance and save money at the same time with up to 31 mpg when you opt for the available Lineartronic® CVT.¹

¹ Available on 2.5i models only. EPA highway estimate. Actual mileage may vary.
² Ratings based on Insurance Institute for Highway Safety's (IIHS's) 40-mile-per-hour frontal crash test, 31-mile-per-hour side-impact test, 20-mile-per-hour rear-impact test, and roof-strength test. For more information, contact IIHS or visit their website at www.iihs.org.

Sporty

A choice of refined and thrilling engines. Precise rack-and-pinion steering. Independent front and double-wishbone rear suspension. They combine with the grip of Subaru Symmetrical All-Wheel Drive to deliver a performance that's smooth, powerful, and responsive.

Comfortable

A spacious cabin with all of the technology to make every trip enjoyable, the Legacy is built to ease the burden of every commuter's minute and increase the driver's enjoyment of every open mile.

Protective

From an engine design that can actually help protect you in an accident to its comprehensive accident avoidance and protection engineering, there are many safety features that make Legacy an IIHS Top Safety Pick, six years running (2006–2011).²

A silver Subaru Legacy 3.6R Limited is shown driving on a winding road through a forest. The car is in the lower-left foreground, angled towards the viewer. The background is a dense forest with sunlight filtering through the trees, creating a dappled light effect. The road has yellow double lines and curves into the distance. The overall mood is dynamic and scenic.

Good ideas **fuel** great drives.

"...that rare blend of plush comfort for all passengers combined with all-weather performance prowess backed up by excellent crash-test scores and predicted reliability ratings."

Throw a twist **in life's turns.**

in real time.

Making enjoying every drive easier is the goal of what's inside a Legacy. Bluetooth® wireless capability allows you to make calls hands-free and stream music from your Bluetooth-enabled phone or MP3 player. Navigation can be controlled by voice or touchscreen. And because being comfortable is just as important as being connected, your passengers will appreciate the spacious headroom and legroom located throughout.

Accommodating.

Smart ideas for the drive and the driven.

AWD Control

The traction and balance of Subaru Symmetrical All-Wheel Drive and the stability of the SUBARU BOXER® engine provide you with the responsiveness to seize the road and readiness to react to hazards. Legacy also comes standard with VDC electronic stability control, which can detect a loss of control and intervene to help keep you on your intended path.

Power

With a choice of a 2.5-liter 170-hp engine with available Lineartronic® CVT, a 265-hp turbocharged 2.5-liter engine with 6-speed manual transmission, or a 256-hp 3.6-liter engine with 5-speed automatic transmission, you are sure to find a Legacy that matches your performance needs, from efficient to fierce.

CVT

Lineartronic® CVT can reduce the amount you spend on fuel by eliminating the need to shift, thereby preserving momentum with smooth, continuous power. In automatic mode, it infinitely adjusts the transmission to match your immediate driving needs. Or use the paddle shifters and 6-speed manual mode for quick access to power and torque on the fly.

Suspension

Its 4-wheel independent design maximizes the feel you have for the road. The double-wishbone rear suspension deflects the worst of the bumps without unsettling the chassis. With MacPherson struts up front, it's a tight, yet supple ride that always leaves you feeling in touch and in control.

Occupant Protection

Our Ring-shaped Reinforcement Frame is exceptionally strong for maximum resistance to impact energy, while its unique configuration helps divert that energy away from occupants. Also front, front-side and side-curtain airbags are standard on every Legacy.¹

Technology

Available features like dual-zone climate control help keep you comfortable, while a USB for your iPod®, HD Radio™, XM® Satellite Radio² and Bluetooth® hands-free connectivity keep you connected and entertained.

¹ Always wear seatbelts. Children should be properly restrained in the rear seat.
² 3-month trial subscription included when a dealer- or port-installed accessory or a 4-month trial subscription included as part of the Harman Kardon premium audio system. Activation and required monthly subscription sold separately. See your dealer.

TRACTION AND STABILITY				
	Symmetrical All-Wheel Drive	Standard	Standard	Standard
	Vehicle Dynamics Control (VDC)	VDC electronic stability control utilizes sensors which constantly monitor wheel speeds, steering angle, brake pressure, vehicle yaw rate and lateral g-forces. If VDC detects a difference between the driver's intended path and the one the vehicle is actually taking, VDC applies braking power and/or reduces engine torque to help correct vehicle path.		
	Traction Control System (TCS)	VDC also incorporates an all-wheel, all-speed traction control system which senses a loss of traction and applies braking force to the slipping wheel or wheels as necessary to maintain vehicle motion.

Ready to join the family.

At Subaru, we're committed to building a lasting, rewarding relationship with you and the world we share. We start by building our vehicles to last—it's why 96% of all the vehicles we've built in the last 10 years are still on the road today.¹ We also share your desire for a cleaner, greener world. The Forester, Impreza, Legacy and Outback have all been recognized with Partial Zero Emission Vehicle—PZEV²—status because of their exceptionally low emissions. What's more, in 2004 Subaru of Indiana Automotive, Inc. (SIA) became the first manufacturing facility in the U.S. to reach zero landfill status—nothing from its manufacturing efforts ever goes into a landfill.

Find out more about our efforts to keep it cleaner and greener.
