

Introducing the all-new Subaru Forester. The SUV for all you love.

Completely redesigned. Unmistakably a Subaru.

Meet the all-new 2019 Forester.

Whether it's a day drive or a long weekend, the Forester welcomes whatever you bring along. It's all new—designed to enhance space and comfort for everyone aboard. And because it's a Subaru, you can have confidence knowing that the Subaru Forester retains its value better than any other vehicle in its class for 2018, according to ALG.¹

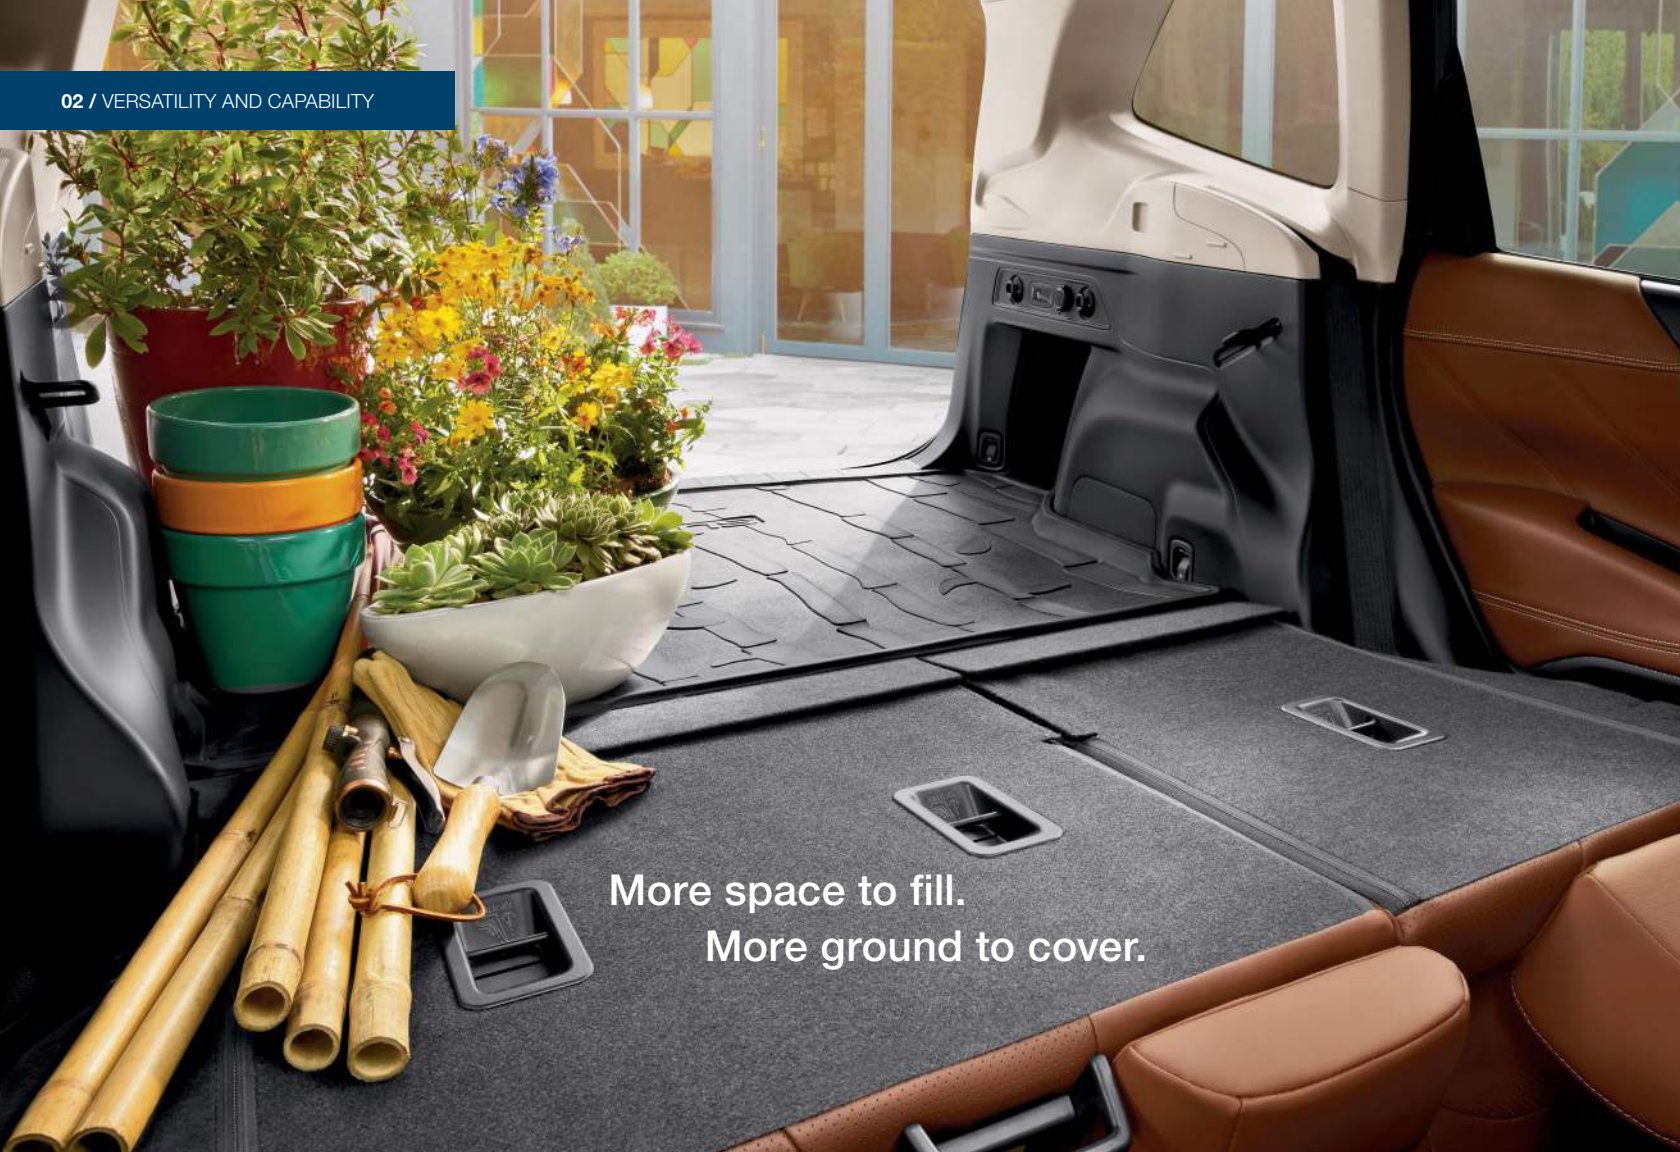

For more peace of mind, every Forester now includes standard EyeSight® Driver Assist Technology.² Because the most important thing about a Subaru is who's inside one.

So, with the all-new Forester, you have a rewarding journey to look forward to—97% of Subaru Forester vehicles sold in the last 10 years are still on the road today.³

See more of **the all-new Forester.**

More space to fill.
More ground to cover.

Even your cargo gets personal space

Your gear deserves better. And that's what the Forester intends to deliver, with up to 76.1 cubic feet of cargo space,⁴ raised roof rails⁵ and an extra-wide rear gate opening. For simplified loading access, the power rear gate⁵ opens, closes and now locks with just the touch of a button. And to bring your longer items, simply adjust the 60/40-split flat-folding rear seats, and watch the Forester adapt.

Set your sights on anywhere

Have a place in mind? With the Forester, you have standard Subaru Symmetrical All-Wheel Drive and an updated SUBARU BOXER[®] engine, now with direct injection to give it more power, while achieving an impressive 33 MPG.⁶ To help you further maximize your efficiency, there's auto start-stop technology as well. When the road changes, you can adjust to it with standard SI-DRIVE. And if the road gets tough, you have an impressive 8.7 inches of ground clearance. Plus, the Forester offers the newly updated dual-function X-MODE[®], which now includes settings specifically engineered for snow, dirt, deep snow and mud.⁵

Connect with your
surroundings.

Hospitality in every cubic foot

As soon as you step into its 111.9 cubic-foot interior,⁴ the Forester greets you with soft-touch materials and contrast stitching throughout. Up front, a heated steering wheel⁵ can make cold mornings easier, while standard automatic climate control keeps the cabin feeling just right. For your passengers in back, there are conveniences like available heated seats,⁵ air vents⁵ and USB ports.⁵ And no matter where you're sitting, the large panoramic moonroof will bring the sky into your journey.⁵

Your world within a world

Once aboard the Forester, you can instantly connect to all your music and apps through the updated SUBARU STARLINK™ Multimedia system, now with standard Apple CarPlay™ and Android™ Auto integration. An available 8.0-inch touchscreen⁵ makes for easy access, while Wi-Fi capability^{5,7} enhances connectivity for everyone. And with the 576-watt-equivalent Harman Kardon® premium audio system, your playlists can beam through with sonic clarity.⁵

An extra set of eyes. Now standard.

Every Forester now includes standard Subaru EyeSight® Driver Assist Technology.² Equipped with a comprehensive suite of innovative safety features, EyeSight® looks ahead, alerts you to potential dangers and can even intervene to help you avoid a collision.

Pre-Collision Braking

- Can help slow and bring your Forester to a full stop if necessary.

Adaptive Cruise Control

- Adjusts speed automatically to help maintain a safe following distance.

Lane Departure and Sway Warning with Lane Keep Assist

- Can alert you if you begin to drift, and can help steer you back into your lane if needed.

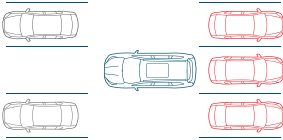

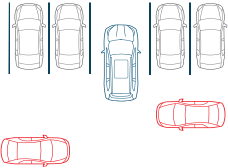

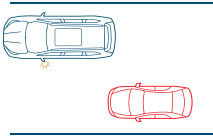

Pre-Collision Throttle Management

- Can reduce your engine power to help give you more time to react.

360 degrees of protection

All-around safety starts with a solid core. The Forester now rides atop the revised, stiffer Subaru Global Platform with a resilient Ring-shaped Reinforcement Frame. And with seven standard airbags to help keep you protected during a collision,¹⁰ you and your passengers can feel secure.

Blind-Spot Detection^{5,11}

- Senses a vehicle in your blind spot.
- Warns you with a visual indicator on your side mirrors.

Rear Cross-Traffic Alert^{5,11}

- Senses traffic approaching as you're backing up.
- Alerts you via an audible warning and a flashing visual indicator on your side mirrors and Rear-Vision Camera display.

Added visibility

The Forester now features standard LED headlights to help with visibility in different driving conditions. You can also add Steering Responsive Headlights (SRH),⁵ which can help you see better around corners, and High Beam Assist (HBA),⁵ which can automatically dim and activate your high beams as needed.

The all-new DriverFocus system⁸

The Forester features an all-new state-of-the-art system that helps reduce distracted driving for both new and experienced drivers⁵. Working with EyeSight^{®2}, the DriverFocus system is like having an attentive co-pilot along for the ride, ready to give a helpful alert if a driver becomes distracted or drowsy. For added convenience, DriverFocus can also recognize up to five different drivers and remember their preferences, including seat position, climate controls and outside mirrors.

Help when you need it most

SUBARU STARLINK™ Safety and Security^{5,9}

- All-new Remote Engine Start with climate control, available via your smartphone, ensures your Forester is ready and comfortable.
- Automatic Collision Notification can immediately send first responders when an airbag deploys.
- Stolen Vehicle Recovery can help police locate your vehicle if it's stolen.
- The new Concierge services can even assist with tasks like navigation and scheduling service appointments.

The road has seen it all. Surprise it.

The all-new Forester Sport

It's a direct challenge to sameness. The Forester Sport has a strikingly bold presence, characterized by unique interior and exterior styling with gloss black and orange accents, standard LED interior lighting and 18-inch gloss black alloy wheels. But its ability also sets it apart. Roof tie-down points help keep your cargo tight and secure, while its dual-function X-MODE® and sport-tuned SI-DRIVE ensure it can handle just about anywhere you take it.

For all you love.
