

The GTI

Let's just say you'll get there sometime yesterday.

GTI

DESIGN

It's designed to let you get away
with being inconspicuously fast.

17" Alloy Wheels¹ More rim and less tire provide better cornering and more accurate turns. This 15-spoke design also evokes strength and momentum even when the GTI is at a red light. So you're moving when you're standing still. Kind of.

Headlamps. Take a look at the overall design. Lower on the inside and higher on the outside, their shape conveys a certain aura of confidence and assertiveness. Funny – that's exactly what the GTI is.

EXTERIOR

Whip Antenna. Don't think of it as an antenna – think of it as a highly functional work of art. Its unique spiral design means less wind resistance and none of those annoying whistley sounds that straight wire antennas tend to make.

Pick a color, any color.

Indigo Blue

Silverstone Gray

Tornado Red

Reflex Silver

Black

VR6 shown. Some features may not be available on some trim levels. ¹Alloy wheels shown are optional on the 1.8T, standard on the VR6.

Drivers wanted.®

GTI

DESIGN

The simpler it is in here,
the easier it is out there.

Six-Speed Manual Transmission.¹

The magic number six has its obvious benefits. But the way this transmission delivers quick and accurate gear-shifting is an added bonus. It's designed to accommodate better grip, too. You know, in case you get sweaty palms.

Leather-Trimmed Sport Seats.²

With special bolsters for support, these hand-stitched leather seats will keep you comfortably tucked in as you're blazing down the highway. And while we're on the subject of blazing, they also really help you look the part.

INTERIOR

Anti-Theft Alarm System. There'll be no free rides on this puppy. Activated by your remote key, the alarm system is represented by a flashing red light on the door. It might look small, tame, and meek, but you don't want to be around if it's rudely awakened.

Some fabrics to choose from.

BlackSport Cloth³

Gray Leather⁴

Black Leather⁴

VR6 interior shown. Some features may not be available on some trim levels.

¹Only available on the VR6. ²Package option on both the 1.8T and VR6.

³Sport cloth is standard on the 1.8T and VR6. ⁴Leather is a package option on the 1.8T and VR6.

GTI

PERFORMANCE

For us, it's unlikely the thrill of making great engines will ever wear off.

180 hp

1.8T

Light in weight, compact in design, this engine has five valves per cylinder. That means you get better breathing for enhanced performance. Coupled with a Turbo, you get high torque starting at low rpm so you're quicker off the line. And high horsepower at high rpm provides exceptional passing power. Your fuel economy¹ is improved, and there are lowered emissions as well.

200 hp

VR6

The engine's special 15-degree "V" shape makes for minimal vibration and there're six cylinders for added smoothness. (That's 24 valves in total.) It's designed to fit in compact cars, and since it's particularly light in weight, you get improved performance. Plenty of torque across the rpm band sets you up for quick acceleration and passing power.

GTI

ALL-AROUND
SAFETY

Safety.

Our most important standard feature.

Front Crush Zone. Helps to divert impact energy away from occupants in case there's a collision.

Anti-Theft Alarm System. Scares away uninvited guests. (Otherwise known as burglars.)

Immobilizer. Prevents the GTI from being started up if an unauthorized key is used.

Sport Suspension. Provides a firmer ride with improved cornering and handling.

17" Alloy Wheels.¹ Quite simply, the larger the wheel's diameter, the more accurate the turn.

4-Wheel ABS. An onboard control unit designed to detect wheel lock-up, for enhanced control in poor driving conditions.

Rear Crush Zone. Helps to divert impact energy away from occupants in case there's a collision.

LATCH System. Lower Anchors and Tethers for CHildren. A standardized child seat attachment system for vehicles.

Anti-Theft Wheel Locks. We didn't make the wheels pretty so that just anyone could walk away with them.

Track-Correcting Torsion Beam Rear Axle. Angled mounts increase vehicle control as turns are completed.

Three Rear Head Restraints. Helping to reduce the risk of head and neck injury in the event of a collision.

Full-Size Spare Tire. You never know when it might come in handy.

Dual Front and Front Side Impact Airbags, Supplemental Restraint System.² Deploying within a tenth of a second if needed.

Steering Column and Wheel. Telescoping, height-adjustable, and collapsible on impact. (Not bad for a steering wheel.)

Side Curtain Protection™ Airbags.² These extend down the roofline, helping to minimize head and upper torso injury.

Rising Ramp Seat Design. Working with a padded knee bar, the effectiveness of the restraint system is maximized.

Power Windows with Pinch Protection. A feature that automatically reverses closing, should an object get in the way.

Safety Cell Construction. A rigid cell of reinforced steel is built into every GTI.

WARRANTY

Basic Warranty: Every GTI comes with a bumper-to-bumper New Vehicle Limited Warranty³ for 4 years or 50,000 miles, whichever comes first.

Powertrain Warranty: The Volkswagen Powertrain Limited Warranty provides 5 years or 60,000 miles of protection, whichever comes first.

Anti-Corrosion Warranty: A fully galvanized steel body means we can offer you a 12-year unlimited mileage Limited Warranty Against Corrosion Perforation.

Roadside Assistance: The GTI has a 24-hour-a-day Roadside Assistance package⁴ for 4 years, unlimited mileage. Wherever you go, there we are.

¹ 17-inch alloy wheels are optional on the 1.8T, standard on the VR6.

² Airbags are supplemental restraints only and will not deploy under all accident scenarios. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age.

³ Wear and tear items and adjustments are excluded after the first 12 months or 12,000 miles, whichever comes first.

⁴ Roadside Assistance, for 4 years, provided by Roadside America. See dealer for details.
