

2015 Golf SportWagen

Das Auto.

Golf SportWagen

There's nothing stationary about it. Whether you're traveling across the country or across town, the all-new Golf SportWagen is sure to pack plenty of turbocharged excitement. And gear, of course. Since the Golf SportWagen is part of the Golf family, it's inherently sporty, versatile, and an award winner. Which is quite literally a big deal. **Isn't it time for German engineering?**

SEL shown in Silk Blue Metallic with Driver Assistance and Lighting Packages

An extended personality.

Design. When you first see the Golf SportWagen, you may do a double take. Is that a Golf or a wagon? Catch a profile view and you'll see you're right either way. We took the refined, sporty-looking hatch and gave it a bigger caboose. Even the available panoramic sunroof is elongated, giving you a 12.7-sq.-ft. view of the Milky Way. You'll be surprised how much you can fit in the sleek wagon and how you'll still be able to fit into a tight parking spot.

The Volkswagen Golf family.
2015 *Motor Trend* Car of the Year.®

- Available power tilting/sliding panoramic sunroof
- Available LED Daytime Running Lights (DRL)
- Available integrated front foglights
- Available 18" alloy wheels

The fun part starts as soon as you start the engine.

Performance. With two different turbocharged engines to choose from, the Golf SportWagen makes venturing out of the city or zipping through town* part of the action. Meaning you still get thrilling power and tight handling in a wagon. We wouldn't make the Golf SportWagen look sporty if it didn't have sporty handling too. So hit the highway and see how far German-engineered precision and efficiency** really can go.

*Always obey speed and traffic laws. **25 city/36 highway mpg (2015 Golf SportWagen 1.8T, 6-speed manual transmission). EPA estimates. Your mileage will vary and depends on several factors, including your driving habits and vehicle condition. †567-mile range based on 43 highway mpg EPA estimates for a 2015 Golf SportWagen 2.0L TDI Clean Diesel with a 6-speed manual transmission and a 13.2-gallon fuel tank. Range for a 2015 Golf SportWagen 2.0L TDI Clean Diesel, with a 6-speed automatic transmission and a 13.2-gallon fuel tank, is 554 miles based on 42 highway mpg EPA estimates. Your mileage will vary and depends on several factors, including your driving habits and vehicle condition. ††Automatic transmission only; 184 lb-ft of torque when equipped with manual transmission.

TDI SEL with Driver Assistance Package shown in Reflex Silver Metallic with Base Carrier Bars and Bike Holder Attachment

2.0L TDI® Clean Diesel

With an engine that gets up to 567 highway miles on a single tank† it's no wonder why the fun never seems to end. The TDI Clean Diesel engine gives you long range without sacrifice.

150
HORSEPOWER

236
LB-FT OF TORQUE

1.8L TSI® engine

Get a head start on any quest with 199 lb-ft of turbocharged torque†† with the available automatic transmission. Since it gets 36 hwy mpg,** you'll be itching to get on the highway.

HORSEPOWER

199
LB-FT OF TORQUE††

More cargo space. This SportWagen sports a lot of room for a lot of things — 66.5 cubic feet of cargo space with the rear seats folded down, to be precise. That’s more room than the Mazda CX-5 and Chevrolet Equinox.*

Folding rear seat with release levers in cargo area. Moving a lot of stuff in a hurry? You can easily drop the 60/40-split folding rear seats before loading in. Simply pull the levers conveniently located in the cargo area, and the rear seats will fold down practically flat so you can load and go.

Available Climatronic® dual-zone climate control. Agree to disagree. This feature allows the driver and front-seat passenger to set a different temperature for each side of the cabin. This accommodating feature tends to take the “too” out of too hot or too cold.

*Based on manufacturers' published data for model year 2015. "Mazda CX-5" is a registered trademark of Mazda North American Operations. "Equinox" is a trademark and "Chevrolet" is a registered trademark of General Motors, LLC.

Meet the great indoors.

Interior. The Golf SportWagen is designed to help cater to your passions and style, comfortably. Whether you’re filling it up with four passengers and some cargo, or just a lot of gear, the 60/40-split folding rear seats help you fill the wagon in various ways. Or if you’re just having a night on the town, you’ll still feel quite sophisticated surrounded by some of the finer things in life, like leatherette seating surfaces and a leather-wrapped multi-function steering wheel. This wagon’s versatile nature suits your versatile lifestyle, inside and out.

- Driver-focused interior design
- 60/40-split folding rear seats
- V-Tex leatherette seating surfaces
- Leather-wrapped, multi-function sport steering wheel
- Available interior ambient lighting
- Available 12-way power driver’s seat including power-adjustable lumbar support

The synced sense.

Technology. Being one with the road starts with being one with your car. That's why the Golf SportWagen comes with some of the latest technology, like a touchscreen system with voice control or Bluetooth® technology with audio streaming for compatible devices. You might also get a better sense of direction with available features like a navigation system, rearview camera, and Park Distance Control system. Just hit the available push-button start and enjoy the sounds of the available Fender® Premium Audio System and you'll find it hard to be out of touch, even when you're out of town.

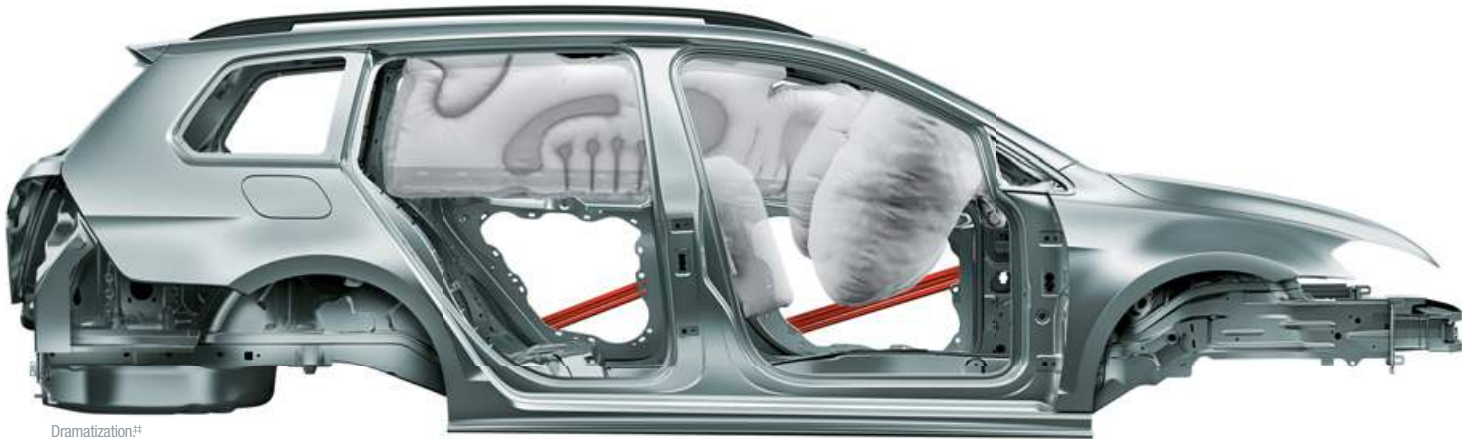

More proceeding.

With caution.

Safety and available Driver Assistance. One of the rules of any activity is safety. So when we were thinking of all the excursions you'll have in the Golf SportWagen, we went ahead and fit some of the most advanced safety systems into this roomy 2015 IIHS Top Safety Pick[‡] wagon. Plus when you opt for the available Driver Assistance Package, we've provided you with a little extra help with visual and audible alerts.

2015 IIHS TOP SAFETY PICK

Dramatization^{†‡}

PASSIVE

ACTIVE

Adaptive airbags*

Intelligent Crash Response System (ICRS)**

Automatic Post-Collision Braking System

7 active stability-enhancing systems

Tire Pressure Monitor System (TPMS)

Safety Features

Adaptive airbags. You're virtually surrounded in the Golf SportWagen with six airbags, including Side Curtain Protection[®] airbags that help protect you and your passengers.*

Seven stability-enhancing systems. Electronic Stability Control can help the Golf SportWagen maintain control by applying corrective forces at each wheel in poor conditions. It feels nice to be in control.

Intelligent Crash Response System (ICRS). In the event of a collision that deploys the vehicle's airbags, the ICRS automatically unlocks the doors, turns off the fuel pump, and turns on the hazard lights.**

Safety cage. Sleek on the outside, tough on the inside. Underneath the exterior of the Golf SportWagen is a tough safety cage designed to help protect each and every person inside in nearly any situation.[†]

Available Driver Assistance Features

Forward Collision Warning^{††} Active assistance is best demonstrated by this system that uses a radar-based sensor to help detect the distance of vehicles in front of you. If an impending collision is detected, the system sends out a warning to help alert the driver.

Park Distance Control. Whether you're parking or heading out, the Park Distance Control system helps alert you when you may get a little too close to cars in front of or behind you. As you inch closer toward an object, you'll get audible and visual warnings.

*Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age. **The Intelligent Crash Response System (ICRS) will only activate in a collision where the airbags deploy or safety belt pretensioners activate. Not all collisions cause airbags to deploy or safety belt pretensioners to activate. †Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age. ††Do not rely exclusively on the Forward Collision Warning system. The system does not provide a braking function. Always drive safely and attentively, and do not wait for the system's alerts before braking. The system's function may be limited and depends on many factors. See Owner's Manual for details. ‡Top Safety Pick[™] based on good ratings in the moderate overlap front, side, roof strength, head restraint, and no less than acceptable in the small overlap front tests. ‡‡This is a dramatization and does not depict what will happen in an accident. All bags will not inflate simultaneously in real-world collisions, and if multiple bags do deploy, they will be in various stages of inflating/deflating and will never all be inflated at the same time. Airbags are supplemental restraints and will not deploy under all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age.
