

VOLVO P 1800

The Volvo P 1800  is a car that attracts attention through the sheer beauty of its handsome lines and its effortless sparkling performance both in dense city traffic and on the open highway.  The power unit in this graceful and luxurious car is a thoroughbred one hundred horse power unit driving through a fully synchronized gearbox while the suspension is well in keeping with the technical perfection of the power system.  The Volvo P 1800 is the natural choice of those who make outstanding demands on luxurious comfort, relaxed safety and complete reliability.  The faultless road-holding qualities of this car together with safety details such as disc brakes on the front wheels, safety belts and padded dashboard make long-distance driving sheer enjoyment.  To drive the Volvo P 1800 with its carefully planned interior appointments, clearly visible instrumentation and conveniently located controls is an exhilarating experience.  This car is also designed for varying climatic conditions since the body is very effectively rust proofed and standard equipment includes a powerful heater-defroster and two separate air intakes as well as electric windscreen wipers and washers.  The Volvo P 1800 makes your everyday driving a pleasure and your leisure motoring is the unique experience of handling a car with superb performance and with effortless power at your command. 

a short Presentation of the P 1800

- 100 h.p. sports engine with twin carburetters a)
- Disc brakes b)
- Braced-tread, 165-15 sports tyres c)
- 12-volt battery d)
- Fully synchronized four-speed gearbox e)
- Padded dashboard f)
- Dazzle-free rear view mirror g)
- Loud-tone horn h)
- Headlight flasher i)
- Overdrive (optional extra) k)
- Separate bucket seats l)
- Two occasional seats m)
- Parcel shelves n)
- Drum brakes o)

- Spare wheel p)
- Fuel tank (10 Imp. galls = 12 US galls.) q)
- Safety belts r)

The Volvo P 18 00 is a truly distinguished car, expressly designed and built to satisfy the most stringent demands made by those discerning people who are satisfied by nothing but the best quality, styling and performance.

Control for fresh air intake s)

Switch for map-reading lamp t)

The comfortable front seats can easily be adjusted for your own individual requirements while the broad armrests on the doors also contribute to relaxed driving. There are two occasional rear seats and also two parcel shelves.

To travel in a Volvo P 1800 is to experience motoring at its very best. The soft, but, at the same time, firm suspension, outstanding road-holding and the perfectly designed interior fittings which are in perfect harmony with the lithe elegance of the bodywork all contribute to a relaxed feeling of robust luxury based on quality down to the smallest detail.

Wheelbase	96 1/2" (2450 mm)
Track, front	51 3/4" (1315 mm)
Track, rear	51 3/4" (1315 mm)
Overall length	173 1/4" (4400 mm)
Overall width	67" (1700 mm)
Overall, height, unladen	50 1/2" (1285 mm)
Ground clearance, approx.	6" (155 mm)
Kerb weight, approx.	2490 lb. (1130 kg)

Other standard equipment

Twin horns and loud-tone horn.
Self-parking, two-speed, electric windscreen wipers.
Electric windscreen washers.
Thermostat-controlled fresh air heater.
Separate defroster control.
Two separate fresh air intakes for summer ventilation.
Safety belts.
Padded sun vizors and dashboard,
Ashtray.
Cigarette lighter
Spare wheel,
Tool kit.

The factory reserves the right to modify prices, design and equipment.

Full-flow oil filter and oil cooler

A full-flow oil filter cleans the lubricating oil effectively and makes possible considerably longer periods between oil changes. The P 1800 has also an oil cooler as standard. An extra loop from the cooling system passes through the oil cooler and keeps the oil within the temperature range for which the lubricating properties are best.

Overdrive

An electrically-operated overdrive is available as optional extra and is controlled by means of a switch on the instrument panel.

When the overdrive is cut in, engine speed is reduced and this decreases stress on the engine, gives good fuel economy and lower engine noise level.

Disc brakes

The Volvo P 1800 has liberally dimensioned disc brakes on the front wheels.

The disc brakes always have the same smooth and positive braking effect no matter whether the speed of the car is high or low. Brake fade is eliminated in the case of repeated and intermittent braking due to the outstanding heat-conducting properties of the brake units.
