XL-7

Well-appointed, without the extra bulk. Or bucks.

When we say the XL-7 is ready for your next family adventure, we're not just talking about the "statistically average" family with 2.5 kids, a dog and a hamster. How about a family of seven? If you don't have a big family, how about you and six of your closest friends? No problem. With available third-row seating, you've got enough room for everyone to relax in style. For those times when you want a little extra traction, the available 4WD system features a two-speed transfer case that will make the most of the available surface. To keep your life moving along, the 2.7-liter V6 engine produces 183 hp, so there's ample power for merging and passing. The Limited model features a power tilt-and-slide sunroof. For convenience, the standard keyless remote entry system can lock and unlock the doors from a distance. For added peace of mind, XL-7 features a steel-reinforced passenger compartment and a tough ladder-type frame with integrated energy-absorbing zones. The sturdy structural design helped earn the XL-7 the highest overall safety rating of "Good" from the Insurance Institute for Highway Safety in their 40-mph frontal offset crash test. All of this is way above average for a vehicle in this class.

It takes a lot of thought to pack so much into a vehicle and not have it explode at the seams. In a feat of packaging brilliance, the XL-7 manages to give owners everything they want without paying a huge size penalty. To keep the driver up-to-date on vital engine functions, the instrument panel is large and legible for a quick read. It also features an electroluminescent display, something found on the most expensive vehicles on the market. A powerful automatic climate control system is standard on all XL-7 models. Once you set the temperature, the system will hold it, even under changing weather conditions. Also standard is a micron air-filtration system to help keep the inside air free of dust and pollen. A rear air conditioning system is standard on all seven-passenger models to keep everyone comfortable. All models feature an in-dash CD player with seven speakers, including an adjustable subwoofer. The Limited model adds a six-disc in-dash CD changer to the system – far more convenient to use than trunk-mounted units – for hours of uninterrupted listening. And, for the ultimate in comfort with a touch of elegance, the Limited model also features standard leather seating surfaces. Clearly, this is an interior that would be right at home in a luxury SUV. The good news, of course, is that the XL-7 doesn't exact a luxury-SUV price.

Drive responsibly: Buckle up for safety-Don't drink and drive. NOTE: Sport Utility Vehicles handle differently from ordinary passenger cars. CAUTION: Avoid sharp turns and abrupt maneuvers. Always wear your seatbelt. For specific details, please read your owner's manual for on- and off-road driving tips. To avoid injury from an airbag, always place children twelve years old and under in the rear seat; always move both driver and passenger seats as far back from airbag as practical; never transport a child in a rear-facing child seat in the front seat; and, always use the seatbelts and buckle up properly. Specifications and equipment based on information available at time of printing and subject to change without notice, and may differ in each sales area. Some vehicles shown with optional equipment. For more details on 2003 options, accessories and specifications, contact your local Suzuki dealer. Tread Lightly! On Public and Private Land. Along with concerned conservationists everywhere, Suzuki urges you to preserve your future off-road driving opportunities by showing respect for the environment, local laws and the rights of others.
